

MINING, BUSINESS AND STOCKS

MANY LOCATIONS
MADE AT GOLDFIELD

Claims Have Been Staked Off For
A Distance of Twenty Miles
From the Camp.

THUS WRITES ERNEST J. WAUGH

Formerly of This City, But Who Now
Seeks Fortune in the Sage Brush
State of Nevada.

E. J. Waugh, until very recently
chief clerk in the offices of Broker Wil-
liam H. Tibbals, has cast his lot in the
new camp of Goldfield in Nevada,
where he is in hopes of making his
"stake."

A letter to his former employer an-
nounced his safe arrival at Tonopah
and that he would proceed on one of the
early stages for the district attracting
such widespread attention at the pres-
ent time. Mr. Waugh stated that ar-
rivals from Goldfield had informed him
that the country had been staked off
for a distance of 20 miles from the
camp.

In Tonopah he ran across Roy and
Frank Hodge and says they are getting
along nicely with their mining ventures
and that the Tonopah-Eastern, in which
a number of Salt Lakeites are inter-
ested, is favorably spoken of in the
camp.

LIGHT DAY ON 'CHANGE.

Condition of Market About the Same as
Yesterday—Closing Quotations.

The transactions of the forenoon on
the Salt Lake Stock and Mining Ex-
change this forenoon aggregated \$2,555
shares, of the value of \$2,448.50.
The market, compared to yesterday,
was practically unchanged. Daily
West opened slightly lower, closing
with a bid of \$34. A 2,000 share lot of
Eagle and Blue Bell was offered and
purchased at 50 cents. New York Bo-
manza strengthened slightly. On the
open board Sacramento found buyers
at 22 cents.
The closing quotations and sales were
as follows:

TOWNSITES GALORE.
Real Estate Men Reaping a Harvest in
New Camp of Goldfield.

The real estate men in the new camp
of Goldfield, Nevada, are "making hay
while the sun shines." Several new
townsites have been sprung into ex-
istence. One of them is called Dia-
mondfield in honor of "Diamondfield
Jack" Davis, who was one of the first
in that section. It is claimed that this
town has the advantages over the
others of being centrally located, Goldfield,
the original townsite, is now the met-
ropolis and every effort is being made
to have it continue to be the main
town. Another town has been named
Stimber in honor of Harry Stimber,
also a pioneer of the new region.

BLACKBIRD DIRECTORS.
Left Last Night on a Tour of Inspection
Of Beaver Property.

Several of the directors of the Black-
bird Copper company departed for the
south last evening for the purpose of
conducting a thorough examination of
the properties of the corporation in
Copper Gulch, just below the great
Cactus mine. The party consists of
J. E. DuBois, Charles J. North and
L. A. Amoson, who expect to spend sev-
eral days at the mine. The directors
will hold a meeting again next Tuesday
when the plans for the future will be
fully outlined.

AT BUTLER-LIBERAL.

Compressor Buildings Nearing Comple-
tion—Machinery Shipped Today.
Manager J. A. Jacobs returned last
evening from a trip to the Butler-Lib-
eral mine at Bingham, where he found
progressing very satisfactorily with
the construction of the new com-
pressor buildings. The machinery was
shipped out to the mine today and the

buildings will be completed by the time
it reaches the destination.
Manager Jacobs anticipates that the
entire plant will be complete and ready
to start up in about two weeks.

CONCENTRATES.

Silver is quoted lower again today.
Operations will be resumed at the
Summit Placer properties in about a
month.

It is reported that work will be re-
sumed at the Silver King Consolidated at
Park City tomorrow.

Peter Porter, manager of the Key-
stone mine at Eureka, Nev., has gone
to that property on a trip of inspection.
Brother H. B. Cole departed for the
east yesterday in response to a message
telling him of the serious illness of his
mother.

President James A. Pollock of the
Salt Lake Stock & Mining Exchange,
departed for Boston today noon on a
business trip.

