

FLOATING FRAGMENTS.

The sun showed himself again today. The air was keen and cold last night. Prof. L. F. Mouch, of Ogden, was in town today. The streets appear to be more muddy than ever. There appears to be a full moon in the night. A small fire in Dr. Harry Bane's residence, last night. Another supposed burglar has been arrested at Ogden. The Home Dramatic Club will shortly appear again at the Theatre. The St. Patrick's day parades in the large cities were large and imposing. R. E. Cummings, Esq., editor and publisher of the *Logan Leader*, is in the city. Yesterday the Senate confirmed the appointment of H. M. Van Arman, of California, as secretary of Arizona.

Notwithstanding the fearful condition of the roads the streets have been thronged with country people today. Russell, Esq., an acknowledged authority on the subject, says there will not be many new railroads built this year.

At this time of the year fruit trees are usually in bloom at Kanab. There is no appearance of anything of the kind there just now.

The Edmunds anti-constitution bill causes very little excitement among the "Mormons," no fear, but a good deal of hard, sensible thinking.

The other day a gentleman picked up a note from the sidewalk near the post office. It contained evidence of the most shocking depravity.

The workmen engaged in the 18th Ward New Meeting-house are constructing the steeple, according to the plans of the architect. The style of the steeple is Gothic.

Cornmeal rubbed in the hair will clean it. *Fashion Exchange*. By the time you succeed in getting the cornmeal out the hair will certainly be clean, if any hair is left.

Every evening, as soon as the news is off the press, a crowd of new boys can be seen running down Main Street with an awful aspect, selling of copies like hot cakes.

Hay tightly twisted into large ropes is used in some place to burn brick in place of wood. A kiln thus burned is finished in about one-third of the time than where wood is used, and the brick said to be much superior.

The clause in the Edmunds bill providing for a commission to manage our internal affairs, is its most objectionable feature. The people here could be made to respect the laws, without placing us under a protectorate. *Silver Reef Miner*.

A fight between a wildcat and a bulldog is announced for a Virginia (Nevada) paper, and the manager of the carnival proclaims that nothing will be done during the festivities that could offend a woman so delicate as to be in the last stages of consumption.

A reporter of the Deadwood Times has been nailed up for contempt of court because he interviewed a prisoner without permission. The reporter is beginning to doubt whether he lives in the free and untrammelled West, as he has been taught to believe and to make believe.

It will be remembered that the *Leader* of March 3d gave an account of the burglarizing of the Coop store in Providence. Suspicion fell upon a boy of sixteen named Orion Welch. On being charged with the offense, he admitted his guilt. At an investigation held last Monday before Frank M. Smith, Esq., precinct justice, in which county attorney H. K. Cronney took part, Orion Welch was found over in the sum of \$1,000 to have acted the part of grand jury. *Logan Leader*.

LOCAL AND OTHER MATTERS.

Home Missionaries.—Home missionaries of Salt Lake State will visit the meetings of the country settlements to-morrow.

Religious Services.—Religious services of the Church of Jesus Christ of Latter-day Saints will be held to-morrow afternoon, at the Assembly Hall, commencing at 2 o'clock.

An Unlikely Rumor.—A report reached Kanab, a few days ago, that seven of the brethren who had been at work on the railroad in Arizona, had been shot. The rumor has not been authenticated and is in all likelihood untrue.

Unauthenticated Rumor.—A rumor has been current upon the street since last night to the effect that the Edmunds bill had been returned to the Congressional Senate for amendments. We failed to trace the report to any source tending to establish its authenticity.

Portraits.—Brother Lorus Pratt is painting a couple of life-size bust portraits of the late respected Bishop R. V. Morris, which he intends to present to the family of the deceased. One of them is finished. The artist has been successful in making an excellent likeness, being correct in catching the correct expression, which is the life of a picture.

The Home Dramatic Club.—Lovers of amusement will be pleased to learn that the above named company will shortly again appear on the boards, presenting the new play of *Indiscreet*. The piece is now under active rehearsal, and will be given some time within the next two weeks.

During Conference, the Home Dramatic Club will appear twice, presenting *Stratagem* on the evening of April 8th, and *Our Boarding House* on April 12th. The club made a decided impression on their country friends last Conference, with Queen's Evidence and the Banker's daughter, and we are certain that this impression will be heightened when visitors to the city see *Saratoga* and *Our Boarding House*. The Careless Orchestra will make their appearance in the Home Dramatic Club performances.

