Municipal Elections in Kentucky, Massachusetts and Connecticut.

Hanlan Out with Another Challenge for a Match for $2,500.

Reports of Attorney General Garland and Secretary of War Endicott.

The Harper Trial at Cincinnati Continued.—Other Criminal Cases.

An Early War Between Russia and Germany said to be Inevitable, Etc.

By Telegraph to the NEWS.]

Sporting Notes.

MELBOURNE, Dec. 6.—A match has been made between Clifford and Kemp to row for the championship on February 11th.

Hanlan has issued a challenge for a match with either Clifford or Kemp for $2,500 a side.

LONDON, Dec. 6.—A dispatch from Sydney says Hanlan, the oarsman, has accepted a challenge for a race from Trickett.

The Drummer Case.

GALVESTON, Texas, Dec. 6.—In the United States district court today, Judge Sabin released Robert Stockton, a Kansas City drummer, from the custody of the state authorities, who had imprisoned him for refusing to pay the state drummer license. The judge said the state law in this case was void, because it conflicted with the Federal Constitution, which gives Congress the sole power of regulating inter-state commerce.

Elections.

IN LOUISVILLE.

LOUISVILLE, Dec. 6.—The municipal election today passed off quietly. Hon Charles D. Jacobs was elected mayor by a plurality of 4,000 over Avery, republican. Mr. Jacobs was, for a time, minister to the United States of Colombia and has served three times as mayor of this city.

IN MASSACHUSETTS.

BOSTON, Dec. 6.—Municipal elections were held today in several cities, the citizens in each case being given an opportunity of expressing their preference upon the license question. In Gloucester, David L. Robinson, republican is elected mayor over Saunders, by six plurality. The vote for license was 1,260 against 1,174.

In Taunton, Mayor Henry Hall (citizen's) was re-elected by a majority of 207. The license vote was 1554 against 1382.

Haverhill elected George H. Carleton, republican and anti saloon candidate, by 6,295 plurality. For license, 1,795 against 1,765.

In Fall River Mayor J. W. Cummings, democrat, received 4,531 votes; Green, republican, 4,339. For license, 5,450 against 2,888.

NEW HAVEN.

NEW HAVEN, Conn., Dec. 6.—This city voted for license today by over 2,000 majority.

War Rumors.

VIENNA, Dec. 6.—Prices on the Bourse fell today on the rumors that Russian troops were being massed on the frontiers. In the evening Austrian and Hungarian rentes fell heavily, and gold rose. The *Pesther Lloyd* says the situation is undoubtedly most serious. The Russian attitude is so threatening that we cannot but think war inevitable.

SAN FRANCISCO, Dec. 6.—The French man-of-war *Duquesne* sailed from San Francisco for France today. She will touch at the most important ports during her voyage homeward.

SECRETARY OF WAR.

Substance of His Annual Report.

WASHINGTON, Dec. 6.—The annual report of the Secretary of War shows the expenditures of the department during the fiscal year amount to $41,336,165. The estimates for the next fiscal year aggregate $38,338,710 against an appropriation for the current year of $31,055,302. The increase is caused by the incorporation of estimates of $22,339,151 for public works including river and harbor improvements, the expenditures on this account for the current year amounting to only $1,308,409. The secretary says: The estimates for military establishments are based on the actual requirements of the service. During recent years the appropriation for transportation of the army has

BEEN INADEQUATE

to meet the cost thereof, and the failure to appropriate funds for that service has caused much embarrassment.

The secretary refers to Gen. Schofield's recommendation that at least one eight-inch muzzle-loading gun with appliances for target practice and one or more breech-loading guns and mortars be furnished each military post with a view to improvement in artillery instruction.

Touching Geronimo and his fellow captives, now confined at Fort Pickens and Mount Vernon barracks, the report says that at this time it is a difficult matter to find for them a permanent home. For many reasons it is impossible to return them to Arizona; under the existing laws they cannot be taken to the Indian Territory, and in the northern reservations the climate is too cold for them.

THE COLORADO WAR.

