COMPERS ON THE NEW DISEASE

Says That One, Which He Terms Tradesunionphobia, Had Developed Among Business Men.

Denver, Colo., April 19, -The second day's session of the executive council of the American Federation of Labor was devoted almost entirely to the consideration of disputes between affiliated organizations over questions of jurisdiction.

F. J. McNulty and Edward N. Knockles, president of the Frotherhood of Electrical Workers, entered a protest against the Amalganiated Assoclation of Street and Electric Railway Employes on account of invasion of the latter upon the jurisdiction of the electrical workers. It was doubled that President Gompers should communicate with President W. D. Mahon of the Street Railway Employee, requesting him to issue a notice to local unions to refrain from invading the jurisdiction of the electrical workers. Secy. Robert McKee of Peorla, repre-

seety, Robert McRee of Feona, topic senting the International Union of Steam Engineers; William J. Spencer of Chicago, representing the United Association of Plumbers, Gas Fitters and Steam Fitters, and F. J. McNulty, of the Brotherhood of Electrical Work-constructed a rotation the Elecers entered a protest against the Ele-vator Constructors' International union alleging violation of the conditions under which charter was issued to the latter organization. No action was taken on the protest. President Taylor of the Glove Work-

ers' International union made a state-ment to the council regarding the con-dition of the 4,000 locked-out glove workers in Fulton county, N. Y., The matter was discussed.

Upon the suggestion of Roady Kennehan of Denver, secretary-treasurer of the International Union of Journeymen Horse Shoers, Max Mor-ris, vice president of the Amer-ican Federation of Labor, was authorized to attend the twenty-seventh annual convention of the International union to be held at Omaha the coming June. Upon Mr. Kenne-han's request the council decided to Kenne contribute one-half of the expenses for an organizer for the International Union of Horse Shoers for the remainder of the present year. The members of the council attended

a mass meeting tonight, at which the principal speakers were President Gempers of the American Federation of Labor and President Mitchell of the United Mine Workers of America.

Mr, Mitchell devoted his entire speech

He maintained that a working man had a right to strike whenmistreating him, and that while he re gretted the necessity for strikes, labor unions would continue to wield this capon for their defense. He discussed the eight-hour move ent and said that the fight for this chievement had only just begun throughout the country.

TOO MUCH MILITARY.

Great Fuss Made Over Taking Moyer to Denver.

Telluride, Colo., April 19 .-- Adjt.-Gen. Sherman M. Bell arrived tonight. The general and Capt. Wells, who is now in command of the military here, refuse to say whether President Moyer of the Western Federation of Miners, coned in the bull peu here, will be taken to Denver on Thursday in answer to the writ of habeas corpus issued by the supreme court.

From precautions taken it seems certain that Moyer will start for Denver tomorrow under guard of an escort of soldiders. The air is full of rumors tonight. One is that an atteampt will be made to rescue Moyer from the hand of the military by his union friends when the train arrives at Ridgeway. Another is that Moyer is suffering from an attack of smallpox which developed since his incarnation in the bull pen Outposts are stationed along the main road leading into this city half way to Ridgeway and at the entrance to every trail and mountain pass. Gatling guns and rapid-fire guns have been placed in commanding positions to resist any attack from outside.

These preparations have been taken as a result of persistent reports to the effect that an organized plan to rescue Moyer has been made by his friends.

Democratic State Convention by a Vote of 301 to 140 Instructs For the Judge.

THE UNIT RULE WILL COVERN.

Platform Declares Against Executive Usurpation, and for State Rights And Home Rule.

Albany, N. Y., April 18 .- The Demoratic state convention for the election f delegates to the national convention elected the following delegates-atlarge: David B. Hill of Albany; Edward Murphy, Jr., of Troy; George Ehret of New York City, and James W. Ridgeway of Brooklyn. As alternates it selected C. N. Bulger of Oawego; W. Caryl Ely of Buffalo; C. H. Ackerman of Broome, and Francis Burton Harri-

son of New York. The delegates were instructed by a vote of 301 to 149 for Alton B. Parker as the state's candidate for president. Tammany was not treated as badly as had been predicted, being allowed to name a delegate-at-large, Mr. Ehret, and an alternate, and one of the two electors-at-large, Harry Payne Whit-ney, the other being John T. Woodford. The platform adopted is brief, and in addition to instructing for Parker compels the delegation to vote as a unit,

