

CABINET MEETING PROCEEDINGS.

Henceforth No Information Will Be Given Out by Members Present.

SECY. LOEB WILL CONTROL IT.

He Will Give Out What is Deemed Proper for the Public, and Nothing More.

Washington, Oct. 6.—Several important questions were discussed at today's cabinet meeting, although at the conclusion of the session it was announced officially that no details of the discussion could be made public. In fact, it was announced that hereafter no information would be given out by cabinet officers of their semi-weekly meetings with the president, but that much information as it was deemed proper for the public to have would be given to the newspaper men by Secy. Loeb.

Despite the injunction of secrecy, it is learned that action was taken on two or three important matters and that others were considered. The monopoly enjoyed by the Merchants' Bridge company of St. Louis of bridge and ferry routes across the Mississippi river was considered at length. The attorney general made the following statement of the action taken: "It was determined by the president that upon the complaint pending in the department of justice against the monopolization of the two bridges and the ferry across the Mississippi into St. Louis, appropriate action should be begun by the attorney general."

Mr. Moody said he could not say at this time what action he might consider "appropriate." He did not know, he said, whether the action would look to the forfeiture of the charter of the Merchants' Bridge company or not, as he would have to go over the law bearing upon the matter before reaching any determination.

Considerable attention was devoted by the meeting to consideration of questions arising from complaints of the Chinese government that its subjects were unjustly discriminated against by the United States at the ports of this country. Secys. Root, Taft and McCall have given much time to this question, and with the president they participated in the discussion.

After the discussion in the cabinet regarding Chinese immigration to this country, it was determined that no changes or modifications in conduct with instructions to United States consuls contained in the circular issued several months ago by the president's direction will be made.

It was definitely decided that the management of the isthmian canal should remain under the control of the president and cabinet. Secy. Wilson brought to the attention of the president and cabinet a determination he had reached regarding the inspection of meats. He indicated that under the law meat packers could not be forced to pay the cost of meat inspection. He had decided, however, that hereafter the packers should pay for the seals or tags placed upon inspected meats intended for export. This will bring a revenue to the department of agriculture of nearly \$50,000 a year. This sum the secretary proposes to expend in extending the inspection of meats to packing houses which have requested that they be given inspectors, but whose requests have not been complied with because the department had not had the funds with which to pay the inspectors. The idea of Secy. Wilson was approved by the cabinet and it will be put into operation at once.

RUSSIAN PRISONERS.

They Will Go Home Via the Siberian Railway.

St. Petersburg, Oct. 6.—The government has decided to transport the Russian prisoners in Japan to Vladivostok, and thence, by way of the Siberian railroad, to Russia.

D. J. Kelliher Accused of Fraudulently Securing 100,000 Acres.

Salem, Or., Oct. 6.—In an open letter, Gov. Chamberlain accuses D. J. Kelliher, a land operator, of securing by fraudulent means over 100,000 acres of state lands. Gov. Chamberlain says regarding Kelliher's operations: "One thing is certain, that up to this

time more than 100,000 acres of land have been turned into his hands where the applications were apparently either forged or in the names of fictitious persons, and how much more there is remains yet to be seen."

Gov. Chamberlain's letter was written to refute charges made against various state officials by Kelliher in a series of pamphlets which have been given wide circulation.

Kelliher has been asked to appear before the state board on next Tuesday to make any statement he may desire in reference to his land transactions.

Foss Criticizes Lodge.

Boston, Oct. 6.—Eugene N. Foss, a leader of the resolutely wing of the state Republican party, tonight issued a statement to the press in which he severely criticized the speech of Senator Henry Cabot Lodge at today's Republican state convention. In his statement Mr. Foss charged the speech as a "direct insult to a majority of the Republican voters in the state."

He declared that the speech of Senator Lodge would cost Curtis Guild, Jr., the nominee for governor, thousands of votes.

Internal Revenue Increased.

Washington, Oct. 6.—The monthly statement issued by the commissioner of internal revenue shows that the total collections of internal revenue for the month of August, 1905, were \$19,936,072, which is an increase as compared with August, 1904, of \$602,750. For the months of July and August there was a net increase of \$1,188,242.

Aug. Belmont Operated On.

New York, Oct. 6.—It was stated tonight that the condition of August Belmont, who was operated on yesterday for appendicitis, was unchanged and that his recovery will be rapid.

Supplies Must be Up to Samples.