Fred J. Seibert, general superinten-
dent of the Tonopah Mining company's
mines, reached the city yesterday. He
is en route to Philadelphia.

The ore and bullion settlements re-
ported last yesterday were as follows:
Crude ores and concentrates, \$14,400;
base bullion, \$21,000. Total, \$35,400.

Advices from Boise indicate that the
Madbury district is still in the hands
of the government, that experts who visited
the scene came away not very enthusias-
tic.

James Long, Jr., of Kimberly, arrived
yesterday from a trip to New York,
where he went, it is claimed, in con-
nection with the pending Annie Laurie
deal.

George Gunn, the "ore finder" of the
American Smelting & Refining com-
pany has arrived in California on his
trip along the line of the Salt
Lake Route.

Settlements were made yesterday af-
ternoon for 13 lots of ore from the Utah
mine at Fish Springs, the controls
showing 56 per cent lead and 152 ounces
silver.

N. J. Catrow, J. C. Corns and J. H.
Friend, directors and the heaviest
stockholders in the Ohio Copper com-
pany's mines at Bingham, are sched-
uled to arrive from the east next Sunday.

Sample received from the Silver Bell
mine at Park City were assayed yester-
day. The sample from the face of a
drift in the fissure opened on the level,
and the results obtained were 21.6
per cent copper, 13.5 ounces silver to the
ton.

Manager H. C. Hanson of the Ama-
zon Mining company, who makes his
headquarters at Logan, has gone to
San Francisco on business in the in-
terests of that corporation. The Ama-
zon mines are located about 35 miles from
Logan.

In April next General Manager Wil-
liam Alexander will arrive from Indiana
to take personal charge of development
work at the Black Diamond mine at
Stockton. In the meantime Joe Deder-
ich will keep things moving along vig-
orously.

Manager Butler of the ozokerite
mines of the Summit Placer company,
at Soldier Summit, has arrived in New
York from Mexico where he has exten-
sive mining interests. Mr. Butler is
expected to reach Salt Lake in about
two weeks.

The Western Mineral News is the
name of a new publication launched at
Modena, in Iron county. The initial
number contains a comprehensive
write-up of the camps in southern
Utah and Nevada. The paper will be
issued weekly.

A cable message from Peru to Vivian
McCune yesterday conveyed the in-
formation that A. W. McCune, Jr., has
been attacked by the fever charac-
teristic of that country and that he is
quite seriously ill, however, not dan-
gerously so.

Advices received from Richfield yester-
day conveyed the information that a
contract has been awarded to Andrew
Butler-Liberal to run a 3,000-foot tunnel on the
Log Cabin property of the Gold De-
velopment company. This will make
the fourth long tunnel.

Manager Whitley of the American
Smelting & Refining company states
that the local selling price of lead will
remain as at present for an indefinite
period, \$5.50 per 100 pounds. Mr. Whitley
declares he has not been informed of
any probable raise a few weeks later.

The local forces of the Utah Copper
company were disappointed yesterday
in the failure of the party of officials
to reach here yesterday afternoon as
scheduled. A message received late in
the day conveyed the information that
on account of an unavoidable delay
the visitors would not reach here until
Saturday.

The Tonopah Miner says of the Hal-
fax mine in which Senator Kearna and
other Salt Lakeites are interested:
Work was begun Wednesday on the
big tank on the 600 level and the pump
will be put in place within a few days
and it is expected that the work of
sinking the shaft will be resumed by
the first of April. The shaft, which is
now 600 feet deep, will be continued to
the 800-foot point before crosscutting.

Managing Director A. F. Holden of
the United States Mining company
made his appearance at the local offices
of that company yesterday to note the
progress being made towards the com-
pletion of the new lead smelter. The
excavations are completed and the con-
crete work will now be undertaken. A
greater part of the contracts have been
let for the incorporation and machinery. The
plant will be built to contain six stacks,
three of which will be installed at once.

