This Juan bay with San Francisco bay. This project has excited deep interest on the Pacific coast. The district engineer has reported to the war department advarsally an it Versely on it.

Mr. Kruttschnlit told Secy. Taft that

the central Pacific, the Union Pacific and the Southern Pacific. He filed a protest against the action of the district engineer, which was taken on the ground that the proposed bridge would interfere with navigation. He said that the suspension bridge, with a 4,000 foot span, such as was demanded by the

span, such as was demanded by the city of San Francisco and the enginear, would cost at least \$10,000,000, while the draw bridge proposed by the railroads, with two 100-feot passages on either side of the central draw, could be constructed for about \$1,000,000.

The roads would save an hour's time on trains running to Ogden and Oregon. It was admitted, he said, that the drawbridge would not interfere with steamship navigation, but only with the small schooners with would be unable to stem the swift current likely to be small schooners with would be unable to stem the swift current likely to be caused by the draw-bridge at certain stages of the tide. To meet this objection the railroad companies offer to maintain a tug to tow them through the draw free of charge.

Big Scramble for California Fruit at Ticket Office.

The assault on the ticket office of the Salt Lake Route on west Second South this morning on the occasion of the free distribution of oranges was something decidedly strenuous. Still Another Merger.

New York, May 5.—It is stated by the Herald that the recent purchase of the Ann Arbor railroad from the Wabash Interests was for the Detroit Southern, and that the two lines shortly will be merged. While the ownership and man-ngement of the Ann Arbor and Detroit Southern will be distinct from the Cin-cinnati, Hamilton & Dayton system, similar interests are identified with both systems. Inability to combine them is due to the fact that the Detroit South-ern and Cincinnati, Hamilton & Day-

ern and Cincinnati, Hamilton & Dayton are parallel roads.

A harmonious working arrangement will, it is added, be entered into by the two systems. The Detroit Southern will thus enter Toledo over the tracks of the Cincinnati, Hamilton & Dayton.

A new directorate will shortly be announced for the Ann Arbor road. The line runs from Toledo, Ohlo, to Frankfort, Much., a distance of 292 miles. It also operates steam transfers on Lake Michigan, between Frankfort and Kewanee, Wis., and Menominee and Gladstone and Manistique, Mich. The Detroit Southern operates a road of 553 miles from Detroit to Ironton, Ohio.

DEPOSITORS ARE QUITE INDIGNANT

Schettler Bank Creditors Much Perturbed Over Outlook for Settlement.

COMPROMISE NOW LOOKS HAZY

Church Turns Over Deed to Woodward Preperty -- Some Hitch Over Taxes.

The feeling of the Schettler bank creditors ran higher this morning than they have since the investigation of the ex-banker began. This morning the hearing before Commissioner Baldwin was again postponed until 2 o'clock, while the leading depositors met as a committee with Attorney C. B. Stewart, and discussed the outlook. Yesterday it looked as if a compromise were under way that would bring a speedy termination to the whole affair. Today the talk was of continuing the fight to the inst ditch, and bringing of the Schettiers into court to explain their con-

G. Herman Schettler and Cornelius Schettler, it is expected, will occupy the stand the greater portion of this afternoon, provided the case is not stopped by the reaching of a decision in the compromise matter.

HITCH OVER TAXES.

The item which raised the indignation of the depositors was the request of Mr. Schettler, through his attorneys, that the creditors pay the taxes for 1904 on the Schettler home. They had already been roused by the fact that a telephone message informally placed \$5,000 as the amount to be retained from the sale of the east South Temple street home, and the written proposition, submitted later, placed this amount at \$5,500. In expressing his opinion on these subjects, one of the depositors said this morning: "I have tried to be considerate, and to offer the Schettlers every opportunity to get out of this trouble; but I am beginning to feel like carrying it on to the bitter end now. The facts in this case are not realized by the public. The depositors are many of them help-less old women with the poorhouse staring them in the face, or I would never say compromise for a minute, It is wrong to try and force this figure any lower than 50 per cent."

CHURCH TURNS OVER DEED.

At the meeting this morning Attor-ey F. S. Richards, representing President Jos. F. Smith, turned over to Trustee Gould B. Blakely the deeds for real estate, valued in the transfer at \$700. In opening the will of Mr. Woodward it was found by his executor that he had deeded his property to the Church, and when the executor made demand. and when the executor made demand was told by Schettler that Mr. Wood-ward had left the money there to be invested, and that it had been loaned to A. J. White and Caroline E. Le'th. The security was a mortgage on prop-erty situated on Eighth West street, between South Temple and First South streets, and as the money was never paid, the property had been foreclosed. The administrator accepted the prop-erty in lieu of the money, and turned the deed over to the Church. How ever, the law states that property Schettler that Mr. Wood ever, the law states that property transferred within four months of the transferred within four months of the date of bankruptcy, reverts to the general assets, and as this transfer was made within that time, the deeds were today turned back to the creditors. However, Geo. Woodward now becomes a creditor of the bank, and his claim will be submitted in the general lat.

NO CONCLUSION REACHED.

This afternoon at 2 o'clock Attorney Will Ray delivered to Referee Baldwin a formal offer of compromise, contain-ing the two provisions that out of the of the South Temple street prop-Mrs. Schettler should retain \$5,000, and the creditors should retain \$5,000, and the creditors should pay the back taxes. The legal way to act on this offer is for Referee Baldwin to call a creditor's meeting at which a vote will be taken on its acceptance. If this vote carries the matter will then be taken to Judge Marshull for his approval. In case it is given the comprehensial will as case it is given the compromise will go into effect and the case will be finished so far as the court is concerned. A dozen so far as the court is concerned. A dozen creditors, all of them men, were on hand at 2 o'clock, and a preliminary meeting of creditors was held. An informal poll of those present showed that there was considerable opposition to accepting the compromise, while several favored it. Tomorrow morning at 10 o'clock another creditors' meeting will be held, and a formal vote will be taken on the acceptance of the compromise.
