DEDICATION OF THE NEW HOSPITAL

2

The Dr. Groves L. D. S. Institution Nearly Ready for Patients.

RECEPTION ON FRIDAY NICHT.

Boilding Will be Formally Opened to The Public on Monday Next-The Ceremonies of Yesterday.

Preceding the public reception which will be held at the L. D. S. hospital Friday evening from 7 to 10 o'clock, the building was formally dedicated yesterday afternoon, with a service that was simple, impressive and brief.

Bishop Robert T. Burton presided. At 2:30 o'clock he called the assemblage of Church officials, invited guests, and members of the medical staff of the hospital, together in the dining room. After the singing of "His Loving Kindness" by a quartet consisting of Messra. Ashworth, Philipps, Christopherson and Equires, prayer was offered by Bishop O. F. Whitney.

A COMPLETED TRUST.

Hon. Franklin S. Richards was then introduced, and in a brief speech he told something of Dr. Groves, whose will contained the clause which called the hospital into being, and of the long effort on the part of those interested in securing its completion.

"This is to me a very eventful occasion." he said in opening. "It is the fulfilling of a trust which was imposed upon myself and J. T. Little many years ago, by Dr. Groves."

He then went on to tell how as an administrator of the will of Dr. Groves he had sought to carry out its wishes. At first the property was worth fully enough to build the entire hospital. Then in the final realization upon it a sum entirely inadequate was received.

MR. LITTLE DIED.

"In 1898 Mr. Little, the other admin-istrator, died, leaving Mr. Richards to go ahead alone with the plans. I tried many ways and many times to secure funds with which to execute the wishes of the doctor," he continued, "but until two years ago was unsuccessful." Then two years ago was unsuccessful." Then the First Presidency of the Church as-sured me that if the work were com-menced, it would be completed. This lot was purchased, an incorporation was formed with five members on the board of trustees. They were William B. Preston, president; Robert T. Bur-ton, vice president; Orrin P. Miller, Jo-seph S. Richards, whom it was stipu-lated by the will should be medical dilated in the will should be medical di-rector, during his life, and myself. John Wells was made secretary and treasur-er, and it was provided that the general control should always be vested in the presiding Bishopric of the Church. It became the purpose of this board to ereot a building which would be a cred-it to the city, and a blessing to all

spirited discussion of

house with all its : appointments; bless i and sanctify it, for we dedicate it unto Thee for the use and benefit and help of the afflicted of mankind, Thy sons and Thy daughters. "Father, we ask Thee to perfect and preserve our yes and sanctify our bearts that may be worthy of Thy blessings, all of which favors and bless-ings we ask in the name of Thy Son ings we ask in the name of Thy Son Jesus Christ, our Relemant. Amen." President Smith was followed by Bishop R. T. Burton, in a few remarks relative to the policy to be pursued by the new hospital. He said that it must always he governed with the greatest regard for the welfare of the patients, that temperance, competence, and kind-ness must be possessed by all em-ployes, and that incompetence and ill feeling would not be tolerated in the employes.

FRIDAY NIGHT'S OPENING.

In concluding, he announced that Fri-day evening the building would be open to all who might wish to look through it, from 7 until 10 o'clock in the even-

The service of dedication was con-cluded with a prayer by Patriarch John Smith, after which the larger portion of those present availed themselves of the opportunity to look over the building. SPLENDID EQUIPMENT.

Interest centered chiefly in the operat-ing rooms on the fourth floor, which were said by the members of the med-ical profession present to exceed in perfectness of equipment anything they had heard of in the United States or in the world. It was apparent throughout the child be building that no exceed by the entire building that no expense had been spared where the expenditure of could ascure the best results money could secure the best results. The walls of the operating rooms as well us the floors are in white tiling, and adjoining them are sterilizing rooms. The tables and basins of the room are in plate glass. A thing that excited great interest was the X-ray machine in which many of the visitors relanced at the house of

COOD PROCRAMS ARE RENDERED

Educational Points Discussed from Every Standpoint-Music Section Crowded.

