MINING, BUSINESS AND STOCKS.

MINING STOCKS IN BIG DEMAND

Exchange Sessions Grow in Interest and in Duration.

HEAVY BUSINESS RECORDED

Many Issues Participated This Morning and Buying for Outside Accounts Was Large.

The session of the mining exchange this morning was extremely long and a very heavy business was transacted. The demand for Utah mining stocks continues to increase and the larger commission brokers report a very steady and substantial growth in their business for outside traders.

The mining share market continues to increase in activity and strength while many stocks that for months were inactive are now being traded in. Conditions at the various mines are generally very encouraging.

This morning the transitions recorded involved 29,637 shares and $20,441. Eighteen stocks participated during the regular sesion while on the open board Daly Judge, Comstock, New York and Sacramento were traded in. Prices generally were firm though in one or two instances stocks were tobogganed.

Con Mercur, Lower Mammoth and Century displayed much strength, while Creole and California shared badly at the hands of the bears.

The session closed on the following market:

CENTURY'S RICH STRIKE.

First North Drift is in Magnificent Gold Ore.

Manager Madsen of the Century returned last evening with a very nice gold bar, the result of about eight days' run of the mill and with news of most important developments at the property.

Foreman Clark several days ago discovered what is known as the "Lost Lizzy vein" and the first drift to be started north from the upper tunnel is now in four feet of magnificent gold ore. Assays have run as high as $18 in gold to the ton, while the average is higher than that of ore in any other part of the mine. Two shifts are now working on the drift. Manager Madsen is much elated with the find.

OPHIR HILL MAY HAVE FURNACES

Equipment of Senator Clark's Property Receiving Overhauling.

CONCENTRATOR INACTIVE.

Mill Closed Up Tight and Being Thoroughly Cleaned — Mine in Splendid Condition.

Reliable advices from the Ophir Canyon district are to the effect that the big Ophir Hill mill is closed up tight and is receiving a thorough cleansing and overhauling. All the concentrates and slimes are being shipped to the smelters here. Just when the mill will again be put in operation is a question that Supt. Clark will not answer, but it is stated that the probability is that no more concentrates will be made prior to the equipment of the big plant with the greater electric power now being arranged for. It is further stated that additional machinery will be installed in the mill and processes for the extraction of a better lead-iron product provided.

In addition to these changes it is rumored that two matting furnaces will be ordered and that prior to a resumption of operations they will be installed at the property. It is understood that the railway and smelting charges now in force are unsatisfactory to Senator Clark.

The big mine is reported to be in magnificent condition. The third great blanket vein (of ore carrying gold, silver, lead, copper and iron values), which was encountered some time ago, is proving up richer and larger than either of the previous veins.

CREOLE CHANGES.

John Dern and Associates Now Control the Property.

A deal has been consummated whereby John Dern and associates have acquired the control of the Creole Mining company which owns valuable territory between the town of Park City and the Silver King Mining company's property.

Mr. Dern states that the new owners will meet tomorrow to organize, and that very soon the property will be equipped with the necessary machinery for a most active campaign of development. There is no doubt that with Mr. Dern at the head of the company there will be no difficulty in the raising of sufficient means to energetically and systematically open up the property.

MINING NOTES.

Silver is quoted in New York today at 51½ and copper at 11¼.

Ed F. Frendenthal left again for Ploche on last evening's train.

The Mountain Gem of Bingham has one car of good ore on today's market.

Manager Rhodin of the Thunderer at Park City, came down from camp last evening.

Dexter-Tuscarora gold bullion worth $4,400 arrived from Tuscarora, Nevada, yesterday.

Ophir Hill concentrates to the extent of 12 carloads will be forwarded to the A. S. and R. plants today.

Supt. W. R. Smith of the Highland Boy Consolidated of Bingham is again in the city on a visit.

Manager Simon Bamberger is scheduled to leave again for the DeLamar mines some day this week.

Ore and bullion settlements in this city yesterday as reported by McCornick Co., amounted to $58,900.

The Horn Silver management has another two car lot of copper ore en route to the American smelter.

Manager McVichie of the Galena King of Stockton has one car of ore on the market from that promising property.

The Eureka Hill with three carloads of ore, and the Gemni with six are among today's shippers awaiting settlement.

Thomas P. Rigney, the mining engineer has gone to the Horse Heaven district near Marysvale to expert certain properties.

J. M. Callow, the expert metallurgist, left this morning for Park City to continue experiments at the Daily Judge mill.

The Uncle Sam management has closed its contract with the Bingham Consolidated for the use of the Tesora mill.

The Sacramento mill is reported to be operating most satisfactorily and already nearly $20,000 in gold cyanides has been marketed.

Colonel Milner has gone to Idaho for a ten days' visit to the property of the Twin Lakes Irrigation company located 20 miles above Shoshone.

O. J. Salisbury of the Daily-Judge is today visiting the Park City property of the company, having gone to camp with Mill Manager Broughall.

Supt. Raddatz of the Honorine, who is in from camp for a day or two, reports the big drainage tunnel completed for a length of 1,600 feet.

Manager Willard F. Snyder of the Honorine and Manager McVichie of the Bingham Con. and Galena King left for Stockton this morning to inspect the big tunnel.

Advices from Bingham are to the effect that a strike of very fine copper ore has been made on the Petro 500 level and that it has every evidence of being important.

The United Sunbeam shareholders are requested to meet on Saturday next at 3 o'clock in informal session for the purpose of discussing some questions of importance to the company.