The report briefly alludes to the difficulty in August last in Colorado between the state authorities and Colorow's band of Utes, and says an effort should be made for the restriction of their property to the Indians. The report approves the recommendation in General Sheridan's report, touching the extension of all possible aid by the general government to the national guard of the different states, and suggesting a system of national encampments for the state militia at the expense of the national government.

In reference to the pay department of the army, the report says: There is a frequent clashing of authority between the War and Treasury Departments in regard to the payments directed by the former. To the great embarrassment of the disbursing officer, accounts are disallowed. The disallowance of payments made by and under such authority, works

GREAT HARDSHIP

to the disbursing officer, as on one hand he is confronted with a charge of disobedience, and on the other assuming a liberty for which either he or his securities will be held pecuniarily responsible. In order to prevent this, the secretary recommends that the powers of the respective departments be clearly defined by legislative act.

Copious quotations are made from the report of the chief of ordnance relative to the success of domestic manufacturers in producing high grade steel, and the advisability of increased appropriations for the supply of the ordinance department for experiments with dynamite torpedo guns, and those now in progress with shells charged with high explosives fired by means of gunpowder.

Concluding his report, the secretary says: "The result of the examinations for promotion under the

CIVIL SERVICE

regulations which were applied to the War Department in May, were satisfactory. The total number of clerks examined was 1,014, of which 953, or 93 per cent passed. I renew the recommendations contained in my previous reports, and in those of my predecessors, for the appointment of an assistant Secretary of War and an assistant Attorney-General, to advise and assist in legal and technical questions which daily occur."

Attention is called to the fact that the Pacific Coast is destitute of fortifications, guns and armament of every description, while San Francisco is without a single gun which can be fired with safety with the present charges of powder and modern projectiles. Favorable endorsement is also given to the lieutenant-general's recommendation that the present strength of the army be increased by 5,000, and particular attention is called to the importance of the increase of the

ARTILLERY SERVICE,

and also certain changes in the present organization of artillery regiments.

The secretary suggests that the number of court martial trials can be much reduced if a provision be made for the punishment of minor offenses, without summoning a court martial, as indicated in the annual report of 1886. The secretary renews the recommendation in regard to the enactment of laws in regard to the punishment of civilian witnesses who refuse to testify; for authority to secure the assistance of civilians and police officers in arresting and holding deserters, and for the revision of the articles of war, which have remained unaltered here, while in England and elsewhere the military codes have been modified in accordance with the requirements of modern times. The secretary recommends legislation regulating and

MAKING UNIFORM

punishment that may be inflicted by court martial, defining the application of the statute of limitation in the case of deserters and fixing the liability of minors to military jurisdiction after enlistment.

Disasters.

NEW YORK, Dec. 6.—It is reported that the fire in the Calument & Hecla copper mines has gained such headway that it is believed it will be necessary to flood the whole mine with water, in which case it would suspend mining operations for the greater part of the year.

NORFOLK, Va., Dec. 6.—The steamer *Kimberly*, ashore thirty miles south of Cape Henry, is leaking badly. It is probable that she will soon break up. The vessel was abandoned by her crew this afternoon.

HAVANA, Dec. 6.—A telegram from Baracoa states that during a recent heavy gale there, the sea invaded a portion of the city, destroying about one hundred houses. The telegrams also reports the loss of the steamer *Quarry* and an American schooner.

SAVANNAH, Georgia, Dec. 6.—At Thomasville today the collapse of a water tower killed four men outright and caused serious injury to four others, one of whom cannot live.

LONDON, Dec. 6.—Kindon's extensive floor cloth factory in Berondsdy has been destroyed by fire. Loss, $250,000.

British Comments on the Message.

LONDON, Dec. 6.—The morning *Post* commenting on President Cleveland's message says: The message will produce a sensation in Europe as well as in America, and strengthen the free trade cause throughout the world.

The *Daily News* says: Seldom has an American President had a more important lesson to teach. The fact is, the policy of protection has been reduced to a practical and theoretical absurdity. The stone now set rolling will not stop until the idea of protection is broken in pieces.

