The board accepts your offer in the spirit in which it was proffered, and further instructs me to say that you will be expected to ascertain as early a date as possible the condition of citizens of Utah who may have been sufferers from earthquake or fire; to report the same upon occasion, and to establish, if deemed necessary, a permanent headquarters for Utah people in the stricken district, and to render such other assistance in alleviating suffering as your wisdom is desirable and practicable. ## BEFORE JUDGE DIEHL.

Doolan, Claiming to be a Refugee, Receives Sentence.

Charles A. Sharon, the railway conductor who was arrested some time ago for brutally beating his wife and who was convicted of the offense, was yesterday sentenced by Judge C. B. Diehl to serve a term of 30 days in the city jail.

In the case of Mark Doolan, charged with begging, a fine of \$40 was imposed. The man when arraigned on Monday claimed that he was a refugee from San Francisco, and accordingly the case went over until yesterday that an investigation might be made. Should it be proven that his story is true, the fine will be remitted.

John Walsh and John Karl were found guilty of stealing two pairs of trousers from the West Mall Order house, and each defendant was fined \$10.

A new trial was allowed in the case of John Bramble, recently convicted on a charge of indecent conduct.

**W. R. WALLACE HOME.**

Family Was Driven From Hotel by The Terrible Earthquake.

W. R. Wallace has returned from San Francisco with his wife and three children. Mrs. Wallace and the children were driven from their hotel by the earthquake, and about two for two days by the flames. They were asleep in the San Marco hotel when the earthquake occurred, and were rudely

awakened to be thrown about their beds and covered with showers of plaster. They saw scantily attired people rush from their rooms with the one thought of saving their lives.

Mrs. Wallace wrapped her baby in a shawl, and rescued, first Alexander, aged 7, who was standing in the middle of the floor, and then Willie, who was crawling down the hotel stairs. Her brother, Dr. McChrystal, was 20 minutes in escaping from his room, as he had to shatter the door to get out. Guests gathered outside, afraid to venture within to rescue their belongings, fearful of another quake; and as the fire approached, people moved on, those who had pulled their trunks out, hauling the same after them with ropes, or sliding them on chairs. Mrs. Wallace and children were forced further and further by the fire until they landed in a cemetery, where they spent the next night. The ashes and cinders poured down like rain. The children were totally unconscious of the seriousness of the situation, and played hide and seek among the monuments and headstones.

The refugees finally reached a provision house, where the wants of the finer man were attended to, and finally they made their way to the Ferry house, where they escaped to Oakland. At that place they were well cared for at the house of Prof. La Conte, and sent off with their arms full of roses.

**Dr. David Kennedy, Rondout, N. Y.**

Dear Sir:—Some time since I was troubled with blotches coming out on my breast, of a scrofulous character, and my general system seemed to be out of order. I was induced to try Dr. David Kennedy's Favorite Remedy. The first bottle drove the eruption away and I feel better every day. It is a splendid blood medicine.—Henry S. Eldridge, Rochester, N. Y.

## NEW PHONE BUILDING.

Contractors Have Plans For Structure At Pocatello.

Plans are in the hands of contractors at Pocatello and Blackfoot for the new Bell telephone building to be erected at Blackfoot at a cost of \$3,000; and the new \$5,000 building at Payette, is nearly completed. A station at Idaho Falls will also be erected to cost a similar figure. Plans for a \$15,000 station at Bodman, Mont., have just been accepted, and the station building at Weiser is well under way. R. Kietling is the architect. All these structures are built and the grounds are laid out with a view of future expansion. The company is expending \$5,000 on a new switchboard, cables and machines at Cheyenne, and other improvements along the line including extensive ones at Caldwell, Ida., will run the figure up to \$60,000.

## LORENZO SNOW HOME.

Lost His Baggage and \$300 in Cash—Saw Tailor Shop.

Lorenzo Snow returned home yesterday afternoon, from San Francisco. He was stopping at the Greystone, a solid steel structure which stood the earthquake, but did not escape the fire. Mr. Snow awoke to find his bed and the rest of the furniture in the room on the active move, and the plaster raining down on him. He escaped with his clothing, and on the street found his baggage and \$300 in cash. He was driven to a tailor shop, where he had lost his wife and three children and 15 roomers by collapse of the building, and by fire. The charred bodies were subsequently taken from the ruins.

Mr. Snow lost his baggage and \$300 in cash. He went into a restaurant but was driven out by the flames which swept the restaurant out of existence. He saw a soldier shoot a tailor dead because the latter refused to work at the soldier's bidding. A woman who was caught stealing was handcuffed with her arms around a telegraph pole and labeled, "Caught Stealing." One man who had thrown a woman down and taken her earrings from her, was compelled by the soldiers to dig his own grave, was then shot and buried there and then. Dogs went mad and were quickly shot.

Mr. Snow was opposite the Poodle Dog restaurant when it was blown up, and the concussion threw him down. He worked at the Presidio, and finally reached the ferry and escaped.

## WHY THEY WERE DECLINED.

Offers Deeply Appreciated. Also Humanitarian Motives, But Offerings Of Americans Ample.

New York, April 25.—The Staats Zeitung prints the following telegram: New York, April 24.—Theodore Roosevelt, President. Your statement is reported in the German press as declining assistance from foreigners for the San Francisco sufferers. Will you allow us to correct this false impression so that our friends in Germany may be permitted to contribute to the diet of their hearts and contribute? Herman Ridder, New York Staats Zeitung.

"Washington, April 24.—Herman Ridder, New York Staats Zeitung: Your kind message to the president is received. The spontaneous contributions of the American people have been ample to meet all requirements, and the proffers of aid from all other parts of the world have been so in excess of all needs that to avoid any discrimination it was determined best to accept no outside help. The president wishes the German people to contribute because of their hearty sympathy and that we are quite as grateful to them for fraternal and humanitarian motives as we would be if it seem to require the acceptance of aid from Robert Bacon, Acting Secretary."

## WILL ACCEPT THEM.

New York, April 25.—The California club of women in executive session at its club rooms in the Waldorf-Astoria decided to accept donations from foreigners. In opposition to the stand taken by President Roosevelt, a resolution to that effect was unanimously adopted. A resolution while recognizing the grounds upon which the refusal was made, holds that the denial of the right to contribute because of nationality is wrong, harmful and without precedent. The resolution adds that "Americans have never been excluded from giving their aid and sympathy in cases of European disasters."

The general relief fund continues to expand. The total of the chamber of commerce total night was \$24,564. The combined Red Cross and mayor's fund had nearly reached \$600,000. The Merchants' association fund stands at \$145,450. The Jockey club, the controlling body of the eastern turf, yesterday contributed \$25,000.

## NO LIQUIDATION OF FIRE INS. CO'S ANNOUNCED.

New York, April 25.—The Tribune today says: None of the fire insurance companies yesterday announced coming liquidation on account of losses by the San Francisco fire, though the American Insurance company of Boston sent letters to its representatives telling them to cease writing policies.

Several New York agents of foreign companies have been fearful that the San Francisco disaster would cause the companies to withdraw from the American field. One agent yesterday displayed in the window of his office a message he had received from the home office. The message consists of one word, "Continue."
