GEYSER-MARION MUCH STRONGER

Reported Strike on the Property Affects the Stock.

DALTON AND LARK LOWER.

Yankee Doodle in Demand—May Not Commands Better Figures—Mammoth Not Quiet.

TODAY'S METALS:
SILVER 59 9-16
LEAD $4.35
CASTING COPPER 17.

A number of stocks were traded in today, generally in small lots. Prices on the whole showed but little movement and were the same as yesterday's closing quotations.

Regarding the strength of the Colorado strike in Geyser Marion several brokers said that stock could be had at 70 cents, but that they had not been able to get it. The stock though very active, ranged from 70 to 75 cents. Yankee Doodle was very active and strong. Only one sale was reported at 70 cents, but several brokers said that they could get it at 69 cents. Mammoth was also in demand at 37½ cents. Dalton and Lark were lower, the former selling at 3½ cents and the latter at 2½ cents. Ontario was traded in at $13.75 and Silver King at $1.20. Bullion Beck was also in demand at slightly declining prices.

Following are the closing quotations:

INVESTMENT SHARES QUIET

Wise Stock Rate Advices, but No Leading Specialties Were Irregular.

Railway List Has No Benefit from Strength and Activity of the Industrials—Bonds Strong.

New York, Aug. 26.—Fluctuations in the standard stocks early in the day were slight.

Trade in some of the minor issues in the Coast group and in Lacled Gas rose 4½. Brooklyn Transit and Manhattan complied with Metropolitan for No. 2. The movement in Lead is largely due to the strength and activity of industrials. Sugar was pushed up 2½, and the Tennessee issues moved upward. The second hundred of strength occurred in the Tennessee Coal issue. Wabash long is also conspicuous. Apart from Kansas Coal & pref., which moved up 2½, the railway list was without feature. Bonds were strong. The rise of 2 points in Kansas and Texas is large the feature.

SUGAR.

Sugar, raw, quiet; fair refining, 3 13-16; centrifugal, 96 test, 4¼; molasses sugar, 3 9-16; refined, quiet; crushed, 5.15-16; powdered, 5.15-16; granulated, 5.15-16.

HONEY.

Honey on sale consist of 2 pure comb; fancy comb-white grade, 12½ @ 13c; amber, 11@12c; dark, 10@11c. Extracted, white, 6@6½c; amber, 5@5½c; dark, 4@4½c. Beeswax, 23@25c.

CHICAGO MARKETS.

PRODUCE.

Chicago, Aug. 26.—Wheat opened strong and active on the September option, sold to 70½@71, December to 69¾, and then reacted, closing steady at 70½@70¾ and closed 70½@70¾.

Sheep, receipts 1,000. Market steady. Native wethers 3.90@4.25, lambs 4.00@5.00.

LIVERPOOL WHEAT.

Liverpool, Aug. 26.—Imports of wheat into Liverpool during the past week: From the United States, —; from the Pacific coast, —; from Russia, 40,000 qrs.

SAN FRANCISCO MARKET.

San Francisco, Aug. 26.—Wheat nominal; May, 1.08½; July, 1.08½; December, 1.08½.

LOCAL MARKETS.

August 28, 1899.

Below are wholesale dealing figures on poultry, butter, eggs and cheese. Quotations are corrected most weekly by Z. C. M. I. Jobbing & Co., wholesale produce dealers.

POULTRY.

There is a good demand for poultry and the supply is very short. Choice country drawn, with heads and feet on, bring 5c more as follows:

Live hens, per lb.....11 @ 12
Live spring chickens.....11 @ 12
Dressed spring chickens.....11 @ 12
Dressed hens per lb.....11@12

BUTTER AND CHEESE.

As soon as made it is sold to grocers. Country butter in exchange.....12
Dairy.....11 to 12
Cheese, Utah made.....11½

EGGS.

The egg market is strong with the demand rather at $1.50 per case for fresh.

GRAIN.

The prices paid for wheat by Salt Lake millers is as follows per 100 lbs. whether selling wheat or grain. Roller mill, No. 1 hard.....1.00
No. 2 hard.....90
No. 1 soft.....1.00
No. 2 soft.....90
Selling prices of grain, flour, etc.
Wheat—Choice.....1.00
Fair to good.....90
Corn—Choice.....1.10
Fair to good.....1.00
Oats—Choice.....1.00
Fair to good.....90
Barley—Choice.....1.00
Fair to good.....90
Rye—Choice.....1.00
Fair to good.....90

LOOSE HAY.