The *Times* says it is remarkable that Mr. Cleveland has the courage to continue the serried phalanx of protectionists on the eve of the contest for the Presidency. So far as England is concerned, it is questionable whether America will not confront us in a formidable rivalry in both home and foreign markets.

The *Chronicle* says: If the policy of President Cleveland is adopted, its effect on the trade of the world cannot fail to be immense.

The *Standard* says: President Cleveland's message marks a revolutionary starting point in the fiscal controversies of the United States.

GARLAND'S REPORT.

The Attorney General Has His Annual Say.

WASHINGTON, Dec. 6.—The annual report of Attorney General Garland gives a full account of the business of the department during the fiscal year. The number of ordinary suits now pending in the court of claims is 1,110, involving the sum of $13,250,000. The number of cases filed under the Bowman act is 1,819, involving about $30,000,000; petitions filed in the French spoliation cases number 5,560, representing 2,486 vessels and about $30,000,000.

During the fiscal year 1,777 civil suits were determined; 922 judgments were for the defendants; 703 dismissed; 26 appealed to the Circuit Court and 24 to the Supreme Court.

DURING THE YEAR

there were 13,907 criminal prosecutions, mostly for violations of the customs and internal revenue laws.

The Attorney General calls attention to suggestions and recommendations made in his last annual report in regard to matters calling for remedial legislation, and again urges the necessity of immediate action thereon. These subjects are as follows: Fees of marshals in the territories; pay of deputy marshals; revision of the fee bill; substitution of the fiscal for the calendar year; protection of civil officers and witnesses; fees of witnesses and jurors; criminal procedure, perjury and juries in the District of Columbia.

In regard to the confinement and treatment of United States prisoners, the Attorney General says he is more than ever convinced of the absolute need of a government penitentiary

AND REFORMATORY.

He also calls attention to the necessity for additional legislation for restoring and preserving court records, and makes an urgent appeal in behalf of certain changes in the judicial system of the country.

The Attorney-General urges an appropriation for the erection on ground adjacent to the department of justice of suitable buildings for the accommodation of the Supreme Court and other courts and the commissioners of the United States. He also asks that Congress provide for furnishing portraits of the judges of the Supreme Court to adorn the chambers of that court. Attention is also invited to the necessity of extending the jurisdiction of the federal courts to crimes committed upon American vessels in the great lakes. Congress is urged to take some action for the settlement of the

OUTSTANDING CLAIMS

of witnesses and jurors for services during and prior to the year 1885. The Attorney-General says increased expenses in the service of process has been the experience of the department since the passage of the inter-state commerce bill. Prior to the passage of that bill, marshals were furnished with free transportation over the various lines of railway while in the service of process. Since that date, however, no free transportation is furnished, and the railways charge mileage greater than the fees allowed the marshal for his travel in such service.

The Attorney-General in closing his report devotes a chapter to the consideration of the French spoliation act.

He says: "The difficulty of the questions involved suggests the necessity of a vigilant and exhaustive judicial investigation. I therefore recommend the passage of an act amending the act of January 30, 1885, which shall

CONFER AUTHORITY

upon the court of claims to render judgment in cases provided for by the act, instead of reporting their conclusions to Congress as now required to do, and to grant to either party, government or claimant, the right of appeal to the Supreme Court of the United States, from the decision of the court of claims on suits filed under the act of 1885. It is not probable that either the government or claimant will find it necessary to resort to appeals in more than a few cases, but as the law stands now, no appeal can be taken by either party."

CRIMINAL CASES.

The British Counterfeiter. — The Harper Case, Etc.

SAN FRANCISCO, Dec. 6.—J. B. McDonnell, alias McDonald, was arrested here today for having in his possession a plate for engraving *fac similes* of a five pound note of the

BANK OF ENGLAND.

McDonnell is said to be the brother of George McDonnell, who, with Adstin and Byron Bidwell, swindled the Bank of England out of over a million dollars in 1873, by means of forged bank checks and notes.

