WARREN, R. I., 22.—The celebration of the 200th anniversary of the attack made on Swansey, Mass., by King Philip, at the opening of his war on the New England colonies, took place to-day.

EMMETTSBURG, Md., 22.—Cardinal McCloskey and the Obligate, Roncetti, arrived here to-day, to attend the commencement exercises at Mt. St. Mary's College.

SAN FRANCISCO, 22.—The independent convention at Sacramento elected Henry Edgerton president.

The U. S. steamer *Benicia* will start to-morrow morning for Victoria, to bring down the officers and crew of the wrecked *Saranac*.

## FOREIGN.

ST. JOHN, N. B., 21.—Six fishermen, in three fishing boats, were drowned in a heavy storm on the salmon fishing grounds near St. John, on Friday night.

LONDON, 21.—In the House of Lords, to-day, the Marquis of Bath asked Baron Lyttleton, one of the governors of Eton College, whether it was true that the headmaster and governors had given their sanction to the students attending the meetings contemplated by Moody and Sankey. Lord Lyttleton replied that the governors were to consider the matter to-morrow. Lord Overstone deprecated the attendance of the students at such meetings. The Earl of Shaftesbury objected to the debate without notice and the subject was dropped.

In the commons, Captain Bailie Cochrane gave notice that he should ask Gladstone whether he gave Moody a letter of introduction to the authorities of Eton.

There is great excitement at Eton over the Moody and Sankey affair. A protest against the proposed visit has been signed by 650 boys, and a memorial in favor of it has received 300 signatures.

PARIS, 21.—In the assembly to-day a grant of \$120,000, to promote the worthy representation of France, at the United States Centennial Exhibition, was voted without opposition. The debate was opened on the public powers bill. M. L. Blanc and Monjau opposed the bill, declaring that it gave royal prerogatives to the President and tended to the restoration of the monarchy. The right greeted the old radical doctrines revived by the speakers with ironical cheers, while the left made no counter demonstrations.

BRUSSELS, 21.—Le Nord states that a final note has been received from Germany, thanking Belgium for her last communication, and closing the discussion in the most friendly manner.

ROME, 21.—Municipal elections were held here to-day. Garibaldi heads the list of successful candidates, all parties supported him.

The Pope, to-day, received several deputations who came to tender congratulations on the occasion of the anniversary of his coronation; the Holy Father replied that he was greatly consoled in his afflictions by the marvellously increasing devotion and affection manifested towards the church throughout the Catholic world. In the course of his response he dismissed, as not even worthy of mention, the rumors of reconciliation between the holy see and the Italian kingdom.

LONDON, 22.—The London journals generally disapprove of the proposed visit of the revival preachers to Eton. The Times deprecates the unnecessary agitation, and hopes the governors, considering that only one service is contemplated, will not make the institution ridiculous by any interference. If this course is followed it is likely that the boys will hear nothing objectionable.

At the last moment Moody and Sankey have been notified that they will not be permitted to hold service at Eton; accordingly they have given up their appointment there, and will go to Windsor and preach in the town hall this afternoon.

BERLIN, 23.—Serious riots, caused by the Ultramontanes, occurred yesterday in the town of Reihn, East Prussia; the burgomaster was stabbed and dangerously wounded.

PARIS, 23.—The *Republique Francaise* newspaper announces that it will contribute one thousand francs to the fund for the purpose of sending delegates to the Philadelphia centennial.

The Assembly decided, at to-

day's sitting, to pass the Public Powers bill to its second reading.

OTTAWA, 22.—A dispatch from Pembroke says that fires stopped navigation in the Upper Ottawa this morning, and that the people at St. Joseph's are burying their furniture to protect it.

LONDON, 22.—Emery Dyson's mill, at Preston, Lancashire, was burned last night; 100 hands are thrown out of employment. Loss \$100,000.

PARIS, 22.—In the National Assembly, to-day, M. Buffet, Minister of the Interior, expressed his astonishment at the attack on the government yesterday by MM. Blanc and Montjon, in the debate on the public powers bill. He pointed to the fact that the government had put forth its programme upon coming into office, and that no disapproval thereof was then made. He challenged its opponents to bring forward a resolution condemning that programme. He added that he would reserve the programme inviolate while he was in office. He acknowledged the supplementary constitutional bills to be contrary to the principles of MM. Blanc and Montjon; that they did not entrust the President of the Republic with the role of an American President, which would render necessary the alteration of all French laws. He instanced the law which empowers the president to fix the number of the military contingent. There was no analogy between France and the United States. He concluded as follows:—"In organizing a good government for France we did not start from an abstract point of view; we asked for the conditions necessary to place the executive in harmony with French customs and traditions. Even if you could prove that the public powers bill was incompatible with a republic, we think the country would sacrifice abstract principle, and prefer a government more in harmony with its own character." The Right cheered the speech throughout.

