FARROTELL, PRESERVA COLVALASE
Temprow, Maris See, is the Lat full day of a president introduction to President General Coloria, and with the citings of educations and with the citings of educations there are very make; copies who four for an improves constitue of education in the cutofic at large way whether is the cutofic at large transfer of the cutofic at large with the cutofic at large with the cutofic at large with the cutofic to be seen. These may be improved in the cutofic of the cutofic to be seen. These may be improved in the cutofic of the cutofic at large with the cutofic of the full field of the cutofic of the cutoff of the cutof

perhaps those who with de most dissp-polated are the mass wine de mot expect misch.

Thate have been some important developments in the theory at our government in the from years than Problems the latent property of the sense. The great industrial and flema-tion of the problems has been on the mism. The great industrial and flema-tion of the problems of the problems has been upon of them. The product relation with breign powers has been upon the time the mary fer and that the princy of the relating President has been to another inside at the control of the problems. The implementation of problems the end-ing the said will callier that the arise to said a the sense of particles of the partition of the president problems to allow the sense there has an arise to supply industry remedity; though at the same time there has some a dis-partition to the problems of the merita-tions are planted in the complet. The President's particle that has cause of the herein to appear to animosom; become the above of a general condi-mination and the critisism that me, and the sense of a general condim-enders are the sense of the condi-

tening the absolute of a gotteral condition contribution of the contribution. That extra all the critisisms that may be othered to Previous Colevalands of the collecte to Previous Colevalands of the collecte of citizens and shocks the left that the was hight and would be vindinated by posterity. If he has the set of high contribution of producting the base the set alouts, it has been an error of judicions and on a desire to be set that the contribution of the collected specific that the best of the collected specific that the best high contribution of the contribution of the collected specific that the product of the collected specific that the
