PER WESTERN UNION TELEGRAPH LINE.

### EASTERN.

**Destructive Rainstorm and Tornado.**

CHICAGO, 6.—About five o'clock this afternoon a terrific rainstorm, accompanied by a rotating tornado, visited this city and did great damage to property. The storm spent itself chiefly on the south and north sides. The west escaped almost uninjured. The wind seemed to come from above and dropped here and there over the city, skipping some portions, which lay in its course. Among the casualties reported are the following—

The Michigan Southern Depot was unroofed and six laborers working in the vicinity were more or less hurt, one seriously. The massive steeple of Grace Church, 175 feet high, fell and crashing through the roof penetrated to the aisle. The choir were practising in the church at the time, but were not injured. The loss to the church, exclusive of the steeple, is estimated at $7,000. The spire of Wabash Avenue Methodist Church also broke off and fell into a lot adjoining. The tin roof of No. 571 Wabash Avenue was carried off and the building left defenseless against the storm. The upper portion of the roof of the old County Hospital was carried away and the chimneys falling on the lower portions caused much injury to the building. The patients were speedily removed and none were seriously hurt. The wind took off a large portion of Osborn's harvesting machine manufactory and sixty feet of the west wall fell in, smashing machinery and inflicting other damage to the amount of about $5,000. The house of Henry W. King was unroofed and damaged badly. The omnibus barn on Blue Island Avenue, near 22d Street, was unroofed. A three story house corner Paulina and 22d Sts. was blown down and one boy killed. Besides this, several of the tenants were injured and some limbs were broken. The massive fog bell at the Crib, together with the newly erected tower, was swept into the lake and entirely destroyed; the loss will probably be over $5,000. Hacks and carriages were wrecked in the streets and abandoned. Nearly fifty vehicles were seen on the south side after the tornado had passed, all turned over, and some of them worthless on account of damages by the storm. Innumerable chimneys toppled over and signs were blown down into the streets in all directions. Little loss of life is reported as yet. The Palmer and Gardner Houses are said to have been badly damaged, but no particulars can be ascertained at this hour. On the lake the force of the storm seems to have been less, but nearly every vessel lying inside the harbor and in the river, as well as those outside, lost sails or masts or portions of rigging.

**Further Particulars.**

At a late hour to-night a few further particulars of the damage have come to light. The loss to the Palmer House is about $2,000, to the Gardiner House $1,000, to the Old County Hospital about $8,000. In Page's candy store on Lake St., four girls were seriously hurt, and two of them may die from the injuries received from the chimney falling through the roof. Six men were buried under the falling walls of the Michigan Southern freight depot, one of them will probably die, and the others had their legs, arms and bones badly broken, and some may not recover. The roof of the passenger depot was partly demolished. The total damage is roughly estimated at a quarter of a million of dollars, and will probably not be much less than that. There are no great losses, but innumerable small ones.

**Dom Pedro.**

PITTSBURG, 6.—The Emperor Dom Pedro, who passed through the city this morning, on his way to the oil regions, returned this afternoon and, after a brief visit to municipal buildings, St. Paul's Cathedral, Western Penitentiary, and the large iron and glass manufactories of the south side, left for Philadelphia.

**Sentences in Crooked Whiskey Cases.**

ST. LOUIS, 6.—Judge Treat, before senencing the gaugers and storekeepers to-day, drew attention to the facts that the statutes under which these men were indicted provide a heavier penalty than those under which far greater offenders were convicted. The Court first had thought of the penitentiary as a place for this class of offenders, but if they were sent there the contrast between their punishment and the punishment inflicted by the Circuit Court in the noted cases would be too great. The spectacle would be presented of the dupes and inferior officers being treated with more severity than the great offenders. The Court therefore decided to substitute the county jail for the penitentiary.

**Incendiary Fire.**

WILLIAMSPORT, Pa., 6.—Another incendiary fire was started this evening in Beaver Mills lumber yards; sixteen acres of lumber are now burning, and it is feared that from thirty to thirty-five acres will be destroyed before the fire is controlled.

