# MINING, BUSINESS AND STOCKS

# FIRES KINDLED **NEXT THURSDAY**

On That Day Furnaces Will be Placed in Commission at United States Smelter.

## UNDER AN OXIDIZED CHARGE

Roasters Ready for Sulphide Ores About August 1-Colorado Mine Shipments.

It was learned from an absolutely authentic source today that unless something happens over which Supt. Rhoades has no control the United States smelter at Bingham Junction will start up on an oxidized charge on Thursday morning with probably three furnaces in commission. This will be good news to the citizens of the smelter town in the southern end of the valley and especially to the ore producers who have contracted their output to the United States company; for it will be evidence to them that from now on they can depend on a steady market. The treatment of sulphide ores will not be undertaken, it is slad, for about three weeks yet, for the reason that the roasting furnaces are not quite ready and until they are in shape it will be out of the question to fire up any furnaces under a sulphide charge. But the construction work is being nushed the construction work is being pushed as rapidly as possible and the manage-ment is just as anxious to get the plant under a full head of steam as the pro-

under a full head of steam as the producers are to have it so.

The smelter is equipped with a battery of six lead furnaces, each having capacity for the treatment of 200 tons of ore per day. The "News" received information from Provo today to the effect that the Colorado Mining company has shipped at least 800 tons of ore to the United States smelter since the announcement was made by the ore to the United States smelter since the announcement was made by the management of the latter that the ore purchasing department was ready for business again. The Colorado product, it is said, will average about \$100 per ton, or a total valuation of \$80,000, which means that it is a matter of only a few days until the red ink balance of \$38,369.92, as reported in the statement issued from the Jesse Knight offices in Provo Saturday, will be entirely wiped out with a substantial balance left as a start towards a return to a dividend paying era again.

## ON MINING EXCHANGE.

Iron Blossom in Demand at Higher Prices Today.

While the volumn of sales did not run up to the totals of yesterday, much interest was manifested in Crown Point, Iron Blossom, Uncle Sam Con., and Utah Consolidated, (Tintic), during today's early calls. Crown point weakened from the opening price paid for it, closing on a sale at 34½ cents. Iron Blossom made gains and was bought up to \$2.17½, while May Day stiffened to an even half dollar.

The unlisted sales were East Crown Point, at 5; East Tintic Con., at 7, and Eureka Swansea Extension at 15.

The closing quotations and sales

# FLAG STAFF MINE IS LOOKING GOOD

Manager Beveridge Pleased With Showing In Drift on the Allegan Fissure.

MUCH ACTIVITY AT ALTA

Work at Old Emma Mine-Doings at The Abion and Two Columbus Properties.

Manager J. E. Beveridge of the Flagstaff Copper company is down from Aita on a brief business trip and brings with him some very encouraging reports from the mine where a very vigorous campaign of development was recently inaugurated.

"The fact is," said Mr. Beveridge today, "the Flagstaff has never looked quite as good at any time since I became connected with it. Work at the present time is being directed mainly

came connected with it. Work at the present time is being directed mainly to driving on the Allegan fissure, where we have encountered the primary sulphides. The drift is headed towards the Flagstaff limes, and I will be very much disappointed if an important ore body is not found when it reaches there. It will probably be necessary to drive ahead for another 300 feet."

Mr. Beveridge says general conditions in Alta are very much improved as compared to what they were a few months ago; more work is being done and that necessarily means that employment is given to a greater number of men; the camp is also outputting more ore than it has any time since the "panic" of last year.

The Old Emma Mines company, is which Jesse Knight became interested some time ago, is working six men on development. The Albion is getting ready to ship ore again and will jig its second class ore. Both of the Columbus mines are active and several men are employed at the Silver King, the latest property to be taken over by Tony Jacobson. Over on the big Cottonwood, as well as on the American Fork side a lot of development work is being done.

## ALTA COPPER.

Idaho Company Secures Bond on Some More Property.

More Property.

On the afternoon of the Fourth, says the Mackay, Ida., Miner, Messrs. Ernest R. Woolley, a well-known figure in mining circles in Salt Lake, Fred R. Woolley, cashier for James A. Pollock & Company, bankers and brokers of Salt Lake, A. C. Strong, assistant cashier, for the Utah National bank of Salt Lake, I. E. Willey, a prominent attorney of that city, and Roland R. Woolley, and N. A. Just, the Shelly banker, arrived and took private conveyances to Alta for a trip of inspection to the Alta Copper Mining company's property.

All the gentlemen of the above party are heavily interested in the Alta, a company formed early in the spring, taking over the American group of claims in the Alta district, on the head waters of Lost river, some 40 miles from Mackay. Ernest R. Woolley and N. A. Just have made frequent trips to the property but this is the first time the rest of the company have ever visited Custer county. And this is the first visit by any of the gentlemen since the report of the

And this is the first visit by any of the gentlemen since the report of the well known mining engineer and geologist, Mr. Parker, of Utah and Nevada fame, was received. Mr. Parker spent several days inspecting the group and his report is certainly a big boost for the property and the district. The writer had the pleasure of reading the writer had the pleasure of reading the report, from which we learn that the elevation of the camp is about \$,000 feet, making a railroad grade from Mackay, the nearest railway point, to the camp, of about two per cent. The location of the claims is most convenient for the easy and successful operation of train lines to the ore bin and mill sites.

The hond and lease for the Mel.

and mill sites.

