

BREVITIES.

A Fredericksburg deacon is on trial for threatening to "knock the nose off" the sexton.

The German army is officered exclusively by the aristocracy.

An Irish painter declares he has a representation of "Death as large as life."

The English government has refused to adopt any form of the mitrailleur for use in the British army.

The Prussian Crown Prince is keeping safe the marble bust of Napoleon I., and the great gold crucifix from the chapel of St. Cloud.

Fashionable colors for dresses are bottle green, olive green, maroon, plum color, garnet-brown and dark blue.

A newfoundland dog walked up to the pews at Eufaula, Alabama, with a Democratic ticket in his mouth.

Mr. Gladstone spoke 178 times during the last session of Parliament, and his speeches occupy 50 columns of the London Times.

It is stated that Schuyler Colfax will become editor of the Brooklyn Union when he retires from the Vice Presidency, at \$10,000 a year.

Patrick Early, of Cleveland, started for Tennessee with \$10,000 in his belt. He fell asleep on the train, and, when he awoke, belt and money were gone.

A Mr. Beardsley, of Huron was whipping one of his children the other day, when an elder brother of the boy interfered and fractured the father's skull with a club.

A baker named Metzger was lately intoxicated at Indianapolis, and while in that condition some wretch painted his face with a sort of black paint that soap will not wash off.

Ten immense buildings of Joliet stone are at present in course of construction on Rock Island, Illinois, for a Government arsenal, which is to supersede those of St. Louis and Springfield.

A correspondent states that while riding from Philadelphia to New York he accepted a cigar from a stranger, and discovered just in season to save himself, that it was drugged.

The Venango (Pa.) papers call for the suppression of an establishment in Franklin where young girls are in training for the "female minstrel" business.

"Cumulative voting" is coming in great favor in England with corporations, societies, and other private concerns who use the ballot to decide the conduct of portions of their business.

At last we have an honest murderer. Asa Kettle, the blind youth who killed his father and mother at Hoag's Corners, persistently declares that he is not crazy, and coolly gives it as his opinion that he will certainly be hanged.

Frederick Hudson has been recalled to the editorship of the New York Herald, which position he held for many years, all efforts to fill his place proving abortive. He enters upon his duties at once.

The Toledo, Wabash and Western Railroad is sued for \$40,000 damages because its trains do not stop at Jackson, Indiana, twenty minutes for refreshments, as was the understanding when the depot and the hotel were built.

O. B. Frothingham is credited with this utterance: "A refined age rejects the coarseness of the Bible. A knowing age rejects the ignorance of it. A moral age discards its immoralities. A spiritual age turns its raw statements into allegory, or turns away from them altogether."

A Kentucky negro has got up a world-wide reputation as a humorist by pounding a man with a fence-rail until he was senseless, and then robbing him of \$7.75, and placing the body on the railroad track. The kind-hearted engineer stopped the train after two of the man's legs had been cut off.

Wheat flour weighs one pound to a quart. Indian meal, one pound two ounces to a quart. Leaf sugar, broken, one pound to a quart. Brown sugar, powdered, one pound one ounce to a quart. Eggs, average size, ten to a pound.

An English Judge who had occasion some time since to examine some deeds of the time of Edward the IV., found that an inn, with the sign of "The Black Boy," then existed at Chelmsford, in Essex, England, and stood on the same site as an ancient inn of the same name now extant.

A correspondent of the London News writes that a translation of the "Captain with his whiskers" is very popular in the German armies, and adds that the "Captain with his whiskers" is merely a vulgarized version of an excellent ditty of the old French war, and that the melody is borrowed from the famous Bluebird song, "Was blauen die Trompeten, Huzaren heran."

A horrible crime occurred in the little village of Griesbecherzell, in Upper Bavaria. A young peasant and his wife were attacked at night in their house by a former lover of the wife. He tied them to their bed and then set fire to the house. The two victims were drawn from the flames only when the husband was dead and the wife was expiring. The poor woman disclosed the deed of horror in her last moments. A search was immediately instituted for the fiend, but he had fled into the mountains.

