WESTERN MARKET LETTER.

Kansas City, Mo., Monday, May 9 .-Very few lots of strictly range bred, fed steers were on last weeks' market, Colorado bred and Colorado fed branded steers, weighing 1122 pounds brought 4.50 early in the week, and the same kind of stuff weighing 1290 sold at 4.65 Thursdey, Native fed, Western steers, ranging from 900 to 1,000 pounds sold at 4.00 to 4.15. Western cows weighing 761 pounds, sold at 3.40 Thursday. There was a liberal supply of high grade Colorado feeders during the week, some 960 pound ones selling at 4.50. Others averaging 950 to 1,200 pounds brought 4.60 to 4.20. None of these prices were 4.00 to 4.20. None of these prices were considered much changed from those of previous week. Supply today is moderate for Monday, at 5,000 head. Market on killing stock steady, and on stock and feeding cattle strong. Texas sheep opened the season here last week, and made up most of the supply during the week. Price on Texans opened at 4.90, which was too high, and in their deeline of 25 cents they

and in their decline of 25 cents, they dragged natives down 10 to 15 cents, Market today is higher, however, and receipts are expected to run light, and receipts are expected to run light, and prices no worse for some time. Nearly everything is now clipped stock, and best clipped lambs bring 5.75 to 5.85; wethers up to 5.25; ewes, 5.00.

BATTENBERG BRAIDS .- A blg stock, selling 2c to 5c a yard. At the Lace House tomorrow, 1 to 4 p. m., 1c At the yard.

MERGER OF TINTIC MINES. Grand Central Continues Strong-Te-

Special Stockholders' Meetings of La Reine and Bullion-Beck Tunnel.

Calls have been issued for special stockholders' meetings of the La Reine and Bullion Beck Tunnel companies

for the purpose of discussing the mat-ter of consolidating the properties of these corporations, which are located in the Tintle district. The date set for the meetings is June 10, at 10 o'clock a.m. at room 411, McCornick building. In addition to the matter of consol-idation the advisability of purchasing the Cyrus Oliver lode mining claim will be discussed. It is also proposed to change the principal place of business to Provo, with power given the board of directors to establish and maintain offices at other places,

NEW GOLDFIELD STRIKE.

Combination Mining Company Has Acquired Valuable Water Rights.

Three strikes were made in the Golddistrict during the week which

at \$4.90, while \$4.75 was bid for it. Te-tro remained from at yearerday's pro-New York Bonanza strengthened some of greater importance because they ocon the open board. Silver King is inclined to be weak curred at widely varying points, says The closing quotations and sales were reported as jollows: the Goldfield (Nev.) News. The first was made in the Black Butte claim. close to Diamondfield, and owned by Frank M. Ish. Mr. Ish recently started Bid. Asked. a crosscut tunnel a little over half way up the hill, which on Wednesday was in 12 feet. At this point an average sam-14% 1.60 ple was taken clear across the face of the tunnel and the assay value was \$75.50. This is extra good value for the \$75.50. depth, even at Goldfield, but as more work is done, the showing gets even better. Some of the pannings indicate values up into the hundreds and before 1.00 many days have passed, the Black Butte will likely develop into a shipper, 4.90 The hill on which the claim is situated rises about 225 feet above the guich and seems to be a mass of mineral is yet a question whether on the Black Butte there is a well defined ledge of big proportions, or whether it is a chim-4% ney or blowout. One visitor during the week facetiously remarked that he believed it was a true ledge—"with a porphyry foot wall and the sky above for a hanging wall." If it is not a mere surafce deposit—and there is no indi-15% surarce deposit—and there is no indi-cation that such is the case, and it is bound to prove one of the biggest bo-nanzas of a bonanza district. The owners of the Combination mine 27% 13%

55 have acquired the water rights about Alkall Spring, at the foot of the Monte-

tunnel," said Mr. Copley today, "has been completed to the length of 115 feet. The face is in a formation consisting of quartz and crystalized lime, strongly mineralized, which gives evidence that the adit will soon encounter the vein which it was intended to open. The vein shows a width of 50 feet between walls where prospected on the opposite side of the gulch from the present tunnel and lies between a contact of lime porphyry. The ores are silveridi with better than that found on the Rye Patch property in the same district, which has a record of having produced more than \$14,000,-

000 for its former owners. It is the in-tention of the company to increase the working force soon and to prospect the north end of the property thoroughly. The course of the vein is from the northeast to the souliwest." At the Morrison mine, which Mr. Copley also serves as secretary, the

new double compartment shaft is down fifty feet and is still going on down.

CONCENTRATES.

A car of Tonopah ores reached the sampler today. Four cars of Grand Central ore re-

ported at the samplers today.

A car load of jig product from the May Day is at the samplers today. The Century mine of Park valley is

in the market today with a car lot of concentrates.

John W. Burton is inspecting the property of the Ploche-Nevada Con., at Pioche, Nevada.

Col. Henry Altman departed for the east last night in response to a telegram requesting his presence.

Superintendent Harry Colvin of the

rich ore.

Bamberger-Delamar mill at Delamar, Nev., is in the city again. Frank B, Cook, accompanied by his wife, departed for Chicago today over the Oregon Short Line railroad.