The State Teachers' association continued its deliberations today, the morning hours being devoted to section work, and the afternoon to a general meeting in Barratt hall, at which eduwas very strongly opposed to the laca being advanced that students should be allowed to govern themselves. Op-posing him in this view were Profes-sors Porter, Decker and Driggs of the Braneh Normal university. These edu-cators contended that the students should be given a charter specifying that they are given government over cational topics were discussed and a choice musical program carried out. The sections, for the most part, were well attended, but those which proved the greatest drawing cards were the music section in the Lafayette schoel that they are given government over themselves. Dr. E. G. Gowans, in his paper on "Physical Education in Col-leges and Secondary Schools," said that he had found many deformities of Utah building, and the elocution and phys-Ical science section, conducted in Bar-

he had found many deformities of Utan university students which might have been prevented if they had had gym-nasium training during early school life. Prof. William Langton of Logan was not present, but Prof. John T. Miller, in general discussion, said that the rea-son why he was opposed to present day utilizing more that the big follows who The music section opened with a chorus from the Webster school, after chorus from the Websier school, after which Prof. Evan Stephens gave a comprehensive paper on "The Reading of Mosle," which was much appre-ciated by all present. The paper was freely discussed, but in the main the points advanced by the first speaker were heartly concurred in. Then came a chorus from the Fremont school, and a paper on "The Value of Music in the Schools," by Miss Gertrude Whitmoyer, supervisor of music in the public schools of Park City. After a play

Whitmoyer, supervisor of music in the public schools of Park City. After a discussion of the paper, there was a chorus from the Hamilton school and a class exercise from the Lafayette school, conducted by Miss Emma Gal-ingher. Then followed music from Jackson school pupils and the election of officers after which the section adaddition, Mrs. Nellie Druce-Pugsley sang "Ave Marie," in her usual artistic of officers, after which the section adjourned.

ELOCUTION AND PHYSICAL SCI-ENCE

style

The department of elocution and physical culture was presided over by Mis Maud May Babcock of the Uni-versity of U h. A paper on the "Func-tion of Reading in Education and Meth-ods of Improving Reading in the Pub-lic Schools," was read by Ruth Evelyn Magnah of the start availability of the Ic Schools, 'was read by Ruth Evelyn Moench of the state agricultural col-lege. The discussion was given by Miss Ardella Bitner of the Latter-day Saints' university, and Mr. Haroid Goff of the Bingham Junction public schools. A general discussion followed in which some good suggestions on methods were brought out brought out E. J. Milne of the Branch Normal

school sead a very interesting account of "School Room Deformities and their Rengedy." The subject was discussed by Mrs. Isabelle Salmon Ross of the State School for the Deaf, Dumb and Bland, and by Warren A. Colton of the Y. university. In motion of Dr. E. G. Gowans the

following resolutions were passed by this department of the convention: "Resolved, That we consider physical education of at least as much imporce as any other subject in the culum of the public schools; and that should receive as much attention at he hands of school authorities, teach ers and parents as any other subject. "Resolved, further, That the chair be empowered to appoint a committee to work for the introduction of physical work for the introduction of purricu-training in the public school curricu-

In speaking of the character of Dr. Groves, Mr. Richards said that he had known him for thirty years, and had always known him as a just and gen-erous man, but little understood by the

vast number of his acquaintances. Of the conduct of the ho-pital he ex-pressed the hope that it would always be governed so that every patient might feel it as much his home while he was there, as it would be possible to make

Mr. Richards concluded by thanking all who had in any way assisted in bringing the hospital to completion, for their kindly interest.

DEDICATORY PRAYER.

President Joseph F. Smith then offered the dedicatory prayer, expressive of the sentiments in which the building was surrendered to the uses for which was built. The prayer was as follows:

