SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life requires it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

Encouraging Financial Statistics.

NEW YORK, 15.—Dun, Barlow & Co's. circular gives the total failures in the United States and Territories for the second quarter of the present year as 1,534 in number, and $22,000,000 liabilities, notably less than in any single quarter for the past five years. Compared with the second quarter of 1878 there is a decrease of 900 failures and $26,000,000 in the quarter ending last month. The total failures in California in the last quarter were 12; total liabilities $831,000; of this number and amount San Francisco had 56 failures and $783,000 liabilities. The total failures of Colorado in the last quarter were 14, total liabilities $1,238,236.

The circular says: "Never before in our experience in the computation of these statistics has the decrease in mercantile casualities been so marked. In no previous period has the comparison of losses by bad debts been so favorable as at the present hour. In relation to the growth in the volume of business of the past six months as compared with transactions in the same period in 1878; the returns from all the clearing houses in the country, some 22 in number, showing the total settlements or balances to be adjusted between the various banks, and indicate an increase of business all over the country exceeding 20 per cent.

The circular says: Respecting Colorado it is estimated that between five and six millions have been invested in mining operations since the 1st of January.

Gatherings in Gotham.

The sale of $12,000,000 new four per cents has been effected by the First National Bank to J. S. Morgan & Co., of London, at a price equivalent to about 101¾ New York quotations. This closes out the amount taken by the syndicate in April.

Counsel for Cox, the murderer of Mrs. Hull, it is said, proposes to conduct his defence on the theory that his assault was not at all fatal, but that Mrs Hull was in a state of coma when the physicians held a post mortem, and that they really murdered the woman.

The Duke of Argyll and his two daughters were privately entertained at a dinner party to-day by Cyrus W. Field. Among those present were Secretary Evarts, Peter Cooper, James G. Blaine and Mayor Cooper.

The strike of the employees on the East River steamboats was averted yesterday by the Company's acceding to the demand, which was for a reduction of the hours of work and a slight increase in wages.

The jury in the case of Chastine Cox for the murder of Mrs. Hull, was completed, and the District Attorney will open for the prosecution to-morrow.

The merchants, manufacturers and citizens of Newark generally are looking forward with great interest to the completion of the canal connecting their city with New York bay. The project has been under consideration since 1868, when the charter was granted, and surveys finished. There seems to be but little doubt that the work will be immediately undertaken. When finished, sea going vessels of the largest size can reach Newark from the lower bay.

An old sailor and Mexican war veteran, calling himself William Elliott, was committed for one month to the work house yesterday for drunkenness. He said he was one of the first to raise the American flag in California; went to the Yuba mines, got $16 per day and board; worked there until 1854, and made $27,000. From the day he went away he had not heard of his people in the east. They gave him up for dead. In 1851 he came on to New York, intending to make his father and mother comfortable, but found they were dead. Elliot is now utterly destitute.

The *Tribune* says: The most striking feature of the will of the Prince Imperial, is the strong pride in the name of Napoleon and real faith in the cause. He urges his mother to remember that "so long as there are Bonapartes the Imperial cause will have representatives," and that the line will not end with him; adjures her to defend the memory of his great uncle and his father, and expresses the hope that the time may come when the bodies of the three Napoleons may rest together in the tomb now occupied alone by the founder of the family.

Our Fisheries.

Regarding the recent Berlin dispatch relative to negotiations between Russia and the United States about the Alaska fisheries, the *Times* Washington special states: Nothing is known at the State Department about any such negotiations. It is probable that the American minister at Petersburg may have received from the Russian government some privileges for American fishermen to land on the shores of Kamtchatka and the Sea of Ohkotsk, but as the waters of Alaska, within the jurisdiction of the United States, abound with every variety of fish known in that latitude. There is no occasion for this government to negotiate with Russia to secure additional ground.

PHILADELPHIA, 15.—Wool quiet and steady. Colorado washed, 18 @ 25, unwashed, 15 @ 18; extra and merino pulled, 35 @ 37; No. 1 and super pulled, 33 @ 36.

Quarantine Abolished.

NASHVILLE, 15. — The State board of health this morning resolved to suspend, on Monday next, until further order the enforcement of the rules and regulations against Memphis, provided there is no other case of yellow fever prior to that time.

Memphis, 15.—The city remains very quiet. No new cases are reported. In a few days it is anticipated the quarantine restriction now in force against Memphis will be removed. Norfolk, Va., to-day took the initiative. Judge Ray's son is better this evening.

New Orleans, 15.—The board of health, to-day, adopted a resolution rescinding the quarantine against Memphis.

Havanna, 15.—The commission appointed by the National Board of Health of the United States for the purpose of studying yellow fever symptoms, development and treatment in Havana is prosecuting its work here assiduously. During the last week there were 117 deaths from yellow fever in Havana.

Cattle Importation.

WASHINGTON, 15.—At a cabinet meeting to-day the question of the importation of cattle from abroad was considered and it was decided that such importations heretofore prohibited should be allowed under certain conditions. A circular containing these conditions and other information on the subject will be prepared.

