The rebels' losses are not yet in touch with the rebels'. Further statements of troops have been ordered forward. The rebels in their southward march have occupied every town they passed through, making requisition upon the inhabitants for supplies. A number of rebels' prisoners have contracts of a private telegram about the Chinese disturbance received by the Chinese Foreign Minister, and instructions were given from the Chinese to the Chinese. REBELLION'S JUBILEE.

A Day of Days for Catholics in America.

St. Louis, Nov. 28.—This has been the day of days for the Roman Catholic Church in the United States. Dignitaries and laymen from all parts of the country gathered to attend the opening of the Golden Jubilee. Peter Dechant, Bishop of St. Louis, presided over a service of 84 Masses for the past fifty years. Solemn thanksgiving services were held in all the Catholic churches of the city. In none of them the most distinguished dignitaries and laymen came to the service were delivered. Archbishop Ireland's lecture at Mass Hall brought a great interest before the church, and a prominent part was taken by the Rev. Dr. C. H. Hartman, the Chaplain of the Workmen's Union. The Jubilee mass will take place tomorrow morning in the old Cathedral on Lower Walnut street, when the same number of years will have advanced now—45 years. Archbishop Kenrick will not officiate as customary, that duty being assigned to Cardinal Gibbons. The Jubilee began yesterday afternoon. The Catholic Knights of America will be leader of the procession. The Knights of Columbus, the national spiritual director of the organization, Wednesday evening. The Knights intend to make the new church feature of the procession, so that the grandeur with which they rank has not produced the least discord among them. The remainder of the week will be given up to receptions, etc.

A TERRIBLE SITUATION.

Surrounded by flames on Lake Michigan.

Chicago, Nov. 28.—For over an hour today on Lake Michigan four men stared futilely in the face what seemed to be inevitable death. They were aboard the big "John Miller," which was well along in its course. The vessel had run aground in a gash creek. The men had only buckets to delay the moment when apparently they would have to decide whether to jump or drown. The fire on the "Miller" sighted the smoking flames from the burning tug, but the waves were running so high that the "Miller" was lost to sight. All four men leaped into the "Miller" and by almost superhuman exertions took ahead the scurched and exhausted seamen. The "Widow Miller" was the only vessel whose presence prevented her destruction. The four men who escaped from the "Miller" were Captain Peter Berry, Engineer James H. Miller, Second Officer, and a deckhand. The "Widow Miller" was under command of Captain Thomas Berry, brother of the "Miller's" captain. The rescue took place five miles from shore. The fire on the tug was still burning, in the explosion of a bomb. After driving the engine and wheelhouse from their posts, it dashed the steering apparatus, which had been set by Captain Berry, and the two men instead of making a large circle, that so nearly proved the doom of himself and men.