Among the district presidential elec-tors are Isador Straus, Robert B, Roosevelt, Hugh J, Grant, Herman Ridder and John D. Crimmins. The list of district delegates to the

national convention includes the following: Perry Belmont, P. H. McCarren, Martin W. Littleton, Controller Edward M. Grout, James Shevlin, Congressman T. D. Sullivan, Congressman Sul-zer, Lewis Nixon, Bird S. Coler, William McAdoo, W. Bourke Cockran, Robert ... Van Dyck, Charles F. Murphy, Franklin Bartlett, Charles A. Towne, Thomas F. Grady, Harry Payne Whit-ney, Jefferson M. Levy, Charles W. Dayton, Asa Bird Gardiner, Elliott F. Danforth, George O, Raines and John

One great secret of youth and beauty for the young woman or the mother is the proper understanding of her womanly sys-tem and well-being. Every woman, young or old, should knew herself and her phys-ical make up. A good way to artise at ical make up. A good way to arrive at this knowledge is to get a good doctor book, such, for instance, as the "People's Common Sense Medical Adviser," by R. V. Pierce, M. D., which can readily be pro-cured by sending twenty-one cents in one-contained for a sense of the sense cent stamps for paper-bound volume, or thirty-one cents for cloth-bound copy, ad-dressing Dr. R. V. Pierce, at Buffalo, N. Y. The change from maidenhood to woman-hood is one that involves the whole body. The strain at this time upon the blood forming structures may be too great. Dis otders of the functions peculiarly feminine are nearly always dependent upon de-fective nutrition. In all such cases Dr. Pierce's Favorite Prescription is just the vegetable tonic for the female system.

"I cannot express my thanks for the benefit I have received from Dr. Pierce's medicines," writes Mrs. Julius Wehrly, of Cambridge, Dor-chester Co., Md. "I took 'Favorite Prescrip-tion' and feel that a perfect cure has been effected. I feel like thanking you for the kind and fatherly letters which you wrote."

Dr. Pierce's Favorite Prescription was the first exclusively woman's tonic on the market. It has sold more largely in the past third of a century than any other medicine for women. Do not let the druggist persuade you to try some compound that has not had the test of so many years' success.

"On behalf of the minority of the committee on resolutions," continued Senator Grady, "I present this supplement to the resolutions of instructions, there being no opposition on the part of the minority of that committee to the unit rule." Senator Grady went on to argue in

favor of his amendment, "I take it," he said, "that the only purpose of this convention is to assure that New York shall make its contribution to national success."

This was received with vociferous applause. He challenged any friend of Judge Parker to find in Tammany's position any lack of appreciation of that able jurist.

"We ask to meet the question next July," he said. "We all have in memory times when conditions changed be-tween April and July. Moreover, we believe this will comport better with the chief judge of the court of appeals. An instructed delegation is never a All instructed delegation is never a very edifying sight. It usually carries very little weight to favor a candidate because you were ordered to do so. How much better to act on the basis of mature and conclentious judgement." Senator McCarren then took up the cudgels for the other side. He began by saying that the smallest boy in the gallery did not belive a word that Senator Grady had said.

PANDEMONIUM BREAKS LOOSE.

Instantly pandemonium broke loose Mingled cheers and hisses rose and fell fully two minutes before Senator McCarren could proceed.

"Senator Grady does not believe what he said, himself," Senator McCarren went on. "His absurd argument will not for a moment deceive any intelli-gent man in this convention. If you think of what Senator Grady proposes you will see that I am justified in saying that it is not intended to appea

ing that it is not intended to appeal to the sincere, the honest and this mind of any delegate in the convention. "He has told you that an instructed delegation is not always a good thing. Instructed delegations in 1884 secured the normalized of formation of the secured the nomination of Grover Cleveland; In 1888 an instructed delegation secure-his renomination; an instructed delega tion in 1900 secured the vote of the dele-gation from New York in favor of Wil-liam J. Bryan, so that I can only say to you here as delegates that no true friend of Judge Parker would have the information go forth from here tonight that New York has failed to instruc-its delegates to St. Louis.

