

WAR MAY END IN NEAR FUTURE.

Russian Statesman Says It May
Because of Ruinous Nature
Of Conflict.

JAPANESE CAPTURE A FORT.

Russians Have Mined Almost Every-
thing in Port Arthur for an
Emergency.

London, Sept. 17.—The Daily Telegraph's St. Petersburg correspondent declares that a Russian statesman, whose name it revealed would wing his utterance with lightning rapidity over the globe, asserted Friday that it was his impression that the war might end sooner than people imagined, not through mediation, but through mutual recognition of the ruinous nature of the conflict, which would lead to negotiations that would result in a Russo-Japanese alliance. He contended, the correspondent says, that although Russia in the end could exhaust and crush Japan, yet Japan could hold out long enough to place an intolerable and useless strain upon Russia, and, therefore, was confronted with the alternative of either Japan's ruin, purchased by ruinous sacrifices, or of a truce or cordial friendship, followed in the fullness of time by that offensive and defensive alliance which for years constituted the ideal of the Japanese government.

LIVESTOCK RATES.

Interstate Commerce Commission
Concludes Its Hearing.

Denver, Sept. 16.—The interstate commerce commission today concluded a hearing into western livestock rates, which has been in progress here for several days. Commissioner Charles A. Prouty presided. The hearing was at the instance of the Cattle Growers' interstate executive committee, representing all organized cattlemen. Testimony was also taken in the Texas cattle raisers' case against the southwestern rates, alleging unreasonable rates and poor service. The cattlemen produced evidence to show that rates were generally higher than they have ever been and service very much worse than when rates were lower. It was shown that from Denver common points and southwestern points to the northwest rates were advanced, while west of the mountains rates were practically unchanged. The advance has largely come about through a change in the method of charging from dollars per car to cents per 100 pounds. The railroads practically admit the poor service and promise amendment. They admit the increase in rates, but claim that rates have been too low, that they provide special service for livestock and are entitled to more money. Stockmen insist that they get no special service, but that the bulk of livestock is handled on freight trains with dead freight. Where special service is given is where enough stock is shipped to make a trainload, and the railroads will do the same for any other commodity providing sufficient tonnage. The commission decided to consolidate the two cases into the Texas cattle raisers' case, and the railroads will put in testimony at a further hearing to be held in Chicago about the middle of November. There was a large attendance of prominent railroad traffic officials, and some of the larger stockmen in the west were put on the witness stand. Stockmen are confident that they will ultimately get an order from the commission putting back the rates complained of to what they were six years ago under the old car lot rate tariff. Should such an order issue, stock shippers who have paid the advance rate will be entitled to recover many thousands of dollars they have paid under the old rate. The rail-

FOREST FIRES.

Those in Montana Will Burn for
A Long Time.

Anaconda, Mont., Sept. 16.—From all
indications the forest fires west of here
will continue to burn for a long time
to come. The fires are sweeping over
the thickly wooded sections of the
mountains northwest of Anaconda, and
at this season of the year there is
small chance of a heavy rainstorm here.
The main fire is near the summit of
the mountains, but one branch of the
blaze appears to be working its way
eastward along the mountain side. No
reports of further destruction of build-
ings have been received. The fires are
creeping up the mountain sides rather
than into the valleys and it is not
thought any farm buildings will be
burned.

Kaiser and Car May Meet.

Berlin, Sept. 16.—The press of Ber-
lin treats the story that the Kaiser
and the czar will meet at Skirnewice,
Poland, skeptically, saying that Ber-
lin's officials have not heard of any
such plan.

The Korea Not Sighted.

Victoria, B. C., Sept. 16.—Some little
excitement was caused here this after-
noon owing to a report that the Rus-
sian warship Korea was coming into
the harbor. The story proved to be ut-
terly without foundation, having its
origin in an equally foundationless rum-
or that H. M. S. Grafton had sighted
the Korea a few days ago near the
north end of Vancouver Island. Naval
officers at Esquimalt deny that the
Korea was sighted and have no reason
for believing that that vessel or any
other Russian warship will enter these
waters.

GOSOLINE EXPLODES.

Seriously Wounds Three Men,
One Perhaps Fatally.