Washington, Oct. 6.—As an outcome of the discovery of the Schuykill arsenal frauds Secy. Taft today issued a sweeping order to insure that government supplies shall be kept up to sample; that irresponsible bidders shall be excluded from competition and that honest and competent inspection shall be made at every stage in the process of manufacture of goods furnished the government.

TRADE CONDITIONS ARE SPLENDID.

Favorable Reports Continue to Come in and There is No Anxiety Regarding Future.

GREAT PREPARATIONS FOR FALL

Nothing but Superlatives Can Describe Real Estate Transactions, Bank Exchanges, Ry. Earnings, etc.

New York, Oct. 6.—Dun's Weekly Review of Trade tomorrow will say:

Favorable trade reports still predominate and there is no anxiety regarding the future. Higher temperature checked retail distribution of heavy wearing apparel and other seasonal merchandise, but preparations for unprecedented fall and winter trade continue without diminution.

Superlatives are needed in commenting on real estate transactions, building permits, bank exchanges and railway earnings, and failure statistics for the third quarter show a very low death rate. Quarterly records back to 1875 disclose no three months period when the ratio of liabilities to solvent payments through the clearing house was evened through the clearing house was lower than the 61 cents to \$1.00 just recorded, while the average loss to each firm in business of 1905 was less than in any year except 1881.

Latest reports of railway earnings in September show a small gain of 7 per cent over last year's figures and foreign commerce at this point provided an increase of \$2,175,260 in imports, and a gain of \$22,591 in exports as compared with the same week of 1904. Strength prevails in the hide market despite increased receipts of cattle and some deterioration, owing to the longer hair that is a seasonal factor at northern points.

Commercial failures this week in the United States are 125 against 240 last week, 206 the preceding week and 222 the corresponding week last year.

Failures in Canada number 22, against 21 last week, 34 the preceding week and 25 last year.

CONTROL OF PANAMA CANAL TO REMAIN IN WAR DEPT

Washington, Oct. 6.—The management of the isthmian canal affairs will remain under Secy. Taft, who will go to Panama in November to investigate the situation there and thoroughly inform himself of the conditions in the canal zone. The decision to keep the control of the canal in the war department instead of transferring it to the state department was definitely decided today in a discussion that followed the cabinet meeting. Now that the work is in progress under his direction, Secy. Taft will proceed to Panama, go over the situation in detail and return to Washington about the time Congress convenes. The second part of the canal in the war department had conflicting reports regarding the progress of the work, the sanitation, the facilities for the officials and laborers and he desires to have personal knowledge which will enable him to decide what should be done and what recommendations shall be made to Congress.

Early next week the secretary will take up the subject of finances and decide as to what recommendations should be made to Congress respecting the issue of bonds which have been provided for by Congress. Secy. Taft will give every feature of the canal administration his careful personal attention.

CONSULTING ENGINEERS EXAMINED PROPOSED DAM SITE

Colon, Oct. 6.—The members of the advisory board of consulting engineers of the Panama returned to Colon at 6 p. m. yesterday after having carried out yesterday's program in its entirety except that they were unable to come down the canal to Colon, being prevented by heavy rains. All the party got wet although well equipped for the journey. The trip from Gatun to Colon by the canal has been postponed until a later date. At Bohio the party examined the proposed site for the dam. The trip to the proposed dam site was made by a train from Colon after exploring the Gatun region and Minto hills. The entire party with the exception of Chairman Shonts of the canal commission, who is still at Panama, started this morning for Gerona, going as far as Cascades. Today's program included a study of the site of the proposed dam at Gamboa and other engineering features beyond the district examined yesterday. Senator Joseph H. Millard and several other guests of the commission accompanied the party, and H. F. Dose and J. H. Nichols, the engineers who for several months have been in direct charge of the region explored yesterday, accompanied the visiting party daily.

No expressions as to the merits or demerits of the dam sites have yet been made by the visitors.

Requisition for Crowe Honored.

Helena, Mont., Oct. 6.—Gov. Toole today honored the requisition of Gov. Minkey of Nebraska for Pat Crowe, in jail in Butte. The specific charge is robbery. Henry Heitfeld is named as agent, and he will go to Butte tonight after Crowe.

Child Found Murdered.