John Brooks, the expert mill manager, is down from Park City and states that the California mill is now equipped for the most satisfactory treatment of its ores. The mine is said to be looking excellent.

The Taylor and Brunton management reported the following shipments as having been sampled: Nine cars of ore from Tintic, two from Frisco, one from Stockton, and one from Bingham; also, 12 cars of concentrates from Ophir canyon.

MOST STOCKS LOST POINTS

Cause Was Growing Stringency of Money Under Forced Calls.

SOME FRACTIONAL RALLIES

But They Were Not Held Well—Bear Traders Sold Stock, Uncovering Stop Loss Orders.

New York, Sept. 23.—St. Paul jumped 2 points on the opening purchase of 1,000 shares and a few minor stocks showed fractional gains, but the general market tended downward. Yesterday's late jump to 20 per cent in call rates aroused considerable uneasiness as to today's monetary developments, and stocks were hastily thrown over when the banks began calling loans.

The opening call loan rate was 11 per cent. Prices declined precipitately all through the list and reached about a point in numerous leaders. St. Paul lost its opening rise, which was obviously designed to sustain the market. The market fell into stagnation when the selling relaxed and showed but little recuperative powers. The money market was feverish and rose to 18 per cent. Bonds were weak at noon.

The growing stringency of money under forced calls caused wholesale liquidation in stocks after midday. Losses reached 2 to 3 points in a long list of important stocks amongst the pacifics, southwesterns, southerns, coalers, trunk lines and specialties.

Losses of a point and over were common throughout. Mo. Pac. declined 3¼; Rock Island 4, Lackawanna 5, and American Express 12. The industrials were noticeably less affected than the railroads.

The market was furiously active for a time but soon after 12:30 the selling pressure suddenly relaxed. The recoveries were slight and no demand was perceptible beyond that from over extended room shorts.

Fitful fractional rallies were not well held and another spasm of liquidation set in which depressed St. Paul, Mo. Pacific, Southern Pacific, Illinois Central and various others lower than before. Bear traders sold stock freely, and uncovered stop loss orders all around. Some recovery was scored later under the lead of St. Paul and Illinois Central, which rallied 1⅞ and 1 respectively.

WOOL.

BOSTON.

Boston, Sept. 23.—There has been a slightly better inquiry in the wool market here this week with satisfactory prices ruling. The extraordinary strong position of fine wool is a feature of the present market. Fine washed fleeces continue especially firm. Fine territories are very firm with prominent holders asking stronger.

Prices especially where good staple is included. Fine staple territories are quoted at 55@60 cents, fine and fine medium, 50@53c; medium, 45@47c. The offerings in Australinan wools are very small here, rendering quotations somewhat nominal.

Running Out British Matches.

New York, Sept. 23.—The British match making industry has been reduced by American competition to a deplorable condition, cables the London correspondent of the Tribune. Several British firms have determined to quit the business rather than manufacture at a loss.

Piano Makers Strike.

New York, Sept. 23.—A strike of 700 piano and organ makers employed in several factories has gone into effect to enforce demands for a 10 per cent increase of wages and the nine-hour work day. Two thousand men gained the demands without a strike.

A Collision Near Carlin.

Elko, Nev., Sept. 23.—A collision occurred at 5:40 o'clock this morning between limited passenger trains Nos. 1 and 2 at Tonka, a small siding 14 miles west of Elko near Carlin, and it is said both engineers were killed and quite a number of passengers injured. Doctors have gone to the scene of the accident. Particulars cannot be obtained at the present time.

NO ONE KILLED.

San Francisco, Sept. 23.—At Southern Pacific headquarters in this city it was stated that no one was killed in the collision. Master of Transportation Richardson said there was no one killed and no one seriously injured. It was only a slight accident and the trains are now running without interruption.

Electric Car Accident.

Akron, O., Sept. 22.—An Akron, Kent & Ravenna electric car jumped the track in Kent early today and ran into a telephone pole. A dozen passengers were on the car, all of whom were more or less injured. The most seriously hurt were:

James Repbogle, Akron, cut about head.

S. K. Force, Akron, bruised and cut about head and body.

Miss Lottie Reinhle, arm broken.

Miss Almie Heriff, Kent, bruised and cut.

Killed by Gas Explosion.

Fairmount, W. Va., Sept. 22.—By an explosion of gas in the Stafford mines of the new Central Coal company near here today, four men were killed, six badly wounded, and several others were hurt. The explosion is said to have been caused by the firing of a charge of dynamite. There were only 25 men at work and all have been accounted for. The most serious cases were sent to the hospital. All bodies were recovered.

Chastising the Moros.

Manila, Sept. 22.—Up to Sunday the force comanded by Capt. John Pershing of the Fifteenth infantry, operating against the Moros in the island of Mindanao, had met with slight resistance in the Macin country and had captured seven forts, killed 25 and wounded 20 Moros. There were no American casualties.

Burlington Route

There's an Old Proverb,

which reads: "When in doubt, follow the crowd."

Rendered into twentieth century English, this means: Take the Burlington. The "crowd" does.

Always the STRONG line from Denver to the East, the Burlington's leadership was never so great as now.

Two trains a day, Denver to Omaha and Chicago—the Chicago Special at 4 p. m., and the Vestibuled Flyer at 10 p. m.

Two trains a day, Denver to Kansas City and St. Louis—the St. Louis Special at 3 p. m., and the St. Louis Express at 10 p. m.

Through sleeper for Omaha and Chicago leaves Salt Lake City 3:15 p. m. daily. Through tourist-cars Wednesdays and Fridays.