Liquor Laws to be Enforced.

Commissioner Raum has sent a circular to all the collectors of internal revenue in "Moonshine" districts informing them that although the usual appropriation for fees of United States marshals has not been made by Congress his office will not relax its efforts to suppress fraud by the seizure of illicit distilleries and the prosecution of offenders. He directs collectors to relieve as much as possible the marshals from embarrassments of their situations, and informs them he proposes to give a necessary force to execute the laws.

Financial.

A memorandum of the financial operations of the government has been issued from the Treasury, showing a reduction in the interest-bearing debt, from the highest point, August 31st, 1865, to July 1st, 1879, amounted to $583,886,594, and the reduction in the annual interest charges, when the present funding operations are completed; to August 1st, 1879, will be $67,203,519. The total debt has been reduced $72,234,315, and the reduction since March 1st, 1877, is $21,533,886. The bonds refunded under the acts of July 14th, 1870, and January 20th, 1871, amount to $1,396,022,000, on which the annual interest charge was $81,673,547. These will be replaced not later than August 1st, 1879, by bonds on which the annual interest charge will be $61,760,880, making an annual saving hereafter in the interest charge on the amount of refunding operations of $19,907,867.

Destructive Flames.

POTTSVILLE, Pa., 15.—A fire was discovered this evening issuing from the slope at Prevost's colliery, Centralia, and in a short time the breaker, which cost $150,000, was in flames and entirely destroyed. The loss cannot be estimated as the vein of coal is burning fiercely, which will probably entail heavy damage. Three hundred and fifty men are thrown out of work. At midnight it was thought the loss would reach $250,000; the insurance will probably not exceed $75,000.

Pennsylvania Democrats and their Platform.

ALTOONA, 15.—The national greenback labor party of this State met in convention here to-day. Samuel R. Mason, of Mercer County, president. Henry Carey Baird, of Philadelphia, was nominated for State treasurer by acclamation. The committee on resolutions reported the following platform of the party:

First—In favor of the payment of the national debt strictly in accordance with the stipulations of the contract under which it was created; no more interest-bearing bonds of the Federal government must be issued. Second—The Federal government only shall issue money; that such money shall be a full legal tender, and that full legal tender greenbacks shall be substituted for national bank notes. Third—For the sake of economy and convenience trade dollars and fractional silver coin shall be replaced by fractional paper currency. Four—The repeal of all laws that foster inequality in the condition, as they are in violation of universal justice. Fifth—The enactment of an income tax law with heavy penalties for perjury in its violation and that said tax be graduated in proportion to income. Sixth—All debts due for labor performed, take precedence of all other claims. Seventh—The passage and approval of an act abolishing the store order or "truck" system, and compelling the payment of all wages due laborers at regular stated rates and in lawful money of the United States. Eighth—The passage and enforcement of such laws as will prevent all combinations from the discriminating or granting of rebates by transportation companies and compelling common carriers to furnish service for the same price to all men. Ninth—No more public lands voted to corporations, but that they be held for actual settlers. Tenth—Education shall be free and industrial and no child shall be allowed to grow up in ignorance.

The above platform was adopted with the following addition: Demanding that there shall be a deduction in official fees and salaries to correspond with the reduction of incomes in other directions; that there shall be a specific tariff placed on all raw materials produced here for the protection of American industry; that the hours of labor be reduced to eight per day.

A telegram was received from Henry Carey Baird, positively declining to stand as candidate for state treasurer. Peter Sutton, a wealthy farmer and ex-judge of Indiana County, was nominated on the second ballot. Adjourned *sine die*.

An Indian Outrage.

GALVESTON, 15.—A *News* special from Fort Davis says: The Indians attacked Deutscheurer rancho, three miles east of here, and killed Juan Josia, the herder's wife and drove off sixteen horses. A party of 14 citizens and a detachment of troops are in pursuit.

Sawyers on Strike.

CHICAGO, 15.—The *Inter-Ocean's* Rock Island, Ills., special says: The saw mill hands of most of the large mills struck here yesterday, but a compromise was offered last night by the terms of which they were to work again to-day. Instead of doing this, however, they sent delegates to the number of about 200 to Moline, where the employees of the two mills were compelled to suspend operations. It is reported that the mill men of Davenport will be forced to join the strike to-morrow.

Temporary Injunction.

LAFAYETTE, Ind., 15. — Judge Ward, to-day, on application of the Western Union Telegraph Company, issued a temporary injunction against the Central Union Telegraph Company, the American Union Telegraph Company, and the Wabash Railway Co., restraining them from building a line of telegraph along or upon the right of way of the Wabash Railway Co., until July 21st, when the arguments in the case will be heard.

The Walkists.

SAN FRANCISCO, 15.—Edwards has maintained his lead during the day without difficulty and at seven p.m. the score stood, Edwards 861, McIntyre 355 Callahan 346, Bowman 343. McIntyre is very stiff but Edwards is comparatively fresh. Bowman is not likely to overtake Callahan, though in better form.