Train Intelligence.—The Pilot

of yesterday contained the following: "No passenger train arrived from the West yesterday or to-day over the Central Pacific. The one due yesterday was caught in the snow at Emigrant Gap, and it will reach Ogden about 10 o'clock to-night. A train was made up at Reno and sent here, to do some local business, and is ready for taking out the overland passengers, mail, baggage and express, this evening. This train arrived to-day at about 3 p.m. A washout occurred on the Utah & Northern last evening, near Deweyville, which has delayed traffic over the road. About 60 feet of the track is washed away, and will have to be repaired before trains can pass over. The freight train from the north, last evening, failed to get in, and the passenger train which was due this morning, is expected to arrive late this afternoon. If Utah Pacific trains are running on time.

At Grass Creek, last night, a car loaded with coal slack got loose on the track and rushed down the heavy grade for three and one-half miles, to the connection of the spur track with the Echo & Park City Road, where it ran off the switch and went over into the ditch. Fortunately, no one was hurt and but little damage, outside of the car, was done.

Another Suspected Burglar Caught.—A few days ago the police of this city telegraphed to Sheriff Brown, of Ogden, to look out for a man named Johnson, who had stolen a coat from a ballroom in this city, on the occasion of one of Prof. Sheldon's parties. Last night Mr. Brown telegraphed to the police here that he had found his man and that he had him in custody. This same Johnson proved to be no other than the person mentioned in yesterday's News, who went up to Ogden with the California excursion party, and who applied to Mr. Snell for a ticket for a friend, the latter supposed to be the alleged burglar caught on Wednesday evening.

Officer W. Calder will bring Johnson down to-day, to stand his trial for the coat stealing transaction, and it is hoped, in the meantime, that circumstances may develop as to show his connection with the recent burglaries, if he is really a confederate of Tremaine.

Fire.—The fire alarm was rung about eleven o'clock last night. Flames had broken out in the sitting room of Dr. Harry Bane's residence. The brigade responded promptly, but the fire was extinguished late in the evening, the damage amounting to about a hundred dollars.

The cause of the fire was the falling of burning soot down the chimney, with which a stovepipe connected, and igniting a fire-load which covered the fireplace. From that point the flames spread around the room. Fortunately there was a dog in the apartment which became alarmed at the smoke and made a row, which attracted the inmates of the house that something was wrong. Had it not been for this circumstance the flames would probably have gained such headway before being discovered as to render extinguishment difficult if not impossible before the place turned down.

The Discharge of Conductors.—The summary discharge of so many conductors on the U. P. R. R. and its branches is causing a sensation along the various lines. We understand that the officers of the company sent "spotters" out from Omaha, and the discharging process is the result of their report at headquarters. There is considerable feeling on the subject along the U. and N., the boys claiming that they have been misrepresented, probably unintentionally, however. There is a rule that when a construction man boards a train without a pass the fare is collected from him and when he procures one the money is returned to him. It is supposed that the "spotters" have seen the money collected in such cases and not finding it in the conductor's reports, had concluded it had been retained, when the fact was it had been returned to the construction men.

Montana Mining Accident.—Isaac Beale and John Baris, at Quartz Creek, Montana, had been at work in a tunnel, some distance from their cabin, and remote from any other dwelling. Last Monday evening the mail was brought from Milk Ranch over to Beale's cabin by two miners. The cabin was empty. A trail beaten by the feet of some animal led from the cabin door to a gulch close by, and when followed up, terminated in the mouth of the tunnel. But the tunnel was no longer there, and a dog sat where the entrance had been, howling mournfully. Ten men worked until they finally discovered Beale and Beale crushed by the falling in of the timbers and rock, overwhelmed without a moment's warning, with pick and shovel in hand.

Phenomenal.—There were a couple of peculiar phenomena in Box Elder County recently. On Thursday, during the prevalence of a snow storm at Deweyville, there was, combined with it, a shower of yellowish mud, which bespattered the clothing of persons exposed to it.

Some time previous, at a point several miles north of Brigham City, there was a shower of salt. The clothing of a number of men who were in the locality at the time was covered with the saline particles.

Escaped Prisoner.—A short time since a man named Ringwald, represented himself at the Butte post-office as Mr. Morgan, and obtained money belonging to the latter, amounting to \$40, on a P. O. order.

Ringwald was arrested, but made his escape from custody on Tuesday night. \$100 is offered for his apprehension.

Impaired Health.—Brother Geo. C. Ferguson's health has become so feeble of late that he will shortly retire from business for a time. Those who have watched, or other articles at his shop, are requested to call and get them.

NOTICE.

The Stake Superintendents of the Y. M. M. L. A. will please take notice that full and complete statistical reports of their associations are required for the General Conference, and should be sent in time to reach this city before April 4th. If any of them lack blanks, they may be procured at the Contributor office. The Superintendents are requested to be energetic in making up their reports, and are invited to attend the young men's meeting, to be held during conference, the date to be hereafter named.