McMinnville, Or., Sept. 16.—An explo-
sion of gasoline, which had been spilled
during the course of refilling an auto-
mobile tank this afternoon, seriously
wounded three men, one perhaps fatal-
ly. The wounded are:
James Derby, farmer, McMinnville,
badly cut and internal injuries, thought
to be fatal.
George Pearce, president of R. M.
Wade & Co., hardware dealers, Salem,
Or., cut, bruised and internally in-
jured; will recover.
W. H. Curran, local manager M. M.
Wade & Co., McMinnville; crushed and
internally injured; will recover.
Pearce and Curran were reloading

the tank of their automobile and had
spilled about a gallon of the fluid on
a plank bridge at the rear of Wade
& Co.'s warehouse here. Thinking that
the gasoline had evaporated, they at-
tempted to light the engine of the au-
tomobile and ignited the gas rising
from the bridge. Curran and Pearce,
with Derby and several boys who were
witnessing the process of reloading,
were hurled through the air, the bridge
was lifted several feet by its under-
pinning and the vehicle demolished.
The boys escaped without injury.

MEXICO CELEBRATES.

The Ninety-Fourth Anniversary
Of Her Independence.

Mexico City, Sept. 16.—Mexico City
was gaily bedecked with the flags of all
nations today, the Mexican banner pre-
dominating. The occasion was the
ninety-fourth anniversary of the in-
dependence of the Mexican empire from
Spain. At dawn a salute was fired by
a battery of artillery, followed by the
ringing of chimas.
A grand military pageant, reviewed
by President Diaz, the members of his
cabinet, the diplomatic corps and many
other prominent personages, was the
chief feature of the day's celebra-
tion. Many games and athletic sports
were enjoyed by the vast multitudes.
At night the entire city was ablaze
with illuminations.

WANTS THE CANTEN.

Gen. Baldwin Traces Many Evils
To Its Abolishment.

Denver, Colo., Sept. 16.—Brig. Gen.
Frank D. Baldwin, commanding the
department of the Colorado, has for-
warded his annual report to the sec-
retary of war. The report says that sal-
oons and questionable resorts near the
barracks are responsible for the large
number of desertions from the regular
army in the department of the Color-
ado. The total desertions during the
year closing Aug. 15 were 238.
The report says: "These desertions
can be in large part attributed to the
malign influences of saloons and broth-
els situated near the reservations, seduc-
ing enlisted men from the paths of
duty. This is only another of the many
arguments in favor of restoring the
army canteen, which provided places
of amusement and social intercourse,
where men could get light refreshments
under restraining, decent and orderly
influences."

"I trust that the sale of beer and
wines, under proper restrictions, may
be again authorized in the post ex-
change. If men are unable to get a
glass of beer in a decent and orderly
manner in the garrison, they will re-
sort to the brothels, which cluster
around the borders of the reservations,
where they drink all manner of alco-
holic beverages and often sink into de-
bauchery and ruin."

BUTTE BUTCHERS.

They Decide to Raise Boycott on
Eastern Meats.

Butte, Sept. 16.—It was unanimously
decided at a meeting of the Butte
Butchers' union to raise the boycott
on all of the products of the eastern
packers. This included fresh and
smoked meats, canned goods and all
of the stuff that is being sold by them.
If this action had not been taken it
was feared by the butchers that com-
plications of a serious nature would
have been sure to arise. It is stated
that the eastern packers were ready
to do a war business of their own.
They had formidable supplies shipped
into the city. They had secured op-
tions on a number of stores and had
even gone so far as to make prepara-
tions with competent men to become
managers of their several projected es-
tablishments.

British Ship Stopped.

Constantinople, Sept. 16.—The Brit-
ish ship Margit Droedel, with a cargo
of coal from Cardiff for Sulina, reports
that she was stopped by the Russian
cruiser Terek on Sept. 6 off Cape St.
Vincent.

The Terek fired three blank shots
to bring the steamer about. Two Rus-
sian officers and two armed men
boarded the Margit Droedel and over-
hauled her papers. The captain of the
Margit Droedel was asked to sign a
declaration that he had not been put
to any inconvenience by the delay. He
at first refused, but when told that
his steamer would be detained until the
arrival of the Russian admiral, the
declaration was signed and the collier
was allowed to proceed.
One of the Russian officers informed
the captain of the Margit Droedel that
there were nine other Russian cruisers
in the vicinity.

