Provo is likely in the near future to have a first class sanitarium for consumptives. The Swedish Lutherans of the United States, represented by the Augustana synod, have under consideration the establishment of such an insiltution somewhere in the Intermountain states. Mr. L. P. Nelson, a correspondent and representative of the Swedish press in the east, an ardent worker for the location and building of such a sanitarium, has been visiting Salt Lake City, Ogden, Provo, and other

The fact that Provo lies so beautifully sheltered under the mountains from northerly and easterly winds, and in close proximity to Utah lake, which has the effect of softening the elimate by furnishing the air with a certain amount of moisture, making it mild an pleasant, is, in the opinion of Mr. Nel son, of paramount importance when the location for a sanitarium for con-sumplives is to be considered. The elevation of Provo being 4,500 feet abov-sea level is also greatly in its favor h sea level is also greatly in its lavor in this respect, as the air in higher alti-tudes is too dry and harsh forconsump-lives, and cannot be endured by pa-tionts in advanced stages of the dis-

The town of Provo is a handsome. well built country town, free from smoke and dirt, with all modern im-provements, such as water, electric lights, sewers, etc. The surrounding country is a rich and very productive farming country, where all the neces-sary supplies for the table of the sanitarium can be bought fresh and at rea-sonshie prices. The soil and drainage of the town and country is all that ran be desired, and everything seems to combine in making Prove an ideal place for a sanitatium.

In Time of Peace.

In Time of Peace. In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the script advantage of those who, so to speak "have shingled their pools in dry weather." The virtue of preparation has men. The individual as well as the nation he individual as well as the nation he first cold you take? A cold can be young the first cold you take? A cold can be young at that been contracted and before the first cold you take?
