MASSACRE WAS ARRANGED.

As proof of the charge that the massacro was prepared in advance, the Jews claim that the keepers of the government wine shops received notice day before the outbreak to remove their cash from the shops to safer places. The tales of structlies committed are innumerable, and while some of them may be exaggerated, chough has been established to make almost

anything credible. The mob seemed to delight in tortur-ing the victims. Strips of fish were out from their bodies, children ware matched from their mother's arms and taken by the legs and brained on the pavement before the eyes of their pa-rents. An old Jew was beheaded and the ghastly trophy was carried all day at the end of a pick through the streets. In many cases the heads of victims were beaten to a jelly with

At the Bialyston railroad station, where the mob scarched the trains for Jews, a rictor seized a five-year-old-girl by the throat and held her at arms length until she strangled to death.

Little children seemed to take pleas-ure in pointing out the hiding places of Jews. Mutilated corpers, swarming with files, were left jying about the streets in some cases for days.

INJUNCTION SUIT.

Filed Today Against Pioche Consolidated Mining and Reduction Co.

An injunction suit was filed in the district court today by William Gelder against the Ploche Consolidated Mining & Reduction company and W. S. McCornick & Co., to restrain defend-ants from disposing of the Hillside lode claim, located in Lincoln county, Nevada. Plaintiff claims that he entered into an agreement with the min-ing company to purchase the claim and that the deed for the same was placed n escrow with McCornick to be delivered to plaintiff when the final pay-ment of the \$5,000 purchase price was of the payments Alt_ by plaintiff excepting the last \$500, and it is alleged that the mining company agreed to extend the time for that pay-ment. When plaintiff did offer the sum and demanded the deed, the de-fendants refused to accept the money and also refused to deliver to him the deed. It is alleged that they now threaten to sell the claim to another party, and a restraining order is asked to prevent them from doing so. It is also asked that the defendants be com-pelled to accept the final payment and to deliver the deed to plaintiff.

Everyone of these people had \$1,000 or more on deposit. I found that \$2,000 000 had been diverted and that the lesses of operating the different industries up to that time amounted to \$2.520 km. I found that the laboring men were receiving only enough to exist upon and their pay was far behind. Muny of them were paid in coupans and when I assumed management about \$30,000 in these coupons was outstanding. I found many people on the virga of starvation, not-ably a Mr. Haskins, who had an annual income in Australia of \$4,000. I gave him a ton of coal and food to keep him allve?

"We are here, also, to bear witness to the unselfish labors of these good women who conduct this school, for their untiring efforts to build up true womanly character in the young women committed to their care. These good sisters have put the world and all its allurements behind them and have devoted their lives and services to doing good for others. Such cousecration, such holy altruism, passes the comprehension of the worldly, but it is known and honored by God. May his richest blessings be on them in all they do."