"Our Father who art in heaven, the Maker of the heavens and the earth and of all that in them is; the Author of our being, the Source of our intelli-gence and knowledge and understand-ing; the Giver of every good and per-fect gift to the children of men while they sojourn upon the earth, may they they sojourn upon the earth, may they seek Thee and find Thee and rea-lize that Thou art, and that Thou art fust and merciful and allwise, and that Thou art indeed the Maker of all things. Father, we accept of Thy name and the name of Thy beloved Son Jesus Christ, as the Redeemer of the world, the Savior of markind in spiritual life, as also in temporal life, so far as Thy children shall heavken unto Thee and follow Thy counsel and ebey the prefollow Thy coursel and obey the pre-cepts He has given to the children of men. We acknowledge, Holy Fath-er, that He was the great healer of af-filetions and sufferings among the chilflictions and sufferings among the chil-diren of men while He sojourned in the flesh, and by the power and might of God, and by the power of endless truth, He did heat the sick, reatore sight to the blind, hearing to the deaf, speech to the dumb, and did cleanse the ispers and cast out the evil influences that possessed the hearts of the children of men and did max mirrix and clockas men, and did many mighty and glorious works among the children of men for their guidance, and comfort and alle-viation of their sufferings and misfortunes and calamities. Now we ask Thee, Holy Father, that those of us who shall be connected with this house and its operations may ever acknowledge in our hearts and our souls Thy divine mission, its almighty power and wis-dom and our allegiance unto Thee, and we ask Thee, Holy Father, that Thou wilt now look down upon us as the Giver of all good and that Thou will be in our hearts and guide us with Thy influence while we ask for the blessings we desire.

"We thank Thee that Thou hast per-mitted means to be put into our hands for the purpose of erecting this edifice, that Thou didst put it into the heart of thy servant, Dr. Groves, to found this institution and that. Thou didst bless his thoughts and his dedication and his desires to the end which we see in this building, finished and complete for the building, hished and complete for the purpose of carrying out his wish and his will. And now, Father, inasmuch as this structure has been erected for the purpose of taking in those who are sick, those who are lame and crippled, injured, hurt, afflicted in their bodies, or mentally, that they may be treated and assisted to recover health and life. In as far as they shall be given unto In as far as they shall be given unto the services of those who have made a the services of those who have made a study of medicine and surgery and of the physical structure and organism and powers of mankind, that they may administer according to the skill and power Thou hast given them, as well as by inspiration from the Almighty, that they may be successful in their labors and efforts among the affiloted who shall come here for help. We may Uoly Father, that thou will bless the medical staff of this institution and all those staff of this institution and all those who shall be connected with them,

Thee, Holy Father, that inasmuch as this is intended to be a hospital, a place of refuge, and a place of rest for the afflicted, that all who enter here this shall be impressed with peace and con-tentment, no matter from whence they MOTI come: and we ask, O God for Thy blessing. Thy Holy Spirit, and Thy healing influence to rest upon all the afflicted who shall be brought here for help in their distress. May Thy peace be in their hearts that they may be strengthened and encouraged to pass through every ordeal that they may be required to puss through to recover

required to pass through to recover their health and their lives. "Now, Father, we ask also that the time may never come when the name of God shall not be revered within these walls. May Thy name be held sacred upon the lips and in the hearts of the men and women who shall min-ister here. May the peace of this ref. ister here. May the peace of this ref-uge never be marred by any feeling, or evil influence or improper conduct or work or deed of any kind. "Wilt Thou hear us in our petitions

and bless us and cause that perfect lib-erty may be exercised to administer unto those who shall be brought here in their afflictions and who shall sire Thy blessings, and that faith be exercised in their behalf, that no light word shall be uttered against those who enter this house and perform that sac red duty, that this right and this privi lege may be extended unto all who shal desire it and that Thy Priesthood shal be honored within these walls.

"Now we ask Thee, Heavenly Father, that Thou wilt look down upon us in mercy, and as we have done this work with an eye single to the comfort and happiness and welfare of the afflicted that Thou wilt accept of our desires and sanctify them and bless them, to the good of the afflicted and all who shall require and need the comforts and conveniences and the privileges and bless ings of this hole, which has been built

for that purpose. "We ask Thee to accept of the grounds upon which this house stands: bless it and sanctify it and make it acceptable unto Thee. Bless the build-ing from the foundation to the top of it, and all its apartments and all the material of which it is composed, that it may be strong and durable and firm in all its parts, that the walls may be ilid and secure and every part safe and preserved from the tempests and violent storms and from the ragings of violent storms and from the ragings of the elements, from fire and from lightning and from the quak-ings of the earth, and from all other causes of disturbance. We ask Thee, Father, that by Thy almighty power, this building may be preserved and per-mitted to stand on its foundations to fulfill and accomplish the end and ob-ject of its being; we ask this in the name of Jesus Christ. Bless those who have given and contributed of their have given and contributed of their means to this institution, that they may not lose their reward, and that peace and Thy blessings may rest upon them for the good they have in their hearts and that the good work they have done is preparing this building for
