# DESERET EVENING NEWS | MRS. DOWNEY GOES BACK TO HUSBAND

Divorce Proceedings Dismissed And the Couple Are Living Together Again.

#### THEY BOTH KISS AND MAKE UP

Curtain Rung Down on Very Nasty Case full of Serious Allegations On Both Sides.

The domestic troubles of Josephine Louise Downey and her husband, Dr. William St. John Downey, which have been aired in the divorce court recently, have been settled out of court, and the divorce case filed by Mrs. Downey has been dismissed upon stipulation entered into between the parties to the action. The parties to the suit have become reconciled, and are again living together.

Mrs. Downey made some very sensational charges in her complaint, and her husband filed a cross-complaint, in which he also made some sensational charges against her. She alleged that defendant was an habitual drunkard and that on one occasion he assaulted her with his fists and blacked her eyes for her. He then left her and notified her with his fists and blacked her eyes for her. He then left her and notified the landlady where they boarded that he would not stand for any indebtedness contracted by her. She also alleged that afterwards when she was ill in bed he left her alone for two weeks without medical attention, and without food or fuel, and she was dependent upon her neighbors for treatment and the necessaries of life.

In his cross-complaint, Dr. Downey charged that his wife on several occasions assaulted him and threw dishes at him and drove him from home. At one time she is alleged to have threatened his life, and threw a clock at him. He also charged that she had threatened to leave him and got to California to live with a man named Stanley Fay, and that she received \$40 from him in November last,

People the world over were horrifled on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3.200 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much carnot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cired my daugster, Laura. of a severe cold, and I believe saved her life when she was threatened with pneumenia." W. D. WILCOX, Logan, New York, Sold by all druggists.

Johnson, his predecessor. He asked
for a settlement, but the demand was

Mrs. Landers in This City Investigating Husband's Mysterious Death.

Mrs. Landers, wife of the "healer." who died last week at Nevada City, Cal., under mysterious circumstances, is in the city for the purpose of thoroughly investigating the means which caused her husband's death. She feels certain that he was murdered, but who is responsible for the act she does not know. However, she strongly suspects It was a notable fact that the crowd

that one Julius Fred Holm is the guilty party.

Holm came to this city as the manager and "understudy" of Prof. Landers, and the two secured rooms at the Culmer Hous on upper Main street. So numerous were the calls made at the rooms by those seeking relief from bodily afflictions that the proprietor of the house asked the healers to go elsewhere. They next took up their abode at the Treloar apartments on Main street, and there appeared to be doing a good business and to be on perfectly friendly terms. Soon a Mrs. German, wife of a Butte dentist, appeared upon the scene. She, too, was a divine healer, and a partnership was entered into between herself and Prof. Landers, she to do the lecturing and he to perform er, and a partnership was entered into between herself and Prof. Landers, she to do the lecturing and he to perform the healings. Early in January trouble arose between the pair, the partnership was dissolved and the woman went to Denver. About the same time Holm departed for the Landers home in California, saying that he had been sent there by the professor to attend to some business matters. He claims to have left this city on Jan. 10, but people in the Treloar say that the date of his departure was Jan. 14. Landers wrote to his wife, saying "Holm has murdered me." The professor remained at the rooms until Jan. 21, when he complained of being ill, and at once left for the west. On arriving home he grew gradually worse and died on Jan. 28, without giving any explanation to his wife as to what had caused his affliction, as he promised her he would do ifrs. Landers will probe the mystery better the server of the very bottom.

John Eltz was arrested at Bingham Junction yesterday afternoon by Deputy Sheriff Ira Beckstead on suspicion of having assaulted and robbed Steven Smith on Wednesday night. SCORES UTAH BUTTER. Canadian Expert Passes on Local

Dary Products in This City.

The jury in the case of Mrs. Sophia Petterson against Joseph William Taylor, which was tried in Judge Ritchie's samples of butter submitted by various Utah creameries were scored on a percentage basis. The work was done by Robert Ireland of Kingston, Ont., who has recently come to Utah, and who accepted the task at the request of Prof. Clark of the Agricultural col-lege, in the absence of the representa-tive of the agricultural department from Washington. Allowing 30 per cent for flavor, 25 for texture, 25 for color, 15 for salt, and 5 for finish, Mr. Ireland granted highest favors to a sample of butter made by M. O. Miner, a student in the farming department of the Agricultural college. Mr. Miner scored 94% per cent. Of the regular scored 94% per cent. Of the regular creamery butter the Slaterville creamery product received the highest score, reaching 91 per cent. The Smithfield and the Faust creamery product followed with 89% per cent and 89 per cent respectively. The lowest score went to the Sigourd creamery, which reached 85 per cent. Only one exhibit of cheese was made, and that by the Hopper cheese company, scoring 771/2