The Baker company opal mines are now
ready for operation. The lot has been
consummated, two men are already on
the ground and in a few days several
more will be placed at work and ma-
chinery for mining and polishing the
opals will be placed in order. The
mines are situated just four miles
northeast from the town of Durkee in
this county, and a company has been
organized to mine that section with a
capital stock of \$50,000—Baker City
Herald.

The stockholders of the Ontario Con-
solidated are mixed up in a wrangle. At
the meeting held a few days ago Presi-
dent Lucy with power to vote a ma-
jority of the issued stock encountered
a stubborn minority, the latter contend-
ing that the call for the meeting was
illegal. Mr. Lucy decided to withdraw
and leave the case in the hands of at-
torneys. He declares he will see to it
that the next meeting is legally called,
and that the majority will rule.

PROMISING CAMP
NEAR SEARCHLIGHT

Rich Strikes Have Been Reported
In a New Southern Nevada
Mining District.

TONOPAH MEN INTERESTED.

Discoveries Made a Mile South of
Mt. Duncan—Railway Facilities
Will Be Had.

The new mining camp established
about 12 miles north of Searchlight,
Nev., is attracting considerable atten-
tion. Notwithstanding the excitement
occasioned by the sensational discov-
eries at Goldfield a number of Tonopah
mining men have gone in there
and secured a foothold.

What appears to be an important find
in the new camp near Searchlight was
made a few days ago by George Dun-
can and the Searchlight says that if
the ore proves to go down it will be a
world beater.

The new strike is situated about one
mile south of Mount Duncan on which
the Peak-a-Boo crops. The ledge is
easily traceable for over a thousand
feet. Its width will not be known until
the tunnel which is now being run is
completed. The vein lies between gran-
ite and the ledge has been granit-
ized. The ledge lies between gran-
ite and the ledge has been granit-
ized. The ledge lies between gran-
ite and the ledge has been granit-
ized.

A number of samples taken within
two feet of the surface gave extra-
ordinary values. One sample was as-
sayed and the result was 100 per cent
lead and 100 ounces silver to the ton.
The O. K. is the name of the new
discovery, which is owned by W. J.
Sinclear, George Duncan, Howard Per-
kins and E. W. Thurman. The west
extension has been taken up by L. O.
Hill, and on the east W. J. Sinclear
and H. A. Perkins have made a loca-
tion. Other locations have been made
by W. L. Colton and Light Wheatley.
The new Searchlight camp will have
good railroad facilities upon the com-
pletion of the Salt Lake Route to Los
Angeles.

CAMP OF TUSCON.
A. W. Tibbals Says the Arizona Camp Is
Now Prosperous.

A. W. Tibbals, brother of W. H. Tib-
bals of this city, arrived last evening
from Tucson, Ariz., and will leave for
Goldfield, Nev., tomorrow, where he
will accept the management of the
Goldfield-Vindicator Mining company.
Speaking of the mining regions
around Tucson Mr. Tibbals states con-
ditions there are very good at the
present time. During the past two or
three years this old district has re-
vived wonderfully and the town con-
tains a population of anywhere from
10,000 to 15,000, where only a few years
ago it was a deserted place.
The adoption of modern methods and
the introduction of new talent has been
the means of bringing life into the dis-
trict.

UTAH COPPER PLANT.
Machinery of Big Concentrator at Bing-
ham in Operation Today.

The machinery of the new 500-ton
concentrator of the Utah Copper com-
pany is in operation today and being
timbered up and otherwise put in order.
Manager Jackling and Supt. Janney
are on the ground today. A start will
be made on ore probably on next Sat-
urday.

Complied With State Laws.
A copy of the articles of incorpora-
tion of the Nevada Park Mining com-
pany of Provo was filed in the secre-
tary of state's office today. Its capital
stock is \$500,000, divided into shares
of the par value of \$1 each. Jesse Knight
is president; Lafayette Holbrook, vice
president; R. E. Allen, secretary and
treasurer. The company owns some
claims in the Silver Park district, Lin-
coln county, Nev.