"Senator Grady has told you that something may occur between now and July. Nothing will occur to make Judge Alton B. Parker any less the available candidate than he is now. We know that there is not a candidate before us today except Alton B. Parker with any chance of election. As the friend of Judge Parker we must en-lighten the other states of the Union that the Democracy of the state of New York atthe by unanimous or ma-New York, either by unanimous or ma jority vote, has expressed itself in favo of the election of the only available candidate that the United States has today.

COCKRAN AGAINST INSTRUC-TIONS.

Congressman W. Bourke Cockran fol-lowed in a ringing speech. He said: "Senator McCarren seems to have

addressed himself to the smallest boy in the gallery. I address myself to the largest man in the convention. You

shall decide between us. "The minority resolution states, as understand them, why Judge Parker might be the best and most available candidate for the presidency that the Democracy can name. The majority of the convention give no reason what-

ance of the functions of life, is asserted by Herrera, a French biologist. He goes so far as to say that zoology and botany are but chapters of mineralogy, so important is the role played in organic life by these so-called inorganic sub-stances. For instance, all the phenomena of movement in an animal arc, he as-serts, due to exidation. As to nutrition, it is impossible, he gays, when the food is deprived of its mineral elements. Dogs for on substances from which the sait and other inorganic matter has been carefully removed die of starvation. At the bottom of our vital processes, asserts this writer, are formentation and exidation, or their analogues; and these depend on the pres-ence of certain mineral bodies in the tis-sues. Even the role of pepsin in digestion seems to depend on the presence of iron, in whort, the organic substances on which life depends are, he says, "prepared in inorganic workshops with mineral re-agents," and thus a living being is prac-tically a member of the mineral king-dom.—Success. portant is the role played in organic iom.-Success.

THE RIGHT TIME TO STOP.

"Mother, dear," said a frank young woman to her parent, who had just been giving her a lecture, "if you would only stop when you have scored your point and said what I feel is the truth you would make so much more impression, but you always go on and on, and say so much that it puts us both out of temper. and you lose all the advantage you have gained."

Many people make a mistake by not stopping at the right moment. Many a truth would be carried home to culprit and do good work if it wer not diluted with discursiveness to such an extent that its effect becomes ob-literated, but the fact is that the generality of people talk too much about everything, themselves, their affairs and their neighbors. Talking never does any good, and it is apt to do a great deal of harm.--Philadelphia Builetin.

Colorado for his acts in relation to th ceal strike in the southern Colorado coal fields. He repudiated the governor as a Republican, and challenged the oft-repeated assertion of the governor that he had exhausted every effort to bring about a settlement of the strike by bringing the opposing forces to-gether in conference. He said:

"I want to repudiate as far as I can the acts of the governor of this state. If I have a friend in Colorado, if there a trade unionist in this state, if there is a good citizen in Colorado who believes my judgment to be good, I say should repudiate the acts of Gov. abody. "I say publicly, that I offered last December to allow Gov. Peabody to appoint a committee of coal miners to treat with the operators. He has had the chance to nominate a committee o miners, and has not done so. As an ad mirer and friend of President Roose New and as a member of the Repub-lican party, I say that the Republican party of Colorado should repudiate Gov. Peabody. I further say that every Republican workman should work against him. In conclusion, I want to repeat with emphasis what I have said about Peabody. He is no friend of yours, no friend of government, and no friend of law and order. I am against him." Mr. Gompers said that a new discase had developed among the business men of the country, which he termed trades-unionphobia. The two persons most se-riously afflicted, he said, were Gov. Peabody of Colorado and President Parry of the National Manufacturers' association.

The train was bowling along at a high rate of speed when a defective rail precipitated the locomotive, the express and baggage cars, the first, second and third class coaches, down an embankment, totally demolishing them. The two Pullmans were the only cars which did not leave the track and those

occupying them received no injury be-yond a severe shaking up. It is impossible to secure a list of the

Portland, Or., April 20.-- A special to the Oregonian from Walla Walla, Wash., says:

The engine went into the wreck and Godfrey and Grayson were pulled out from under the water. The express

Mr. Raines denounced the Republican party in its administration of both state and national affairs and policies, declaring that there was a feeling of unrest among business men, a lack of confidence in the judgment and level headed conservatism of the na-tional administration. In the coming

campaign, he said, the Democracy of New York desires to act in accord with the rest of the Democracy of the Union. 'We have no particular tenets to put forth." he declared. "No isolated idean to frame as a New York idea and no single war cary for this campaign

