th

London Mining Engineer Still in Salt Lake-Placer Deposits.

Forenoon totals 136,385 \$49,523.00

Lake—Placer Deposits. Through a typographical error in last evening's paper the name of Edna Phillpotts appeared instead of Eden Phillpotts, the English author, whose coustn, C. A. Phillpotts, a London ex-pert mining engineer, is now visiting Salt Lake on his return to England from Goldfield and Rawhide and other Ner Phillpotts said this morning that Nevada camps. Mr. Philipotts said this morning that he would

Solon Spiro, manager of the Silver King Consolidated, with his engineer, L. G. Burton, and the latter's assist-ants, visited the Silver King Coalition mine at Park City yesterday. Under the escort of Supt. Mike Daily the party was allowed to step off the cage on the 700 level and again on the 900 level. But that was as far as they got. Although Mr. Spiro started out with the express purpose of assisting his en-gineer in making a survey of the Coali-tion's underground workings, under the terms of the stipulation entered into between the attorneys of the respective companies, he expressed himself today as not being surprised at Supt. Daily's refusal to allow his party to penetrate the workings which. It is alleged in the suits recently instituted against the Silver King Consolidated territory. he would probably spend another day or two in Sait Lake before continuing the long journey. He said that one matter that attracted his attention in matter that attracted his attention in Rawhide was the placer deposits be-low the property controlled by Mr. Seaboldt, and that the deposits carried considerable gold and silver and could not possibily have come from any other place than the ledges referred to in the interview with Mr. Phillpotts in last evening's "News."

Attorneys of the Silver King Consolidated Attorneys of the Silver King Consol-idated company will now go into court and apply for an order compelling the Silver King Coalition company to per-

Park City Yesterday.

Solon Spiro, manager of the Silver

Silver King Coalition company to per-mit the examination. Manager Spiro does, not have the slightest doubt about the defendant company having extended its workings into Consolidated ground and extracted many thousands of dollars therefrom. In fact he knows this to have been the case, so he alleges, and in due time proof of this contention will be forth-coming. The cases promises to be a most interesting one, and if it comes to trial, some sensational developments.

these deposits proves conclusively that there are great quantities of rich ore of permanency in the ledges I referred

evening's "News." "These deposits could be worked with profit." said the visitor. "but of course at the start it would be rather expens-ive to get the water from Walker lake 18 miles away. But that this will be done I am quite certain. In all prob-ability a railroad will be built to the lake for carrying ore to the mills and a 'road is now under way connecting Rawhide with Schurz, a distance of 30 miles. As I said before the fact of these deposits proves conclusively that

ings in District Court. Attachment proceedings were insti-tuted in the district court yesterday by attorneys representing W. D. Livingston, against Thomas H. Fitz-gerald, to recover \$5,000, alleged to be due as the proceeds from the sale of 5,000 shares of Sioux Consolidated stock. Livingston says in his com-plaint that he turned the stock over to Fitzgerald last October, with the un-derstanding that the proceeds were to be fortheoming when the stock was sold. It is then alleged that Fitzgerald sold the stock June 6, 1908, for \$5,000, and has falled to account to Living-ston. ston

MINING DEED FILED.

New York, June 16 .- The opening of the stock market today showed only a slight stirring of activity and prices were not changed materially. Union Pacific, Reading, St. Paul and the Hill stocks showed the most strength. There were sales at 95%, compared with the subscription price of 95% of \$750,000 Union Pacific refunding 4's (when is-sued), during the first 15 minutes of business

Demand became more active and gave a small show of force to the advance in the Union Pacific stocks, Missouri Pacific and Allis-Chalmers, preferred, which rose 11/2 and the most active stocks generally a point. Bonds were steady.

The market maintained a firm tone despite the subsidence of the early dull-Bureau. One of the directors, a vice president of the American Smelting Securities company, and who is now a compara-tively small stockholder, was respon-sible for the rumor that the dividend would probably be reduced, but cable instructions from Daniel Guggenheim brought about certain changes in the views of the board, and resulted in the unanimous declaration of at 1 per cent dividend.