**Freight Rates.**

ST. LOUIS, 6.—The general freight agent of the Mo. Pac., St. Louis, Kansas City and Northern Chicago, and Alton, Chicago, Burlington and Quincy, Hannibal, St. Joe, Chicago, Rock Island and Pacific railroads, in session here, have fixed the following schedule rates from Chicago to Kansas City, Leavenworth, Atchison and St. Joseph—First class, 80 cents; second class, 70 cents; third class, 45 cents; fourth class, 30 cents; special 25 cents; salt, cement and plaster, per barrel, in car loads, $65, class A $75, class B $80, class C $40; lumber, $62. From St. Louis to same points—first class 65, second 50, third 35 @ 48; 25 special; salt, cement and plaster, per barrel, car loads, 35; class A, $50; class B, 40; class C, $30; lumber $32.50. Eastward bound freights for St. Louis from these points are made arbitrary.

**Chinese Emigration.**

WASHINGTON, 6.—Sargent's speech on the Chinese question has excited much interest here. The congressional sentiment on the question is awakening under such efforts, and the discussion by the California press. California was slow to appreciate the drawbacks of Chinese immigration, and it is not surprising that eastern sentiments responds but slowly. But Sargent's argument and statements of the facts evidently expressing certain features of the degrading influence of the Chinese in California has seemed to startle the public mind into a more careful examination and review of the whole subject. The threatened mob violence in San Francisco, however, tends to create a reaction against this improving sentiment, and aggravate the difficulty of securing a constitutional remedy. If your people are calm and tolerant, there is a strong hope that the Senate may soon initiate a movement looking to a modification of the Chinese treaty. Meantime Piper will push his bill securing a rigid execution of the existing law relative to coolie importations. The theory of Piper's bill is that the law of March, 1875, would be efficacious if Collector Shannon executed it rigorously. Piper therefore proposes to amend the fifth section by adding the following—

"When any two citizens shall file with the collector of any port of the U. S. an affidavit stating that they have reason to believe that on board any vessel arriving at said port there are any persons prohibited from landing by this act, it shall be the duty of said collector to make or cause to be made the inspection provided for in this act, and every collector or inspection officer who wilfully refuses or neglects to make such inspection or enforce the provisions of this act shall be punishable by fine of not less than $500 nor more than $3,000, or by imprisonment for not less than three months or more than one year, provided that this amendment shall not be so constructed as to relieve the collectors of ports from causing the inspection of vessels to be made as provided for in the original section, though no affidavit be made as required by this amendment.

This amendatory bill will be submitted to the House with a unanimous recommendation for its passage as soon as it can be called for.

**The Chinese Question.**

Congressmen Page and Pyper had an interview with Secretary Fish to-day on the Chinese question. He assured them he was not only willing but anxious to procure treaty modifications to prevent the evils of which the Pacific Coast complains, and reiterated his former statement to Page that he had already instructed Minister Seward to bring the subject earnestly to the attention of the Chinese Government, but he was at loss to know just what modifications will accomplish the desired end. He therefore asks the Pacific Coast delegation in Congress to consult with each other and with committees on foreign affairs in both houses, and then suggest to him what they think best, whereupon he will immediately forward suggestions and direct Minister Seward to secure the Chinese Government's consent to treaty modifications in accordance therewith if possible.

Page has to-day had a talk with Professor Seelye, a member of Congress, of very high standing, from Mass., who has travelled in China and who promises his best assistance in showing that the Burlingame treaty is a one-sided affair, benefiting China at our expense, and requiring amendments for many reasons. Page says that if, when the end of the session arrives, nothing shal have been accomplished of a positive nature in this regard, he will move for the appointment of a joint committee of two senators and three representatives to visit the Pacific Coast during recess and report on the subject at the commencement of next session. A strong report signed by such a man as Seelye would, he thinks, command action there, if it cannot be obtained sooner. Senator Sargent says he will advise the total abrogation of the fifth and sixth articles of the treaty, though he fears that Secretary Fish will not be willing to go that far without legislation.

**Silver Coin.**

For the purpose of relieving, so far as practicable, the scarcity of small change, the Secretary of the Treasury has authorized the treasurer, the several assistant treasurers, and designated depositors of the United States, to pay silver in the ordinary disbursements to the silver coin on hand prior to the passage of the specie resumption act of January.

**Portland and S. R. R.—Kelton and Dalles Mail Service—Umatilla Reservation.**

The Senate committee have reported favorably on the Klamath reservation land bill, or bill to extend the time for the survey and location of the Portland Salt Lake Railroad three years.

