

## BUSY DAYS UP AT POCATELLO.

Hum of Industry in Evidence  
Around O. S. L. Shops.

## NEW EQUIPMENT RECEIVED

Three Big Ice Houses Constructed,  
Which are Being Fitted With the  
Market Lake Product.

### Special Correspondence.

Pocatello, Idaho, Feb. 15.—There are busy days around the railroad shops here at this time. Practically all this winter the Oregon Short Line has been receiving additional up-to-date rolling stock including a number of pressed steel coal cars of 100,000 pounds capacity, big flat cars, with temporary wood on sides, and other cars. Fifteen new cabooses are now expected to arrive daily. Passenger coaches, buffet, baggage and dining cars have been added to the equipment and there is a hum of industry in every department. Last week six new engines arrived for the Oregon Short Line. They were received from the Baldwin Locomotive Works at Philadelphia. These huge engines are the Baldwin compound, and are the same in size as the 1,000 class of the Cooke manufacture. These locomotives are the first of their kind to be used in Idaho on this road, and the contrast is striking. They run as silently as a bicycle, and are furnished with a bell as sweet as a church chime. It goes without saying that they are swift and among the most powerful in the West. This series of engines are numbered 950 and up.

The new Oregon Short Line ice houses, three in number, all under one roof, or perhaps to be more correct they are really under three roofs, are now completed with a capacity for storing 12,000 tons of ice for use during the summer months. These storage houses are so constructed that each is furnished with four separate rooms, with the partitions open in the center from floor to ceiling. Each room will hold an even 1,000 tons of ice.

The ice harvest this year is the finest that Pocatello has seen for many years past. The ice now being shipped into the houses from Market Lake measures 20 1/2 inches in thickness. The three old ice houses, which heretofore have supplied the Short Line, are also being filled rapidly in order that the demand for ice by the refrigerator car and passenger service may be met during the next summer.

### A FEW MILLIONS.

Harriman Syndicate Still Has Some  
Ducats Left to Buy Railroads.

Harriman and associates to acquire securities of railroads, and to issue in their place participating certificates. It is assumed that securities of the Chicago & Alton, Kansas City, Southern, Union Pacific, Denver & Rio Grande, and perhaps connecting or competing lines of these will be included in the purchases of the company.

## SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—it is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sores, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S. S. S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system **A CONSTANT DRAIN UPON THE SYSTEM.** When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. B. Talbot, Box 24, Winona, Minn., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but from the first I indicated by S. S. S., and it made a complete cure. I have been a perfectly well man ever since."

**SSS** is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and add to, rather than relieve your sufferings. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and an ordinary sore is apt to become chronic.

Send for our free book and write our physicians about your case. We make no charge for this service.

In speaking of his visit to the West and the electric supply business, Mr. Salt said: "This is my first visit to Salt Lake, and I have been much surprised to find in Utah, Wyoming, Idaho and Montana, so many electrical establishments and such an extensive telephone system. The telephone industry is increasing at a rapid rate and notwithstanding our immense business our telephone department leads all the others. Our company is the largest consumer of lead in the United States, we use \$1,000,000 worth annually and it goes in the manufacture of lead cables for wire cables. ## MYSTERY SOLVED.

Sad Story in Connection with the Denver Suicide.

It will be recalled that on Thursday the "News" published an Associated Press dispatch from Denver to the effect that a Mrs. Ward of Salt Lake had committed suicide in the Colorado capital. The mystery surrounding the case has been somewhat cleared up in advices received from the scene of the tragedy to the effect that the immediate cause of the suicide was the fact that one M. T. Ward, claiming to be a wealthy railroad contractor of Seattle, was married on Sunday to Miss May Ann Fox, who operated the Eagle block furnished room.

It is now stated that Ward came to this city with the dead woman shortly before the Cattle convention week, to attend her on to Denver with the promise of ultimately joining her there, but in the meantime he had sold the landlady of the Eagle block furnished apartments with the result that they were married a few days ago.

Chief Clerk Fred L. Presbury, of the Kenyon, this morning called to see the recognized man Ward, who he came into the hotel for the first time three weeks ago, as being mixed up in a gold brick case in Seattle when Mr. Presbury was general manager of the Great Northern hotel in that city. He stated that Ward is an all-round bad man, with an unsavory record, who has had acquaintance with the Seattle police.

Detective Sheehan of this city also states that he was fully aware of Ward's record and had him under his eye while Ward was in this city. According to the Denver police the man is said to have a penchant for marrying ladies with money.

