FORTY-SEVENTH CONGRESS.

HOUSE.

WASHINGTON, 17.—The House, at the evening session, passed 17 pension bills, including the one granting a pension of $50 per month to Betty Taylor Dandridge, daughter of Zachary Taylor.

Adjourned.

AMERICAN.

The Stars.

WASHINGTON, 17.—After recess in the Star route trial yesterday, Sears, postmaster at Greenhorn, testified relative to the changes caused by the construction of the Denver and Rio Grande Railroad. He said before that event Greenhorn had been on the main stage road and had received a daily mail. When the railroad began operations Greenhorn was left out of the main travel and the mail was reduced to the weekly service. The reduction lead to the circulation of petitions for the increased services. The government then announced that their evidence had all been presented on this route, and the route 4,119, from Toquerville to Adairville, Utah, was then taken up.

Contract Clerk Sweeney, identified various orders and contracts concerning the route. He said they passed into Inspector Woodward's custody September 7th, 1881. Finley, the clerk for Woodward, had given a receipt for the papers. The witness detailed the course of official business in the contract division, and said there had been no important departure from the established routine during Brady's administration. The second Postmaster General sometimes gave a verbal order for an increase, but if a large sum of money was involved the order was usually given in writing.

Bliss then offered papers in evidence. An affidavit of contractor Peck states that three men and six animals are required in the present 60-hour schedule. The number necessary to carry the mail in 33 hours seven times a week is placed at five men and 18 animals. Brady's order is based upon this affidavit, and allows the contractor $4,672 for an increase and $12,718 for expedition.

A number of petitions requesting increased service was read by Bliss. The names of Representative Cannon and other prominent citizens appear among the endorsements.

Bliss, after reading an order for the discontinuance of the service, pointed out that it allowed the contractors one month's extra pay at the increased or expediated rate of compensation, although it was dated 16 days before the order for an increase of expedition was to go into effect.

Letters from postmasters on the route protest against the maintenance of the increased speed and assert that the 33-hour schedule cannot be executed throughout the year and say the 60-hour schedule meets all the requirements of the country. A number of other papers were also read and the hearing was adjourned till Monday.

Whisky Bill.

Senator Miller made an unsuccessful attempt to amend the whisky bill that was defeated in the Senate yesterday. He offered an amendment providing that all brandy made from grapes used in making sweet or still wines from grapes may be removed from bond without the payment of the tax. Miller explained to the Senate that in the manufacture of port, sherry and other still wines, fermentation is stopped by the use of grape brandy. The duty on foreign sweet or still wines is forty cents per gallon and the tax on the brandy used in making native sweet wines is ninety cents per gallon.

After calling attention to the encouragement that the proposed amendment would give the manufacturer of American still wines, Miller said that the encouragement by the United States of such wine would be a public benefit and enable our native wine makers to compete with foreign wine makers in France and other countries which they are not able to do. I regard it as an act of simple justice to place these manufacturers in such a position that they can successfully compete with foreign producers. Miller's amendment was rejected without a division.

Pensions.

Scores of letters are being received daily by the members of the Senate Pension Committee in relation to the bill that recently passed the House increasing the rate of pensions of soldiers and sailors who lost an arm or leg in the war to $10 per month. The committee has the bill under consideration, but may not conclude to act upon it during the present session of Congress. Mr. Dudley, Commissioner of Pensions, has addressed a letter to the committee on pensions, explaining the scope and effect of the proposed law. It was asserted in the brief debate that preceded the passage of the bill, that its cost would be only in the neighborhood of $16,000,000 per annum. Commissioner Dudley says that the increase would add $8,247,444 annually to the amputation roll, and $3,542,960, to the equivalent disabilities roll; making a total of $4,790,404. He estimated in five years the work would be required to settle all claims, and recommends that the bill should pass and a proviso should be inserted that claims pending before the bureau should have precedence in adjudication to those proposed on the bill.

The Garfield Bill.