DENVER, Dec. 6.—Several boxes of giant powder caps, loaded with heavy charges of fulminating mercury, were discovered in the mail at the postoffice in this city today. They proved to be samples sent from a Chicago house to hardware merchants throughout the country. If the stamping clerk at either end of the line had struck the package with sufficient force to cause their explosion, it would doubtless have been killed. Postoffice Inspector King will make a full report to the Chicago postal authorities of the

RECKLESS VIOLATION

of the postal laws, to secure the punishment of the guilty parties.

CINCINNATI, Dec. 6.—In the hearing before Judge Peck today of the suit of the executor of the estate of Bulah Coates, it was brought out that Benjamin K. Hopkins, late assistant cashier of the Fidelity Bank, had hypothecated 225 shares of insurance stock belonging to Coates, the value being $200,000. It was also stated by the executor that Hopkins had admitted his indebtedness to the estate to the amount of $100,000.

In the Harper trial this afternoon Ebert T. Gay, individual bookkeeper of the Merchant's National Bank, testified to numerous overdrafts on their bank by J. W. Wilshire & Co. The

SAME STORY

was told by other witnesses about the Swift Iron and Steel Works. Hick, receiving teller of the Fidelity Bank, told of Harper taking up checks of Wilshire, Eckert & Co., March 17, when the bank examiner was there, by giving his own check to the amount of over $30,000. He was shown three drafts on the Western National Bank of New York for $75,000, $100,000 and $20,000. There was no entry made of these in the Western's accounts, yet the drafts were paid, making it appear that the West ern had some of the Fidelity's money. In cross-examination, witness was asked if there were not entries showing that the interest had been paid on the checks carried as cash items. He found one instance where J. W. Wilshire & Co. had paid $118 interest. There were a few interest charges in the account of the Swift Iron and Steel Works.

ADAM WAGNER,

assignee of the Swift Iron and Steel Works, testified that he found assets worth $130 000 and liabilities amounting to $120,000.

J. W. Watters, book-keeper, testified that the certificates of deposit were issued out of consecutive order as to dates and numbers.

Adjourned until tomorrow.

PITTSBURG, Dec. 6.—John Armytage, arrested on the charge of forging the name of J. W. Mackay, of California, and attempting fraud, is identified as Orth Stein, a swindler of national reputation. Stein is wanted by the authorities of Cincinnati, St. Louis and a number of other western cities.

WILKESBARRE, Dec. 6.—James Wilson, alias Hanlan, and Judd Wolcom, notorious counterfeiters,

WERE ARRESTED

by Federal officials today. Their counterfeiting establishment, from which they were turning out bogus silver dollars, was located in the cabin of an old boat at Mill Creek.

How a Dying Child
Was Saved!

CICERO, HAMILTON CO., IND., Sept. 19, 1887.—The following is a true account of what your S. S. S. has done for our little daughter, Hazel, now four years old. When 12 months old a lump appeared on her heel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but failed to bring anything to light. The child became feebler all the time, seeming to lose the use of her leg, and finally quit walking entirely. The middle finger and thumb of either hand became enlarged, the flesh becoming hard. The hip joints became involved, so that when seventeen months old she could not stand, having lost the use of leg and arm. Partial curvature of the spine also followed. The nervous system was wrecked, muscles contracted, and there was general wasting of flesh and muscle. At eighteen months of age she was placed under the treatment of a prominent physician of Boston, Mass., but at the end of ten months she had declined to such a degree that she was in a dying condition. This was in April, 1886. We took the child away not knowing what to do. In this dreadful dilemma we were over-persuaded by friends to try "one bottle" of SWIFT'S SPECIFIC, which we did, and before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so to this day, and will keep it up, if the Lord wills, for many days to come, for it has brought our dying Hazel to life, to vigor, to strength and health again. The ashen hue of her cheeks has changed to a rosy tint. She is able to walk anywhere, her languor and melancholy have passed away, and she is now a blithe, cheerful, happy romping child. Should you wish to increase your testimonials of proof of the virtue of S. S. S., our names and what we have said is but a portion of what we owe to you, should you wish to use them.

Kindly yours,
