Joseph Pagano, from whose house the trucks were obtained is still in custody.

PROSPECTS OF ANOTHER OUTBREAK IN SPAIN

Barcelona, Aug. 6.—The prospects of another outbreak in Spain seem to depend on the course the authorities decide to pursue regarding the prisoners who have been in the Mont Juich fortress since the disorders of last week. These include several aldermen and a number of prominent Republicans. If they are ordered to death, or given unusually severe sentences, it is said 30,000 men are prepared to open a guerrilla warfare against the government, which would be a complete success, but when the anarchists and anti-clericalists burn down the church and convents the better classes of Republicans withdraw.

STOCKHOLM SITUATION PRACTICALLY UNCHANGED

Stockholm, Aug. 6.—The situation in Stockholm with regard to the labor conflict shows no material change this morning. The workmen employed at the power station which supplies the electricity for lighting the capital have joined the strikers and the service of the city has been interrupted. The authorities have forbidden the sale of methylated spirits, as it has been found that the workmen unable to obtain the usual drink, are resorting to drinking this liquor.

WONT MARCH UNDER RED FLAG OF ANARCHY

Four G. A. R. Veterans Serve Notice On Chief of Police Regarding International Code Flags.

Some of the flags included in the G. A. R. decorations are anything but pleasing to at least four of the veterans.

This morning two Grand Army men called upon Chief Barlow and informed him that they had observed red flags, "the red flags of anarchy," as they termed them, hanging from the main streets under them and demanded they be taken down instantly.

TAKES UP ACTORS' CAUSE.

Chicago, Aug. 6.—William Cruden superintendent of the Illinois free employment bureau of Chicago, a state institution, has taken up the cause of the actor. Acting under the new Illinois statute governing employment agencies, he called a conference of managers at his office yesterday and told them the clause in actors' contracts which gives a manager the right to cancel a contract at a moment's notice has worked hardships too long and must be changed. Hereafter contracts must be drafted in this state with the objectionable clause eliminated.

CLARK DEFENDS DEMOCRATS COURSE

Takes Exception to Misrepresentations in Republican or Near-Republican Papers.

HE PUTS FORTH A STATEMENT

Declares Average of Rates of Payne-Aldrich-Smoot Bill About 2 per Cent Higher Than Dingley.

Washington, Aug. 6.—In reply to what he terms "the misrepresentations of Democrats in the papers," Champ Clark, leader of the minority in the house, today gave out the following statement regarding the course of the Democratic members of the house in connection with the consideration of the Payne bill:

"The old saying that habit is second nature was never more strikingly illustrated than by the fact that many newspapers—generally Republican or near-Republican—and more individuals, keep mouthing about the dissections among the Democrats and the perfect unanimity among the house Republicans, notwithstanding the truth known of all men who care to know that the house Democrats came out of the fight more united than ever before.

A PLAIN TALE.

"Now mark how plain a tale will put them down. On my motion last spring to recommit the Payne bill with instructions—which instructions constitute a comprehensive Democratic platform so far as the tariff is concerned—all Democrats voted for it, except four. On the Payne bill itself, voted on immediately after my motion to recommit was defeated, the Republicans lost one vote and the Democrats lost four, a net loss to the Democrats of three—a more nearly unanimous Democratic vote than has been cast on a tariff bill in a generation.

PAIRING.

"Upon the vote of the adoption of the conference report the house machine won by 12 majority only. The Democrats were paired with the Republicans. As on the motion to recommit four Democrats were paired with four Republicans and two Democrats were absent without pairs and two Democrats voted with the Republicans. If the two unpaired Democrats had been present and voted with us, the machine majority would have been reduced to 10; and if the two Democrats who voted with the Republicans had also voted with us, the machine majority would have been reduced to six.

MAY TAKE A COLONY OF NORWEGIANS TO ALASKA

Cordova, Alaska, Aug. 6.—Capt. J. Mikkelborg, who came from Norway, is here as special representative of the Norwegian consul in Seattle to make investigations into fishing, farming and mining conditions in Alaska, with a view to bringing a colony here from Norway.

Capt. Mikkelborg is enthusiastic over this country and believes he can induce 100 families to come to Alaska. If he is successful he will charter steamers for a regular run between Norway and Alaska.

FAMOUS HOME BURNED.

New York, Aug. 6.—Fire destroyed the home of Mrs. Caroline E. Alexander, a sister of Col. Edwin A. Stevens, on Castle Point, a promontory jutting out into the Hudson river from Hoboken, before daylight today. The house, which was built 40 years ago, had been the scene during two generations of many brilliant social events. It was valued at \$40,000 and its furnishings, including paintings and art objects, were valued at \$100,000.

INSANITY IN THAW'S FAMILY

Petitioner's Mother Produces Chart of Ancestral Tree Containing 208 Members.

TWO OF COPLEY'S EPILEPTICS

Very Bitter Against Dr. Allen McLane Hamilton, Practically Charging Him With Duplicité.

White Plains, N. Y., Aug. 6.—The last day of testimony probably of Justice Mills' hearing on Harry K. Thaw's petition for release from Matteawan opened with Roger O'Meara, former chief of detectives in Pittsburgh, and for several years employed by Thaw as a private detective, as the first witness. Mr. O'Meara was commissioned by Thaw to investigate his charges against Stanford White. Mr. Morschauer called him today to substantiate stories told on the stand yesterday by Thaw.

The witness related his experience in 1901 with the girl, said to be now a prominent actress, whose story Thaw told yesterday afternoon. Mr. O'Meara said he saw both this girl and her mother and what they told him agreed with Thaw's assertions.

"Did you believe this was true?" asked Jerome.

