Lendon, April 28. Gladstone and wile to-day visited the grounds of the American Exhibition and the camp of the Wild West show. A special per-formance was given for their enter-tainment. Whenever the youth desirous of studying political history consults me respecting the course of study in the field of history, I always refer him to the sariy history of America. God Almighty made the Englishmen and Americans kinsmen and they ought to have an affection for one another. If they tail not, humanity would err shame upon them. I rejoice that the clouds which once obscured our mutual vision have almost vanished from our political sky, and that the future is as bright and promising as the warment-hearted almost as could desire."
