DODGE-MORSE CASE.

Atty. Jerome Makes a Move to Uncover the Conspiracy.

New York, Dec. 28 .- The first official nove by Dist, Atty, Jerome to un-cover the conspiracy and lawlessness which he believes ite back of the long legal fight in the Dodge-Morse case, was made today when he swore out an attachment for Edward J. Bracken, a detective. Bracken, it is alleged, was with Dodge in New Orieans and ac-companied him to Texas. At the time the divorce of Mrs Clemence Dodge was first questioned by her former husband, who alleged that he had never been properly served with papers in the proceeding, the legality of Mrs. Dodge's marriage to Charles W. Morse was placed in question by the courts, and the tangle that resulted has never been straightened out.

The prominence of Morse in the busi-ness world and his great wealth brought the case into unusual attention and public interest has been increased recently by the reports that Dodge had made a confession to the district attorney implicating other persons in a conspiracy to keep him away from this state, where he was wanted to answer to a charge that he had committed perjury in swearing that he was not properly served with divorce papers. Proceedings against prominent lawyers before the law association have been reported to be part of the district attorney's program.

The great mystery of the affair has been the fact that Dodge, himself a poor man, was plentifully supplied with money while he fought extradition from Texas Bracken, it is alleged, was with him much of the time, and is belleved to know where the funds came

At the same time that the attach-ment for Bracken was issued it was given out that Judge Cowing was sit-ting in the court of general sessions, although all other courts were closed. and that he was on the bench in order

WAITING FOR SPRING. No Decisive Movement Expected

In Far East Till Then. Huanshan, Dec. 28 .- Everything con-

tile armies. There is little expectation of a decisive movement till spring, when it will be possible for both side to throw in strong reinforcements and recommence the campaign in earnest. In the meantime the chief Japanese uneasiness sents to be with regard to their communications eastward. They have an unusually full equipment of narrow-gauge field railways, one of which connects Gen. Kurokl's base at which connects ten, Kuroki's base at Shahedzi with Feng Wang Cheng, with a branch to Siamatsza. A supple-mentary line is being constructed con-necting Liao Yang with Haicheng. There is an important line of ware-houses along the Yalu river, and many bridges have recently been construct-ed with a core property in fold constructbridges have recently been construct-ed with a care unusual in field opera-tions. This elaborate system has been seriously threatened by Gen. Rennen-kampff's raids southeastward. There are many evidences that the Japanese are strengthening and forti-fying their line of communication to-ward Korea, which necessarily will ab-sorb a considerable force.