Timothy—Choice.....10.00
Fair to good.....9.00
Mixed—Choice.....9.00
Fair to good.....8.00
Alfalfa—$6.00 per ton.

FLOUR.

High patent, per barrel.....3.75
Low patent, per barrel.....3.60

FRUITS.

Apples—Choice, per box, $1.00.
Apricots—Choice, per box, $1.00 to $1.25.
Blackberries—Choice, per box, $1.00.
Cherries—Choice, per box, $1.00 to $1.25.
Currants—Choice, per box, $1.00.
Gooseberries—Choice, per box, $1.00.
Peaches—Choice, per box, $1.00 to $1.25.
Pears—Choice, per box, $1.00.
Plums—Choice, per box, $1.00.
Raspberries—Choice, per box, $1.00.
Strawberries—Choice, per box, $1.00.
Watermelons—Choice, per box, $1.00.
Canteloupes—Choice, per box, $1.00.

TO BE DECIDED NEXT THURSDAY.

Final Action Will Then be Taken by County Commissioners.

RAPID TRANSIT ANXIOUS.

The Line Will Be a Continuation from Murray to Salt Lake on Straight's Line as Possible.

On Thursday next it will be finally decided whether the Rapid Transit company will extend to Murray or not. No action was taken by the county commissioners a little over a week ago regarding the granting of the franchise, but the opposing element seemed to be losing ground, and Thursday promises to complete the case. A formal petition was presented by the board, and there were also several remonstrances presented, but whether or not, attempts were pushed.

One thing is certain. The line, if nothing else, will be a continuation from Murray to Salt Lake as near as possible, and as per agreement with the people who have given the right of way.

That was stated by President Gates, of the Rapid Transit company, at a meeting the Rapid Transit officials had with the commissioners and the press last night. The meeting was held in the office of Attorney Rolapp, and was for the purpose of explaining the situation to the press. President Gates explained that the line would be built as rapidly as possible, and as per agreement with the people who have given the right of way. He said that the line would be completed to Murray by the first of next year, and that the line would be in operation by the first of next June.

PRINCESS ORE.

Another Shipment Will be Made from City Creek Country.

Work is still being carried on on the Princess claims in the Mary Ann district of the City Creek country. Samples of ore taken from the ledge on the Princess claim assay from $10 to $20 per ton, and that of which it is proposed to make another shipment in the near future. This ore is of a better grade than that which was shipped before, and a large chunk of sparkling rock containing nearly a carload of ore is now lying on the dump ready to be shipped to the smelter. The ore is found in pockets and it is for that reason impossible to tell how much ore there is in the claim. The ore is found in a contact vein between the quartzite and limestone, and the pockets are found to be from one to four feet wide.

COPPER IN STAR CON.

A White Iron the 600 Foot Level Gives Encouragement.

A very encouraging outlook is presented in the Star Con. mine by the showing made on the 600 foot level. A number of samples have just come in from the mine which seem to bear out the statement that the ledge is widening. It is thought it is a distinct chute from any before encountered. If this is so, it makes the 870 foot level look more encouraging to the property. A white iron is now being put down on the copper vein at the 600 foot level, and it is expected that this will be struck in about 100 feet from the shaft. Only about 50 feet of work has yet been done on it, but the indications are that it will be struck soon. The look and drift chute on the 600 foot level is reported to be looking well, and the ore is said to be of a good grade. Work in the drift from the 600-foot level is continued on the vein, and it is thought that the ledge will be struck in a few days. The ore in the drift, which will sometimes come close to the vein of copper and that now recently exposed.

NEW FIND GOLD.

A Mill Will be Built on the Mesa in the Near Future.

Another find of gold has reached town from Nine Mile Canyon. Samples of which Salt Lake parties are largely interested. The find is said to be of a high grade, which has been the average monthly shipment for some time past. A power plant of 100 horse power is to be put in on the property consisting of an 80 and one 20 horse. Very little work has been done to the way of taking out ore. The greater part of the ore shipped has been extracted from the surface workings and from the tunnel. The present plan is to begin work in earnest in the fall. The ore is said to assay well for the gold, and as soon as things have been sufficiently developed a mill will be built on the property. This is to start in the near future. A great deal of interest is being taken in the find, and it is considered one of promise for the future. Many experts are expected from the owners of the property.

STRIKE IN THE GILL.

It is Very Encouraging and Another Shipment Will be Made.

SPECIAL TO THE NEWS.