Little Effect on Standard Stocks. GETTING CLOSE TO ORE. New York, May 11.-Business was in a little larger volume than of late in stocks

today. The government crop report was without any effect on the grain-carrying stocks. Higher prices were made for the principal stocks after the opening, largely in sympathy with the rise in several specialties. Metropolitan Securities ad-

vanced 246, Corn Products preferred 11/4 and Metropolitan Street Railway and Reports of a very encouraging na-Amalgamated Copper 7%. New York Centure have been received from the Netral and Consolidated Gas rose to yestervada-Humboldt property in Humboldt day's final prices. Hocking Valley fell 2 county, Nevada, through Secretary Ed points. The market dropped back into a Copley, who made a personal inspection of that mine last week. "The

points. The mirket dropped tack into a dull rut and prices were inclined to sag. United States Steel touched 9%, or within % of the low record price. Brooklyn Union Gas rose 2 and Delaware & Hudson 1%. Bonds were steady at noon. Standard stocks were little affected by the enormous gold exports and liquidation of United States Steel and kindred stocks. Western stocks remained at about yester-day's closing and the coders were firm. Western stocks remained at about yester-day's closing and the coalers were firm, United States Steel sold down to ³⁵/₂, the lowest price ever made. The preferred and Tenessee Coal yielded 5. Republic Steel preferred 15% and Allis-Chalmers preferred 25%. Consolidated Gas advanc-ed 35% and Brooklyn Union Gas 5. Adams Express sold down 15% and Rutland pre-ferred 45%. Consolidated Gas reacted a point and recovered again while Brook-lyn Union Gas gained an aditional point. New York Air Brake broke 3%. The gen-eral market displayed no feature alter United States Steel became quiet and steady.

United States Steel became quiet and steady. The record total reached by the gold en-gagements stiffened the call money rate and the whole market sold off. The move-ment was slow and unimportant except for the United States Steel stocks, the common touching 94 and the preferred losing 2 points. Consolitated Gas also lost its rise and St. Louis & San Fran-cisco second preferred feil a point. Mex-tean Central ran off 115 and as quickly rallied a point and Amaigamated Copper rose 114. The closing was steady. Close: Money on call easy, 14,62 per cent; closing bid 12 per cent; offered at 114 per cent. CREOLE OF STATELINE.

Mine Under Bond to Coloradoans is in Operation Again.

Word has been received from State line to the effect that a Colorado par-ty by the name of Webber has secured a '....' and lease on the Creole mine at Stateline and has a force of six men at work there. This property has been idle for

This property has been life for about five years, notwithstanding it ranks among the best prospective propositions in the district. Dissensions arose among the owners of the ground, and it seemed that until recently no agreement could be reached either to continue work on the proper-ty or dispose of it entirely. ty or dispose of it entirely. Mr. Webber has taken hold and has

begun the sinking of a new shaft. Mr. Webber is also working the Good Hope property, two miles above State-line and on the main road to the Deer Lodge district in Nevada.

DEAL MAY BE MADE.

Experts Report Favorably Upon an Ozookerite Proposition.

Prof. W. H. Tibbals has bad a deal pending for several weeks for the sale of an ozookerite property near Soldier Summit. He received word today that the report of the engineer sent out from the east to examine it had reported favorably and that the principals on the purchasing side of the deal would arrive in a few days to check up the work.

TONOPAH'S NEW RAILWAY.

Tracklayers llave Passek the Thirtleth Mile Post.

Freight and passenger service was inaugurated this week between Soda-ville and Coaldale, connecting with the O'Keete stage line at the latter point, says the Tonopah Bonanza. Good sersays the Tonopan Bonanza. Good ser-vice is being maintained, although on account of the new road stages have not been enabled as yet to reduce the time. The C. & C. have not been delivering material for the past few days on account of heavy cattle shipments and movement of commercial freight and for this reason the tracklaying forces have been badly handicapped and have not been able to make the usual progress. The track is now past the thirtieth mile and with promises o setter movement of material it should have at least five more miles added to its length the coming week. The water now running through the new pipe ne, affording an ample supply of water for all purposes. Excellent progress

10 miles west of Goldfield, zuma range and are making preparations to dever-op the same and pipe it to the point where their new cyanide plant will be George H. Lewis of the Crystal Water

company of Tonopah, who is in charge of the work, is confident that about Alkall Spring there is an almost unlim-ited water supply, and that he will soon develop enough to run a 500-stamp mill. The preliminary survey for the pipe line carry the water to Goldfield has al-ady been made. The trench will rendy soon be dug, but the pipe will not be brought in until the railroad is completed to Tonopah, when the saving in freight rates will be a material item.

RICH DEXTER ORE.

Six Tons Sent Down Averages Better Than \$1,000 to the Ton.

Gold ore assaying better than \$1,000 to the ton, has arrived from the Dexter mine at Tuscarora, Nevada, The lot is not a very big one, but it is sufficient to give the leasers who sent it down a good bunch of spending money. There were only six tons. A bar of bullion has also arrived, representing the April clean-up at the mill, which has been running on lease ore.