The passage of the bill for the payment of Garfield's sickness and funeral expenses has been delayed for several weeks in the hope that Congressman Blackburn, of Kentucky, would leave the city, so that the bill might be approved without discussion or delay. Mr. Blackburn has made a report against allowing certain expenses incurred for liquors and cigars on the funeral trip. He has in his possession facts showing how much money was spent for whisky, cocktails, brandy, wine, etc., which he proposed to lay before the House whenever the report of the auditing committee is called up. Blackburn will be absent next week, but he informed your correspondent to-day that he would make an agreement with Judge Taylor that the report should not be called up in his absence.

Navy Bill.

A draft of the naval appropriation bill, which is printed, proposes, it is said, to appropriate $1,000,000 for the completing of four monitors now on stocks along the Delaware river, and $275,000 for finishing the monitor *Miantonomah*, at the Mare Island Navy Yard, California, and $190,000 for the purchase of the breech-loading steel guns. The aggregate amount which the bill appropriates is a little more than $15,000,000. It is further said that the bill contains some proposed legislation on the subject of reorganizing the navy, and provides, among other things, for abolishing the rank of commodore.

Gold and Silver.

The Secretary of the Treasury has transmitted to Congress a report of the director of the mint upon the production of gold and silver in the United States in 1881. The total product of gold for the year was $34,700,000, and of silver $45,000,000. Colorado takes the first place among the producers with a yield of more than $20,000,000. California follows with a yield of nearly $17,000,000, and Nevada, which at one time ranked first, is now third, with a product of less than $9,000,000.

Sudden Storm.

LEAVENWORTH, Ks., 17.—A terrible wind storm prevailed between 12 and 1 o'clock this morning, and Mt. St. Mary Academy, four miles south of the city, suffered terribly. The main tower was blown over on the dormitory, crushing in the roof, and Ida Golden, Annie McDonald, and Mabel McLachlan, of this city, and Mary Austin, of Carrolton, Mo., aged from 11 to 15, were instantly killed. Three other children were injured. The Kansas Central elevator was blown down. Loss, $5,000. The loss in the city and county is about $500,000. Wheat was not seriously injured. The fruit was half stripped from the trees, but will still be a good crop. An unknown man was blown into the river and drowned. Barns and houses were blown down and unroofed all over the city. Trees were uprooted, and general devastation wrought.

A Wind Storm.

VALLEY FALLS, Ks., 17.—A severe wind storm passed over this section about 12 o'clock last night. E. D. Hillyer was struck by lightning and severely injured. A large part of the roof of Hutchins' livery stable was blown away, and another building moved from its foundation. In the country a number of houses and barns were blown down, but no one was hurt. The damage done to orchards and other fruit trees was very great. A hundred trees are broken down. Field crops are not much hurt.

The Strikers.

CLEVELAND, 17.—All is quiet at the rolling mills. A few stones were thrown at the train conveying non-union workmen. Nobody was hurt. A large force of police is on duty. The military is on guard in the

Pittsburg, 17.—It is reported at the iron association rooms that the strikers have sent committees to two mills offering to resume work at the old wages. In mining matters little is new. Twelve out of twenty mines on the Pan-handle are being operated with colored non-union men.

Cumberland, 17.—It is rumored there will soon be a compromise between the companies and miners, the basis of the compromise of 50 cents per ton and ten hours a day's work.

FOREIGN.

The Trouble in Egypt.

LONDON, 17.—The torpedo ship *Hecla*, is ordered to join the channel squadron. The government made arrangements for the employment of six hundred transports in case of necessity.

In the House of Commons Sir Charles Dilke said as the British forces were not in possession of Cairo, Admiral Seymour could take no special precautions for the safety of the Europeans there.

Berlin, 17.—It is understood that the government will send one or two men-of-war to Alexandria if necessary. The gunboat *Hal icht* is now on the way.

Austria has ordered a man-of-war to be ready to proceed to Alexandria. A Dutch ship is also ordered.

Paris, 17.—The newspapers report that the Powers have given Turkey 48 hours to consider the question of participating in a conference on Egyptian affairs.

