

ALLEGED LEPER HELD AT WASHINGTON, D. C.: HIS WIFE, WHO AIDS FIGHT FOR LIBERTY

John R. Early, the North Carolina Salvationist who is being held on a government reservation in Washington as a leper, is making a desperate fight for his liberty, aided by his faithful young wife, Dr. L. Duncan Bulkley, a New York skin specialist, has made a private examination of Early, and this has given rise to a hot controversy among the health experts of the District of Columbia. Health Officer Woodward has written a letter to Dr. Bulkley demanding to know why he made the examination. Early's case has attracted attention all over the United States, and he and the government health authorities are receiving thousands of letters from sympathetic persons. Early quit taking medicine last November and strenuously insists that he has no sign or symptom of the dread disease. He goes about the yard surrounding his quarters in excellent health. Indeed, he is able to work and is so ambitious to do so that he cuts the grass on the reservation. His wife, who has a small child, does the cooking for him. Early's case is likely to find its way into the courts. He hopes to get a verdict from the specialist that will enable him to prove conclusively that he is not afflicted with leprosy.

H. H. ROGERS' ESTATE ESTIMATED AT \$100,000,000

New York, May 25.—The will of H. H. Rogers is to be read tomorrow at his late residence in East Seventy-eighth street, by his personal attorney, James M. Beck. Only the immediate relatives will be present.

Previous to the reading of the document, Mr. Beck would not discuss the contents or the amount of the estate involved. Estimates of the value of the estate range from \$40,000,000 to \$100,000,000. A number of anonymous friends of the late financier are quoted as saying that Mr. Rogers left an estate worth much more than was popularly supposed. In the Wall Street district, it is not believed, however, that the public will ever know even the approximate value of Mr. Rogers' fortune, as it is understood that the will was so drawn as to confine this information to the immediate beneficiaries. There is a possibility, however, that the state tax upon inheritances may bring to light the much discussed figures. The widow who is said to have collapsed after the funeral services at Fairhaven, was reported as improving today and it was said that following the reading of the will, she would return to Fairhaven for a long rest.

A SMILE

Is a pretty hard thing to accomplish when you're blue, bilious and out of sorts. There is a sure cure for all kinds of stomach and liver complaints—constipation and dyspepsia. Ballard's Peppermint Cure is absolutely effective in all cases. Price, 25 cents per bottle. Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main St., Salt Lake City.

SECY. DICKINSON PROVES HIMSELF A GOOD SHOT

Washington, May 25.—Secy. of War Dickinson proved himself the best marksman of the party which recently accompanied him to Panama, by killing a 30-foot alligator with jaws big enough to bite a man in two. An alligator hunt was arranged for the sec-

iron had passed through unusually intense heat, and have urged the government to acquire as much of the material left from the San Francisco fire as possible.

PRESIDENT FAVORS CUTTING MILITARY BILL

Washington, May 24.—President Taft today sent back to the war department the estimates submitted to him for the support of the military establishment for the fiscal year 1911 and indicated his desire that they should be cut approximately \$30,000,000.

The estimates were prepared during Secy. Dickinson's visit to Panama and carefully scrutinized by Acting Secy. Oliver, who reduced them to \$17,500,000—\$18,000,000 less than the estimates for 1910, but about \$10,000,000 more than the appropriations for that year. The figures have been submitted to Secy. Dickinson for final consideration. If he reduces them to the extent the president desires, it will involve a still further cut of \$18,000,000.

Army officers say the reduction in estimates means practically no army construction during 1911.

FOR PURE FOOD FOR CATTLE.

Chicago, May 25.—A national law that will protect the cattle industry by providing pure food for animals and also protecting dealers in such products, will be drafted by members of the National Association of Feed Dealers, now in session here.

"There is a great need of a law that will regulate the feeds for domestic cattle," said George A. Schroeder, assistant secretary of the association. "This can be done only through national laws, as the several state laws operate against each other with no beneficial result to the whole."

"A national law will result in better cattle, better markets and better prices."

STRUCK BY SIXTEEN POUND HAMMER, DYING

Lafayette, Ind., May 25.—Prof. Benjamin Hoke of Purdue university, who was struck in the abdomen by a 16-pound hammer, thrown by Guy Conwell, a member of the Van Buren, Ind., high school track team, in the state intercollegiate meet on Stuart field Saturday afternoon, is lying at the point of death. It was thought he was not seriously hurt, but his condition has become critical. He was one of the judges at the meet.

A LIVING SKELETON
Is the final condition of any child that has worms—if it lives. Think of having something in your stomach that eats like a rat. Nine-tenths of the babies have worms, may be yours has. Be certain that it has not by giving it White's Cream Vermifuge. It expels all worms and is a tonic for the baby. Price, 25 cents. Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main St., Salt Lake City.

ANTI-SPITTING CRUSADE.
Chicago, May 25.—Renewal of action against violators of the spitting ordinance was begun yesterday by the police and a party of men were arrested in the downtown districts.

TO BE ALLOWED TO SWEAR ON GOOD PROVOCATION

Madison, Wis., May 25.—The inalienable right of a citizen of Wisconsin to use profanity under sufficient provocation is not to be abrogated by the legislature with the consent of Gov. Davidson. The governor is not a profane man, but having lived in the Kickapoo valley for a quarter of a century, he realizes that a person may sometimes be so circumstanced that it is practically impossible for him to refrain from indulging in few sulphurous remarks.

Believing as he does, the governor vetoed the bill prohibiting swearing in any public place under a penalty of a \$25 fine or 30 days in jail, or both fine and imprisonment.