Ward and his latest wife left this city yesterday for the West.

## IN SOME CASES A Single Package of the Pyramid Pile Cure is Sufficient to Cure.

This may seem a broad statement when it is remembered that few diseases are so easily cured as piles; some physicians going so far as to say that a painful surgical operation is the only permanent cure, but the many and remarkable cures made by the Pyramid Pile Cure in the past few years have proven that surgical operations are no longer necessary, and that it is, by far the safest and most reliable remedy yet discovered for this common and often dangerous trouble.

The harmless acids and healing oils contained in the Pyramid Pile Cure cause the blood vessels to contract to a natural condition and the little tumors are absorbed and the cure is made without pain, inconvenience or detention from business.

Dr. Williams, a prominent official surgeon, says: "It is the duty of every surgeon to avoid an operation if possible to cure in any other way and after many trials with the Pyramid Pile Cure I unhesitatingly recommend it in preference to an operation."

Mr. Phil Owens of So. Omaha writes that after suffering two years from an aggravated case of itching and protruding piles he was cured by a single 50 cent package of the Pyramid Pile Cure purchased from a local druggist. He says: "I fully expected the trouble would return but am happy to say for the past year and a half have been entirely free from the disease and I cannot speak too warmly in favor of the Pyramid Pile Cure."

A bill clerk in one of the large wholesale houses of St. Louis says: "My occupation as billing clerk was so confining and sedentary that it finally brought on an aggravated attack of rectal trouble, which my physician diagnosed as itching and protruding piles and recommended a salve which he prepared and which gave me some relief for a few hours after using and then the trouble would come back as bad as ever; one of the other clerks advised me to try the Pyramid Pile Cure and I now feel like thanking him every day for recommending it. It cured me in 50 cents worth of the Pyramid Pile Cure which can be purchased at any drug store was far safer, better and more effective than an operation could possibly be."

Hundreds of piles sufferers, who had almost decided to undergo the pain and danger of an operation have been cured by the use of the Pyramid Pile Cure which can be purchased at any drug store was far safer, better and more effective than an operation could possibly be.

## ENTRIES FOR RACES.

Metropolitan Handicap Increased to  
Fifty-three Says the Secretary.

New York, Feb. 15.—Secretary Crickmore, of the Westchester Racing Association, reports that late mails increase the number of entries to the Metropolitan handicap to fifty-three. This makes eleven entries more than were received to the Metropolitan last year. It cannot be expected that the increase will bring any consolation to those who have been bemoaning the falling off in entries to the big eastern handicap, but it is flattering to the Westchester Racing association and Secretary Crickmore nevertheless. The fact that Imp is not a candidate for the Metropolitan is not a matter for complaint, simply because she has never been an early mare. The entries to the Jockey Club weight for age race has been increased to 24, with the supplemental entry to close August 15, insures a good field in this event.

## A GREAT TROTTING EVENT.

Crescens 2:04, and Charley Herr, 2:06 to Race for \$12,000.

New York, Feb. 15.—One of the greatest trotting events of the coming season will be a match race between Crescens, 2:04, and Charley Herr, 2:06. Mr. Kitcham came from Toledo especially to meet track managers with purse proposals, and he thinks a race between the two greatest trotting stallions in the world should be worth at least \$12,000. The Cleveland Driving club has offered \$5,000, it is reported. All secretaries, of course, want the Abbot included, and it is barely possible that he may yet be entered.

## Praised by a Preacher

From the Era Headlight, Grand Junction, Iowa.

No higher praise can be given Dr. Williams' Pink Pills for Pale People than the many voluntary testimonials from ministers of the gospel which have come from all parts of the country and which have more than supported all the claims made for this excellent medicine.

The most recent endorsement is that coming from Rev. Enoch Hill, pastor of the M. E. Church of Grand Junction, Iowa, who says: "I am a firm believer in the efficacy of Dr. Williams' Pink Pills for Pale People, the remedy having been used in my family with highly gratifying results. For three or four years I was a sufferer from general debility. I seemed to be lacking in vitality, was tired out most of the time and sleep gave me no rest or refreshment. I was troubled with headache much of the time and although I was not confined to my bed, my illness incapacitated me for energetic work in my pastorate."

The sister-in-law living in Nebraska, who had suffered very much and who has used Dr. Williams' Pink Pills with good results, recommended them to me