DUNCAN-ALTMAN FUELED BREAKS OUT

Attack Made on Posse that Was
Guarding the Home of
William Baxter.

ONE OF THE MOB WAS KILLED.

Several Wounded—Will Resist All
Attempts to Arrest the
Altman.

Jacksonville, Fla., Sept. 16.—After
two days of quiet in the country
near Baxter, an attack was made late
last night on a posse which was guard-
ing the home of William Baxter, one
of the participants of the alleged Dun-
can-Altman feud. One of the mob, El-
lis Dowling, was killed and several
wounded.

It was reported that Deputy Sheriff
Thrift, in charge of the posse, was
killed, but later advices indicate that
he was merely wounded. A company
of state militia was ordered to the
scene and has already departed for
Baxter, which is about one hour's ride
from Jacksonville.

It appears that the posse, in the at-
tempt to prevent further bloodshed,
was resting on its arms, over Dun-
can's store, when they heard the mob
approaching along the railroad track.
Deputy Sheriff Thrift put his head
out of the window and was wounded,
but not seriously. He then led his
force outside to repulse the mob. Sev-
eral of the mob were wounded and one,
Ellis Dowling, a prominent farmer, was
killed. The mob then retired to the
home of the Altman brothers, where,
it is said, they are prepared to resist
all attempts to arrest the Altmans.

RUSSIA AND GERMANY.

A Complete Understanding Said
To Exist Between Them.

London, Sept. 16.—The Spectator to-
day contains an article discussing the
reported agreement between Russia
and Germany concerning Kiauchau,
saying it has every reason to believe
the story is "based on facts." The
Spectator warns Great Britain against
complacency, in view of the possibility
that France may be drawn into the un-
derstanding in which case a situation
might arise resembling the interven-
tion which robbed Japan of Port Ar-
thur. "As such a development might
involve Great Britain in serious dan-
gers, it behooves her," the Spectator
adds, "to endeavor to arrange an un-
derstanding with France."
In conclusion, the article asks whether
Emperor William was wise to run
the risk, in the event of Japan's being
victorious, of receiving a polite Japan-
ese reminder that Kiauchau belongs to
China and that to surrender the lease
of that port would greatly conduce to
the peace of the world.

Showered With Blazing Paint.

New York, Sept. 17.—Showered with
blazing paint a man, a woman and a
baby in a tenement house in east
Twelfth street have received burns that
will likely prove fatal. They were Isaac
Schuster, a painter, Mrs. Lena Marks
and her 12-months old child.
Schuster accidentally dropped the
blazing match into a bucket of paint.
Flames shot upward from the turpen-
tine and Schuster started on a run for
the stairs with the bucket. A gust of
wind blew the flames into his face,
causing him to pitch headlong down
the steps. Mrs. Marks with her baby
in her arms was coming up. The show-
er of fire fell over them and all were
badly burned.

Ancient Order of Pyramids.

Wichita, Kas., Sept. 17.—At the clos-
ing session of the Ancient Order of
Pyramids, the president's report showed
a membership of 11,079 as against 12,400
two years ago. Death losses exceed
the income by \$31,892. A new assess-
ment table was adopted, which doubles
the rates of the older members.

ITALIANS AND CHINESE.

Soldiers of Each Have a Fracas
In Streets of Pekin.

Pekin, Sept. 17, afternoon.—An extra-
ordinary fracas between Italian
Chinese soldiers occurred on Thursday
afternoon, Sept. 15. It appears that two
Chinese soldiers were out walking un-
armed along the public road bordering
upon the Italian drill ground adjoining
the Italian legation. They stopped to
watch the Italian drilling. The Ital-
ians ordered them away and when they
refused to go a fight ensued. The two
Chinese were beaten. One of them was
then seized and taken into the Italian
legation while the other ran to the re-
sidence of Gen. Chiang Kwei, who is
commander-in-chief of the Chinese
troops stationed here.