Location Notices Filed.

Special Correspondence. Provo, May 11.-Notices of location of Jack Nos. 1 and 2, both inclusive, pe-troleum claims of 160 acres each on the

northwest of Utah lake, have been lu-cated by W. H. Hendrickson et al.

Pushing Tunnel Work.

Special Correspondence, Lehi, May 10 .- Deering, Larsen and Angell are still pushing the tunnel in their mining claim in Beef Hollow, with

most encouraging results. The adit is now in about 75 feet. Some of the local prospectors report a find of corrundum near Lehi.

Bought Nevada Mine.

A Hawthorne, Nev., paper contains

the following: "Mr. Chipman came in from Kin-Mr. Chipman came in from Kin-kead Wednesday. He says the mines there belonging to himself and Bor-land have been sold to Walker brothers of Salt Lake. While the terms of the sale are not yet divulged, Mr. Chipman says his share of the first payment-May 10-will give him all the money he wants. Bettles & Niland are promoting the deal, and say they never saw anything in the state that looks hetter to them than this property. A large number of men are prospecting near Kinkead."

Important Move for Stockton.

Yesterday a conference was had be-tween officials of the Honerine, Black tween officials of the Honerine, Black Diamond and Bullion companies, oper-ating at Stocktor which resulted in an agreement whereby the Honerine and Black Diamond will extend a cross-cut from the main tunnel to the St. Patrick ledge, which traverses each. The Black Diamond will then drift on this ledge to the west and the Honerine to the east. At the same time the Honethe east. At the same time' the Hon-erine will have under way an 800-foot pross-cut, headed towards the Bullion shaft through Black Diamond ground in accordance with an understanding intered into with the Bullion com-Dany.

New York Shipments.

Ore shipments are being made from the New York Bonanza , 'ne at Park City. The ore is coming from the raise on the 400-foot level as well as from other parts of the mine.

McCall's Patterns-Any pattern in the house, at the Lace House, 1 to 4 p. m. tomorrow, 7%c each.

GLOVES. The best \$1.25 Dress Kid Glove on the market, 1 to 4 p. m. to-morrow, at the LACE HOUSE, 93c.

J. S. Free, who is superintending the Ida May property in Lincoln county Nevada, is reported to be sacking some

Secretary Henry Catrow, of the Ohio Copper company, is home from his wedding trip and can be found at his desk again

The ore and bullion settlements reorted late yesterday were, as follows: Crude ores and concentrates, \$28,800; base bullion, \$53,400.

A shipment of gold bullion from the Newport and Nevada property at Fay, Nevada, has arrived. Manager Hackett came up with it.

The Quincy is the name of a new company organized to operate a prop-erty near Tonopah, Nevada, in which local talent is interested.

Superintendent of Construction Sorensen, of the Utah Con., smelting de-partment, visited the local offices of the company yesterday afternoon. Loose brothers and Senator Smoot are reported to have filed on 30,000 miners' inches of water in the Walker river of

California. They have mining interests in that section. Manager Snyder reports continued improvement on the intermediate level of the California mine at Park City,

where encouraging developments we reported recently.

A sheriff's deed was executed yesterday in favor of Herman Brisacher of this city for the property once owned by the St. Louis-Eureka Mining company in the Tintic district.

Ed. F. Freudenthal will depart for Pioche, Nevada, tonight, in company with Prof. George W. Maynard and Childa Of. The latter are well known metallurgists and the object of their rip is to look over the properties of the Manhattan company,

The new vertical shaft at te Tonopah-Belcher at Lone Mountain is now nearly completed, and within the next two or three weeks the ore from the 285 level will be hoisted through it. On the dumps are two carloads of ore awaiting shipment .-- Tonopah Bonanza.

The directors of the Black Diamond Mining company, operating at Stock-ton, but which is controlled by Indiana capitalists, held a meeting yesterday afternoon at which it was decided to make Salt Lake the general headquarters of the company. Offices will be es-tablished in the Dooly block and W. C. Alexander, secretary and treasurer, will be in charge.

Clyde A. Heller, accompanied by H. C. Brougher, arrived on a special train f.om Carson Friday morning and departed last night at 11 o'clock for Coal-dale, where their special awaited them, They will arrive in San Francisco Sun-day morning and will leave for Salt Lake Monday morning. The gentlemen are closing up a very important mining deal.—Tonopah Benanza.

The shaft on the Talisman claim of the Pioche-Nevada Con., is now down about 45 feet. Superintendent Charley Rives reports that a streak of Galena ore has been encountered, about a foot wide, that assays 75.9 per cent lead, 26 ounces silver, and 40 cents in gold, while the chloride ores show assay values of 580.8 ounces silver, 46.6 per cent lead and \$24.80 in gold.

The Record of Pioche has the following to say about development work at the Panaca mine in which Salt Lake par-ties are interested: The shaft is now over 200 feet in depth and is in ore for most of the distance, with good ma-terial developments on ore on each side. The formation is all right and everything points to the existence of a big mine there. With De La Mar as a sample , and not far to the west, there is no good reason why the high hopes en-tertained of the Panaca claim should

not be justified.