Gains were extended in spots and a generally higher scale of prices were established. Northern Pacific went up 1_{2_3} . Reading 2_{2_3} and Union Pacific 2_{2_3} .

It is declared that the Smelters com-pany was carrying \$30.000,000 worth of ores at the time of the break in the metal markets and while the losses sustained were something enormous, the ores have now been successfully liquidated and the company is in a comfortable financial position. It is rumored in Wall street circles that the next president of the Ameri-can Smelting & Refining company will be a prominent railroad man. This may Rufus K. Cobb. Will Buy R. K. COBB & CO. THOMPSON GETS DAMAGES. Chauffeur of Ada Wilson Must Pay

\$550 for His Recklessness

A jury in Judge Lewis' division of A jury in Judge Dewis division of the Third district court yesterday awarded David A. Thompson damages in the sum of \$550 for damages in-flicted in a collision with the auto-mobile driven by Ada Wilson and her chauffeur. Bert Pye. The suit was brought by Thompson for \$5,444.50 and the jury awarded him the sum named as against Pye the chauffeur, but found nothing against the Wilson woman. The accident happened last summer. Mr. Thompson and his wife were driving along in their bug-gy when the automobile in which the defendants were driving collided with the vehicle, throwing the occupants out and damaging them both. There is another suit pending in the court in connection with the same accident In which Mrs. Thompson, wife of Davis Thompson, is plaintiff. She is suing for \$5,057 damages. the Third district court yesterday

DEMOCRATIC SPECIAL.

Union Pacific Will Run Handsome Train to Denver Next Month.

The passenger department of the Oregon Short Line announces that Chairman Martineau has made ar-

rangements for a special train to Den-ver over the Union Pacific on July 4 to carry the delegates and friends and those who desire to attend the nationthose who desire to attend the halfon-al Democratic convention next month. As at present arranged, the train will consist of four standard sleepers, a diner and observation car. The train will leave Salt Lake about 8 p. m. on July 4, arriving in Denver next day at 4 p. m., covering the distance in 20 hours.

hours.

fairs. There is still much talk of many settlers coming in as soon seeding is finished in the states, and we are pre-pared to supply them with as good farming land as can be had on the continent and will usher them into a future as prosperous as was ever prom-ised any people who have built the great empires of earth.

Taber, Alberta, Canada. June 8.-Sunday everybody rode or walked down to the high bluff to watch the greatest flood ever seen on the Belly river, the result of the recent heavy rains. The damage has been great above. Parts of houses, bridge tim-bers, lumber, great trees, hundreds of cords of driftwood with an occasional beef steer, or cow, sheep, pigs, etc., are to be seen sweeping past in the mud-dy water, which reaches from bluff to bluff, leaving only the tops of the large cottonwoods in sight. At the ferry, all the houses are either submerged or overturned, boarding houses, bunk-houses, and restaurant, just built to acor overturned, boarding houses, bunk-houses, and restaurant, just built to ac-commodate the bridge gang. The workmen awoke Friday night at 3 a. m., to find the water flowing through the houses waist deep. A hasty plunge for the shore was made, and contents of the dwellings were aban-doned to float onto the mighty Saskat-chewan. The two ferry boats, all the pling and material for the long bridge, which the government was having built, went the same way, while the piledriver and all tools and ma-chinery are under water. The Canad-lan Pacific pump house is entirely

the pitedriver and all tools and ma-chinery are under water. The Canad-ian Pacific pump house is entirely covered, and the Canada West Coal company's fine new pump house, which stands on the hillside far above any previous high water mark, is half filled, with the foundation washed out and engine droundation washed out filled, with the foundation washed out and engine dropped down into the basement. The two big wells sunk in the bottom, which supplied clear, cool water for their pipe line, are covered with the angry, muddy stream, and will probably have to be redug. These long soaking rains, without a suspicion of frost or snow, since the middle of March, have been a boon to the farmers, stock and sheepmen. The grass is everywhere thick, high and
