## MANGLED UNDER FREIGHT CARS.

Heber Wright Meets Shocking Fate on Ogden-Lucin Cut-off Near Promontory.

#### HEARINGS IN DISTRICT COURT.

Wedding of Julian B. Leavitt and Miss Bessie T. Moyes-Funeral Of John F. Keyser.

Heber Wright, a Southern Pacific brakeman, was frightfully crushed about 8 o'clock yesterday morning by falling under some moving cars on the Ogden-Lucin cut-off near Promontory Point, and died in the Ogden hospital

point, and died in the Ogden hospital at midnight.

Mr. Wright was a brakeman under Conductor McCullough and was assigned to work on the cut-off division. Early yesterday morning the crew braited out to pick up some ballast cars that had been derafled during the night in a wreck. The cars were put back on the rails and the engineer had back on the rails and the engineer had received the signal to start back. Just at this time Mr. Wright noticed that the brake on one of the cars was set, and he started to release it. As he swung his weight on the wheel the engine started and just then the brake rod sliped from its fastenings and he plunged head long between the cars, which, by this time, were in motion. Several wheels passed ever him before the train could be stopped. He was immediately picked up and cared for by the other members of the train orew, and brought to the hospital at

Mr. Wright, who was the son of Judge Wright, one of the pioneers of Brig-ham City, was sheriff of Weber county for one term about 10 years ago, and since retiring from that office has been in the employ of the railroad company. He formerly lived in Brigham City, and has numerous relatives in Boxelder. Weber and Salt Lake counties, Among the latter is Dr. Ellas S. Wri of Salt Lake, a brother. His family, consisting of a wire and five daughters, live at 554 Twenty-eighth

The watch which the unfortunate man carried was badly bent, by the same force, probably, that broke his ribs. The hands of the timepiece storped at 8:32, marking the exact time the accident.

At an early hour this morning it was stated at the hospital that Wright could not survive many hours.

Special Correspondence. Escalante, Garfield Co., Aug. 26.—Af-ter the longest dry spell in the history of the town of Escalante, rain again began failing about the 25th of July, and there has been continuous shower and there has been continuous showers every day since that date. There has been only a small portion of the rains fail in the valley, the greater portion and heavier rains failing in the surrounding mountains. This has had a good effect on our water supply for irrigation purposes. For a short time prior to the beginning of the rains the water from all the field ditches was turned into town for use on the garuried into town for use on the gar-lens and orchards. #### FIGHT ON C. F. & I. Looks as Though the Gates Bubble Has Been Punctured.

Is John W. Gates, who renewed his fight on the Colorado Fuel & Iron company a few days ago, already beginning to weaken? Local officials of the Col orado Fuel & Iron company declared last night that he is, and in substantiation of their claims they point to the announcement made by the Union Pacific yesterday of a withdrawal of the cut rate on steel products after Sept. 10.

It simply means that the Gates bubble has been punctured and that here after he will be on the defensive." is the way a prominent official of the Colo-rado Fuel & Iron company put it.
"When Gates opened up the fight the other day, the Rockefeller-Gould interother day, the Rockeleiter-Gould inter-ests were prepared, as was shown by the rotalilatory reduction on the part of the Missouri Pacific. Now that Mr. Gates has shown the first sign of weak-ening, it is the intention of Messrs, Rockefeller and Gould to take up the cudgel and, instead of being on the de-fensive they arothese to strike right. fensive they propose to strike right out from the shoulder and put Gates and his wire and nail trust to the bad. The retaliatory rate on the Missouri Pacific will not be withdrawn, as Gates would have it, but, in addition, there will be a reduction of rates on steel products on the Wabash."

It was further explained that such a reduction would give the Colorade Fuel

eduction would give the Colorade Fue & Iron company the chance to invade the eastern territory, Through the Mis-souri Pacific and Wabash, the wire and nails can be carried to Pittsburg, the stronghold of both the American Steel and Wire company and the United States Steel corporation. It will further give the Colorado Fuel & Iron a chance to invade the eastern market should the steel trust reduce the price of steel rails. While the steel trust is making an effort to break into the western field, the Colorado Fuel & Iron. through the Missouri and Wabash, will have a chance to affect the trust's busness in the east, - Denver Post.

#### UNITED SALT CO.

J. D. Rockefeller Highest Bidder

For the Concern. Cleveland, O., Aug. 30 .- A supplemen tal report of the special master in the sale by the common pleas court of the United Salt company properties today showed John D. Rock-felier to be the highest bidder and probable purchaser of the concern. The United Salt company is, or rather was, one of the largest and most important interests in the American salt industry, but in the last few years its value and its assets have decreased by reason of exhaustive and complex litigation. Rockefeller's bid is \$90,000. A conditional offer of \$120,000 is made, however, which is contingent upon the courts approval of certain assets being included in the certain assets being included in the deal. The sale of the United Salt company is the result of three years of re-ceivership, into which it was thrown when the National Salt company, better known as the salt trust, attempted to merge with it.