A dozen Italians followed him and
fired two shots into the residence and
one Italian soldier entered. Chinese
soldiers assembled prepared to fight but
one of their officers prevented further
disturbance.

Representations have been made by
the Chinese authorities to the Italian
legation but no answer has yet been
received. Great indignation is felt and
expressed upon all sides at the unprovoked
and unprovoked attack. It is
hoped, however, that the incident will
be arranged without any complications.

THE LENA NOT ALONE.

She Was Not Alone in Her
Wanderings in the Pacific.

San Francisco, Sept. 17.—The Chroni-
cle today says:
"From a reliable source it has been
learned that the Lena was not alone
in her wanderings in the eastern Pa-
cific ocean and it is stated with au-
thority that somewhere east of a line
drawn from the Hawaiian Islands to
Unalaska, in the Aleutian chain, at
least two other ice-carrying vessels are
winning the seas and apt at any time,
singly or together, to seek the safe
haven found by the Lena last Sunday."

WHO WAS RIGHT?

Doctors Told This Lady She Had Consumption and Was Incurable
—Drs. Shores & Shores Said Not—And Cured the Patient—
Read Her Story As She Tells It, And You Will Understand
Why Drs. Shores & Shores Cure Their Patients.

Julia Gilroy, Residence, Second West Street, Below Tenth South,
Salt Lake City, Utah.

Miss Gilroy, tells a remarkable story of her cure, which many regard
as a miracle. To all intents and purposes she developed Consumption,
Good doctors so pronounced it and told her she was incurable. She came
to Drs. Shores & Shores, and was cured. Here is her story:
"I have suffered for a long time from what I supposed was Consump-
tion. I contracted one violent cold after another, had a terrible cough,
and finally had violent and repeated hemorrhages, lost flesh, and was all
run down. My breathing was hard and painful, and Doctors told me I
was incurable. Reading of Drs. Shores & Shores great skill, I went to
them and began their treatment. I improved from the first, my cough
was relieved, the hemorrhages stopped. I GAINED 12 POUNDS IN
WEIGHT IN ONE MONTH, and today I feel splendid, in every way, and
feel that I am cured. No one can tell how grateful I am, and I feel it a
Christian duty to give Drs. Shores full credit, and to advise all who are
sick and despondent to see these expert specialists before they give up
hope.
I shall be pleased to verify this statement if anyone interested will
call on me. (Signed) "JULIA GILROY."

WEAK MEN PAY WHEN CURED.

Contracted Disorders.	What "Weakness" Is and How We Cure It.	VARICOCELE.
Be sure your cure is thorough. Not one of our patients has ever had a relapse after being discharged as cured and we cure in less time than the ordinary forms of treatment require.	So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early disipation or by the improper treatment of some contracted disease. A complete and radical cure is therefore, a question of restoring the prostate gland to its normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is original and scientific, and has been proven absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.	Absolutely painless treatment that cures completely. Investigate our method. It is the only thoroughly scientific treatment for this disease being employed.
Specific Blood Poison.	No dangerous minerals to drive the virus to the interior, but harmless, blood cleansing remedies, that remove the last poison taint.	Spermatorrhea, Stricture, Piles, Stis and Kidney Diseases, Lost Strength, Hydrocele, Organic Weakness, etc., are also among the diseases we cure to stay cured.

PETERS SHOE CO.'S SALESMEN'S DAY AT THE FAIR.

Salesmen of Peters Shoe Co. and their friends in the Igorroto Village at the World's Fair. Dr. Hunt, Governor of the Igorroto Village, is in the front row reclining on the ground. The young lady in foreground is Miss Julia Mooney, who was voted the most popular chorus girl in New York.

Amidst the din of thousands of
sawackers on the Pike, "squawking"
Peters Shoes, the salesmen of Peters
Shoe Company of St. Louis made that
mercy tour of the fair that never
and wound up Peters Shoe Co.'s Sales-
men's Day at the Fair in a way that
will long be remembered on the Pike.
The occasion was the semiannual
banquet given to their salesmen by the
Peters Shoe Co. at the beginning of
each season, which this season took the

shape of a day at the fair, and things
were "turning out" in a way peculiar
to "drummers."

