Tonight the Theater will enter upon one of the most interesting experiences which has been tried since the house changed hands. The management has long felt the justice of the complaints that have gone up regarding the inferfor character of the attractions being sent West, and also realized the financial loss the house was suffering by having so many unfilled dates. When the opportunity presented itself, therefore, to obtain a strong organization like that headed by Nance O'Nell and Clay Clement, and to book them for a two-weeks' term, the owners of the Theater decided to make the venture. Sait Lake will thus be given a taste of the stock company system which was once so popular at the Theater and which made the reputation of Grand. The Nance O'Neil company comes with the highest recommenda Miss O'Nell herself has the reputation of being one of the strongest young actresses on the American boards. Her leading man, Clay Clement, is too well known here to need word of commendation. Mc-Kee Rankin, manager of the company, Ree Rankin, in several of the plays also appears in several of the plays to be rendered. Mrs. Clay Clement, a capable actress, is another member the company. The opening bill tonight will be Magda, a strong play on the emotional order, originally brought cut, we believe, by Modjeska. The bill will changed frequently and during stay here eight or ten plays will be presented.

The Bostonians closed their Salt Lake season yesterday in thoroughly brilliant fashion. The matines of Robin Hood drew out a handsome audience Tuesday afternoon, and the verdict was that the popular work, which never seems to grow old, has seldom been bet-ter rendered. Mr. Barnabee was all nself as the sheriff of Nottingham Miss Van Dresser presented a perfect picture to the eye in the character of Alan A'Dale, and for her artistic ren-dering of "Promise Me" she gained a great recall. The hit she made on the opening night was repeated by her artistic delineation. Mr. Haw-ley, understudy for Mr. McDonald, was an excellent "Little John," and the other Mr. McDonald, while he has a big voice, is far below Eugene Cowles. Miss Bertrem rendered the part of Maid Marion with felicity and her work was heartily encored.

In the evening that popular and most clever work "The Serenade," drew an-other great audience. It was "under-study night," and at first there was some feeling of disappointment to find that Miss Bertram, Mr. Rushworth, the tenor, and Mr. McDonald, the baritone, were not in the cast. This feeling soon wore away, however, and in the case of Miss Cameron a positive triumph was achieved. She sang the aria with flute obligato in most brilliant fashion, and got a triple encore for the admirable way in which she sustained her high "D." Mr. Knight, the tenor, did his one "D." Mr. Knight, the tenor, and his one solo acceptably, but otherwise was un-satisfactory. Mr. Hawley is even better than the original Mr. McDonaid. Mr. Dunsmore filled Cowles' place very acceptably and won some hearty recalls. The two features of the night were again Mr. Barnabee in his most humorous part of the Duke, and Miss Dresser as Dolores, a role which has been filled here by both Jessie Bartlett Davis and Jennie Hawley. Miss Van Dresser's appearance was again enchanting, and while her voice is not all that it might be, or doubtless will be with further experience, she obtained hearty recognition for her beautiful solo "The Angelus." The company for Butte last night. They play in the north for two weeks, then open in San Francisco, the feature of their engage-"The Serenade."

At the Grand tonight "Uncle Tom's Cabin" goes for the last time. Tomor-row evening Lincoln J. Carter's "Re-

Then a scene followed that was simply a circus to the newsboys. The officer held the unknown in the mud until the patrol arrived. At the station the fellow flatly refused to divulge his cognomen.

Attorney Smith says that the boy's father, Esquire Thomas McKee, was at ាព time a very prominent figure in cen-tral Illinois, and the family is a good Attorney Smith regrets that the youngster did not give him a call.

It has finally been ascertained who it was that purloined a set of brass mounted harness from E. P. Yowells stable in Richard street. Several days ago Officer Sperry obtained a clue as to the identity of the thief and he has hung on to it like grim death. The harness was stolen on the night of Jan-uary 9th by John Williams, a young man who is now being held to answer to the charge of housebreaking. Wil-liams disposed of the harness to a second hand dealer at 149 State street. Today Officer Sperry and the second hand dealer visited the county jail where Williams is incarcerated, and he was positively identified as the one who sold the harness. A few days ago young Williams entered a man's room in the Roberts block and stole several articles of jewelry, for which he was held to awalt the action of the district court.

alone is impure blood. If this as allowed, it is attended by kindred ailments galore. This condition means that every vein and artery of the body, instead of carrying to the organs a health-giving flow of life, is laden with a slow and impure fluid that is harming instead of healing.

It is unfortunate when there is "bad blood" inside of you. Hood's Sarsaparilla will not make enemies friends, but it will make "bad blood" good blood, and blood should be of the best quality. Hood's never disappoints.

### Concession to Fruit Growers.

The Los Angeles, Cal., Times of Jan. 16th says that the Southern Pacific and Santa Fe railroads have agreed to what they regard as a very material concession to the shippers of citrus fruits. When the roads insisted on the right to route all cars of fruit to the destination named in the shipping reeipt by whatever roads the initial carier thought best, the shippers set up he contention that this was likely to result in great hardship to them. The roads have now agreed that car load lots will be sent in a broad way by whatever route the shipper may designate, but he will not be allowed say by what roads the car will be forwarded after leaving the line of the initial carrier. The concession is to be in force at once.

### RAILROAD NOTES.

H. Stelfel, general agent of the Southern Pacific, is here. Sixty-five pound steel rails are to be

laid on the Western's Park City line when the gauge is widened. Western lines are following the ex-

ample of those of the East in refusing to pay ticket commissions. Officials who are to attend tomorrow's

meeting for the consideration of the trans-continental schedule are nearly all here.

Car repairers of the Short Line are asking a 10 per cent increase in wages count of the present greater cost of living. A special train was run out of here

Lockport, Ills., Jan. 17 .- The bear trap dam was lowered at 11:16 a. m. to day, allowing the water from the Chl-cago drainage canal to flow into the Desplaines river. The canal trustees arrived at Joliet at 10 a. m. and at 10:50 a. m. secured permission by wire from Gov. Tanner to lower the dam. They immediately took a special train and arrived at Lockport in a short time and went at once to the dam.

President Boldenweick of the trustees board made a short speech introducing Col. Isaac Taylor, of the canal commission. Col. Taylor made a five-min-ute speech in which he said the opening of the canal was but the beginning of a greater work which would connect the Great Lakes of the north with the Mississippi river. He added that he authorizes the trustees on the authority of Gov. Tanner to lower the dam.
