

INDIANAPOLIS, 15.—The sixteenth annual session of the National Grange Patrons of Husbandry commenced its session in this city today. The National Grange is composed of masters of the State Granges and their wives, and 32 States are represented in the convention. Among the delegates present are Gov. Frederick Roble, of Maine, and Congressman Aiken, of South Carolina. The sessions are secret and will continue next week. A public meeting was held at the Court House, at which addresses were delivered by Gov. Porter and Mayor Grubbe, and responses made by prominent members. The treasurer reported the finances in good order, the receipts more than equaling the expenditures, and the lecturer reported the organization of Louisiana State Grange. In September, Grand Master Woodward's report, a lengthy document, was largely devoted to a discussion of the objects of the grange, and in urging members to avail themselves of all the benefits accruing from their membership. He recommends the organization of co-operative stores, nearly a hundred of which are in successful operation in Texas alone; that steps be taken to secure the elevation of the Bureau of Agriculture into an executive department; that Congress be petitioned to pass Burton's bill for the relief of purchasers of patented rights; that just statutory laws be passed relating to transportation; and he shows that 20 States have an increase in membership, five little variation and decrease. In the year ending October 1st, 77 new granges were organized in the United States, and 13 since then.

LONDON, 14.—In the House of Commons Gladstone made a statement regarding Egyptian affairs, which was in effect that the Government thought it necessary to have twelve thousand British troops remain in Egypt, but not for any great length of time. It was proposed to enter into a convention with the Egyptians and have an article of the treaty provide that the cost of maintaining these troops should fall not on Egypt but on England; that when matters were further advanced the question of charge could be raised and settled definitely. He hoped to be able to give such information as would enable Parliament to fully discuss the subject when the estimates were presented. He also hoped soon to be in a position to give information regarding the cost of the expedition.

The Turkish Ambassador to London has informed Lord Granville that the Porte insists upon appointing a special envoy to Cairo during Lord Dufferin's negotiations with the Khedive.

The Australian ship *Minerva* reports that when going into Falmouth she passed a white boat carrying a red flag and having five men in it, 20 miles east of Beachy Head. This was nine hours after the *Westphalia* collision, and it is supposed to be the missing boat.

A *Times* Berlin dispatch says: The Emperor's speech was saluted with a round of cheers, and especial appreciation greeted the announcement of the intention to abolish the four lowest grades of the class taxes. As constituted today, no fraction of the Chamber has an absolute majority, but the conservatives are far stronger than the united liberals and the clericals, who turn the scale by selling their support to the highest bidder.

The *Standard's* Constantinople dispatch says: The English government has informed the Porte of the stoppage of the payment of the surplus revenue at Cyprus, in order to cover the interest debt on the guaranteed loan of 1852 and the ransoms paid the Salonica brigands for two English subjects.

Berlin, 14.—The Liberal members of the Prussian Diet are dissatisfied with a passage in the speech from the throne, intimating remission of taxation in the face of a deficit, and the proposal to cover the deficit by a loan, and an attempt to increase the Imperial sources of revenue. The Conservatives are dissatisfied at the amicable tone adopted towards the Roman Curia. The Ultramontanes consider the attitude of the government too indefinite.

Dublin, 14.—Rumors here are that Delaney, charged with the attempted assassination of Justice Lawson, only feigned to commit the crime in order that, being arrested, he might turn informer in the case of the Phoenix Park murder.

St. Petersburg, 13.—A telegram from Chinook states a prairie fire on

the Mongolian frontier has extended seventy square miles and consumed many Cossack outposts and all the villages in its course.

Belgrade, 13.—Gendarmes have captured a band of brigands escaping into Montenegro with a ransom of £200 obtained by a child kidnapped at Krucheratz.

Cairo, 14.—Suleiman, Daoud and Moussa Lake, leaders in the burning and pillaging of Alexandria, recently captured in Candia, have arrived as prisoners.

The sanitary council received a dispatch from the sanitary inspector at Jeddah that the cholera epidemic continues.

PARIS, 15.—President Grevy has been seized with sudden illness. He had two attacks of blood to the brain, caused primarily by indigestion. The attack is apoplectic in its character. Excitement in official and political circles is intense, and the situation in government circles is still further complicated by this unexpected factor. President Grevy's resignation, which had been foreshadowed by certain papers may be expected by his illness.

LONDON, 15.—The crew of the missing boat from the steamship *Westphalia* landed at New Haven, and report that the other steamer with which the *Westphalia* collided, went to the bottom with all on board.

Lord Granville, Secretary of State for the foreign department, has informed Musurus Pasha that England opposes thoroughly and radically the idea of a Turkish Commissioner going to Cairo. It is believed in official circles that Turkey will not insist on sending her representative.

Dublin, 15.—The jury in the Patrick Joyce case for the murder of the Joyce family, returned a verdict this morning of guilty. Judge Barry sentenced the prisoner to be hanged Dec. 15.

The foreign mail office postoffice is informed by postal union convention that Anto Fogosta, in Bolivia, and the entire seacoast have been annexed to Chili, and that port will be hereafter a station from which postal union correspondence will be delivered. The mails for Peru are still handled by the Chilean authorities.

PANAMA, 15.—A young man of Barbadoes, named Portes, in company with some friends, established himself on a bank of the River Putumayo, among the virgin forest which there covers every foot of ground. They erected a house, made a small clearing, and already saw their way to profitable business when they were visited by a number of Gevenetos Indians, who came ostensibly to trade. They were received well, and were apparently satisfied, but suddenly attacked and killed the Colombians and afterwards cooked and ate them. The Indians never visited Putumayo before, and no one ever fell in with them on the Amazon. Other tribes have also made their appearance in different places, and it is believed some more powerful tribes are driving the weaker ones from the heart of the unknown forest, or that they are voluntarily emigrants who will murder and plunder whenever opportunity offers. Residents on the frontier also suggest they may have been driven from their homes wherever these may be by slavers whose vessels ascended the tributaries of the Amazon a few months ago in search of slaves, and products. The *Star* and *Herald* says of the suggestion that Indians are captured on all the interior rivers and carried off to different out-of-the-way regions, where they are compelled to work on plantations established far away from anything bearing even a semblance to civilization. It is probable the death of Portes and friends will attract the attention of the Columbian government to these long neglected regions of the Republic.

Times' Vienna dispatch: Baron Hubner, President of the Austrian Committee on Foreign Affairs says, thoroughly friendly relations exist with Russia. The Emperor shows by deed his pacific intentions, thus defeating the fever raked by transient occurrences.

France has opened negotiations for a treaty of commerce with Holland.

Vienna, 15.—The printer's strike is extending. Several newspapers are again unable to appear to-day. The authorities are trying to induce the strikers to reduce their demands on the ground that it is beyond the power of the owners of the newspapers to grant them. No disturbances have occurred.

Cairo, 15.—Suleiman Daoud was before the prosecution commission today. He confessed giving the order to fire Alexandria after having received a peremptory command from Arabi Pasha. As the conflagration at first did not appear to be general, Arabi Pasha sent orders through Mahmoud to fire more places. Suleiman also states that Arabi Pasha on the 12th of July ordered him to take soldiers to Ramleh Palace and murder the Khedive. While on the road to execute the order, he met the president of the Chamber of Notables, who prevailed on him to return and remonstrate with Arabi Pasha.

Mouri Bey, the officer who had charge of the troops at Ramleh Palace, corroborates Suleiman's statements.
