

SWISS EMIGRATION.

The following list of names has been forwarded from Switzerland, by the President of the Swiss Mission, for publication in the News. This company left Liverpool on the 9th of July, and is expected at Ogden about the 1st of August. The names are published earlier than common, that friends in the country may be apprised in time to meet and assist them on their arrival:

AUSWANDERUNGSLISTE.

Abegglen, Gottl., von Gundlischwand.

 Winkler, Susanna, von Hotli bei Bichelsee.
 Zanger, Christian, von Oberstoken bei Thun.
 Zahler, Bertha, von Bern.
 Zweifel, Barbara, von Landquart.
 Total, 148

LOCAL AND OTHER MATTERS.

FROM WEDNESDAY'S DAILY, JULY 18.

PERSONAL.—Hon. Lorin Farr, from Ogden, called in to-day, evidently in excellent health and spirits.

WOMAN'S EXPOSITION for July 15th is to hand. Every family in the Territory should have a copy.

THIRD DISTRICT COURT ADJOURNED.—The District Court of the Third Judicial District, met at the City Hall, at 10 a.m. to-day, Judge Boreman presiding, who, without transacting any business, adjourned the court till the first Monday in August.

EXCURSION PARTY.—The excursion to Lake Side yesterday, under the auspices of the Eleventh Ward Sunday School, was a very pleasant affair. The party comprised about 200 persons, a few of whom were from other wards. They were conveyed in three cars which had been previously chartered for the purpose. All who participated appeared satisfied that they had spent a most agreeable day.

MARKET WAGONS.—Vendors of fruits and vegetables who go around with loaded wagons at early hours of the morning, supplying the citizens with what they want in their line are doing a good business just now. They find a much more ready sale for their produce by adopting this plan than by standing with their wagons on the market grounds. It saves purchasers the trouble of going to the fruit and vegetable market.

BEAVER, 15.—We received the following from Mr. Dupax, of Minersville: The two furnaces of Timmerman and Shumer, at Shanty Springs, are getting ready to smelt. Intend to heat up in about eight days. It is a busy time, hauling ore, and there is great anticipation of a glorious future for "South Star."

PROVO.—David John writes from Provo, July 13, as follows:—

"The Sunday schools in Utah County are in a prosperous condition. In many of the settlements two teachers have been appointed over each class. This move is a grand success.

"A few of our superintendents have failed to send in their quarterly reports, and some others who have reported, have done so twenty days after date. It is desirable that an early reformation take place in this respect, for punctuality is a virtue and aid in every good cause."

POLICE COURT.—Thomas H. Dunne was under examination to-day, before Justice Clinton. He was charged with obtaining, under false pretenses, from R. Y. Anderson, a quantity of flour, and something over two thousand empty cracker boxes, all of which he disposed of, the sum he is alleged to have received for these goods being in the vicinity of \$500. The case was not concluded at half past two this afternoon.

THE FOURTH.—At Harrisburg the Fourth was celebrated with explosions of fireworks, meetings in the Bowery, singing, prayer, Declaration of Independence, after which W. G. McMullin delivered an appropriate oration, followed by songs, speeches, &c., by others. The juveniles had a dance in the afternoon, and the elder people in the evening. All peace and good order.—A. Randle, Wm. Sterling, B. Y. McMullen, Committee of Arrangements.

WEBER VALLEY.—The people of Weber Valley have had poor crops for the past four or five years, having been visited by grasshoppers, late frosts, &c. Bro. Thomas Colborn has been in that locality lately and he tells us that the prospects for the coming harvest are splendid. Grain and grass look fresh, healthy and beautiful.

Mr. Colborn informs us that he will enter upon his seventy-third year in two weeks from yesterday, and he is still hale and hearty. He resides at Kayville.

COMMITTED TO JAIL.—At two o'clock yesterday Judge Snow opened the argument for the prosecution in the case of Ah Gyp and Chong Wong, for the killing of Joseph Simon. He was followed by Judge Telford on the part of the defense and Judge Snow then delivered the closing argument for the prosecution.