Alexandria, 17.—Dervisch Pasha has sent a telegram to the Porte declaring the presence of the British and French squadrons at Alexandria an obstacle to the restoration of order. At the suggestion of the representatives of Germany and Austria the Khedive summoned Ragheb Pasha and Ahmed Seid Pasha from Cairo for the purpose of forming a new ministry, with Arabi Pasha as the minister of war.

The whole American mission embarked on board the United States steamer *Galena*. The land engineers at Alth have given notice of a suspension of work. Arabi Pasha has had notices placarded in Cairo, exhorting tranquility and declaring himself personally responsible for the safety of European residents.

Constantinople, 17.—The secretary of the Sultan left for Egypt with new instructions for Dervisch Pasha.

Alexandria, 17.—Up to last evening the total number of corpses found of the Europeans killed in last Sunday's riots is 304. An eye witness states the Europeans who took refuge in the police stations were massacred by the gen d' arms. A correspondent declares the rising was organized by the prefects of police. Thousands of Europeans are arriving from the Interior. Ragheb Pasha has consented to undertake the formation of a ministry.

House of Commons.

LONDON, 17.—The House of Commons adopted clauses four and eight of the repression bill. The government accepted an amendment that magistrates should appear at meetings and summon the people to disperse.

Gladstone declined to introduce the bill suspending evictions for six months.

Jewish Emigrants.

LYMBURG, 17.—The Jewish committee here have informed the London committee that they will cease to act if the latter committee persists in forwarding to America only able-bodied emigrants.

Captured.

LONDON, 17.—The police made a raid on a stable in Clerkenwell, London, and seized 100,000 rounds of ammunition, packed in boxes, ready for removal to Ireland. Four hundred rifles with bayonets and 25 boxes of revolvers were also captured.

The Suez Canal.

The government, with the approval of France and Turkey, has determined to protect the Suez canal with British troops. Transports have accordingly been ordered to be ready for embarkation.

Irish Matters.

DUBLIN, 17.—Anna Parnell writes that the fund for the maintenance of suspects, for which £24,000 was collected and £16,000 spent, should now be closed.

The man arrested at King's Court on suspicion of being one of the murderers of Lord Cavendish and Under-Secretary Burke, has been released.

Col. Brackenbury, the director of the new criminal investigation department in Ireland, is preparing extensive plans against secret societies, based upon the investigations made in America.

Sunk.

ST. JOHNS, N. B., 17.—The French schooner *La Syrene*, of Miquelon, sank on the 10th inst., and took down the whole crew with her, numbering 17 hands. The scene of the disaster was on St. Peter's bank. The vessel was deeply laden with salt and salted codfish. Her starboard bow was pierced by the stroke of a heavy ice-growler, and she sank without a moment's warning.

BRIEF TELEGRAMS.

The Interior Department wants $245,000 to complete the work of the tenth census.

At Baltimore, Andrew Pfautch who was sentenced to be hanged for the murdered Jacob Lachnur, killed himself Saturday.

The postal authorities are considering the question of delivering mail at the hotels in large cities as late as 10 at night.

The English light draught gunboats Dee and Don have been ordered immediately to join the squadron of Admiral Seymour at Alexandria.

At Poughkeepsie, record of mortgage was filed in the County Clerk's office to-day for $5,000,000, given by the Mutual Union Telegraph Company.

The Senate and House committee on public buildings have decided to report adversely on the proposition to buy the house in which President Lincoln died.

At Pittsburg, it is reported at the Iron Association rooms that the strikers sent committees to two mills offering to resume work at the old wages. In mining matters there is little new.

The Senate committee on Territories introduced to-day, favorably, the bill providing for the reapportionment of members of the Legislative Assembly of Montana.

A German *News* dispatch from Uvalde says: Colonel Holland, superintendent of Flowers' ranch, Maverick County, was murdered by two Mexican herders. They them pillaged the ranch and escaped on stolen horses.

At Cleveland, as Barren Kyle was driving through the village of Olmsted Falls, yesterday, when passing across a rifle range, 40 rods beyond the target at which some young men were shooting, he was struck by a stray bullet which lodged near his heart inflicting a probably fatal wound.

