LOCAL AND OTHER MATTERS.

PRESIDENT YOUNG AND PARTY.—By telegram from President Young, we learn that he and party, left Oxford at 4 a. m. yesterday morning, for Soda Springs. The members of the party were all well, and the weather was pleasant.

COMMUNICATION.—Brother Cannon—I notice in the Herald that the Editor is censuring myself and the U. P. R. R. about a case of small pox. The truth of the case could have been obtained if he had applied to the proper source.

JAMES HENRY, M. D.
S. L. City, June 11, 1870.

HO, FOR LAKE SIDE!—At about a quarter to nine o'clock this morning, a very respectable company was assembled at the Depot of the Utah Central, to take advantage of the opportunity presented for an excursion to Lake Side. At ten minutes and a few seconds past nine o'clock the train started, and all on board seemed jubilant at the prospect of such a pleasant jaunt. It had twelve minutes the train came to a halt at Wood's Cross, eight and a half miles from this city, where a delay of five or six minutes took place, having been switched on to a side track, to give way for the regular down train from Ogden. As soon as it had passed, away went the excursionists, and at about ten minutes to ten, the destination of the party, about one or two miles beyond Farmington, was reached, the train being two or three miles having been made in about thirty-five minutes.

The inauguration of Summer excursion parties down to the shores of Salt Lake, by the Utah Central is most excellent, and is bound to meet with the patronage it deserves. Heretofore the want of facilities for excursion parties has been badly felt here. A ride to Salt Lake and back was a good day's work with a good team, and an excursion there and back, in a day, to have anything like pleasure or fun, was out of the question; but now, when the journey there and back can be made in a couple of hours, we have no doubt that thousands of people from this city will avail themselves, through the Summer of an opportunity to visit the shores of the Dead Sea of Utah Territory.

SMITHFIELD.—Bro. E. Homer, writing from Smithfield, Cache Co., says all is well at that place at present, and the crops look uncommonly promising.

COTSWOLDS.—We have received from the publishers a pamphlet statement, prepared by H. F. Buckley & Brother, Merced Stock Farm, Hopetown, Cal., importers and breeders of thoroughbred Cotswold sheep, giving experiments in the breeding of Cotswolds and their grades. Anything tending to improvement in the breed of our sheep is of interest to our people. From the statistics presented in the pamphlet we have little reason to doubt that the Cotswold sheep might be imported to this country and crossed with our sheep to advantage. The matter is worthy the attention of our sheep raisers. The above named firm is an extensive business in importing and breeding.

DESPERADO KILLED.—We have received, per Deseret Telegraph line, the following account of the sudden ending of a career thief and would-be murderer's horse, which ought to be a warning to others:

Gunnison, T. T., 10—William Brown, deputy sheriff from Weber county, has just arrived here: he left Ogden June 4th, with a writ to arrest Peter Smith, who had stolen a span of mules belonging to C. W. Thornton, of Ogden. He succeeded in arresting Smith at Marysville, near the Sevier mines, on Wednesday. Smith resisted, but was finally taken and secured without injury. The deputy sheriff started with him to Ogden the next morning. On arriving at Glenwood, a vacated settlement of Sevier county, the sheriff placed his gun by a stone wall and told Thornton to guard the prisoner while he got the hand-cuffs for him. While doing so, Smith grasped the sheriff's gun and attempted to shoot Thornton, but found it was unloaded, as the sheriff had taken the cartridge from the gun previous to leaving it. Smith then grasped the muzzle of the gun and struck at Thornton; as he did so he brought himself in front of the sheriff, who shot him through the forehead. Thornton also fired a bullet, taking effect in his left breast. There was a jury summoned from among some campers near by, and an inquest held. The body was buried there.

AN EASTERN EDITOR'S VIEWS.—We have been favored with the perusal of a letter to Bro. Edward Stevenson, of this city, from the editor of one of the principal papers in the chief city of one of the eastern States. In that letter, our brother of the quill, while admitting his belief that the practice of plural marriage in Utah must go down, says:

"I believe the Russell bill to be the device of a parcel of rascals, who do not care a fig about polygamy; but who do want a war, or a row of some sort, with which they can make money by fleeing the Government in contracts for food, clothing, arms, ammunition, &c."

The same gentleman says:

"I have just received Fitzhugh Ludlow's book 'In the Heart of the Continent,' in which he makes you out a desperately wicked and cut-throat set, living under a frightful despotism and all that; but if you are a specimen Mormon I think I could trust myself in your keeping for a lifetime, and be as safe as among my gentle neighbors, to say the least. It is my purpose, some day, to risk a visit to Salt Lake, at any rate, and you need not fear that I will abuse your hospitality."

EASTERN PLEASURE SEEKERS.—Among this morning's arrivals at the Townsend House are quite a number of members of a large party that left Chicago on the 18th of last month, to visit the Pacific slope. The party was organized by W. R. Bentley, Esq., of Omaha, who is at present in our city. After traveling through California and seeing the sights, they are now returning. That portion of the company not at present here, visited our city when going west. We wish them a pleasant visit and safe return home.