W. WOODRUFF, General Superintendent.

Arrived.—We are informed that a private dispatch has been received from a member of the California excursion party, stating they arrived safely at San Francisco at a late hour last night.

Accident.—The *Enquirer* says that on Saturday last a young man named Page (son of Hon. J. S. Page), of Payson, met with a very severe accident in Nebo canyon while cutting timber. He was in the act of felling a tree when a large dead limb broke off from the top and fell across the young man's left arm, which was broken between the wrist and elbow. The young man accompanied by his father went to Provo, and placed himself under the treatment of Dr. Pike.

SPECIAL BUSINESS NOTICES.

COHN BROS. We have received an immense stock of dry-goods, too numerous to be detailed, but simply a synopsis of our stock, you will find in the following: Our line of Spring wares cannot be surpassed in style, and we defy competition in price. Objections and diseases of women and children a specialty. d 86 ll 2we

OUR CONSTITUTION BROKERS. How often we hear people coughing, hacking and spitting, and yet these so troubled seem to think nothing of it, until some of their friends say to them: "Why, Joshua, Polly, Maria," or whatever their name may be, "how poor you are getting; your cheeks and eyes are sunken, thin looks yellow and do not look like the same person as when I saw you last." Reader, this is all caused by neglect in not breaking up a slight cold as soon as it appears, which can be easily done by purchasing and using a bottle of HALL'S HONEY OF HOREHOUND and TAR. Only 50 cents and \$1 per bottle at all drug stores.

THE NEW SPEAKER and all other Speakers and Singers, may have clear ringing voices by using *Brown's Tor Troches*, a sure cure for sore throat and hoarseness. For sale by all Druggists in Salt Lake and Utah. d 8 w

"Sweet Curing Seeds" was the translation of the name given to Ayer's Pills by a high mandarin of China, in his letter of acknowledgment and thanks to Dr. Ayer for having introduced them into the Celestial Empire—a very appropriate name, and, therefore, the most profitable "seeds" a sick man can invest in.

WARD for any case of Biliousness, Indigestion, or Protruding PILES, that he can cure, and will not fail to cure. Prepared by J. P. MILLER, M. D., of Kansas, Pa. Now genuine without his signature.

NOTICE.

WILLIAM JENNINGS & SONS' SPRING ADVERTISEMENT

WILL APPEAR IN A FEW DAYS.

NEW GOODS ARRIVING DAILY.

ORGANS WITH MEDALS AND TESTIMONIALS VERSUS Organs Without Them.

THE MASON & HAMLIN ORGAN COMPANY HAVE entered into Competition with American and European makers of Organs at all the World's Great Exhibitions with their various styles of Organs, from one stop to the most elaborate, and at each one of them they obtained the FIRST PRIZE and HIGHEST DISTINCTION OF DEMONSTRATED SUPERIORITY over all of the Most Celebrated Makers of Organs in Europe and in America. The most eminent Musicians, Organists, Artists and Musical Critics in all countries have declared, in written communications, that these organs are unequalled by any others in the world. The principal musicians in the Territory recognizing these facts, have purchased the Mason & Hamlin Organs for their own use in preference to all others. There are makers, and they are in the great majority, who never presumed to compete with first-class manufacturers at any of these exhibitions, some of whom now advertise that they "Never exhibited their instruments to compete for premiums" for the reason that "Awards are made the subject of the grossest misrepresentation and are but a source of jealousy, corruption and falsehood." These charges cannot apply to the Mason & Hamlin Organ Company, because a fac-simile of all the medals and diplomas awarded to them, and the certificates of the directors of each of the World's Exhibitions, and sent broadcast throughout Europe and America, (copies of which can be obtained at my office.) It is not probable that European jurors would have permitted an American firm to carry away evidences of so many victories over their own countrymen, if they could have honestly prevented it. If "management, intrigue and bribery" could have been used to influence the jurors in their decision, who will doubt that the awards would have been retained on the other side of the Atlantic? If, as one firm has the effrontery to aver in its own case, the non-competition for awards is to be regarded as good evidence of greater honesty and a higher standard of uprightness in business, and superiority of instruments, then the vast majority of manufacturers are to be congratulated. But for the energy and success of the Mason & Hamlin Organ Company, resulting in the opening of an entrance for American made Organs to the Markets of Europe, these non-competitors and self-proclaimed makers of a superior class of Organs would not today have an agency in England. They sailed in under the colors of the Mason & Hamlin Organ Company.

CATALOGUES AND PRICE LISTS MAILED ON APPLICATION.

DAVID O. CALDER, GENERAL AGENT.