The missing boat of the foundered steamship *Pera*, containing the boatswain and 10 of the missing crew, was picked up by a schooner which arrived at Hearts Content, N.F., Saturday, 32 miles from Cape Race. The men had been rowing toward land for 14 hours, and were nearly exhausted.

The Senate committee on postoffice and post roads has decided to report favorably the bill recently introduced by Hill, of Colorado, which proposes to amend the Revised Statutes so that hereafter bidders for mail routes shall not be required to furnish checks or drafts with their bids or proposals.

BRIGHAM YOUNG ACADEMY EXAMINATION.

Editor Deseret News:

The fourth term of the sixth academic year of the Brigham Young Academy closed to-day with the exercises attendant upon the annual examination of Normal Graduates. The Monitorial appointments for the occasion were as follows: Conducting Monitor, S. P. Eggertson; Choir Leader, John Foote; Head Janitor, G. A. Snow; and Secretary, Laura Young.

At 9:30 a.m. the exercises commenced, at which hour the hall was well filled with vistors, and there were present, of the Board of Directors, President A. O. Smoot, and Chairman Myron Tanner, also Hon. L. John Nuttall, the Territoral Superintendent of schools. After the opening exercises, the examining teachers proceeded to report the results of their criticism on the papers prepared by the Normal Graduates, and by the candidates for special certificate, following which the certificates and diplomas were awarded.

Following are the names of the Normal graduates, with the percentage of efficiency acquired by each: Selena Curtis 98, Annie Page 97, Kate Friel 97, Nels Nelson 97, Annie Larsen 93, Euphrasia Cox 92, Charles Watkins 92, Sarah Robinson 89, Flora Harvey 83, Isaiah M. Coombs 83, Oscar Berglund 80, Sarah Cooper 79, Fidelia Kofford 78, Annie Christensen 68.

The last named student, having attended the normal department for one term, was awarded a certificate only.

Following named students obtained certificates for the course in mercantile bookkeeping, with the designated percentage: Eleaser Evans 100, William B. White 95, Joseph Nelson 92, Wm. Collett 91, John Rouche 97, George A. Snow 99, Orvil Thompson 100.

Remarks were offered by Territorial Superintendent L. John Nuttall and Prest. A. O. Smoot, each expressing regrets for the disadvantages of the past and bespeaking more marked circumstances of favor in the future.

The following is culled from the Principal's report. The attendance has been: First term, 111; second term, 319; third term, 353; fourth term, 161. Total number of registered students during the year, 461.

The apportionment of labor among the Faculty members, and the normal students of the practical course, shows 15 teachers laboring daily, and 293 weekly recitations being conducted.

In the theological organization the following tabulated report is presented: High Priests, 2; Seventies 1; Elders, 35; Priests, 17; Teachers, 15; Deacons, 62; lay members, 267; not baptized, 22; under age, 6; non-members, 34; total 461.

The students have been recorded according to their places of residence as follows: Provo, 241; Springville, 8; Payson, 18; Benjamin, 3; Goshen, 4; Fairfield, 2; Lehi, 2; Alpine, 5; American Fork, 6; Pleasant Grove, 17; Wasatch County, 16; Summit County, 7; Salt Lake County, 15; Davis County, 2; Weber County, 2; Box Elder Co., 2; Cache Co., 2; Rich Co., 3; Tooele Co., 1; Juab Co., 15; Sanpete Co., 22; Sevier Co., 6; Millard Co., 7; Beaver Co., 6; Kane Co., 7; Iron Co., 9; Piute Co., 2; Uintah Co., 3; Washington Co., 9; Arizona, 3; Nevada, 2; Idaho, 13. Total 461. The students from outside of Provo have been distributed in 56 boarding places, have convened in regular meetings of the Domestic Organization, and have been visited bi-weekly by representatives of the principal. The want of a regular boarding house, under the direct control of the Faculty, makes itself felt more and more.

The academic year was then declared formally closed.

LAURA YOUNG,
Sec'y of Examination.