Eureka, Aug. 26.—The Lilly mine, which has recently been prospected to a depth of 300 feet, and from which several shipments have been made to the Globe smelter, is looking better than ever. The ore body is increasing in size and richness as depth is attained, and the ledge matter is of such a character that it is thought the ore will continue in this condition for a long distance. The ore is a mixture of galena and carbonates, and is of a high grade. The ledge is from 3 to 4 feet in width, and is well defined. The ore is found in a contact vein between the quartzite and limestone, and the pockets are found to be from one to four feet wide. The ore is found in pockets and it is for that reason impossible to tell how much ore there is in the claim. The ore is found in a contact vein between the quartzite and limestone, and the pockets are found to be from one to four feet wide.

DALTON SILVER STRIKE.

A Copper Ore and Wire Silver Encountered off the 600 Foot Level.

A telephone message from Dalton brought news today of another strike in the Dalton and Lark property, which is being developed by the Dalton-Lark company. The strike was made yesterday in the north drift from the 600-foot level. Further particulars cannot be learned today, but it is stated that a very good grade of copper ore has been encountered, and that wire silver runs in the ledge matter. The strike is very encouraging.

GEYSER MARION STRIKE.

Pay Ore Has Been Encountered in the West Drift.

A strike has been made in the Geyser Marion property which promises to be a very rich one. The strike was made in the west drift from the 600-foot level of the Geyser shaft. It is said that the ledge matter is of such a character that it is thought the ore will continue in this condition for a long distance. The ore is a mixture of galena and carbonates, and is of a high grade. The ledge is from 3 to 4 feet in width, and is well defined. The ore is found in a contact vein between the quartzite and limestone, and the pockets are found to be from one to four feet wide. The ore is found in pockets and it is for that reason impossible to tell how much ore there is in the claim. The ore is found in a contact vein between the quartzite and limestone, and the pockets are found to be from one to four feet wide.

Park City Items.

It is quietly rumored on Park Record circles that another shaft sinking operation is to be started on the Ontario property. The reports are practically true, and it is said that the work will be started in a few days. The shaft will be sunk to a depth of 1,000 feet, and it is said that the work will be done by the Ontario company.

ORE SHIPMENTS.

The past week's shipments of ore from the Marsac mines are as follows:

Daly-West	1,200,000
Ontario	1,000,000
Silver King	1,000,000
Daly	1,000,000
Ontario	1,000,000
Daly-West	1,000,000
Total	7,200,000

MINES AND MINING MEN.

A meeting was to be held this afternoon of the parties in Lark who are interested in the Dalton and Lark operations.

The work of sinking is going ahead at the Comstock. It is reported that about 40 feet of vein matter has been gone through.

Drifting from the 10-foot level of the Ajax of Alliance is now going forward. An encouraging change of formation is being met with.

A 10-inch vein of iron carbonate has been struck on the Mercur hill by the Mercur Gold Mining company. The vein is said to be very strong.

A force of men have been put to work on the Lost Josephine mine in Summit county. The property is owned by Salt Lake parties, and will be worked very much as it was in the days of '49.

Colonel Dave Day returned much pleased with the Mercur property, which, he says, looks much better than it did when he visited it last May.

Colonel O. P. Posey is back from California and is enthused that the ore for the Daughter Copper and Gold Mining company is going to be encountered during the next few days.

George Lambert, manager of the Dyer mine at Victor, is said to be making preparations to put on a force of 50 more men in the Robbins district.

A number of Chicago capitalists have been in the Cripple Creek district this week, it is understood, in the interests of some mine properties. The parties have been shown the Ajax, Ironclad and Portland properties, the latter being owned by Messrs. Pat. F. C. Beck, Judge H. Adcock and F. C. Beck, of this city.

LAND OFFICE ITEMS.

Original homestead entries were entered in the United States land office as follows:

William H. Davies, entry same, lot 2 and S ½ of section 1, township 21 south, range 1 west.

William H. Clark, 160 acres, south half of northeast quarter of section 12 and west half of northwest quarter of section 18, township 21 south, range 1 west.

Theodor Closser, 160 acres, lots 1 and 2, southeast quarter of northwest quarter and northeast quarter of southwest quarter of section 3, township 15 south, range 1 west.

Timber homestead entries:

Joseph Goodrich, 160 acres, south half of northwest quarter and east half of southwest quarter of section 19, township 1 south, range 1 west.

John C. Christensen, ninety acres, lots 3 and 4 of section 34, township 1 south, range 1 west.
