

EFFECT SUGAR AMALGAMATION

The Utah-Idaho Company Absorbs All Three of the Old Concerns.

CAPITAL THIRTEEN MILLIONS.

Meetings of All Three Corporations Held Yesterday and Unanimous Action Taken.

The long talked of amalgamation of the Utah Sugar company, the Idaho Sugar company and Western Idaho Sugar company, went into effect yesterday, when Atty. Richard W. Young filed in the office of the secretary of state the articles of incorporation of "Utah-Idaho Sugar company," the new company which absorbs the other three; the filing was accompanied by the payment of a fee of \$3,250 to the state treasury, the tax under the incorporation laws on a company having \$13,000,000 authorized capital.

THREE MEETINGS HELD. The special meetings of the stockholders of the three merging companies, at which the decision was reached to form the consolidation, were held at the office of the sugar companies in the Deseret News Annex at 2, 2:30 and 3 o'clock p. m. yesterday. The Utah company meeting first, the Idaho second and the Western Idaho third.

The room was filled with stockholders of the several companies, though many others were represented by proxies, and the total number of shares represented at each meeting was as follows: The Utah Sugar Co. 187,355 shares preferred stock out of a total of 300,000, and 218,418 shares of common stock out of a total of 300,000.

The Idaho Sugar Co. 301,539 shares out of a total of 650,000. Western Idaho Sugar Co., 78,341 shares out of a total of 100,000 shares.

T. R. Cutler presided over the first meeting, and President Joseph F. Smith at the other two. H. G. Whitney acted as secretary of the three.

ARTICLES ADOPTED. Atty. Richard W. Young read the articles of incorporation of the "Utah-Idaho Sugar Co." to all three of the assemblies, and they were adopted by each by a unanimous vote.

The articles provide for taking over all the assets of the three old companies and assuming all their obligations. The term of existence is for 50 years; the authorized capital is \$13,000,000, of which \$10,000,000 is in preferred, and \$3,000,000 in common stock. The latter is to be issued in exchange for the same amount of common stock of the Utah Sugar company now outstanding; of the former only \$1,000,000 is to be issued to take up the preferred stock of the Utah Sugar company, the stock of the Idaho Sugar company and of the Western Idaho Sugar company as follows:

APPORTIONMENT OF STOCK. The \$3,000,000 preferred stock of the Utah Sugar company to receive an equal amount of the preferred stock of the Utah-Idaho Sugar company.

The \$2,501,870 stock of the Idaho Sugar company to receive approximately \$2,500,000 of the preferred stock of the Utah-Idaho Sugar company.

The \$1,000,000 stock of the Western Idaho Sugar company to receive \$1,000,000 of the stock of the Utah-Idaho Sugar company.

The remaining \$1,900,000 preferred stock of the new company is to remain in the treasury to provide a working capital and for future contingencies of the business.

Officers of the company chosen. The officers and directors chosen to serve until the first election in April, 1908, are: Joseph F. Smith, president; Thomas R. Cutler, vice president and general manager; John R. Winder, secretary; J. Grant, John C. Cutler, H. G. Whitney, Richard W. Young, Joseph Georgehan and W. T. Pyper. The four last named will serve temporarily and will be replaced by W. S. McCord, John Henry Smith, W. N. Nibley and George Romney, all of whom are at present out of the state. H. G. Whitney is the secretary and treasurer.

PLANTS INCLUDED. Fifteen pages or more of the articles of incorporation are taken up in describing the various properties and assets of the three old companies now merged into the new. These properties comprise the sugar factory at Lehi, the auxiliary plant at Provo, Springville and Spanish Fork, the sugar factory at Garland, the Garland Townsite, the land and canal system in Boxelder county, the electric power plant near Collinston, the pole line connecting it with Ogden, the sugar factories at Idaho Falls and Sugar City, the auxiliary plant at Parker, the sugar factory at Nampa, with the large tracts of real estate near each of the Idaho factories, several railroad spurs, all book accounts, etc., etc. The assets also include:

FOR MUTUAL PROTECTION. Merchants' Organization Formed to Shut Out Non-Bill Payers.