Elmore County Mines.

"I believe the greatest gold mines of
southern Idaho are going to be de-
veloped in Elmore county." So spoke E.
W. Johnson the other evening to a re-
spective native of that county. Mr. John-
son, who is a resident of Boise, Statesman,
Continuing, he said all indications
pointed to such a record being made.
Recent developments had been of great
importance and there was every reason
to believe that others to come would be
more so. The districts of that county
showed wonderful surface indications.
There were many ledges and the ores
were very frequently of high grade.
Exploration had generally been super-
ficial, but operations were taking on
greater activity, and it seemed alto-
gether probable that many of the old
mines would be opened up and many
of the undeveloped ledges worked.

LOCAL MARKETS.

In the retail markets today, butter
has stiffened to 25 cents flat; eggs are
tending downward, and today are 20
cents flat. Eastern geese are still in the
market, but scarce at 20 cents. Cauli-
flower is cheapening, oranges are stead-
ily declining in price as the season
progresses. Utah apples are going up;
green beans are down 2 1/2 cents; rhu-
barb is becoming cheaper, and as mild,
or weaker comes, garden truck will be
lower and lower. The following retail
prices in the retail markets are obtain-
ing today:

FARM PRODUCTS.
Wheat, per bushel 1.60 || Corn, per 100 pounds | 1.50 |
Corn, cracked, per 100 pounds	1.50
Montana oats, per 100 pounds	1.70
Idaho oats, per 100 pounds	1.80

WHOLESALE.

The wholesale markets are stiff, and
promise to become stiffer on account. It
is claimed, of the oriental difficulties.
Pork is on the rise; so is poultry, and
dairy products are threatening to rise
higher. The following prices are ob-
taining today in the local wholesale
markets:

FARM PRODUCTS.
Alfalfa, per ton, baled \$11.50 || Timothy, per ton, baled | 14.50 |
Wheat, per bushel	90
Corn, per 100 pounds	130
Corn, cracked, per 100 pounds	135
Montana oats, per 100 pounds	150
Idaho oats, per 100 pounds	145
Barley, rolled, per 100 pounds	130
Flour, family, per 100 pounds	210
Flour, straight grade, 100 pounds	220
Flour, high patent, per 100 pounds	240
Bran and shorts	110
Straight shorts	120

MEAT AND POULTRY.

Dressed beef, per pound 12 1/2 to 13c || Dressed pork, per pound | 13 1/2c |
Dressed mutton, per pound	12 1/2c
Dressed lamb, per pound	13 1/2c
Lard	15 1/2c
Dressed hens, per pound	14 to 15c
Dressed springs, per pound	15 to 16c
Dressed ducks, per pound	17c
Turkeys, per pound	22c

DAIRY PRODUCTS.

Butter, per pound 21c || Cheese, per pound | 11 1/2 to 12 1/2c |
| Eggs, per case | 37.50 |
| Eastern fancy cheese | 14 1/2c |

LARGE ORDERS IN
WESTERN GROUP.

Depression in Foreign Markets
Was Not Reflected at All
In New York.

STOCKS MADE FAIR ADVANCES.

There Was a Slight Pause, Then Prin-
cipal Trunk Lines Went
Ahead.

New York, Feb. 25.—The opening stock
market ignored the depression still exist-
ing in foreign markets this morning and
advanced a fraction all around. Large or-
ders were executed later in the western
group. Gains in the standard railroad
stocks reached a point for St. Paul,
Southern Pacific and New York Central,
and nearly as much in Atchafalpa, Union
Pacific and Pennsylvania. Amalgamated
Copper, Brooklyn Transit and General
Electric rose 1/2. Consolidated Gas lost 1/2.
