The Market on the Whole Shows a Breast of Ore in Eagle & Blue Bell Slight Shrinkage.

### UNCLE SAM FIRMER TODAY. SHIPMENT FROM JOHNNY.

### Ajax Active-South Swanses Slumpy - Ben Butler Unchanged -White Rock Active.

Stocks have been fairly active on the mining exchange this week considering the fact that so many people are out of town. Some 26,500 shares changed hands on the exchange today for the sum of \$21,947.62. The sales for the week amount to 260,435 shares, which represent a selling value of \$291,347.50. Ajax was the feature of the call today when 7,500 shares changed hands at prices ranging between \$1.4314 at the opening and \$1.47% at the close. The stock has weakened from \$1.57 since Monday, A heavy decline was seen in Daly-West, which was traded in below \$39.00, after opening the week at \$40.00. May Day was active today between \$1.59 and \$1.55%, as compared with \$1.621/2 last Monday. South Swansea stood around 55 on Monday, but it has since slumped to 45, at which price the stock changed hands today. Star Con. let go 500 at 43 today, while Uncle Sam reacted after yesterday's decline and sold up to \$1.96. Hen Butler has remained steady around 2016 since the management decided to go ahead with the extraction of ore in spite of the intion. Sales were made today at Dalton of Marysvale has slumped Junction 20%. Dalton of Marysvale has stampt to 2% for some unknown reason. Earlier er in the week it was offered at 5 with 3 bid. White Rock has shown some activity this week at 25. The company owns some placer property in Nevada. Tetro put on a spurt this week and sold up to 25. It has since weakened to 26, at which figure a sale was made this morning. Eagle and Blue Bell re-leased 200 at 29% this morning, while Daly climbed to \$2.40. Grand Central has sold down to \$4.40. Sacramento continues to grow weaker. Dexter has shown a little activity this week around \$7. Tesora has fell away to around 93, while West Morning Glory is firm around 61/2. Closing quotations were posted as fol. Bid. Asked. lows:

South Granite Tunnel. A very gratifying change has taken place in the Eagle & Blue Bell of Tintic. For some time past the company has been developing a body of low grade quartz. This has now given day. place to some gold ore which has returned an average of 51/2 ounces per ton. The streak is said to be as yet unexplored, though the ore body on the 400 level where the strike was made, has been crosscut about 15 feet. It is

said to be about 30 feet long. The average of this body of ore is low, running about \$15 per ton. The present disclosure of high grade ore is very gratifying though, as its size is yet undetermined, it may not prove to be large enough to do the company much good, A. Hanauer, Jr.'s, option on the mine expires Sept. 1st.

### Items From Bingham.

A 60-ton run of Yampa ore was completed at Dewey mill Wednesday. Great damage was done by the late loudburst to roads in Butterfield and Brooklyn gulches. The new compressor engine and boiler for the Boston Conusolidated were re ceived and delivered by Bingham C. &

L. Co. teams Sunday. The Last Chance mill, having been, shut down several days for a general clean-up and repairs, resumed its grind the fore part of the week. Last Tuesday 19 carloads (950 tons) of ore left. Humburn denot. The largest L. Co. teams Sunday. Last Tuesday 19 carloads (to a largest ore left Bingham depot. The largest day's shipment of the season was 22 day's shipment of

carloads-about 1,100 tons. Ben Butler is now making regular shipments. Work on ore having been resumed, the ore in sight assures a continuance of present output for some

time to come. It is stated that the Silver Shaid will soon put in suitable pumping machin-ery and resume work on a larger scale han ever. This will necessitate further assessments, but the showing when water competeld suspension encourages

3 1212 A new company is about to be form-ed to operate the claims of the Fortune

ing of a new ledge, or the development of a new ore body, but rather like the discovery of a small ore chute connected with one of the old ore bodies of the mine. The discovery was made in he west workings on the fourth level. he ore now showing is about four eet in width and of very good grade. Cumberland Shut Down.

The Virtue Consolidated Mining comany, of which Arthur Buckbee is manger, has been compelled to close down Cumberland mine on War Eagle Mountain, Idaho, owing, it is said, to the excessive cost of coal. To the Boise Statesman Mr. Buckbee said he did not think operations would be re-sumed this year. The Cumberland is supped with a spiendid mill and hoist-

Mr. Buckbee's friends in this city and n Tintic, where he at one time pre-dded over the destinies of the Sunbeam, will be sorry to learn that a shut down at the Cumberland has been necessary.

