Prof. James Dryden left for the east Monday last.

The Nannie Toot concert Friday night was a very successful affair both financially and otherwise. The large tabernacle was filled, nearly 2,000 people being present. Miss Nannie seemed at her best and her sweet, clear voice charmed all present. Every selection was roundly applauded but "Annie Laurie," "The Cuckoo Song" and "Ben Loh" seemed in greatest favor probably because they were better understood by those present. The large audience seemed loth to let her go and recalled her at each number and at the final after she had appeared on the platform twice, still applauded warmly in hopes she would give them one more song. Miss Toot has won the hearts of the music loving people of Logan and will be assured a warm welcome whenever she shall visit us again. Mr. Fred Toot was suffering from a cold contracted while driving to Logan and failed in his part of the program, but Mr. E. F. Toot sang several times and was warmly applauded. Mr. Squire Coop was accompanist. The officers of the Mutual Improvement association had decorated the platform with flowers, flags and bunting, making a very pleasing appearance and are to be congratulated for the success attending the affair.

The many friends of Miss Elean Carlen were surprised to hear that she had quietly departed for Farmington last week and had married Mr. W. H. Weaver, local manager of the Cummings Commission company. Miss Carlen has for some time been off right for Dr. Budge and has made many warm friends who regret that she did not give them a chance to be present at her nuptials but who will wish her happiness nevertheless.

WITH PETTICOAT EFFECT.

With the coming of the Marie Antoinette modes there is a revival of the petticoat effects that were so popular once upon a time. In the dainty model printed surah is combined with a plain satin messaline and lace with excellent effect. The waist has a round yoke with odd shoulder pieces and a bertha that suggests a bolero, all being defined with a lace entre-deux. There is a blouse of the plain color, a faint shell pink, and the lace draperies are deftly disposed over this and the full puff sleeve. The skirt has the tablier front plaited in petticoat effect, the plain silk being used for this, and two little ruffles headed with lace appear above the foot. The sides are shirred, and there is a broad shirred piece in the center back. A facing of pink velvet is run in place of a hem, about four inches deep, and this gives some weight and stability to the sheer mass of silk at the foot.

stake left Friday for a visit to the fair. While in the east Mr. Lewis will attend a reunion of the Lewis family of America at St. Louis. This family is one of the oldest American families and its members number many thousands all descended from three brothers who came to America early in the seventeenth century.

Newbro's Herpicide

THE ORIGINAL REMEDY THAT "KILLS THE DANDRUFF GERM."

SCHOOL CHILDREN.

Every school child should know that BALDNESS IS CONTAGIOUS DISEASE, CAUSED BY A MICROBE. Prof. Uina, of Hamburg, Germany, discovered that dandruff, itching scalp, falling hair, and final baldness are produced by a germ or microbe that passes from one head to another, where it burrows into the scalp and by multiplying and extending deeper and deeper into the hair follicles, saps the life of the hair root and produces baldness.

IT TAKES YEARS

to produce complete baldness, for the action of the dandruff microbe is not constant in every case. It is governed by predisposition, by the state of health, by environment, but particularly by the endeavor made to combat the growth and development of the dandruff microbes, which can only be destroyed with Newbro's Herpicide. This new antiseptic scalp germicide is past the experimental stage. It was made to destroy the germ that causes dandruff and itching hair, and by coaxing energy back into the impoverished bulbs, it enables the hair to grow naturally and luxuriantly. Thousands of letters from physicians, clergymen and laymen tell the same story of its wonderful success.

AN IDEAL HAIR DRESSING.

It is fortunate for those who understand the new rules of scalp cleanliness that the antiseptic qualities of Newbro's Herpicide make it the most delightful and refreshing hair dressing imaginable. Chronic baldness is incurable; save your hair while you have hair to save.

USED AND RECOMMENDED BY PHYSICIANS.

"I have used Herpicide and believe it a first class preparation for disease of the scalp and hair. It is very cleansing and healing, and I have recommended it to a number of my patients."