WARM.—By Deseret Telegraph line we learn that the thermometer ranges from 105 degrees upwards, every day, at St. George.

SPLENDID BOUQUET.—The finest bouquet we have seen this season was sent to us this morning by Mrs. T. W. Ellerbeck. It comprises as many as twelve different varieties of the rose, and is very tastefully arranged. Its appearance is really beautiful, and its fragrance is most delightful. We infer from it that even in the absence of Brother Ellerbeck his garden receives care and attention.

THEATRE.—Remember that, Theatre this evening. A fine variety bill, abounding with fun, will be presented.

FINED.—Wm. Smith, brought before Justice Clinton on Thursday for drunkenness, swearing and disturbing the peace, was fined \$12.50.

Wm. Thomas, up yesterday for the same offense, with that of assaulting the officers added, was fined \$50.

DANGEROUS.—A couple of boys, irrigating, just this side of Farmington, this morning, placed a wooden trough on the track of the Utah Central to convey the water to the side opposite the irrigation ditch. The boys had strayed away for a short distance, and as the engine, which was conveying the Lake Side driver, seeing an obstruction on the line, sounded the alarm, and was compelled to stop to avoid an accident. The boys were quickly on the spot, and after a short delay the obstruction was removed.

Such a practice is one which should subject the parties guilty of it to a severe fine, for it is one in which danger to life is involved. Some other method of irrigating the land should immediately be adopted.

AFTERNOON DISPATCHES.

CONGRESSIONAL.

HOUSE.

Patrick Woods to be arrested.—The charges against Fitch—Democratic gain in the Massachusetts Legislature.
David's bill, for amending the acts for the removal of cases from the State to Federal courts, by extending the application to cases of interest in which the parties in interest are in different States, was passed.
A resolution was adopted for the arrest of Patrick Woods alias Doodi, who committed a murderous assault in Richmond upon Porter, a member of the House.

The vote yesterday, on tabling the naturalization bill, was reconsidered and the bill recommitted.

A correspondent of the New York Post having reiterated charges against Fitch, relative to the Cuban bonds, was brought before the bar of the House, by its vote, under arrest, and stated that he procured information from official documents, namely, the sworn statement of N. B. Taylor before the Grand Jury in the District of Columbia, which was corroborated by General Butler, though Butler said he did not consider them as directly implicating Fitch, as it did not appear he in any way responded to the approaches of Taylor. Sargent offered a resolution for the correspondent's expulsion, but a substitute was offered by Farnsworth, which provided that the committee investigate the matter and the committee be discharged. Sargent had read a dispatch from Taylor, dated Montreal, denying that he ever had any conversation with Fitch, McCormick or Butler on the subject of Cuban recognition.

Smith again read a dispatch from Salem, announcing that the Democrats have twelve majority in the Legislature, which was received with applause by the Democrats.

WASHINGTON.

Count of Claims bill—Army bill.—Red Cloud's interview; not quite satisfactory.

WASHINGTON.—The Senate amendments to the legislative appropriation bill number 256.

An amendment was offered extending from the court of claims all persons who participated in the Rebellion, and a substitute was adopted, providing that no amnesty be admissible in said court, except when issued during the active operations of the Rebellion and under the proclamation of President Lincoln.

An amendment was offered providing for equality of compensation to females and males in the Department, and a substitute was discussed, simply opening all the classes of clerkship to women.

The committee of conference on the army bill have completed their report. The army is reduced to 30,000. All important points in both the Senate and House bills are agreed to.

Red Cloud and party have had a final interview with Secretary Cox and Commissioner Parker. The Secretary told them that some of their requests concerning rations, &c., will be acceded to and the government will do all in its power to make them comfortable; for Fetterman must, however, remain. They start on their homeward journey on Monday via New York, where they will receive the balance of their presents. Red Cloud evinces dissatisfaction at the continuance of Fort Fetterman and to roads running through their country and intimates that trouble may arise, which will be the fault of the great fathers.

BOSTON.—A resolution of sympathy for the people of British provinces who desire annexation to the United States, has been passed in the Massachusetts House.

It went over until next year.

NEW YORK.

Railroad Contract.—Negro Census Taker.

NEW YORK.—The executive committee of the Pacific Railroad has awarded the contract for the construction of the Minnesota division of 220 miles, extending from Dulles, on the St. Louis river, west to Red river on the north, to a combination of the old Canadian firm of Ross, Cassin & Co., with the Minnesota firm of Brackett, Garrison & Co. The work is to be completed by the 1st of July, 1871. The commission also contracted for twenty thousand tons of rails, with iron appendages, necessary engines and cars requisite for working. A negro census taker has been appointed in the 8th Ward.

ILLINOIS.

Found drowned.

CHICAGO.—The body of Charles H. Hunt, of the firm of Hunt & Goodwin, a resident of Chicago for twenty years, was found floating in the slip near the Illinois elevator, early this morning. As he has had an affection of the eyes, it is supposed that he was attacked with sudden blindness and fell into the slip. He leaves a wife and two children.