Assemblyman Hall, author of the bill, is disappointed and will try to pass the bill over the veto.

FELLED BY A BURGLAR.

Victim Found in Home Surrounded by Crackling Flames.

Chicago, May 25.—Insensible from a blow delivered by a burglar, John Adams, 18 years old, lay helpless while flames crackled about him last night, the burglar, according to the police, having set fire to the house before he fled.

The boy was alone in his brother's home, having been left to guard the house. Hearing a noise in the kitchen the carving knife with which he had sliced a loaf of bread laying on the table. Adams snatched the knife, but was felled the next moment.

The flames from the kitchen were seen by a passerby, who so alarmed the firemen found the boy still lying insensible on the floor and dragged him out. About \$50 damage resulted from the fire.

The police reason that the burglar, believing that he had killed his victim, set fire to the house, hoping the body would be cremated.

retary of war a few days after he reached Panama. The party journeyed 25 miles by tug down the coast to the mouth of Cheto river and 8 miles up that stream in small boats to the lair of alligators and crocodiles. Several of the party fired at the alligator, which eventually became the booty of Secy. Dickinson, but their bullets seemed to inflict little harm. Taking careful aim the secretary made a 35-yard shot and bagged his game. It was the only alligator taken.

CAVITE NAVY YARD EMPLOYEES CAUGHT STEALING

Manila, May 25.—Having missed property of various kinds from the navy yard at Cavite for some time, the officials there decided to make a surprise search of Filipino employees leaving the yard to ascertain if the mystery could be solved in that way.

Today a marine guard surrounded a gang of several hundred, among whom were 40 having various articles consigned about their persons. The latter were arrested.

It is estimated that 75 managed to throw their loot away before they

were captured and it is impossible to identify these individuals or connect them with the theft of the property recovered.

None of the articles are of much value, but in the aggregate the stealings probably would reach a considerable sum annually.

NEW ITALIAN DREADNOUGHT.

Oakland, Cal., May 25.—By the French bark Bretagne, now being loaded here, 40 carloads of scrap iron will be taken to Genoa, Italy, to help build a new Dreadnought for the Italian navy. The scrap is iron that went through the roasting of the fire of 1906. Two years ago a smaller consignment was sent to Italy and, mixed with steel, was found to make a much improved high resistance armor plate.

Italian engineers assign as a cause for this peculiar toughness that the

PEOPLE OF THE WEST FLOCKED TO SEE COOPER

Sufferers From all Sorts of Ills Eager to Learn About His Theory and Medicine.

During a recent tour in the west, L. T. Cooper made visits of several weeks in various cities in Kansas, where thousands of people talked with him and purchased his medicine.

His success was so phenomenal, as to cause universal comment both by the public and the press. There must be a reason for this. Here is the reason given in his own words by Mr. Cooper when interviewed on the subject. He said:

"The immense numbers of people who are calling on me here in the west is not unusual. I have had the same experience for the past two years wherever I have gone. The reason is a simple one. It is because my medicine puts the stomach into good condition. This does not sound unusual, but it is in fact the key to health. The stomach is the very foundation of life. I attribute 70 per cent of all sickness directly to the stomach."

"Neither animals nor men can remain well with a poor digestive apparatus. Few can be sick with a digestion in perfect condition. As a matter of fact, most men and women today are half-sick. It is because too much food and too little exercise have gradually forced the stomach into a half-sick condition. My medicine gets the stomach back where it was, and that is all that is necessary."

Among Kansas people who are staunch believers in Mr. Cooper's theory is Mr. J. L. Hayslip, residing at 202 Kansas avenue, Oakland, Kansas. He says:

"For some time I have been a sufferer from rheumatism. It finally became so bad that I could not sleep at night, and I was getting worse every day, de-

spite the fact that I was using various remedies that had been recommended to me.

The evening I happened to notice in the Topeka papers an article about the preparations Mr. Cooper was introducing in that city, and although I was skeptical of results, I decided to give them a trial.

"I went to Mr. Cooper's headquarters and bought a bottle of the New Discovery medicine. It seemed to help me from the start, and within a week I was feeling like a different man. Its continued use has relieved me of rheumatism and my sleep is now sound and restful. I am feeling better in every way."

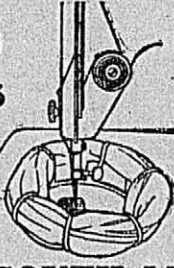

"My wife also used the New Discovery with very beneficial results for kidney trouble and nervousness. Frequently while handling the dishes her arm would give a jerk and the dishes would fall to the floor and break. She could not rest well at night, had severe pains across her back and felt weak and exhausted all the time."

"After taking Cooper's New Discovery a short time her nerves were wonderfully quieted and strengthened, the pain in her back subsided, she slept more soundly and felt much improved in every way. The New Discovery did her more good than any medicine she had ever taken."

"Cooper's New Discovery is the first medicine I have ever used that has done exactly as claimed, and I can honestly recommend it to others."

Cooper's New Discovery is on sale by all druggists and is a sample bottle mailed free upon request by addressing The Cooper Medicine Company, Dayton, Ohio.

**Cocoa
Fact**

No. 11

The cocoa tree is an evergreen. Frequently one tree will have buds, flowers and fruit in all stages at the same time. The gathering of the cocoa bean is however usually done in semi-annual harvesting periods. The cocoa tree should not be confused with another totally different plant from which the alkaline cocaine is obtained.