### MINING NOTES.

A car of ore is at the sampler from the York of Bingham.

The Grand Central of Tintic reached the market today with 8 cars of ore. The Honorine of Stockton reached the market today with two cars of ore. The Aspen oil well near Evanston is. said to be flowing about 30 barrels per

The Taylor-Brunton sampler reported cars of ore from Tintic and 2 from Stockton today. Surveyor J. T. Breckon has gone to

Park Valley, where he expects to re-main for the next week or two. R. M. Wilkinson has taken the place of R. M. Wilkinson, Jr., as secretary of the Mammoth Mining company.

Prest, Samuel McIntyre, who is up from the Mammoth of Tintic, reports to new developments at the mine. Manager Thomas H. Benton of the Sygnet of Stockton has returned from

Chicago, after an absence of two weeks.

James A. Pollock, the well known broker, returned to the city yesterday afternoon after an absence of several W. H. Dodge left for Park Valley last

night with a surveyor for the purpose of surveying the El Amigo company's property for patent. Joseph Farren has returned from an

examination of the Plutus company's ground at Tintic very favorably impressed with the appearance of the ground.

Morris Dusseldorf expects to leave tomorrow for Cottonwood. In company with Joseph Oberndorfer and wife. While away they will visit the Black Bess and Comstock properties.

Newt Dunvon will leave for Esmeralda county, Nevada, tomorrow, to look at the properties of the Vulcan Copper company. The thermometer has hung around 110 in the shade for some weeks past.

W. E. Vigus expected to leave for Beaver county this evening in com-pany witht B. B. Quinn. While away they will inspect the Reciprocity Min-

mpany's property with the view of deciding upon s to start per

cent. closer than any other city came This city also held its own among the third class hamlets of the country, leading Washington by almost a mil-lion dollars in clearings, Los Angeles by about \$500,000, and Portland, Ore, by a clean million. No city in the land with the same population as Salt Lake sort within a couple of millions Lake got within a couple of millions of it in clearings. Boston beat out Chicago with its two millions of peo-ple, by nearly \$300,000 more.

Word co. is from Grantsville to the effect that between 200 and 300 head of range cattle belonging to the John Devine estate at Deep Creek, were sold during the week for \$16 per head. The scarcity of hay and its high prices accounts for the \$16 rate, which is

EVERYBODY MAY NOW LEARN.

Ten Thousand Copies of a Valuable Work on These Sciences To Be Given Away to Advertise the College.

The American College of Science of Philadelphia, Pa., is a novel institution, It is chartered under State laws, with a capital of \$109,000, for the pur-pose of teaching Personal Magnetism, Hypnotism, Magnetic Healing, etc., by correspondence.

At an expense of over \$5,000 the college has issued a remarkable work on these aclences, ten thousand copies of which will be given away absolutely The book is elegantly illustrated free. with the most expensive engraving and it is decidedly the finest and m comprehensive work of its kind published. It is the product of the com-bined talent of thirty distinguished hypnotic specialists and scientists. It thoroughly explains all the hidden sethoroughly explains all the hidden se-crets of Personal Magnetism, Hypno-tism, Magnetic Healing, etc. It is full of surprising experiences, and makes many startling disclosures in regard to the use and possibilities of this secret

power. The college absolutely guarantees that any one can learn this science in a few days at home, and use the power without the knowledge of his most intimate friends.

The reporter asked for the names and addresses of some of the pupils so that he might communicate with them per-Several hundred were offered, sonally. from which the reporter selected eighty-four. The replies received were more than sufficient to convince the more than sufficient to convince the most skeptical in regard to the wonder-ful benefits to be derived from this mighty power. There were absolutely no failures. All had tearned to make practical use of the science. The following extracts are taken at randam from the letters for the benefit of readers:

J. H. Schneller, 1412 Avon St. Lacrose Wis. writes: "Hypnotism traily reveals the secrets of life and the mysteries of nature. My own father could not have convinced me of its wonderful power if I had not actually tested it for myself. I consider a knowledge of it invaluable to those who wish to get he most out of life; to those who wish to achieve success and live up to the full measure of th it possibilities."

