Washington, 18.

The President has sent to Congress to-day a communication extolling Gen. Hancock's administration, and asking Congress to take suitable action. He said Hancock is the only officer of the American army, in high command south of the Potomac, who, since the close of the civil war, has been influenced by the example of Washington, and who scrupulously abstained from violating the legal and constitutional rights of his fellow citizens. He suggests some public recognition of Hancock's patriotic conduct by the House.

Elliot offered a resolution, asking the Secretary of State for information with regard to American whalers being ordered off the Russian coast of America, by Russian vessels.

Garfield, from the Military Committee, reported a bill giving honorable discharge to all persons relieved from charge by absence from the army without leave. Pending the debate, the morning hour expired, and the bill went over.

Butler reported a bill of appropriations to supply the deficiencies in the execution of the reconstruction law. The whole amount appropriated is \$12,665,000.

The Speaker presented the President's Message in commendation of General Hancock. There was some amusement on the occasion, by its reading, on the Republican side. It was ordered printed.

Stevens introduced the bill, which he sought to introduce yesterday, with regard to reconstruction; and, in order not to retard the passage of the bill, withdrew the section with regard to the election of Congressmen in the Southern States. The bill passed.

Chicago, 18.

Distinct shocks of an earthquake are reported in various points of western New York and Canada this morning.

The New Hampshire Republican Convention has re-nominated Governor Harriman by acclamation.

Paris, 18.

The *Moniteur* publishes a circular, signed by the Prefect of Police, placing the press of the city under a more rigorous censorship.

Chicago, 18.

The Stevens bill, as passed, simply provides that a majority of the votes cast, instead of a majority of registered voters, will be sufficient to ratify the Constitution, also, that the people may vote for Members of Congress at the same time as they vote on the Constitution.

Washington, 18.

Senate.—A resolution passed asking the President for information respecting the English joint occupancy of the island of San Juan.

Texas, for and against the Convention, to commence on February 10th, and continue four days. Each ballot presented by a negro voter will be marked colored. No soldiers are allowed in the vicinity of the polls, unless registered voters.

Brownsville papers say that Mexican refugees are being arrested under the authority of Gen. Reynolds, and turned over to the Mexican authorities as deserters.

Atlanta, 18.

The Convention has adopted a memorial to Gen. Pope, recommending the removal of Gov. Jenkins.

Havana, 18.

Dates from Mexico to the 10th say the Mexican Congress was opened on the 8th. Juarez Message speaks in a most flattering manner of the bravery of the Mexican troops, and grateful sympathy of the South American Republics. It compliments the action of the United States, and declares all treaties with European powers ended. The most important part of the Message is the surrender into the hands of Congress of all extraordinary powers which he had assumed. Senor Montez, Chairman, responded to the Message, and declared Mexico indifferent to the resumption of European relations, and acknowledged indebtedness for the courtesies of the United States, and for their moral support. The Cabinet remains unchanged.

Padre Fischer is liberated.

A British war steamer has arrived with orders to bring away all the British Consuls and archives in Mexico, consequently there is great excitement among the English residents. The English bank continues business.

London, 18.

Another attempt was made to-day to blow up the city prison. Powder was placed under the wall of Millbank jail, where a number of Fenians are confined. The preparations were all completed and the fuse lighted, but the powder did not explode.

The plot was discovered before the attempt was renewed. There is no clue to the guilty parties.

Arms and ammunition, secreted by Fenians have been discovered in several places in England.

A dispatch from Massora mentions a report from the interior that King Theodore has burned Debra Taber.

Florence, 18.

Menabrea replied yesterday to the attacks on the government, by the Liberals in Parliament. He said Italy would sooner or later possess Rome; but the end must be accomplished, not by arms but by moral force. Ratazzi replied, saying the people demanded a different policy.

St. Petersburg, 18.

The *Invalid Russ* says the policy agreed upon between France and Austria, on the Eastern question, if persisted in, will imperil the tranquility of Europe.

Chicago, 19.

A fearful accident occurred yesterday on the Cleveland Lake shore railroad, near Angola. The New York express train was behind time and running at a high rate of speed, when from some cause unknown, the two rear coaches were thrown off the track with great violence, and the rear car went over the embankment fifty feet and was set on fire. Of fifty passengers only two escaped alive, the rest were crushed and burned to death. A mass of blackened and charred remains was only left.

SPECIAL NOTICES.

The Advertisement of Mrs. White will be found interesting to lovers of music, and they are many here. The lady brings strong recommendations from several Professors of the science, some of whom have been her pupils, in favor of the method which she teaches. Musicians, as well as pupils, who desire a knowledge of the thorough Bass, or Harmony, should give her a call.