After the argument Justice Clinton summed up the evidence, concluding by stating that he considered it sufficient to warrant him in committing the prisoners to jail, and he did commit them to answer to the Grand Jury of the District Court of the Third Judicial District, at its regular sitting.

CITY CREEK MINES.—Favorable reports come in from this new district, the indications of extensive galena as well as iron deposits being very promising.

It has been recently discovered, on examination of the boundary line between Salt Lake and Davis Counties that most of the mines are in the latter county, which somewhat disarranges some of the business done by the organizers of the districts.

We hear of several investments of capital in those mines, and of prospects of more.

PLEASANT GROVE.—F. Beers writes from Pleasant Grove, July 14, as follows:—

"The home missionaries, under the presidency of Bishop A. O. Smoot, held two days' meetings here, terminating July 13th. A number of the county missionaries were present and valuable instruction was given by the speakers. The education of the young, home manufacture, self-sustaining, tithing, of the kingdom of God on the earth, and other subjects of importance were referred to. The singing was excellent under the leadership of W. M. Framp-ton. A good spirit prevailed."

MAIL IRREGULARITIES.—Complaints are made by our subscribers at Wallsburg, Wasatch Co., of the irregular manner in which the mail matter arrives there. The nominal sum of eight dollars per annum is allowed by government for carrying the mail from Heber City to Wallsburg, a distance of fifteen miles. It is not thought that the fault is at the Heber City office, but between this city and that place. It is considered rather discouraging to have to wait three to four weeks for mail matter from this city when it ought to make the trip inside of four days.

POLITICAL CONVENTION.—To school superintendent R. L. Campbell, who arrived yesterday morning from Wasatch County, we are indebted for the particulars of a political convention of that county, held on Monday afternoon, at which the following nominations were made:—

For Councilors to the Territorial Legislature, A. O. Smoot and L. E. Harrington. County Sheriff, Richard Jones. Coroner, T. Rasband. Superintendent of Common Schools, Thomas H. Giles. Surveyor, John Sessions. Selectman, John Watkins. Justice of the Peace, H. McMillan. John Gallacher was chairman of the Convention and C. Shelton clerk.

Utah and Wasatch counties are combined in the matter of electing Councilors to the Legislature.

ANOTHER VERSION.—We have received from F. J. P. Pascoe a communication regarding the difficulty which occurred on the "north bench" a week ago last Sunday, between Lars Larsen and — Winter-ton, the result of which was that the latter had his arm broken. Mr. Pascoe's communication gives a different version of the affair than that given in a former correspondence, by A. Headquist, but as it is not a suitable matter for newspaper controversy we decline to publish further correspondence concerning it.

It appears, however, from Mr. Pascoe's letter, that Winter-ton has been a long time in his employment, and is known to be peaceable and industrious, and we understand, from another source, that Mr. Pascoe is kindly providing for his wants while he is disabled from work. Owing to the broken limb being so severely swollen on the day the affair occurred the doctor was unable to set the bone for several days.

HORSE THIEVES.—From every direction come rumors of depredations of horse thieves. It appears that this nefarious business is carried on upon a systematic principle, and by wholesale, so that the ranges of the Territory are getting almost cleaned out in some places. We have information to the effect that bands of horses are taken from this Territory to Montana, at which latter place it is presumed they are sold, and in order that the thieves should not return empty handed of animals, they sometimes bring horses from Montana to Utah and dispose of them hereabout. It is also pretty well understood that horses and mules are frequently stolen from a range in one part of the Territory and sold in another part and then citizens living in the parts where the sales are made frequently miss their animals from the range, from which they have probably been stolen and sold elsewhere. What is to be done to stop the wholesale horse and cattle stealing operations now being carried on in this Territory, is an important question for consideration.

FROM THURSDAY'S DAILY, JULY 17.

EMIGRANTS.—A dispatch from W. C. Staines, to President Brigham Young, received this morning, dated New York, July 16, says, "Calder's company of one thousand, leave to-day, all well."

They should be here on or about the 24th.