Mrs. Effic D. Watson. Martinsville, Ind., writes: "Hyponotism opens the road to health, happiness and prosperity. It should be studied by everyone. I would not part with iny knowledge of it for any amount. The instructions have developed while mean force of character and ability to industrie and control people that 1 did not dream I could acquire."

J. W. Clinger, M. D., Springfield, Chio, writes: "I have used the methods of hymot-ism taught by the American College of referee in two cases of difficult surgleal constitution with reference of difficult surgleal

corrections with perfect success. It is a com-plete snesthetic and preferable to chioro-form or other. I acquired a practical knowl-edge of hypototism in less than three days. The book is grand."

Rev. T. W. Butler, Ph. D., Idaho City, Ida-ho, writes: "I have cured a number of chronic cases of rheumatism dyspepsia and paralysis of long standing; have not had a single future. I consider a knowledge of

single fullure. I consider a knowledge of Personal Magnetism invaluable. The cook has greatly increased my own powers'.

The first ten thousand persons who

## "THE CREAT SALT LAKE PRESENT AND PAST."

By James E. Talmage, PH. D. F. R. S. E., F. G. S., professor of geology, University of Utah, a book of 116 pages, beautifully illustrated. The first complete and authentic work on the renowned saline sea. Price 25 cents. pontage prepaid. For sale by the Des. eret News and all news dealers.

Autobiography of Capt. James S. Brown, 520 pages, bound in cloth. Price \$2.00; for sale at the Deseret News. Special terms to agents.

ed to operate the covered by the mortgage lately foreclosed—by which six wer-sold to Simon Bamberger. There are sixteen claims remaining all more or less developed and showing ore, and the new outfit will be qualified to do extensive work.

Work is being resumed on the Toughnut, at mouth of Markham Gulch, after more than a year of idleness. At 2 4216 breast of main tunnel, now in about 86% 400 feet and following a contact, a streak of iron pyrites is showing. The tunnel is nearing a bedded vein and the streak is a good sign that at intersection an ore body will be en-

Fred Lewis and Al Bancroft, working the Freda for Ed. McCarrick, have an incline shaft down 60 feet with a nice streak of iron copper ore that be gan showing at the footwall about a week ago. The vein is a quartziteweek ago. porphyry contact. A crosscut run 25 feet to ascertain its width did not reach the hanging wall. The vein matter is more or less copper stained throughout.

At the Silver Hill (Red Wing) claim 1 56 about 100 tons of good lead ore are on tunnel dump, as a result of develop-n-ent work done the past few weeks. 15 We understand there is a large amount of mineral proved up in the Silver and vegular shipments will soon begin It will have to come down the heavy grade of Black Dog road unless a better road is built. A tramway with lower terminal in Markham Gulch might be constructed at small expense. 45

#### South Granite Tunnel Looks Well.

Mamager B. F. Woodward of the South Granite Mining company, operating in Beaver county, has received en-couraging news from the property of a decided change in the face of the tun-nel which is being driven to tap the ore exposed in an old shaft. Supt. Simkins says it looks as if the face of the tunnel might break into ore any shot. The ore has been followed down about 80 feet in the shaft and the tunnel is ex-pected to tap it at the depth of 150 feet. The ore appears to be going down strong. An assessment of ½ of a cent per share was recently levied by the directors to meet current expenses. Two shifts are at work on the property.

#### Shipment From Johnny.

Messrs. W. J. Dooly and C. O. Newell returned last night from Stateline with clean up from the Johnny mine in that camp. The gold bullion is valued at \$4,000, and in addition the company as a car of ore at the sampler which expected to net between \$3,000 and 4,000. A new strike of very high grade rold ore on the west drift off the 160ot level. Some of this rock shows fre gold ore is reported to have been nade on the west drift off the 160 oot level. Some of this rock shows free gold in astonishing abundance. The mill is running and the new pump is handling about 30,000 gallons of water The outlook at the mine is said to be very encouraging.

#### Reorganization of Zine Company.

New York, Aug. 10 .- C. H. A. Doughwas chairman of the commit ee of stockholders to re-organize the international Zinz company, announces that a step in re-organization has been aken the incorporation of the New Hope Mining company. The statement of incorporation, he says, has been filed in Newark, N. J. The corporation is to have a capital stock of \$150,000. and is to have the ownership of the sinc mines at Joelln. Mo., which be onged to the International Zinc comany previous to its failure.

