McCORMICK REAPERS, MOWERS AND HARVESTERS.

Who was the Inventor of Reaping and Mowing Machines?

McCORMICK!

Who has been building Reapers and Mowers for over Thirty Years?
McCORMICK!

FARMERS OF UTAH!

We have one question to ask you, viz: Ought not the Inventor of the Reaping and Mowing Machine, who has been building them constantly over THIRTY YEARS, and who has the largest capital and largest Manufactory of any firm building machines in the world, ought not he to be able to build as good and BETTER machines than any competitor?

Think of the above before you buy! Also, remember that there were more of the McCORMICK machines sold in the United States last year, and every year, than any other make, and ask yourself the reason why. Is it not because they are the BEST and most DURABLE machines?

See for yourselves before buying. Remember that every machine is fully guaranteed.

FOR SALE BY

JOHN W. LOWELL & Co.,

Agents for Fish Bros. Wagons, &c., S. L. City.

MATTISON & JOHNSON

Return thanks to the farmers of Utah for their liberal patronage for the past two years, and state that they enter the field for 1876 with an entire NEW STOCK of Reapers and Mowers.

THE CAYUGA CHIEF

Has been improved especially for this trade, and is now called the "WHEELER." The No. 5 is a light Mower, possessing great powers and endurance, and the easiest handled machine in the market. With the exception of the improved Ledger Plate in the Guard, it is the same as the Cayuga Chief No. 3, which has become such a favorite. The No. 6 is a combined machine, with controllable Self Rake, the gearing is all enclosed in an iron box, which excludes all dirt and grit.

This machine was awarded the California State Diploma last September, and has already taken the laurels from several competitors in Texas this year.

WE ALSO HAVE THE

KIRBY MOWERS AND REAPERS.

All these machines are made by D. M. Osborne & Co., Auburn, New York, the largest Reaper and Mower Factory in America. A Full Line of the

MITCHELL FARM AND SPRING WAGONS!
