"I am twenty-one years old. At sixteen I was pale and weak. By the time I was nineteen years old I was so weak I could not walk across the floor. I was terribly emaciated and my skin had lost all color. The doctor pronounced the disease Anæmia. Being advised to try Dr. Williams' Pink Pills for Pale People, I bought a box, and before I had taken all of the pills found that they were doing me good. Appetite increased and the healthy color began to show in my cheeks and lips. I continued to use the pills until I found myself permanently cured. Since then I have had no return of my old trouble. I know that Dr. Williams' Pink Pills for Pale People saved my life, and I believe that no other medicine could have done it.' -From Ottawa Times, Holland, Mich.
