California Woman's Letter of Special Interest to People in Satt Lake.

At this season of the year a letter from the land of flowers and sunshine is of special interest to our readers. is of special interest to our readers. The following letter from the Holden Drug Co., of Stockton, Cal., one of the largest drug houses on the pacific coast, is of especial interest. They write: "Enclosed is a letter from one of the most prominent residents of this city. She will not allow her name to be published in the newspapers, but we can furnish it to anyone writing us." The letter is as follows:

we can furnish it to anyone writing us." The letter is as follows: "For some four years my daughter has had headaches, which seriously in-terfored with her school work. Until recently we attributed the trouble to eye strain, but happening to notice your advertisement of Hyomei, we were sat-isfied that her trouble came from cotarch. catarch

We purchased a dollar outfit, one within twenty-tour hours great relief was experienced, and the loosening of mucous matter and the reduction of mucous matter and the reduction of throat imflammation began, Sixty days' use of Hyomel made nearly a complete recovery, which we consider very antis-factory after nearly four years of ex-pense and fruitless treatment by other methods, and that we feel grateful is to put it mild."

"Mrs. ______ This letter shows that many cases of sickness and debility are simply caused by catarrh, and that they can be cured by Hyomel. This is Nature's own method of curing catarrh, medicat-ing the air you breathe. A complete outfit, including the in-haler, costs but \$1, and extra bottles are only 50 cents. Ask F. C. One-Fourth Reduction on All Winter Suits and Coats.

The People Are

There are several points to be considered,

- A growing trade is being built up.
- We hold the confidence of mothers.

We hold it because they know our prices are reasonable-prices that are never questioned.

With Us

When reductions from these reasonable prices are made mothers know they are reliable.

The next point under consideration is the make.

This takes in style and quality of materials.

To obtain these styles, these supreior qualities we pay a little more for the suits. It makes our profit less but the gain in good will and the cementing of customers to the store more than offsets.

There is therefore a style to our boys' clothings found only in tailor-made garments. They are well made. There is grace and style. They are made for boys-boys that romp and give clothing hard wear. They stand the test. They look neat as long as they hold together. And they wear a long, long time. Mothers are so pleased that they come back because they are so well satisfied.

These winter suits and coats are of fancy mixtures,

Norfolk and double breasted-in a variety of styles. In this discount are included the celebrated Sampeck manufac-

ture. This concern made a reputation in the early days. That reputation stands today. Its product is of the highest standard of excellence. A Sampeck suit is remembered.
