Peace and Progress.

MONROE, April 1st, 1875.

Editor Deseret News:

A general time of health. Weather very cold for the past few days. Everybody busy. U. Order Goss F working well. Sunday and day schools well attended. A few have been cut off for apostacy. Our Bishop is wise and merciful, or more would have been. Plenty of room and work for good mechanics and farmers in the U. O. here, carpenters having to work almost day and night, so to speak. A time of general peace and quiet, and enough of the "staff of life." Some tasty buildings going up. Meetings full and full of life. The workers of darkness are doing what they can, but the Saints only draw closer.

Editor Deseret News:

On Siturday and Sunday last a | Campbell H County Conference was held at Campbell J this place for the purpose of transacting such business as would be Cottam M necessary for the well being of the Church in this County. Almost Cushing M all the branches were represented and the reports therefrom presented.

We were also favored with the presence of Elder Orson Pratt and Davis MC Bishop Sheets, who occupied some of the time in preaching to the congregation. These who were Ecles E present were undoubtedly benefited | Elvers M by the deep and profound reasoning on theological principles by Fielding M Elder Pratt and the good practical Fife S instructions of Bishop Sheets.

A CORRESPONDENT, writing from Athens, curiously contrasts the mixtures to be found there of ancient and modern civilizations. Railroads spin their trains amid the temples of three thousand years; Ammott H steamers dash their swells upon the Pireus, and the scream of their whistles resound from Athos, Pentelleus and Cytheron to Olympus and the heavens beyond their gods. Dr. Ayer's world-renowned medicines, those consummations of modern Bowers F P science, are posted on the Acropolis, the Parthenon, the Areopagus and Thæsion, Burton J 2 while the modest cards of Cherry Pectoral, Ayer's Sarsaparilla, Ague Cure and Pills look from the windows of the shops in the streets of Athens, where they are sold .-N. A \$4.00 Book for \$1.50. The People's Common - Sense Medical Adviser, in Plain English, or Medicine Simplified: by R. V. Pierce, M.D., Counselor-in-Chief of the Board of Physicians and Surgeons, at the World's Dispensa y, Buffalo, N.Y. The above work-a book of about nine hundred large pages, profusely illustrated with wood engravings and colored plates, and well and strongly bound-will be sent, post paid, to any address, for One Dollar and Fifty Cents, making it the cheapest book ever ofered to the American People. Other books treating of domestic medicine, of like size and style of binding, and not nearly as well illustrated, with no colored plates, and some of them containing no prescriptions and making known no means of self-cure for the diseases which they discuss, sell for from three dollars and a half to five dellars. Were Dr. Pierce's work not published by the author, printed and bound with his own machi nery, and were it sold through ty. agents, as other like works are, the price of it would have to be not less than Four Dollars. For when the publisher pays the author a fair price for his production, then adds a profit to his investment large enough to satisfy himself and compensate him, not only for his labor. but also for the risk of pecuniary loss which he assumes in taking the chances of the enterprise proving a success, and when the State, County and canvassing agent has each received his profit, they have added to the expense of a book, that originally cost about \$1.25, so much that the people have to pay not less than \$4.00 for it. The People's years old, brand on left side U. Y., and inclosed in registered letters, may be at his risk of loss. The author's large correspondence with the people upon brands visibl . medical matters, which, we are creditably informed, frequently be sold at public auction at the estroy exceeds 300 letters a day, and pound in this city at the above mentioned Tribune, stated that Abednego Robinson, of requires several trained and skillful medical assistants and short-hand reporters to enable him to entertain and answer them, as well as his large daily dealings with disdisease at the World's Dispensary, appear to have peculiarly fitted him for writing the Work, by rendering him very familiar with the every day medical needs of the people. He endeavors in this Work to answer all the numerous questions relating to health and disease that have been addressed to him by the people from all parts of the land, and hence it contains important information for the young and old, male and female, single and ounces at ounce rates. and married, nowhere else to be found. All the most prevalent diseases of both sexes are also plain ly and fully considered and means of self-cure made known.
