been performed and the death of the woman from the effects of the same. The information charges that Miss Hill died either from the chloroform given for the purposes of the operation or from the effects of the operation, and it is only necessary for the state to prove that her death was caused from either one or the other. As i stated either one or the other. As I stated ing iy opening statement, the evidence rely circumstantial in this case.

AS TO THE FACTS. "Now, gentlemen, as to the facts. Miss Hill was school teacher in this city and was about 32 years of age and lived with Mrs. McKay, her cousin. Mrs. McKay stated that she left home between 8 and 9 o'clock on that day. Mr. McKay stated that she ate a very light breakfast, which shows that she contemplated the operation and had been instructed not to eat a heavy breakfast. Another fact that shows that operation was contemplated is that Dec. 29 was the beginning of the Xmus vacation and it is very natural that she would have the operation performed then so as to have two weeks in which to recuperate. Miss Bond stated that she saw Miss Hill at about 10:30 o'clock that morning and the next thing we hear of her is in Auerbach's store at about 11:30 o'clock, where she purchased some cheesecloth used for sur-gical purposes. The evidence shows that she must have walked around the streets for some time and it is impossi-ble that she could have performed the operation herself and then walk around town as she did. "Next, Mr. Smith said that he saw a lady enter the stairway leading to Dr. Indy enter the stairway leading to Dr. Payne's office. According to the state-ment of Dr. Payne himself, Miss Hill was in his office about an hour, from about 11:30 to 12:30. There is no dis-pute as to Dr. Payne going to the po-lice station and the story he told at the station. The next we see Miss Hill in Dr. Payne's office lying dead. This cloth with its blood stains was found on the body of Miss Hill. What did the autopsy reveal? There is the attempt-ed operation, and the statement of both ed operation, and the statement of both Drs. Mayo and Odell that she could not have performed the operation her-self. Both witnesses testified that she self. Both witnesses testified that she died from paralysis of the pneumogastric nerve caused by the administration of an anaesthetic.

reports indicate that the number of injured is comparatively small. "More provisions are needed," is the report from Heppner this morning. Other help seems fairly well supplied. whether those instruments had been used that day. Tell me, would a man

Polling of Votes Proceeds Quickly Under Australian Ballot System.

MODERN WOODMEN OF AMERICA Berlin, June 16-The polling in the reichstag elections began at 10 o'clock this morning and proceeded quickly under the new modified Australian ballot law, the electors rarely staying in the booth That on the latter date that the Wood-men had 664 beneficial members carrythe electors tarely staying in the booth-longer than a quarter of a minute. In Berlin the balloting was not accompanied by the least disorder, even in the so-called slum precincts. The parties resorted to the election factics often practised in Ger-many, sending voters from the strong districts where they are not needed to the doubtful ones. The jaw permits this. Woodmen of America began here today. After the welcoming address, to which The net gain was 126,308 and the net gain in insurance \$348,087,500. There was also a net gain of 1.959 local camps, the total being 10,654 in good standing Dec.

THE CAUSE OF DEATH.

"Dr. Mayo stated that if she had died from convulsions the cause of the convulsions would have been evident at the autopsy. There was no cause of convulsions. Let us look at Dr. Payne's story. He said that he gave her medi ine which con-tains ingredients that are used to revive persons from the effects of chlora-form or other drugs. Mr. Wanless howled about Detective Chase destroying evidence. Why, there is no dispute about the contents of the medicine, but yet Mr. Wanless didn't have the nerve to ask Dr. Payne on the witness stand yesterday what that medicine was used Dr. Payne says that he worked for. Dr. Payne says that he worked with that woman for an hour, yet he didn't call for any assistance. He didn't go and ask Mr. Smith, the druggist, ty maid that Mirs. Lyon asiat him. He said that Miss Lyon came to the door while Miss Hill was there.' Gentlemen if that is true, you know that he would have called her in to belle him. to help him. DR. PAYNE SCORED. "He tells you that he locked his of-

"He tells you that he locked his of-fice up and left Miss Hill there dying. Gentlemen, a man wouldn't have left a dog to die in that way! A man who would do an act like that hasn't the in-stinct of humanity! He has an aban-doned and malgrant heart! Such an act is the act of the devil himself! When Dr. Payne locked his office and went to the police station that day without telling anyone about this matwithout telling anyone about this mat er he was running away from his rime.

crime! "Now, what did we find at the office of Dr. Payne? There was Miss Hills' hat, coat and rubbers, which had been removed. You know that if a person feels lige vomiting he don't care wheth-er his rubbers and jacket are removed or not. What difference could it have made whether Miss Hills' rubbers were removed or not? Gentlemen, in conclu-sion. I will say that we have proved sion. I will say that we have proved to you that she could not have per-formed that operation herself and that it couldn't have been performed else-where than in Dr. Payne's office, If it has not been fixed yet.

taken the time there to have cleaned those instruments and placed them back in the satchel along with the Christmas it sents which he had bought for his wife and child? We have absolutely disproven the fact that thos nstruments were used upon Miss Hill. MISS HILL'S BREAKFAST.

"Just one word about the statemen of the district attorney that Miss Hill was evidently told to eat a very light breakfast that morning in contempla-tion of the operation. Why both Mr. and Mrs. McKay stated that she at the usual breakfast of the family! If any one had told her to eat a light breakfast wouldn't they have told her not to eat any breakfast whatever Any doctor contemplating an operation of that kind would advise a person nor o eat anything for several hours befor Is eat anything for several hours before the operation. They ask you genilement to find this defendant guilty because someone told Miss Hill to eat a very light breakfast on that morning, in the face of the fact that the testimony here shows that she ate the usual breakfast except that she ate eggs in-stead of meat." stead of meat." At this point the court took a recess

until 2 o'clock this afternoon.

DEATH OF JAS. E. DANIELS

One of Provo's Oldest Citizens Answers the Final Summons.

He Arrived in Salt Lake in 1850 and Was a Prominent Churacter Up To the Time of His Demise.

(Special to the "News.")

Provo, June 16 .- James E. Danlels, one of Provo's oldest and most highly respected citizens, passed away this 29, setting aside permanently portions morning from general debility at the of Utah for forest reserves. The prouge of 77 years. The deceased was born Feb. 9, 1825, in Manchester, England, and was baptized into the Church in November, 1841, by Elder Charles D. clamations embrace two tracts known as the Logan and Manti forest reserves respectively. Some changes have been Miller. He emerated to America with made in the boundaries of these two his mother's family in 1842, landing a reserves from those originally selected New Orleans.
