SAN FRANCISCO, 21.—A serious fight occurred to-day near Lone Mountain, amongst a large lot of Irish laborers. Clubs and knives were freely used and several men were severely injured with both. Finally a young man by whom some of the rioters were employed, seized a club and went through them right and left, with so much execution that he quelled the disturbance. A party of the rioters then charged on a Chinese wash house, and broke into it and were about to discourage Chinese immigration, when the boss whipped out a revolver and sent three bullets amongst the scoundrels. The outrageous act of the Chinaman in defending himself and house, surprised them and they scattered in every direction. No arrests were made, no officers were near the place. It is not known whether any of the shots took effect.

The crews of the Spanish men of war *Almanga*, *Vittoria*, *Mendez Nunez* and *Fernando El Catelina* having revolted, the government has issued a proclamation declaring them pirates, and authorizing their capture and punishment as such by any foreign power on the high seas. Decrees have also been issued, dismissing from public service, Generals Scontrerrans and Pierrad, and removing from office the civil governors of Cordova, Muriet, Ponteradra, Leon and Orez. Gen. Parvia has been appointed captain general of Andalusia and Estramadina.

The province of Alicante has declared itself an independent canton. The majority in the Cortes propose to move a vote of censure on the government for declaring the insurgent crews pirates. It is reported that Price, a member of the International Society of England, is commodore of one of the revolted men of war.

BIARITZ, 21.—An attempt was made here yesterday, to assassinate Marshal Serrano, while walking in the grounds of his villa; the assassin was arrested.

IMPROVED CARDING MACHINE.—An important improvement in carding machines has recently been made in England by the substitution of flat for round wires. The former have greater resistance, when worked edgewise, and are consequently less liable to break or become impaired; and, since they require less and lighter grinding, they also last longer. Their points being sharper and longer also render the cards more effective. The material is also better worked, because the spaces between the wires, on account of their diminished thickness, are greater, and impurities collect in and can readily be removed from them.

Bradlaugh, the English radical, who is coming to the United States to lecture next fall, is engaged in a series of letters in reply to the Lord Bishop of Lincoln, on the inspiration of the Bible.

Jealous lovers in Omaha, when their adored one is being married to another fellow, vent their passion by sneaking in the back door and licking the insides out of the wedding cake.

A Baptist clergyman out West undertook to baptize his wife at an unseasonable hour. He kept her head under water too long, and now he has to be hung up to dry in consequence.

Germany, Austria and Italy have agreed in convention to abolish the practice of examining the luggage of travelers at frontier stations, which will be good news to tourists.

The mortality among married men in Trenton, Indiana, is reported to be on the increase in consequence of a wealthy philanthropist's offer to give a barrel of flour to every widow in the town.

Henry Watterson, of the Louisville *Courier Journal*, is on a visit to England, and judging by the way he writes he is the most glib, the sourest, and the most dissatisfied American who has ever trod the green grass of the old country.

The Western papers say that Whitelaw Reid will marry Miss Ida Greeley soon as she lays her mourning weeds aside. Of course they know all about it. First it was Anna Dickinson, and then it was Kate Field. Miss Ida is the fifth or fifteenth—it doesn't matter much which.

Twelve picked widowers and bachelors—six on each side—are to have a grand foot race on Bob Sims' trotting track. The conditions are the losers will give all the assistance in their power, by "fair means or foul," towards securing the winner a wife. These races are to be continued until each contestant is married.—*Canisla (Ky.) Mercury*.

People sometimes fancy that we cannot become wise without becoming old also; but in truth, as years accumulate it is hard to keep as wise as we were. Man becomes, in the different stages of his life, indeed, a different being, but he cannot say that he will surely be better as he grows onward, and in certain matters he is as likely to be right in his twentieth as in his sixtieth year.

ARCTIC MATTERS.—According to the London *Times* of June 30, the whaler *Ecipse*, just arrived at Peterborough, brought letters as late as June 1, from the yacht *Diana*, belonging to Mr. Lamont, and chartered by Mr. Leigh Smith. The *Diana* left Dundee on a Polar expedition not long ago. On the first of June she was in latitude 77 deg. 40 min., being among floating ice, which reached northward to Spitzbergen. She was to proceed along the outside of the ice toward the northwest corner of Spitzbergen, where it was expected she would meet a store-ship which preceded her. The expedition had encountered very severe weather since it left Scotland, but no accident had happened and the members of the expedition were well. In consequence of the tempestuous weather the island of Jan Mayen had not been reached.