GOOD CLOTH.—We have seen some specimens of cloth manufactured at the Beaver Woolen Mills. Some of it is of fine texture, looks as if it would wear well, and we consider it very creditable to the people of Beaver. We think if fuller supplies of the better class of home manufactured cloth were kept at the stores in this City it would tend to bring it into general use, for it would be likely to increase in favor. A great many people in this City are entirely ignorant regarding the excellence of the quality of some of the cloth made at some of the mills in this Territory.

VISITED COALVILLE.—Yesterday President Brigham Young, Geo. A. Smith and Daniel H. Wells, some members of the Quorum of the Twelve Apostles, and a few others visited Coalville. While there the party visited and inspected the "Wasatch" and some other coal mines and also examined the Coalville and Echo Railroad.

The erection of a new Court House at Coalville has been commenced, the dimensions of which, on the ground, will be forty feet each way.

After spending a pleasant day the company reached the city by last evening's train.

ARTIFICIAL LIMB.—Brother John A. Montgomery, of Logan, Cache County, called to-day to enable us to inspect an artificial limb made for him by Z. W. Derrick of this city. He says the article suits him exactly, and he is consequently vastly pleased with it, and he is now enabled to walk around with a tolerable degree of comfort as well as activity. The limb only weighs five pounds in all, and the springs work admirably, showing that Bro. Derrick is an artist in his line.

Bro. Montgomery had the misfortune to lose his right leg by an accident that befel him seven years ago, while getting out telegraph poles in Logan Canyon, the operation of amputation having been performed upon him at that time by Dr. W. F. Anderson.

UTAH COUNTY.—H. W. Barnett, writes from Payson, Utah Co., July 14th:

"On Friday last I had the pleasure, in company with President A. O. Smoot and J. S. Tanner, of going through the Provo Woolen Factory. The machinery seemed to be all alive, preparing the wool, and making it into good cloth. The building is solid and lofty, and constructed of rock. It is equal to any I ever saw in the eastern countries. To this county the factory is a

credit and a power. Provo is certainly awake to improvements.

"Next day we passed on to Pleasant Grove, and there held two days' meetings. On both days the bowery was thronged with Saints. We had a good time.

"The Sunday school was well attended, being filled with promising children; healthy, neat, and happy. I noticed here, as in other settlements, a multitude of bright, intelligent little folks.

"Grain and fruit in this county look well, and are plentiful."

ACCIDENT.—On Monday afternoon, as Mr. Thomas Barlow's son, Edward, was proceeding from the Bench to Flygar and Child's planing mill, with a load of lumber, he took the road just west of Mr. J. J. M. Butler's house, thinking to descend easily because of the sand. But it appears that parties have been hauling sand from the hill in such a way that the bank is undermined, and as the boy was coming down the incline, the bank gave way, the hind wheel slipped, and the wagon, horses and load were thrown down a distance of about ten feet. Young Barlow jumped to save himself, but his leg caught the forward wheel and he was dragged with the wreck, and severely bruised on the breast, thigh and back, and received a nasty cut under the chin. Mrs. Elmore, who lives near by, took the young man into her house and waited upon him with great care and kindness till sundown, when his father conveyed him home. He is now recovering, and it is considered that no very serious consequences will result.—Ogden Junction, July 16.

THE BEAR LAKE FOLKS.—A private letter from Bloomington, Bear Lake Valley, states that the people of that place spent the Fourth very pleasantly in Bloomington Canyon, in indulging in the usual amusements and recreations engaged in on such occasions. The Paris people went to Fish Haven, where, among other sports, they had a tub race on the lake. Others went to Soda Springs.

A large number of the folks of Paris will go to Paris Canyon cave on the Twenty-fourth, where there is perpetual ice. They intend taking with them any amount of cream and sugar, that ice cream may be plentiful.

The crop prospects in Bear Lake Valley are splendid, but there is no grain market within a distance of 100 miles, and when grain is taken there the price obtainable is only about sufficient to pay for freight.

