Jeffries' Color Line Stand Pleases His Western Friends Greatly.

THE HANLON-CORBETT BOUT.

No Chance for Joe Grim to Make Money Out of the Heavyweight Champion -About Johnson.

W: W. Naughton, sporting editor of the San Francisco Examiner, hands out the following anent the pugilistic situation on the coast:

Big Jim Jeffries' friends at this end of the line feel like slapping him on the back for the stand he has taken in regard to the scheme for pitting him against Joe Grim. If we are informed correctly the sawed-off Italian does not know the first thing about boxing-that is, the aggressive phase of it-and it is a constant menace to the sport to keep sending him up against the most famous smashers of the various classes just to test his endurance. The whole business is as much at variance with the ethics of true sport as shooting a llon tied by the leg or blowing up speekled trout with dynamite. If persisted in it will surely give pugilism a cauliflower ear. The unfortunate past time has no room for further black eyes All credit to Jeffrics for refusing to take a turn at halong the Philadelphia badger. Incidentally some friend of the game should betake Grim aside and tell him that the ring le not ins legitimate sphere of action. True, he has become the delight of the galery and a stand-ing repreach of the memoers of the pal-versing guid, bull fame opens up a mort beaufiful visit for him in other direc-tions. With nothing to protect him but his sole-leather solar pictus he coul-blossom out as a cannon ball inter.eptor and become the mathee idoo of the big-gent circus in the land. Just a word to the Philadelphia pro-moters. The "good old game" needs all the friends it can muster just at present, and it is a bad time to be feathering frenks of the Grim variety. It has been suggested that innovations in the classification of puglisits are in order-as witness the light-heavy weight invision-it might be a good idea to have corbett and Hanlon box for the cham-pionship of the ight-ightweight class. BILLIARD MATCH OFF.

Proposed World's Championship Contest Between Shaefer and Sutton.

The proposed billiard match between Shaefer and Sutton for the championship of the world, which was to take place a Chicago on Dec. II, has been declared off. and Sutton claims the champlenship em-blem honors, as he is entitled to do under the rules. Jacob Shaefer has held the world's champloaship for 18-ince balk line billiards, one shot in, during the past few years. The rules under which he came into possession of the championship match games during the past few years have been criticised more or less severely by sportsmen by reason of the tactics adopted by him in avoiding contests. In case Shaefer refuses to surrender the cri-blem, legal mensures will probably on taken to recover it. In connection with the above it is in-teresting to learn that Vignaux, the French player, has accepted the chailenge of Gorge Sutton for a championship Is-inch balk line game, tow shots in, and has covered the stakes. The game will be played in Paris. Chicago on Dec. 11, has been declared off,

In a football game yesterday afternoon at the University between the Juniors and Freshmen, the former won by a close score of six to five.