"Avery" writes this in the Cincinnati Commercial about Andy Johnson's tailor-shop, in Greenville: "The shop is just about as it was when Johnson worked in it. The bench that he wore smooth by crossing his legs over it is gone, the rebels having used it for kindling-wood, but the house remains, and is in good repair. Belle-hunters have carried off the weather-boarding that was formerly upon it up to the distance of four or five feet, but this has been replaced by new. The relie-hunters, however, still continue to haggle away at it, and its occupants say they would have carried off the whole building if not watched closely."

THE CELEBRATED COOKING STOVES!

SUPERIOR

For Wood.
They are really what their name indicates,
SUPERIOR to any other stove in the market,
and for
Economy, Durability, Convenience & Dispatch
Are Unequaled!

KANSAS, ALASKA
AND
IMPROVED AMERICAN

For Coal,

Which for Neatness of Design, Thoroughness of Construction, Capacity of Oven, Economy in the Use of Fuel and Uniformity of Operation, place them as the best Stoves in the market.

They have been constructed specially for the use of our Western Bituminous Coal (for which all stoves of Eastern manufacture are so ill adapted). Enlarged Flues insure a perfect draft; the plates that line the fire chamber are unusually heavy, and combine certain peculiarities in their construction which give these stoves superiority over all others in the consumption of its smoke, thus saving a large percentage of fuel.

Bridge, Beach & Co.,

ST. LOUIS.

Made the first Stoves ever made West of the Mississippi River.

THE DANFORTH PEOPLE'S VERDICT!

NON-EXPLOSIVE PETROLEUM FLUID!

THE terrible and fatal disasters, which are almost daily occurring by the careless use and explosions of kerosene oil, should call the serious attention of using it to its deadly qualities and induce them to procure a substitute for it.
Thousands have perished by using kerosene oil, and thousands more will be offered a sacrifice to its death-dealing properties without its use is discontinued or its destructive element done away. If a fluid capable of a far more brilliant light.

Cheaper, More Cleanly and Perfectly Free from the Danger of Explosion

can be found, is it not perfectly suicidal to delay for a single day to use it? Such a fluid, by years of patient experiment and the expenditure of over fifty thousand dollars, has been provided by H. F. DANFORTH, of Cleveland, Ohio, and it has been introduced to the public with great success.
For the Danforth Non-Explosive Petroleum Fluid it is claimed:
1st. That it is Non-Explosive and perfectly safe in whatever form used.
2d. That it is entirely free from filth and grease, and will not stain silks or fabrics of the most delicate colors or dyes.
3d. That it is entirely free from all disagreeable odor.
4th. That it gives a purer, more brilliant and at the same time a softer light than any oil or fluid in use, and is fully equal to gas light.
5th. That it is (except daylight) the cheapest light ever discovered.
Surely, if the fluid is as above represented, kerosene oil should be discarded in every family where it is used, and the Danforth Fluid used in its stead. Not to use it would be trifling with the lives and property of every member of the family.

The FLUID 75c. per gal.

The Fluid, Burners, Chimneys, etc., in large or small quantities, can be procured of

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

ARE

The Best in the World.

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense and is now incomparably the best Sewing Machine in existence.
It is simple, compact, durable, beautiful, quiet, light-running, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Running, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practical, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as Black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, from the operator, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss stitches. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not need to be oiled. Many other Machines drive their Shuttles, in a race, thus causing great wear, and requiring oil, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the

Oldest Practical Sewing Machine.

Being about twenty years in the market. Having been constantly improved by the employment of the most ingenious of the age and unlimited capital, it is now divested of all unnecessary parts and possesses all the very latest improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Unnecessary and Unprofitable Work. Some are rendered Liable to Constant Derangement, and the Singer Seldom or Never gives trouble, but is ready and easily managed by those who utterly fail on other Machines.

SINGER'S

New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable to all kinds of heavy and light manufacturing in Cocks, Laces, etc., and run in the most perfect and reliable manner without trouble to the operator.

Without any previous advertisement, the Demand for the Singer Machine is so Great that we have been unable to retain even one Machine to exhibit. All sold, but a large number are now on the way from New York, and WILL ARRIVE IN A FEW DAYS.