Special cars conveyed the party from
the store of Peters Shoe Co., Thirteenth
and Washington avenue, to the World's
Fair, where a procession was formed,
headed by Strathmore Guards, Start-
ling at the Tyrolean Alps, the parade
moved to Asia on the Pike, thence to
Peters Shoe Co.'s model factory and
exhibit in the Manufacturers building,
and from that point through the

grounds to the Government building,
being the first parade permitted to pass
through this building. The procession
then marched to all the 25 State build-
ings, representing States and Territo-
ries, in which Peters Shoe Co. has cus-
tomers. The last visit of the afternoon
was at the Igorroto Village, where Pres-
ident Wilson of the Philippine Board
and Dr. T. T. Hunt, Governor of the
Igorroto Village, addressed the sales-
men, and where the accompanying pic-
ture was secured. From the Philippines
the company marched to Antoine's
French restaurant, at Paris on the

Pike, where a banquet was served, fol-
lowed by vaudeville features from the
parade was again formed and marched
to the Magic Wheel, the Ferris
Wheel, to Mysterious Asia, and to other
Pike attractions, where the "drum-
mers" were royally entertained.
At the Utah and Idaho buildings
group photographs were taken with the
commissioners and hostesses in dress
of honor and with Messrs. E. A. White
and J. A. Giberson, representatives of
Peters Shoe Co. and "Diamond Brand"
Shoes in this section, in the center.

"Whether the Korea is one of these
two vessels known to be near the coast,
or whether she is a third vagrant cru-
iser, is not settled.

"It is generally believed in naval
circles that the cruisers referred to are
converted auxiliaries, like the Lena, but
there is a possibility that they are
regular men of war which, like the
Lena, were forced to escape to the east-
ward. Their machinery being still in
good shape they are keeping the sea
as long as possible and will probably
not make port until their coal runs out.
"It is pointed out that the mere
knowledge that these cruisers may be
encountered anywhere between San
Francisco and Honolulu, or along the
great circle route between Puget sound
and Japan, would have a marked de-
terring effect upon those engaged in
shipping contraband into American or
British Columbian ports.

"At any rate, the New York and the
Marblehead, which will remain here
indefinitely, are on the alert, and
ready at any time to meet one or
both of the newcomers with the prompt-
ness that they greeted the Lena."

THE IROQUIS THEATER.

Very Strong Feeling in Chicago
Against Reopening It.

Chicago, Sept. 17.—An appeal to the
clergy of Chicago to advise a feeling
of condemnation for the reopening
next Monday of the Iroquois theater
has been issued by the Iroquois Mem-
orial association.
The organization held a special meet-
ing, at which an open letter of protest
was prepared. This recounts the fire
horror in the theater last December
and urges the ministers to oppose the
further use of the building as a place
of amusement.

More than 2,000 teachers last spring
signed a similar petition, and at the
same time thousands of signatures of
citizens were received.
While the association was preparing
its petition, the theater building was
being inspected by city officials. Build-

ing Inspector Keeling will make a final
examination today, when it is believed
a license will be issued.

President James J. Reynolds of the
Memorial association asked Acting Cor-
poration Counsel Sexton for permis-
sion to have the association's architects
make an inspection of the theater be-
fore the license is granted. Mr. Sex-
ton said he thought the plan would
not be opposed.

The clubs or children which are
working for the Iroquois Memorial
Emergency hospital fund, have raised
\$1,500 in the last two months.

RETAIATION.

U. S. Adopts It Against Canad-
ian Steamboats.

Chicago, Sept. 17.—Because it re-
fused to pay an inspection fee of near-
ly \$100 the Canadian steamer Arabian
has been forbidden to carry passengers
from Chicago. As a result six persons
who had secured accommodations trav-
eled by railroad instead.

This condition was brought about by
the refusal of the Canadian govern-
ment in 1896 to accept the American
inspection of steam vessels. American
vessels regularly inspected at their
home port had been allowed to carry
passengers to any port on the lakes.

In retaliation the United States gov-
ernment adopted a similar rule, and
the Arabian now suffers from it. The
passengers were taken aboard at Naga-
munk Falls.