An old-time commission dealer in commenting on the recent action of the merchants and tradesmen in organizing to shut down on dead beats and delinquents, said today: "Before this organization was effected, a laborer, for instance, could apply for credit at a store where he may apply for credit, and he must pay spot cash for his goods or go without. There are not a few people in this city free in spending money in amusements and for personal gratification that they ought to use in paying their just debts. This has become a crying evil—so bad, in fact, that the merchants find themselves compelled to take drastic steps to remedy it, and save themselves from serious losses. There may be an outcry and a kick, but this will do no good, the most substantial business men in the city are behind this movement, pushing it along, and consumers must learn a much needed lesson in moral ethics, even if it does curtail some of their lines of enjoyment."

Postmaster Thomas has prepared a list showing how, in many cases, mail that should not be forwarded, comes to the general Salt Lake postoffice from Salt Lake people. In one day there were 17 parcels, postal cards and letters that either had to be returned to the sender, or to the dead letter office, or to be heard from no more. One large letter containing valuable papers was unsealed. The postmaster has made up a summary of delinquencies in one day's mail:

(Special to the "News.") Cheyenne, Wyo., July 19.—The commission appointed by Gov. B. B. Morison, now of the Colorado Agricultural college, Fort Collins, has made its report to the governor, showing the charges to be untrue in the main. The commission made a number of recommendations, such as a non-partisan board of trustees, etc. The conduct of the experiment farm was criticized by the commission, and while no bids had been called for in the matter of fuel supply and university printing, coal and printing had been secured cheaply.

BAIL FOR MRS. BRADLEY. Attorney Says Efforts Will be Made to Raise it in Salt Lake.

Atty. Thomas Marleneaux of the firm of Powers & Marleneaux gives it out that the work of raising bail for Mrs. Bradley will be taken up in Salt Lake as soon as it is possible for her to leave the Washington hotel in which she is now confined. "It will be a question," he said, "of finding friends financially able to qualify as bondsmen, and I do not doubt but that it can be done."

MAY SURVIVE BROKEN NECK. Miss Dawn McPherson's Chances for Recovery Are Good.

According to the Los Angeles Herald Miss Dawn McPherson, said to have formerly been a resident of Salt Lake, may recover from the effects of the broken neck from which she is now suffering in a Los Angeles hospital.

A brief telegraphic account of the accident which resulted in the death of the injured woman and her mother were in a street car that ran down and killed a woman in Los Angeles. The sign of the accident occurred both women and they were unable to sleep after they had retired. The bed in which they were was an old-fashioned folding bed from which the castors had been removed. This caused the heavy section to tilt over the woman and her mother, and the section had been injured. The safety lock had been neglected and while lying together talking over the accident they were both carried upward and they were prisoners. Miss McPherson is taller than her mother and her head was caught between the head rest and the back of the bed. The castors are supposed to have caused the cracking of the neckbone. The mother could not speak and at the hospital the head of her injuries were removed.

None of the McPherson families in Salt Lake are acquainted with the Los Angeles family.

A prettier church wedding has seldom been seen than that which took place at St. Paul's last night, when Miss Beatrice Walker Cheesman was married to Lieut. Robert Nelson Sainpall, the Rev. Charles E. Perkins officiating the ceremony. The church was elaborately decorated in military style, stacks of arms in the windows and on either side of the chancel steps. Two immense flags draped the ceiling, while another covered the chancel window. Banks of Shasta daisies, palms and ferns at the altar lent softness and beauty to the scene. Wagnerian selections were played before and during the ceremony, and as the service was finished, the bride party left the church, accompanied by the strains of the Mendelssohn wedding march. At the home, which was splendidly decorated with Shasta daisies, palms, ferns and red sweet peas, a reception followed for a large number of friends and relatives. After supper, the bride and groom left on their wedding journey. The bride wore a gown of cream chiffon satin, trimmed with real lace worn on her mother's wedding gown. The veil, also worn by her mother, was caught up by jeweled pins in the hair. The bridesmaids' dresses were pale blue empire gowns with slippers and gloves to match. They carried shower bouquets of deep red sweet peas. The bride's traveling dress was brown and tan checked veiling, with hat to match. Lieut. and Mrs. Campbell will return soon for a short stay in Salt Lake, after which they will be located at the Presidio with his regiment.

The second entertainment in honor of her guest, Mrs. Arnoldson, was given yesterday by Mrs. Byron Cummings, when about two hundred enjoyed her hospitality.