The Postmaster General, at Senator Mitchell's instance, has declined to approve the special agent's recommendation for a reduction of mail service on the routes from Kelton, Utah, to Dalles, Oregon, and from Winnemucca to Boise city.

The House committee on Indian affairs will report favorably on Lane's bill to remove the Indians from Umatilla reservation and open it to settlers.

**Disgusted with Investigation.**

The best impression here is that the foreign affairs committee's report will relieve Schenck of any charge of fraud in connection with the Emma mine, but will express the opinion that his acceptance of the directorship was incompatible with his position as minister.

The growing disgust with the methods of the pending congressional investigation is well expressed by a religious journal which says, "It is time to investigate these investigations with the party in power as witness. Just as a burglar uses a dark lantern, a little light is let in on certain spots, but if there is any suspicion that the holder of the lantern is suspected by the good man of the house, out goes the light."

**Heavy Rains.**

KANSAS CITY, Mo., 6.—There has been an almost uninterrupted and unprecedented fall here during the last two days, causing immense damage and delays to railroads. None of the lines centering here sent out trains this morning on time, and no trains arrived except on the Missouri Pacific and Missouri and Fort Scott. The H. and St. Joe road is blocked near Cameron and passenger trains are held at Liberty. There are serious breaks in the Missouri Pacific between here and Leavenworth, near Pomeroy, and also on the Council Bluffs road near Parkville. The Kansas Pacific is interrupted. There is a washout at Stronger, on the A. T. and S. F., near Desota. The entire railroad traffic at this point has been delayed and interrupted for twenty-four hours, and it will be several days before the usual order of things is restored. A serious land-slide occurred on Bluff street, by which the railroad track was covered and all communication between the Union depot and the railroad bridge stopped.

**Wool Market.**

BOSTON, 6—The wool market is dull, prices in buyer's favor. The principal business of the week has been in pulled California wools. New spring California is coming forward quite freely, but is saleable only at low prices. The transactions include 289,000 lbs. at 14@16 cents for new spring, 17 for fall; 24 to 26 for may be considered the outside figures for the best lots. The sales of pulled wool are the largest for some time and include 337,000 lbs. for the week. Choice Eastern and Maine superfine sold as high as 47 to 47½ cents in small lots, but the principal transaction has been at 33 to 40 cents for superfine and X, and very good superfines and X X can now be bought at 40 and under. Western fleeces are in moderate request, but the stock is desirable. Ohio wool is quiet; market sales include 125,000 lbs. Ohio and Pen at 40 and 41 for X, 41 and 42 for XX, and 45 and 46 for choice XX, and above. From 40 to 45 is fair quotation for all grades for Ohio and Pensylvania, and buyers are indifferent about purchasing at these figures. Michigan and Wisconsin fleeces range from 35 to 37½, with sales principally at 35. New Hampshire fleeces sold at 38. Combing fleeces very dull, sales are quite limited and could only be forced at low figures. The transactions include 6,000 lbs. unwarhed at 40 to 41, being about 9 to 10 cents off the highest price some months ago for similar grades.

**Charles Francis Adams on the Presidential Question.**

An interviewer reports Charles Francis Adams declaring that he has no itching for the Presidency, that it is a thankless office at best, that whoever has it now must expect a hard time, with vast care and trouble, that neither party as such is likely to come to him because he is not in sympathy with politicians, and never acted as a party man. He spoke kindly of Tilden, as a politic though not a broad man, who would honestly strive to do right. Governor Seymour he considered too fluctuating in opinion and unsteady in purpose. Hendricks had not much strength, except in Indiana. We need as President a man independent of party and sections, who has a head of his own. Grant had disintegrated everything; he had been surrounded by those who would not advise him right. He had no policy of his own. The country was in chaos and the question was how to get out. The result of the election will depend on the independents, the great middle party which will act intelligently between the two others.

**Outrages.**

NEW ORLEANS, 6.—Acting Governor Antoine has offered $5,000 reward for the arrest of the Coushatta assassin.

Advices received at the State House report that Senator Twitchell is still living, but in a precarious condition; his left arm has been amputated and his right arm is so badly shattered that the doctors propose to take it off also.

A communication received this morning from West Feliciana parish states that Wether, State senator, Dula, parish judge, and Armistead, ex-member of the House of Representatives, have been driven out of the parish by the regulators and compelled to take to the woods.