SPILLED.—On Monday night, about eleven o'clock, as Messrs. James Sharp, John Sharp, Jr., and John Squires, Sen., were traveling up Parley's Canyon in a covered wagon, the vehicle tipped over, abruptly spilling its contents. Luckily, Mr. John Sharp, Jr., jumped out, alighted upon his feet, and secured the team, and Mr. James Sharp was not hurt. Mr. Squires, however, did not fare quite so well, as he met with such a sudden stop when he reached the ground that he was rendered partially insensible, and received several bruises, but not of a serious character. The party were going on an angling expedition, but this circumstance caused Mr. Squire's fishing enthusiasm to go down below zero, and he returned to the City by a chance team, a considerably shaken if not a wiser man.

The same evening Major Gordon and Captain Howell were tipped out of a buggy, near the same place, and the vehicle was so thoroughly demoralized that they had to ride back to Camp Douglas on bare-backed horses.

BEAUTIFUL.—The fitting up of the fine marble counter in the First National Bank new building is approaching completion. It is very beautiful, both in point of design and materials, and is probably not surpassed in the entire West. It is constructed of different colored marbles, the black Belgian, and a French marble, the leading color in which is a dark red. The other marbles are grey, white, and one in which lightish red and cream color predominate, all the latter from Vermont. The lower part of the counter is laid off in panels, which, in addition to the styles, are divided by brackets, and between every four of these panels are a couple of brackets over two small pillars, the latter of dark French marble.

The other fittings of the main compartment indicate the same taste and costliness. The ceiling is laid off in panels, the styles of which are of carved wood, while the panels are being laid in bright ultramarine blue, with gilt centre-pieces in the principal ones, which has a very fine effect.

The following came by Deseret Telegraph line this morning:

"PARIS, July 17.—T. W. Randall's surveying party, now sectioning the lands in this valley, had all their animals—four mules and three horses—stolen by the Indians last night, while encamped about five miles from here. The Indians went north to near Soda Springs, and struck into the mountains east. Parties are now on their trail."

"A young man about sixteen years of age, was accidentally killed by the discharge of a shot gun, between Thomas and Smith's Fork of Bear River last Friday. The young man was driving his team, his father being next ahead in his buggy, with the gun by his side, when it went off, sending three buckshot into the son, who expired immediately. They were emigrants en route for Oregon. The body of the boy was brought into Montpelier, and buried last Sunday."

FROM FRIDAY'S DAILY, JULY 18.

FIXING UP.—Some of the principal rooms of the City Hall are being fixed up, the services of the plasterer and whitewasher being called into requisition. The gasfitting in that building is progressing under the direction of Mr. William J. Silver. The legislative hall will have a chandelier depending from the centre-piece, besides six bracket burners around the walls. The council chamber will have two chandeliers suspended from two centre-pieces and bracket burners. It will probably be several days before the interior of the building will be lighted up.

THAT BIG BUILDING.—Work on the Wasatch Hotel is progressing rapidly, the main partition walls running east and west, which are of brick, are nearly up for the first floor. The reason why the interior walls are being put up before those of the exterior, is because Mr. Groesbeck has not yet received the iron of which the major portion of the first storey of the north and west fronts is to be composed. It is expected this week.

ESCAPED.—Yesterday a convict named Peter Angerson, sometimes known as Peter Stockfish, made his escape while at work with a gang of other criminals near Jordan Bridge. After he broke away he visited a house in the 16th Ward, but left it soon after.

Angerson was working out a two years' term in the Penitentiary, to which he was sentenced for committing a burglary in Mill Creek Ward. He is an old offender, though quite a youth, and a hard case. Up to this afternoon we could not learn that he had been caught.

HORSE ACCIDENTALLY KILLED.—Last evening, Mr. Beckstead, of West Jordan, left his team and wagon in the City Hall lot while he did some business on East Temple Street. During his absence one of the animals commenced cutting some capers, such as jumping and rearing. Its antics were cut short, however, by it coming down upon the stake of the wagon, which penetrated the poor beast's belly so that its entrails protruded, and it died shortly afterward. The carcass was taken out of the city this morning.