THE PLATFORM. Senator McCarren presented the reort of the committee on platform as

follows. "The Democrats, in renewing their pledge of fidelity to the essential prin-ciples of Jeffersonian Democracy as reeatedly enunciated in our national and state platforms, make these further declarations on the national issues of the hour, reserving an expression on state issues until the fall convention, when state candidates are to be nomi-

nated. "First-This is a government of laws, not of men; one for presidents, cabinets and people; no usurpation; no executive encroachment on the legislative or judicial departments.

When Judge Parker's name was men-tioned in the platform the audience arose to the occasion, with the exception of the Tammany delegates, and heered loudly, but not for long. McCarren moved the adoption of the platform, and Senator Grady offered the following amendment:

INSTRUCTION FOR PARKER.

"The Democracy of New York believe that the result of the presidential eletion now pending involves the very ex istence of constitutional governmen in this country, and in such a grave crisis it has no favor to ask of the party n the nation except the privilege of serving it. That this service may be

most effective, the delegation here elected is left free to take such action at St. Louis as a majority thereof may consider most likely to insure the success of the candidates selected by the National convention. "Realizing, however, that the electoral

votes of New York are absolutely essen tial to Democratic success, we submit o our brethren throughout the country that Alton B. Parker, a Democrat in the prime of life, has been elected by majority of more than 60,000 to the chief position in the judicial system of this state, and during the last six years

has discharged the duties of his high office with such unvarying dignity that respect for law and that love of shining ability and scrupulous fidelity

sented to the convention. The minority asks that this convention send a delegation to St. Louis prepared to discuss the interests of the party from the standpoint of its own welfare. "The majority desires this delegation to go to St. Louis and ask for a favor

at its hands. The majority wishes to go to St. Louis and ask that Judge Parker be nominated to oblige us. "The minority thinks that we ought to go there and give reasons why Judge Parker should be nominated in the in-terests of the Democracy. "Now, in the interests of the Democ-

racy and of the candidate, is it not apparent that if this plan be consummated the inevitable deduction will be that the Democratic party canno agree on anything; that it has adopted here a series of platitudes and then proceeded to recommend a candidate who will stand for anything or nothing

"Now, the minority has a highe opinion of Judge Parker than thos gentlemen who profess to be his friend seem to entertain. We believe that o his record he may and very likely w be the strongest man that the conven-tion can nominate. We don't believe that we should load down Judge Park. er with the political hopes and aspirations of any man or set of men. W believe that in our minority report we have given reasons why, if conditions do not change, he should be nominated

by the convention at St. Louis." Senator Hill arose in the Albany dele gation, amid wild cheering, and sug-gested that the vote be taken by coun-ties. This was agreed to. The New ties. Crop Conditions.

Washington, April 19.-The weather bureau's weekly summary of crop conditions follows:

In nearly all districts east of the Rocky mountains the week ending April 18 was unseasonably cold and very un favorable for germination and growth Farm work, however, in the Missour valley and southern and middle Atlan tic states made very favorable progress but in the northern districts practically nothing has been done. The states o the upper lake region were covered with snow to a considerable depth during the latter part of the week. The Pacific coast states and Rocky mountain districts reported a week of highly favor able conditions, but severe drought con tinues from central and western Texa. to the south Pacific coast.

In Missouri and over the greater por-tion of Kansas and Nebraska, winter wheat has made good growth, but needs farmer weather.

Winter wheat has made splendid growth on the Pacific coast, and parite-ularly in Washington and in Oregon. Spring wheat seeding has been in as tive progress on the north Pacific coast, about one-half the area in Washington having been sown.

In the central Mississippi and lower Mississippi valleys seeding has been ac tive and is well advanced, having been fluished in Kansas. The early sown in these sections is making a slow start. In the southern states the crop as a whole is doing well, but is in need of rain in Oklahoma. Fruit has experlenced a week of good conditions throughout the central valleys, middle Atlantic and southern states, and while the reports indicate that much injury has been done by frosts and freezing temperature, good prospects, due prin cipally to the lateness of the season continue in many sections,
