

to which Charles Sumner submitted for the cure of the same disease. Its main feature is the burning of the flesh of the back from the neck down to the waist with hot irons."

Concerning the actual operation in this lady's case the same paper says—

"The operation was performed in Paris, in the presence of Mrs. Worthington, Donn Platt's sister-in-law, who has been traveling with her; Mrs. Cleveland, her daughter; Miss Gabrielle Greeley, and Sir William Belmore the attendant physician. Her medical attendants wished her to take chloroform, but she refused and heroically bore the frightful agony until the cruel process had been repeated four times. Then the pain and smell of her own burning flesh became too much for her. Nature, even her brave nature, could stand no more, and she fainted dead away; nor were they certain for a long time whether consciousness could be restored, or that the vital spark had not been tortured out of its socket. It was impossible therefore to complete the operation, which requires that the process of burning be repeated six times, but whether it will be repeated when the patient gains strength is not certainly known."

Local and Other Matters.

FROM TUESDAY'S DAILY, SEP. 21.

Indisposed.—We regret to learn that Bishop E. Hunter is in rather poor health just now.

Personal.—Miss Mary Custis Lee, daughter of the late Gen. Robert E. Lee, was in the city yesterday.

Bishop A. O. Smoot of Provo, is in town.

Col. W. H. Dame.—We are informed that deputy U. S. Marshal Stokes intended to start from Beaver yesterday, with Col. W. H. Dame in his custody.

Home Tobacco.—The tobacco plant flourishes in the soil of Utah. This morning we saw a fine specimen from the garden of President Brigham Young. It was at least five feet high.

A Hornets' Nest.—This morning we were shown a genuine specimen of a hornets' nest, brought from Big Cottonwood Cañon, by Brother Maurice B. Young. It is composed of a sort of papery substance. The insects were killed by means of sulphur smoking. The nest is now in the Museum.

Home Again.—Mr. James A. Thompson, of the Margetts dramatic troupe, called in to-day, bright and smiling. He stated that the troupe returned from their northern trip on Sunday evening, after a very pleasant and successful professional visit to the principal cities in the north part of this valley and in Cache Valley.

Theological Class.—Last evening, in the Second Ward, a Sunday School Teachers' Theological Class was organized, with the following officers—

President, William L. Ball; First Vice-President, William Hart; Second Vice-President, George Reese; Secretary, James T. Wilson. The object of the association is to promote the Sabbath school interest in that ward.

The Charivari Nuisance.—A large herd of boys made last night hideous with whoops and yells and the beating of tin cans, in the 11th Ward, in front of and around a house where a marriage party was being held. Every one of these youngsters showed they were greatly in need of a sound spanking or something else that would teach them to deport themselves somewhat less like barbarians. The charivari custom is an unmitigated nuisance, that should not be tolerated in any community; nay more, it is an outrage.

An Indefensible Outrage.—We refer to the lynching of the Indian who killed Toland, in Eastern Nevada. The gang of white ruffians who took him from the authorities and murdered him, are precisely the kind who bring Indian wars upon the country by their mingled brutality and cowardice. There was not the least justification for this lynching. It was a wanton defiance of law and order, and what significance it has is to teach the Indians that though there may be laws for white men, there are to be

none for them. And who is this "Lieutenant" Jaeger, who permits a prisoner to be taken from him by a mob? By his title we suppose him to be a militia officer, but he certainly ought to have known his duty better than to have surrendered the victim upon such a demand. It would have been much better for the cause of law and order if he had killed about half a dozen of the rabble of murderers.—Sacramento Record-Union, Sept. 18.

Will Teach the Spanish Language.—Mr. G. Trejo, of this City, is desirous, on the first of October, to commence the formation of classes for the study of the Spanish language. The classes will be held in the different Wards if desired, and at such places therein as may be decided to be most convenient by a majority of the members. No class will be commenced with less

than ten pupils, and no more than twenty will be admitted to any one class. The terms will be twenty-five cents per lesson to each person, and the text book used will be the volume devoted to Spanish in the Prendergrast's "Mastery Series," that work imparting a correct knowledge of the Spanish language without troubling the pupil to learn a single rule in grammar. It can be purchased at the DESERET NEWS Office.

Mr. Trejo is an educated Spaniard, with a sufficient knowledge of English to impart instructions to pupils speaking that language, and the opportunity now presented to learn the Castilian tongue, one of the most perfect and beautiful in the world, is the best that has ever been presented in this City. Parties desirous of joining these classes should forthwith make known their intention of doing so in a note addressed to Mr. G. Trejo, DESERET NEWS Office.