Midletown, N. Y., Oct. 6.—Alice Ingelick, nine years old, was found murdered in the cellar of a farm house near here tonight. Her mother, Mrs. George Ingelick, was later discovered in a barn on the same farm suffering from severe wounds about the head, and probably fatally hurt. The woman sent home for Maria and Fred Olney, two aged brothers. No trace of the brothers can be found and some are of the opinion that they also have been murdered and that their bodies will soon be discovered. A bloodstained iron pipe, with which the crime was probably committed, was found in the kitchen.

Gates Fluted the Officers.

Portland, Oct. 6.—A special to the Oregonian from Seattle, Wash., says: "Swifwater Bill" Gates leaped ashore from the Nome steamer Ohio before the boat tied up at her dock and flouted two deputy sheriffs, eight uniformed policemen and a squad of detectives who had been sent to the dock to arrest

BEWARE OF "FAKE MEDICAL COMPANIES."

Drs. Shores in their many years of practice in Salt Lake City, have never resorted to abuse of any honest physician---but, on the contrary, Drs. Shores have always welcomed HONEST competition; but when TRAMP DOCTORS and ITINERANT FAKERS, hiding under the cloak of a "fake medical company," seek to trap the unwary, Drs. Shores feel it a duty to call attention to such frauds. EVERY DOCTOR ENTITLED TO PRACTICE MEDICINE IN UTAH HAS HIS NAME AND CREDENTIALS ON RECORD IN THE COUNTY RECORDER'S OFFICE. If you intend to consult a doctor, FIRST EXAMINE THE RECORDS AND SEE THAT HIS NAME IS THERE. It is an old-time trick to advertise a "fake medical company" and parade one doctor as possessing great skill (who is either a non-resident of the state or is dead and buried), and then palm off some unscrupulous quack on the sick when they come to consult the doctor advertised. DID YOU EVER HEAR OF A GENUINE REPUTABLE PHYSICIAN DOING BUSINESS WITH THE SICK AS A "FAKE COMPANY"? The "COMPANY" furnishes the cloak under which ANY QUACK can practice. If you go to see a doctor, be sure to SEE HIM IN PERSON, and don't be satisfied with someone who "REPRESENTS THE DOCTOR" on a salary of \$50 per month.

Compare the picture of the doctor advertised with the face of the man who consults you---then ask him who he is. Drs. Shores conduct their business under their OWN NAMES. If you consult Drs. Shores & Shores, you see the DOCTORS PERSONALLY. If you consult other doctors, BE SURE YOU SEE THE DOCTOR HIMSELF.

What "Weakness" Is and How We Cure It.

So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is, therefore, a question of restoring the prostate gland to normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is original and scientific, and has been proven absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.

VARICOCELE

Absolutely painless treatment that cures completely. Investigate our method. It is the only thoroughly scientific treatment for this disease being employed.

Spermatorrhea, Stricture, Piles, Skin and Kidney Disease, Lost Strength, Hydrocele, Organic Weakness, etc., are also among the diseases we cure to stay cured.

FAMOUS MONUMENT TO HUMAN CREDULITY.

The curious structure herewith illustrated has stood for twenty years as an unfinished monument to man's credulity in matters of religious belief. It stands in the part of London known as Chatham Hill and was constructed by a strange sect known as Jergellites. This sect was founded by an ex-soldier who purchased his discharge and a week afterwards announced himself the head of the "New and Latter House of Israel." He found many adherents and in time secured an income of \$250,000 per annum from his deluded followers. He announced that he would never die and began the building of the structure shown in the picture, which he termed a refuge for the faithful during the second flood, which he predicted. He died suddenly, and the sect went to pieces. Now the building is to be torn down and replaced by a business structure.

A GREEK ORTHODOX CATHEDRAL MADE OF JUNK.

The peculiar structure shown in the picture is the cathedral of Archbishop Serafim at Winnipeg. That prelate built it with his own hands, unaided by any workman of any kind. Realizing that an archbishop without a cathedral was like a ship without a rudder, Serafim collected a mass of junk of all sorts and proceeded to fashion one of the most wonderfully constructed buildings ever seen in any civilized country. The sides and ends are of notations timber, and is put together with scrap iron. The roof is of tin most laboriously patched together. There is even a chime of rusty bells over the door, and there is some attempt at ornamentation. The irreverent and mischievous boys of Winnipeg have pulled it down once or twice, but the good Serafim has restored it. Serafim's flock is scattered and very poor, consisting for the most part of Russian peasants who have settled in the northwest and a few Orthodox families that have come down from the north.