General Du Temple, a Legitimist deputy, created great confusion by some intemperate remarks, in the course of which he insulted minister Buffet, and the Duc d'Audiffret Pasquier, president of the Assembly. He declared MacMahon equally guilty with Napoleon the Third for Sedan. The speaker was called to order, and silenced by the interposition of the house.

### Obituary and Inquest.

LOGAN, June 21, 1875.

Editor Deseret News:

I forward you the following obituary of and inquest upon William Hewitt, who died at Logan, Sunday evening, at 11.45 p.m., June 20, 1875.

Brother Hewitt was born Feb. 29, 1832, at Wymondham, Norfolk county, England.

Deceased attended meeting in the fore part of the evening, and to all appearance was in his usual health. For several years past Bro. Hewitt has suffered with strong determination of blood to the head and other disease, which facts account for his sudden demise.

A coroner's inquest was held upon the body by Coroner C. O. Card; George P. Ward, Wm. H. Appleby, and O. W. Benson, jurors; and Thomas Morrell, sen., Mary Ann Hewitt and Mary Ann Ringwood witnesses; and a verdict was rendered in accordance with the facts.

### Basket Manufacture.

PARADISE, Cache Co.,

June 21, 1875.

Editor Deseret News:

Brushes having recently spoken for themselves as regards the prospects of their domestic manufacture, baskets will next be looked for, as an article the manufacture of which should not be overlooked. Impressed with the necessity of the production of a good quality of the material wherewith to proceed, your correspondent is engaged planting and cultivating a willow farm, of the kind best adapted to supply the demand of an institution hereafter to be organized for basket manufacture.

It appears to me that nowhere can indoor employment be carried on to greater advantage than in a climate where laborers are idle al-

most half the year, and where winter's idleness brings summer's necessity.

Besides, why should manufactures not prosper in a place where bread, butter, meat and fuel, the four great necessities of human life, do not have to be transported from fifty to one hundred and fifty miles through several dealers' hands, as is the case in Salt Lake City? For here is where these exist, or are produced in liberal quantity and at low prices.

Much labor is permitted to go to waste every winter among the young farmers, which ought to and might be utilized in the manufacture of some of the thousands of small necessary articles which are now imported, and which might be done without diminishing the present productive capacity of their cultivated lands, or distracting attention therefrom.

The wise heads of every settlement should see to it that employment of some kind is continually at hand under shelter at times when nature drives most of the human family indoors; and in the aggregate a reasonable and welcome remuneration would surely come to supply lots of the little things, the purchase of which by the country people at present throws their grain at half price into the hands of the speculators, who are never unsuccessful in collecting the other half from the consumers.

BASKET.

The robust Salvini has already incapacitated several Desdemonas while playing "Othello." The lady who acted the part last with him was obliged to have an operation performed on her throat from severe choking. He has also completely drained the market of lags. In the principal jealous scene he makes a complete mop-rag of "Iago;" he sweeps the floor with him, stamps on him and otherwise makes it disagreeable for the ancient.

# Farmers of Utah!

BE NOT

## DECEIVED

In Purchasing Your Mowers and Reapers.

Interested parties who desire to find a sale for their own machines by misrepresentations concerning the

## CAYUGA CHIEF,

have been spreading reports to the effect that the CAYUGA CHIEF would not be sold in this Territory after this year, and that it would therefore be difficult for purchasers of the Machine to get any repairs for it; that the CAYUGA CHIEF MANUFACTURING COMPANY would be or was consolidated with another firm and the Machine would not be manufactured after this year.

We desire to assure the Farmers of Utah that all such statements are misrepresentations set afloat by parties who are jealous of the splendid reputation the CAYUGA CHIEF REAPERS and MOWERS have obtained in this Territory and in every country where sold.

It is a well known fact that this Machine has been built in large quantities for nearly twenty years, and that the firm that built it is one of the strongest and most successful manufacturing companies in the United States. They will still continue the manufacture of the CAYUGA CHIEF in even larger quantities than heretofore for years to come.

As for the undersigned, we came here to STAY! And we say to our friends, the Farmers, that we will still continue to sell the CAYUGA CHIEF and feel satisfied it will continue to hold, as it does now, the leading position among first class Reapers and Mowers.

**RAKES.**—We also have one of the finest Sulky Rakes ever on exhibition in this Territory.

The CAYUGA CHIEF is on exhibition, three doors south of J. W. Lowell & Co's Wagon Shop, Main Street.