#### New Find in De Lamar Mine.

It was reported a few days ago that a very large body of high grade ore had been opened in the old DeLama: nine, Idaho. This report aroused much nterest among those to whose ears it ame, because of the fact that the com any was known to be cleaning up pre-

manent development.

Operations at the Ajax of Tintic have been delayed this week owing to the company setting up a new boiler. The The work will be completed next week w the management expects to extract some ore from the lower level,

Ernest J. Weaugh reached the city this morning from Lima, Ohio, Mr Weaugh has completed a college course in mining engineering and expects enter actively into the practice of his profession in Utah.

A dispatch from Vancouver, B. C. states that the Britannia copper mine, located on Howe sound, thirty miles from Vancouver, has changed hands. A majority of stock has been purchased Montana people through George H. obinson, mining engineer of Butte. Robinson, mining engineer of But The price paid was \$1,500 a share, which rate the local valuation of mine would be \$600,000. It is stated that F. August Heinze of Butte will ultimately become connected with the syn dicate which will proceed at once to develop the mine.

### BUSINESS AND REALTY.

The week has witnessed some new jumps in local stocks and the making of several new top notch figures. The stocks referred to are Deseret Savings, which stands at \$175 bid. Home Fire, which reached \$130 and Co-op Wagon and Machine Co., which stands at \$116. The Deseret Savings bank statement ecently published in the "News, showing its admirable condition and specially the conservative valuation assets, is responsible for the search for its stock. The Home Fire has also made a semi-annual report, which shows it to be in stronger condition than ever before in its history, its assets also being valued very low. The reason for the advance in Co-op Wagon is generally attributed to the decided strengthening of the institution by its recent increase of capital, with which it retired \$100,000 of its floating liabilities. Other stocks are very strong. Utah sugar sold at \$16,50, and \$185 was bid for Ogden sugar without bringing any forth. The beet crop con inues in fine condition and everything s in readiness at Lehi and the auxilary plants at Springville, Bingham Junction and Provo to handle the shipment of beets, the combined capacity being from 1,000 to 1,200 tons per day. The Ogden plant is also in readiness for the Weber county crop, and can also take care of any part of that in Cachi county which may have to be sent to it through the lateness of the completion of the Logan plant.

in importation of tin plates, which had been manufactured in sufficient quantity to about meet the domestic de-mand, imports in the last fiscal year valued at only \$3,770,062, against

\$35,746,420 ten years ago. "Having no further ammunition in heat and drouth reports for hoisting prices, speculators have turned suddenly to the other extreme, and demonstrate that early frosts threaten all late-planted corn.

"Eastern shoe manufacturers find nditions as favorable as last week, while reports from the West are more encouraging. Prospects continue to im prove in the market for woolen goods and as the manufacture enjoys great er activity, prices for raw material are hardening. Little change is seen in actual sales, but there is a growing dis-position to hold for the better terms hat many in the trade consider inevit-

"Failures for the week were 173 in the United States against 177 last year, and 31 in Canada, against 23 last year."

#### **Review of Finances.**

New York, Aug. 9,-Bradstreet's Financial Review tomorrow will say Strength and speculative confidence reappeared in the stock market after the middle of the week, accompanied by an increase in the activity. The change in this respect was the more striking because the week opened with very depressed feeling in the stoc exchange circles and prices for several days declined, in some cases in a decided manner.

The unexpected ending of last Saturday's conference between the heads of the Amalgamated association Steel Workers and the United States Steel corporation in a disagreement and the announcement by the labor union that there would be a general strike instead of pacification of the existing trouble was calculated to have a demoralizing effect upon a market which had already experienced a liqui dation and decline on the damage to the corn crop and the strike

Bearish feelings consequently pre-dominated when the market opened last Monday and there was heavy selling for both longs and shorts in the steel stocks. Nevertheless, after a time it was seen that the United States Steel stocks were receiving powerful support at about 40 for the common and below 90 for the preferred. were also cast on the ability of the labr union leaders to make good their threats of closing the majority of the plants of the steel corporation. This was followed by news that the steel

corporation was promptly putting into execution its plan of opening, one by ne, its non-union mills which had been shut down and that thus far the plan had been completely successful. On this the steel stocks hardened and

on Thursday rumors that there were renewed prospects of a settlement caused sharp advances in United States Steel to cover shorts and in the general market, but the railroad list was also influenced in a bullish way by independent factors. The chief of these the better view the street takes of the corn crop situation.