per cent.
Mr. Ireland, who did the scoring, is unfamiliar with the west, and with western products, and he based his figures on his experience with Canadian ures on his experience with Canadian and eastern products. It is claimed by many dairymen that after a year's experience in the west, Mr. Ireland will rate local products much nearer the 100 mark. Mr. Faust said yesterday that he considered it impossible for a stranger to fully appreciate the differences in texture and flavor between western and eastern made butter, and while the and eastern made butter, and while the sample of his firm was only three points below perfection in flavor, still he thought a Utah man would have al-lowed a better per cent.

In explaining the reason for the low cores which he gave the dairy projucts, Mr. Ireland said that he believed the observance of proper rules would make a much better product—one finer

n texture and better in flavor. In a general discussion on the care of Jersey cows, the point was emphasized that the cow in pasture season should be fed dry hay in small quantitles every night, and should receive grain or beets the year round.

Chief Lynch Firm in the Matter of Loosely Conducted Dance Halls.

In spite of the fact that the place had been closed by the police, and the further fact that the proprietor was warned by Chief of Police Lynch to keep it closed, the Utahna park dance hall was again raided last night, and Manager W. R. Gourley and three of his assistants placed under arrest. They were released upon furnishing \$25 bonds

A couple of days ago a plan was enceived of organizing a social club, called the Ontario, with D. P. Dignan, a former employe of Gourley's, as presi-

dent.

Last evening it was announced that this club would give a dance at Utahna park. The orchestra was secured and the dance went on.

Chief Lynch soon learned of it, and with some of his men went to the dance hall and made the arrests and ordered the place closed up.

Gouriey insisted at the station that he had a right to run the hall, but Chief Lynch declared if he attempted to open the place again he and all his

to open the place again he and all his assistants would be placed in Jail. This had the desired effect and Mr. Gourley announced that there would be no more dancing until the matter had been tested in the courts. It is understood that the place was thrown open again last night for the purpose of making a test case. The charge preferred is running a dance hall without a license.

#### SAXEY REPLIES.

Wants to Know Why Simons Would Deny the Right of Petition.

In the report as published in the 'News" of the proceedings of the Legislature with regard to the Spanish Fork memorial, I notice that certain reflections were indulged in, having reference to the signers of the memorial. As I have no other course by which to

answer, I beg the courtes by which to answer, I beg the courtesy of the "News" for that purpose. The report reads: "Simons of Utah county moved to lay it on the table, and rising to a question of personal privi-lege, said that he did so because he objected to any man or set of men pre-suming to dictate to the Legislature."

Can it be possible that the gentle-man from Utah county is correctly reported?

can it be possible that any person claiming to be an American citizen will deny the right of petition? We may expect it in Russia, but in free America, never! The right of petition in the conflict for civil liberty, has always been claimed as an inalienable right of the citizen. In the Declaration of Independence the "fathers" in their enumeration of grievances, say: "In every stage of these oppressions, we have petitioned for redress in the most humble terms. Our repeated petitions humble terms. Our repeated petitions have been answered only by repeated injury." Article 1 of the amendments to the Constitution of the United States, preserves this right in the following language: "Congress shall make no law respecting an establishment of religion or prohibiting the free exercise. igion, or prohibiting the free exercithereof; or abridging the freedom speech, or of the press; or the right the people peaceably to assemble o petition the government for a redress grievances.

of grievances.

The people of Utah, recognizing the evils involved in denying to the people the right of petition, in the very first section of the first article of their Constitution, provided as follows: "All men have the inherent and inalienable to enjoy and defend their lives and liberties . . to assemble peacefu ly, protest against wrongs, and petition for redress of grievances; to communicate freely their thoughts and opin

This right of petition, among the lov ers of civil liberty, has jalways been held to be a sacred one, a right in-estimable to them, and formidable to estimable to them, and formidable to tyrants only." Yet, in view of the constitutional guaranties, the statesman from the banks of the Petectneet, tells his immediate constituency that he denies to them the right of petition. "Upon what sort of meat does this our Caesar feed?"

Caesar feed?

A personal reflection of the gentleman from Utah county upon myself, being so contemptible, puerile, and disingenuous, I pass by without further remark.
