Trans-Continental Passenger Association Receives Notice From Harriman Lines.

#### FROM JUNE TO OCTOBER.

Round Trip from Chicago to Pacific Points Will Cost \$72.50-Cheaper Than Former Figures.

Chicago, March 20 .- Travel to and from California and the entire Pacific coast will be cheaper this summer than ever before during an entire season. After a stormy session of the Transcontinental Passenger association yesterday the Harriman lines and the Santa Fe gave independent notice that they would put in summer tourist rates to the Pacific coast, effective between June and October.

June and October. The notice came after an attempt on the part of the Great Northern and Northern Pacific to prevent summer tourist rates from being made, these roads arguing that a minimum basis of 2 cents a mile would be better for the railroads. The southern lines in-sisted that the Pacific coast should be remembed as favorable rates as the Colosisted that the Pacific coast should be granted as favorable rates as the Colo-rado common points. The basis to be used for Colorado will, therefore, be the basis for summer tourist rates to all points west of Chicago. Upon this basis the rates to the coast will be about \$2.50 cheaper theman set year. From Chicago the rate for the most data and another points between

San Diego on the south and Vancou-ver on the north will be \$72.50,

cal Propositions. Chicago, March 19 .- Declaring that he greatest of present-day evils is the omination by favor-seeking corporaions, and asserting that the Demoratic party is the best qualified to un iertake the task of correcting this, William J. Bryan tonight celebrated his forty-eighth birthday by delivering a speech on national issues before a big

mass meeting in the Seventh Regiment armory on Sixteenth street, Mr. Bryan took for his subject, "Why Democ-racy?" and after discussing the records of President Roosevelt, Gov. Hughes and Secy. Taft as regards corporation legislation, he answered the question by saying:

#### BRYAN'S REMEDY.

"Because the Democratic party is the only party sufficiently large to give hope of success and sufficiently demo-cratic to give hope of relief after a victory has been won."

Mr. Bryan's speech was the only one delivered at the meeting. Carter H. Harrison, former mayor of Chicago, and head of the Bryan league, under the auspices of which the gathering was held, introduced the speaker after declaring that the meting had been or-ranized to give Mr. Bryan a full ongenized to give Mr. Bryan a full op-portunity to express his views on issues which may be expected to come up in the national campaign. The proceed-ings were late in starting, owing to the size of the audience. About 10,000 persons crowded into the big building.

ANOTHER QUESTION.

Mr. Bryan said in part: "There is no question upon which the people are thinking which does not to a greater or less extent involve this question-shall the government be ad-ministered in the interest of the whole people, by unpurchasable and incorrup-tible representatives of the people, or shall the favor-seeking corporations control the elections, raise their repre-sentatives to power and through them control the elections, raise their repre-sentatives to power and through them exploit the country? If the present sit-nation is satisfactory; if the people are contented with the distribution of wealth and with the predominating in-fluence of these combinations, then there is no good reason why the Re-publican party should not be continued in power, for it has created the condi-tions which now exist and must have credit or blame according to whether these conditions are desirable or un-desirable." desirable.

# **The Cause of Gas**

Gas on the stomach indicates that food has fermented. The food is usually starch.

It ferments because it doesn't digest. The food was not properly cooked. The particles of starch have not been so separated that the digestive juices can get to them.

The remedy is not an artificial digester-nor a pre-digested food.

The remedy is to supply the starch in shape to be digested. Then let the stomach do the work for which it is intended.

When you toast bread, you notice that it digests better. You have applied more heatbroken up more of the starch.

But the perfect food for a weak stomach is Mapl-Flake. No other food in the world is cooked so well as that.

Our wheat is steam - cooked for six hours. Then cured for 90 hours. Then each separate berry is flaked so thin that the full heat of our ovens can get to each atom. Then the flakes are toasted, for 30 minutes, in a heat of 400 degrees.

The result is a food that's all food, because it all digests. No part will ferment to cause digestive disorders. Try it and see.

Mapl-Flake is the perfect food for those with weak digestions. It is the perfect food for the economical, because none goes to waste. It is the perfect children's food, because it is the whole wheat, wholly digestible. So to make it delicious-to make children like it-we boil it in pure maple syrup. The result is, they beg for it-beg for the food that is best for them.

Don't take a flake, prepared in one fourth the time, because it is five cents cheaper. "It's All Food"