#### World's Wheat Supply.

New York, Aug. 10 .- A dispatch to the Journal of Commerce from Paris says. Nothing is yet known regarding the wheat crop with any exactness which is not already plain to ordinary experts For France even the first results of the threshings are not known. Taking France as an example, it is certain that the sear's crop ' heavily deficient. The only doubt concerns the approximate amount of the wheat which will have to be imported to supply the needs of the national consumption. The esti-mates range from 27,500,900 bushels to 60,000,000 bushels.

#### Bank Clearings.

New York, Aug. 9.-Bank clearings for Salt Lake City for the week ending today were \$3,041,365, an increase was the doctor's diagnosis .- New York

nightfall and watching his opportunity, he managed to drop over the front of the wagon, just behind the tails of the last oxen, and remained flat on the ground until the wagon had passed over him, when he swiftly and stealthily crawled away and lad hid in until the Boer rear guard had passed, ultimately making his way back to the British lines. As an evidence of Maj, Burnham's scouting qualities, it may has greatly increased my own powers ". Dr. W. P. Kennicutt, 529 State St. Bing-hamton. N. Y. writes: "Thad long subered from nervous prostration and dyspessia. My case balled all medical skill. I studied hyp-notism from the American College of Sciences, and tried it upon rayself with sur-pr sing results. In one week my stomach was better than it had been in thirty years. I could eat any thing without the sligned distress. I can hypnotise mpself mix- nau-utes and sleep all night; have hypnotize a number of others." be stated that he was within the Boer lines, unknown and unsuspected, no less than thirty-four times .-- London Chronicle.

### THE PORTER'S CHARITABLE VIEW

One by one the travelers entered the sleeping car bound for the exposition. "Porter," said a fat man. "Yes, sah."

"Put me off at Buffalo."

The porter showed two rows of ivores in an affected grin. "Dat's purty good, sah," he said. An "octopustic" looking man came

n and looked at the porter with evidences of a smile twitching around the

orners of his mouth.

"Porter," he said. "Yes, sah."

"Put me off at Buffalo."

Then came a woman-a brazen wo-nan-who sprung the same old gag, followed by the two traveling men, who drew outs at the further end of the car to see who would have the honor of indulging in the witticism And through it all the porter smiled. Finally, he came over to my berth and sat down.

them in strong new covers for preser-vation. Many records of value can be "Dey's some mighty humorous people in dis world, sah." he said. Very," I answered, as a tall man,

faultlessly attired, came in with his head high in the air and had passed as without a word. The porter looked surprised.

'Say, boss," he said, following the

tall man with als eyes, "do you spose it am possible that boy never heard of de 'put-me-off' gag?" "It's possible," I answered, "but not

probable "Say, boss," he suddenly exclaimed, "I've got it. I'll bet \$16 dat man's a

Southanah, an' won't speak to a niggah!"-Indianapolis Sun.

# DOG HAD HYSTERICS.

Dogs are as much addicted to hysterics as are women. When a dog's nerves are tired, we comjlain that he We shun him. We may has "fits." even shoot him, if dog days are near. The treatment at the hospital and home is quite different. A white poodle with a broad pink ribbon bow he had hardly the strength to sustain, was brought there one day shivering, gasping, his mistress thought dying. "I was just carrying him under the

elevated station and the train came by and he gave a scream and tried to jump from my arms. He's been acting this way for twenty minutes. Oh. doctor, he'll die. I just know he will. The woman wailed and the dog whim-

"Is he a country dog?" Suburban, doctor, and "Ever been in town before?" No, and"-

"Please don't talk, it makes him vorse. Charlie, a bromide.

The doctor pried open the locked, pointed teeth and gave the dog a small dose of bromide. He carried him ten-deriy to a small cage in the corner furthest removed from the homesick BLANK BOOKS

Great Dane. He threw a black shawl over the cage. "Is he dead?" shricked the mistress.

"Is he dead? shrieked the mistress. "No, but he will be if you make so much noise. Come back in an hour," said the doctor, grimly. After an hour the black cloth was removed, and the dog, well and cheer-ful, restored to its mistress. He had been eaved by the "rest cure."

been saved by the "rest cure." "An acute case of hysteria. Th dog was nearly frightened to death by seeing the elevated for the first tin
