PIOCHE THEATRICALS.-The following, from the Ely Record, gives some idea of the circumstance surrounding theatrical performers in Pioche:

"We would mention that the audience in the want of light; two candles stuck in a piece of tin do not give light enough. Persons wishing to look over their programmes find it very difficult, and a few dollars expended in lighting the house better would not be amiss."

A NEW PAPER. - We had a call this morning from W. R. Vaughan, Esq., Proprietor of the Daily and Weekly Republican and the N. W. Odd Fellow, of Council Buffs, Iowa. The Republican is a new paper, and, for its age, has a fine reputation and patronage, with very encouraging Mr. Vaughan's visit here at the present is to establish a weekly paper-the Evanston to establish a weekly paper—the Evanston

Age—at the town of that name on Bear
River. He has excellent encouragement
given him, having already secured about
\$3,000 worth of advertisements, with a
bonus of several city lots, &c., and the
freight of his material free, from the
U.P.R.R. Co., and expects to issue in about
thirty days. Mr. V. is the brother of exGovernor Vaughan, formerly of this Territory, and is a stirring, energetic man, being only twenty-three years of age and yet
he is a publisher of considerable experience. The Age will be a paper of thirty ence. The Age will be a paper of thirty-two columns, and will be independent in politics and not meddlesome in religion.

CIVILIZATION .- It is very amusing to hear some people talk. On every public and probably every private occasion, a ertain class do not fail to point with honest (?) pride to the flourishing condition of ADMINISTRATOR'S NOTICE. "our" Territory. They also speak of the backward condition of Utah's past compared with her progressive present and brightening future. Such bombastical bosh, coming, as it always does, from intrinsically insignificant individuals, who have been in this Territory from a couple of years to as many weeks, never fails, on account of its ludicrousness, to incite either amusement or disgust in all sensible observers. These bombastes furiosos would fain have it appear that there was no development, no civilization, no en-lightenment, or, as the countryman had it, "no nothing at all" here till their advent to this formerly benighted country. In listening to such unmitigated rubbish, who can help being reminded of the language of the Scottish bard?

"O wad some power the giftie gie us, Tae see oursels as ithers see us, It wad frae monie a blunder free us, An foolish notion."

These braggarts who are for ever talking of the flourishing condition of "our" Territory, and who have just made their appearance here, have never probably helped to turn a stream of water from its ordinary channel to quench the thirst of the arid soil, or caused a spear of grass to grow; neither have they, probably, by capital or labor, offered a single stroke towards the development of the mineral or other resources of the Territory. True, they may be interested in mines, but how have they become so? Let circumstances of the past, with which the public are acquainted, answer.

Any community would be a thousand fold better off without some of the branches of so-called civilization that have appeared and flourished in this community contemporaneously with utterers of such bombas-These braggarts who are for ever talking

por meously with utterers of such bombas-tic talk. Not only this, but when an effort of made to suppress those concomitants of false civilization, a savage how is raised by the great civilizers (?), those enlighten-ers (?) of a benighted community. Bah!

APPEALED .- Two cases of L. L. C. were

nefore Justice Clinton's court this morning, in each of which a fine of \$100 was imposed, and an appeal was taken. CITY COUNCIL.-At the regular meeting

of this body, last night, the "ordinance creating the office and defining the duties of City Attorney" was passed.
W. J. Silver was appointed, by the Council, engineer of the city water works.

FATALLY SHOT,-Wilford Tibbitts, aged about twenty-five years, was shot and fatilly wounded, in the Second Ward, at a hate bour last night, by a young man named William Wilson. The circumstanees connected with the affair, so far as we have been able to learn, are about as Will be presented, for the first time in this follows: It appears that one Brigham city, the celebrated drama, in 3 Acts, by Whiting, at some time, had used some expressions concerning a young woman and Tibbitts, which very much incensed the latter, insomuch that he threatened he would be avenged on Whiting. To carry out this purpose he took a stick from a hay rack, and afterwards met Wilson and Whiting on the street. A short altercation took place between the latter and Tibbitts, when Tibbitts struck Whiting on the side of the head, with a club, rendering him insensible. Wilson also received a blow on the top of the head, which brought him to a partially reclining posture, when he drew and fired a pistol at Tibbitts, missing him. This checked Tibbitts for an instant, giving Wilson an opportunity of getting up and moving away. He endeavored to go round a house close by, but, by running across a flower patch, Tibbitts was enabled to intercept him. The latter uttered some words to the effect that he had got Wilson and would "let him have it." Wilson, on seeing the club raised over his head, fired, the ball taking effect in Tibbitts' bowels, entering about an inch and a half to the left Tibbitts, which very much incensed the

The examination of the case was set for this afternoon at two o'clock.

Since writing the above the case was brought up in court and continued till to-morrow at 2 o'clock, the continuance being to see whether Tibbitts' injuries would terminate fatally, by that hour to-morrow, it being necessary that the result of his wound should be known in order to determine the nature of the charge to be preferred against the prisoner, Wilson.