"Yes," I looked plausible and I saw no reason why she should tell me such a story if it were not true. O'Meara said the girl told him that she had been in the house of Thaw for a position at any theater.

SENATOR H. G. DAVIS IS OF ROYAL BLOOD

That of a Line of Italian Kings Courses Through His Veins And Arteries.

OF CARLOVINGIAN DESCENT.

Consequently His Granddaughter, Miss Katherine Elkins, is of Kingly Lineage.

New York, Aug. 6.—The royal blood of a line of Italian kings courses through the veins of Senator Henry G. Davis of West Virginia, and consequently Miss Katherine Elkins, his granddaughter, whose reported engagement to the Duke of the Abruzzi excited two continents, is of royal lineage, according to a cable today from London.

Mrs. Albert Levin Richardson of Baltimore, who has been in London for two years making researches in reference to the origins of seventeen century American colonists of the upper classes, has discovered that Senator Davis forebears trace their descent back to W. D. 14, in the time of Charlemagne, through many generations of Italian kings. Mrs. Richardson, who is public record commissioner of the state of Maryland, submitted her proofs to the Herald's college in London, and after the documents were rigorously examined, the proofs were found to be absolutely correct, according to the cablegram. This fact is now recorded in the archives of the Herald's college, and a certificate to that effect has been granted to Mrs. Richardson.

Neither Senator Davis nor Senator Elkins, father of Miss Katherine Elkins, are said to be cognizant of this discovery, which may have an effect on the Italian opposition to the young woman's marriage to the Duke of the Abruzzi.

president, Don Eldorado Villalon, who is known to be friendly to Argentina and whose incumbency of the presidential office, it is expected, would have good effect on pending critical situation. A suggestion has been made, however, though not officially, that the retiring president, who is known to be unfriendly to Argentina, and whose observations are regarded as its decision arbiters, would follow and Bolivia, might become involved in internal strife. The whole situation, with its many ramifications, is quite perplexing to the officials here.

CONGRESSIONAL BILL FOR STATE SCHOOL FUND

Washington, Aug. 6.—A permanent state or territorial fund for the benefit of public schools is provided for in a bill introduced yesterday by Representative Mondell of Wyoming.

It is proposed to raise this fund from the monies received from the sale and disposal of public coal lands in excess of \$10 and \$20 per acre, as fixed by the revised statutes, and from the sale and disposal of lands under the timber and stone act above the minimum price of \$250 per acre.

UNION-CONFEDERATE MONUMENT FOR GETTYSBURG

Chicago, Aug. 6.—To commemorate the valor of both Union and confederate soldiers at the battle of Gettysburg, a monument to cost approximately \$150,000 will be erected on the old battlefield by a Chicago business man, C. H. McConnell.

Contrary to history, Mr. McConnell, who participated in the battle, says the first day's fighting at Gettysburg was a decided Union defeat, 400 of the 500 men of the Twenty-fourth Michigan regiment, and 700 of the 800 men in the Twenty-sixth North Carolina regiment having been killed.

BERNARD SHAW COMING.

New York, Aug. 6.—George Bernard Shaw, the British playwright, will arrive in this country on Aug. 15 or 16, according to a letter which has been received here from J. Eads How, the "millionaire organizer of the national union of the unemployed." Mr. How went to Europe several weeks ago for the express purpose of bringing Mr. Shaw to this country to attend the International Congress for the Unemployed at Chicago on January 5, next. In his letter to James Morris, manager of the free employment bureau, the national union of the unemployed, Mr. How states that he will accompany Mr. Shaw to America and that they will bring with them Bolton Hall and possibly other well-known writers. Mr. How is not at once, it is expected that he will attend the convention in Chicago. Various offers have been made to induce George Bernard Shaw to live in this country, and while Mr. How's letter is brief, Mr. Morris believes that the British reformer has consented to make a tour of this country in behalf of the unemployed.

FAMINE IN COTS REPORTED TODAY

Big Orders for Beds for Prospective Visitors Next Week Are Filed.

ROOMS ARE AT A PREMIUM.

Manager of Merry Widow Opera Company May Quarter His People in Private Houses.

The advance guard of the G. A. R. is coming in. Hotels are filled almost to their capacity, rooms at rooming-houses are at a premium and the local supply of cots is practically exhausted.

What will the condition be next week?

This is the question asked by hotel men, roominghouse proprietors and managers of apartment houses. None of them are taking any chances. While some are of the opinion that there will not be nearly as many people here as estimated they are taking time by the forelock and preparing for a rush. Hence the great demand for cots and mattresses. Every furniture and second hand store in the city has been besieged with orders and at noon today the supply was nearly gone. The biggest orders came from hotels and roominghouses, ranging from 25 to 100 at an order. With the cots went mattresses and of course the expressman was in his glory.

Some complaint has been made by residents of the state who come here frequently about increased prices for rooms. One from Brigham City says he visits the city several times a year and must not be paid more than \$2.50 per week for a room but now finds he has to pay \$5 for the same.

In this connection, one of the most prominent hotel men of the city says: "How can we help but raise prices a little? Don't we have to secure extra help and don't that extra help charge more for their services than they would under different conditions? Of course they do. We are put under extra expense and therefore have to make an additional charge."

The hotels, generally, hope to give 75 per cent of the rooms to the G. A. R. and the balance to regular patrons, theatrical companies and tourists. The manager of the Merry Widow Opera company, due to arrive here Monday morning, is somewhat worried about housing his people. There will be about 60 of them and where they will stay is not at once, it is expected that he will attend the convention in Chicago. Various offers have been made to induce George Bernard Shaw to live in this country, and while Mr. How's letter is brief, Mr. Morris believes that the British reformer has consented to make a tour of this country in behalf of the unemployed.