This is quite a misfortune to Mr. Beckstead, who is a poor man. He had brought a load of wood to the City yesterday and disposed of it, and was making a few purchases with the means he had thus procured, when the accident occurred.

MORE HORSE STEALING.—Bishop Simon Smith, of Clarkston, Cache Co., writes, July 15th, as follows:—

"On the night of the 1st inst. my horses were stolen, and I have had men hunting for them from the 2nd until the 10th, thinking they might have strayed off on the bottoms or elsewhere; but on the last-named date I was informed that my horses and one stolen from Ben Hampton, two days before, were seen at or near Franklin, and that Jeff Moss and Charley Williamson were driving them off."

This horse and cattle stealing business is becoming a great pest to the people of this Territory, so much so, that scarcely anybody considers his animals safe when out of his own immediate supervision.

An advertised notice containing description of Bishop Smith's horses will be found in another column.

TERRITORIAL NORMAL INSTITUTE.—This useful educational institution continues to increase in interest to those who attend its sessions. The number of students has increased the past few days. The lectures delivered are of a very exhaustive and instructive character. It is probable that the Legislature will take into consideration some measures for the encouragement and support of the educational interests of the Territory, at its next session, among the most important of which are some connected with the Normal Institute.

The information obtained by the Normal students at the sessions of the Institute will, if the students are diligent, be diffused into so many channels that it would be difficult to estimate the good that will, or at least might, be accomplished by this means.

ANOTHER CASE.—Some time in May the smallpox appeared in Springville in the family of M. E. Crandall. One of his children died of the disease, but measures were taken to confine it to that family, and the citizens have supposed for some time past that there was no further danger of the contagion spreading. A short time since Mr. N. D. Crandall, living a short distance from the family affected, was taken sick and a rash appeared on him, but it was not thought to be the smallpox; a few days since, however, one of his children showed symptoms of that dreadful disease and there is no doubt of it. The house is quarantined and it is to be hoped that the people will succeed in confining the contagion to this one case.

OGDEN.—The Junction of yesterday says that Captain Owen arrested a man in Ogden Canyon the other day, who is alleged to have been engaged in an extensive robbery about two years ago. The arrested man says he will tell all about the robbery, which will probably make it interesting for some others. Particulars are withheld, at present, from prudential causes.

A lad, named George Thompson, aged 16 years, from Tonno, was taken ill, of typhoid fever, on his way to Ogden, and on his arrival at the latter place was taken charge of by the municipal authorities.

The committee of arrangement of the Twenty-fourth of July celebration have published their programme of proceedings. The indications are favorable for a fine time. W. N. Fife will be marshal of the day and the following are the names of the gentlemen who compose the committee: Israel Canfield, D. M. Stuart, Joseph Parry, Winslow Farr and W. N. Fife. Edwin Stratford will be chaplain and Wm. Pugh leader of the band.

THE CIRCUS AGAIN.—The New York and New Orleans Circus and Menagerie will soon visit this city again, on its way eastward from the Pacific Coast. Mr. Hayden, agent of the company, called to-day. From him we learn that an addition of three seasons has been made to the Zoological department, while the circus has received several additions of gymnasts, acrobats, &c. With regard to the merits of this large exhibition our citizens are well informed, and it is therefore unnecessary for us to say much concerning them at present. The appreciation of the public was fully attested by the large audiences that flocked to the performances.

It will be remembered that a dispatch from San Francisco, some time ago, stated that Madame Rosa met with a severe accident at that city, by a fall, while performing on the trapeze. Mr. Hayden states that that lady has almost entirely recovered from the effects of the mishap.

The circus will perform at Corinne, July 28th; Lehi, July 29th; Provo, July 30th; Salt Lake, July 31st and August 1st, and Ogden August 2nd.

After carrying out the foregoing programme the company will proceed eastward to Omaha.

—Mrs Hathaway, of Temple, Me., is ninety-nine years old, and has smoked and chewed tobacco since she was a girl. Of course she did neither before she was a girl.
