WASHINGTON

Although about four hundred employes have been removed from the ureau of engraving and printing, since last winter, there are now seven hundred men, women and boys employed in that branch of the Treasury Department, engaged in printing legal tender notes, revenue stamps, and faces and seals of the new bonds. The last named will not be ready for delivery before the 15th or 20th of the present month, when there will be a small supply of all denominations.

ROCHESTER, 5 -The strikers at the reat canal break have surrendered, and ary sout out last night from the city are still on the ground.

NEW YORK, S .- A severe rain storm, which set in here yesterday, prevailed all day and night and still continues. The Tribune's Washington special says Senators Morton and Cameron, in response to a telegraphic summons from the President, arrived here yes-terday. They came in advance of the meeting of the Senate, in order to become familiar with the treaty of the mint high commission, and to examine the papers and documents, which are very voluminous and intricate, relating to the subjects of discussion between the English government and our own. The treaty has been printed confidentially for the use of the commission. and copies will at once be placed in the hands of all the members of the fornands of all the members of the foreign relations committee, also
in those of the members of the Cabinet.
Secretary Boutwell returned yesterday,
two days earlier than was expected, in
order to participate in the examination
of the treaty, which is to occupy the
whole time of the Cabinet to-day. The
commissioners have adjourned until
Haturday, to give the Cabinet time to
examine all the conditions embraced in
the treaty, and if the Cabinet suggest
any amendment or change the same

any amendment or change the same will receive the attention of the commission on Saturday. The treaty will then be signed in duplicate by all the members of the commission on behalf of both governments, there being no dissatisfaction expressed by any of the members, and all being fully satisfied that the treaty is just, fair and honorable to both governments. Every American member of the commission

American member of the commission expressed the unbesitating belief that it will be ratified, and Judge Neison, who is the only Democratic members and the unbesitation of the provisions. He says no fair-minded American, who examines the subject intelligently and with candor, can fall to approve the treaty in all its points.

The report that Sumner is writing a speech in opposition to the treaty, and that he will take occasion in it to explain his unfriendly relations with Secretary Fish is unfounded. Sumner has not seen the treaty, and he will not oppose it unless it shall appear to his mind, after an examination, that it is unwise and defective. Morton will probably have charge of the treaty in probably have charge of the treaty in

The latest dispatches show that the miners have surrendered to the operators. Work at some of the mines is al-ready resumed, and all the mines will be in operation next week. John Sney, President of the Pennsylvania and Schuylkill R. R., resigned yesterday, because he did not wish to stand in the way of arbitration, the operators having declared they would not treat through

The bill of complaint in the suit of James Fink, Jr., against the Union Pacific R. R. and the Credit Mobilier, which was originally begun in the Supreme Court, was filed this morning in the cierk's office of the United States Circuit Court under the recent order of removal. This is the case in which Fisk accuses the Union Pacific Company, the Credit Mobilier and other defendants, of forming a conspiracy to forward the interests of certain stockholders.