The bond and lease for the Mel. Geary claim arrived while the party was here and is now a part of the group, and this claim, along with the original group and the later locations gives the Alta company nine lode claims and eight placer claims.

# YERINGTON CONSOLIDATED.

New Officers Chosen at Annual Meeting of Shareholders.

At the annual meeting of shareholders of the Yerrington Consolidated Copper company held yesterday afternoon a new board of directors was chosen to serve during the ensuing year, which organized as follows: J. D. Wood, president: Windsor V. Rice, vice presipresident; Windsor V. Rice, vice president; Walter C. Orem, treasurer; who, with John Dern, J. H. Mays, William Keating and J. H. Turner, are members of the board. C. B. Oliver of this city named as secretary.

The Yerington Consolidated owns an attractive group of claims sandwiched in between the Mason Valley and Bluestons of the State of t

stone mines near Yerington, Nev., and it is the opinion of experts who have examined the ground that it unquestionably contains an extension of the same system of veins developed in the Mason Valley and Bluestone,

# SALT LAKERS STRIKE IT.

Young Mining Engineers Work Lease On Florence Property.

(Special to the "News.") (Special to the "News.")
Goldfield, Nev., July 14.—A trio of young Salt Lake mining engineers have suddenly come into possession of a fortune in this camp through the operation of a lease on the Florence ground. The beneficiaries are Harry P. Taylor, consulting engineer for the Florence Goldfield Mining company; J. C. Nevm and Lyttleton Price. The young men had spent about \$20,000 in the endeavor to find a pay shoot and were just about to give up, as their funds had runlow, when they were rewarded. low, when they were rewarded.

The lease was secured by purchase from the Florence Goldfield Mining company, and a close corporation formed by Taylor, Price and Nivin, and

christened the Engineers' Lease cor-poration. The hoisting machinery and equipment of the Florence Annex were purchased and work started on the 300-foot level, where the company had quit, driving north along the big quartz

driving north along the big quartz lodge.

The Florence Annex had some ore—the company mined \$170,000 from one shoot, lost it and found it again where the vein split, finally quitting \$50,000 to the good after spending a fortune on the lower levels without results. Taylor was confident there was more of the rich ore, and followed the foot wall of the vein, the Annex having found their second ore shoot on the hanging wall side. After drifting for 150 feet a fault was encountered which cut the vein off. On the north side of the fault considerable work was done, with no results beyond opening up two or three stringers of quartz.

Convinced that the solutions had been checked on the south side of the fault, the engineers came back and started a raise, which broke into pay ore 40 feet

checked on the south side of the fault, the engineers came back and started a raise, which broke into pay ore 40 feet above the level. From that point it has been merely a matter of mining the ore. Two stopes were started and one of them, No. 2, has worked out the ore for a distance up of 135 feet, being now within 150 feet of the surface. The spay crack" varies in size from 18 inches to 3 feet, with an average of about 2 feet, and every ounce of the rock carries gold in shipping quantity. The second stope, No. 3, is at the north end of the shoot, close by the fault, and 35 feet below No. 2. The ore shoot is 60 feet in length and the backs in both stopes are in high grade. Since June 18, when the ore was first encountered, the gross value of the output has been \$250,000, the ore averaging \$230 per ton. One lot of 31 tons carried 54 ounces to the ton, a money value of \$1,040 a ton, \$32,240 for the lot. On July 7 the value of the product for 24 hours was \$40,000.

Price and Nivin have been engaged in professional work in Nevada for about

7 the value of the product for 24 hours was \$40,000.
Price and Nivin have been engaged in professional work in Nevada for about four years, having at one time an office in Goldfield. It was upon the report of Mr. Nivin that Charles M. Schwab bought the Tonopah Extension mine of T. G. Lockhart, who is now the president and manager of the Florence mine, and the purchase money for the Florence was the money which Lockhart received for the Extension.

Neither one of the trio of engineers is yet 40 years old. Mr. Nivin recently married Miss Nora Van Cott, daughter of Waldemar Van Cott of Salt Lake City, and is now spending his honeymoon in southern California, Both Price and Taylor are family men.

The engineers' lease has yet four months to run, and potentially is one of the truly great leases in this wonderful camp. Should the ore shoot last until the expiration of the lease, the men would easily be able to divide \$1,000,000 between them. They expect to develop the ground on the 400-foot level, and may find a second shoot of high grade that will be equally as productive.

# HIGH GRADE COPPER

Excellent Results Come from Work in Nevada Douglas Mine,

General Manager Walter C. Orem of the Nevada Douglas Copper company, states that the winze from the 550 level of the Ludwig mine has reached the depth of 550 feet, and that the whole bottom is showing the charac-teristic chalcocite, or black sulhpides ore, carrying copper values of from 15 to 20 per cent.

to 20 per cent.

While the winze is being continued on down, work is progressing steadily in the south 550 drift, while a cross-cut from the 650-foot level of the shaft is headed toward the ore body exposed in the 550 winze.

The Nevada Douglas company is doing some telling work in the Vorington

ing some telling work in its Yerington mine. It is expected that a shipment of ore will reach the local smelters this week.

## CONCENTRATES. A seat on the Salt Lake Stock & Mining exchange recently sold for \$2,

George W. Morgan departed last night for the property of the Inday Mining company in Nevada. He will be absent a week

Broker H. S. Joseph departs this afternoon for Goldfield to look after nterests in the January White Rocks

Manager R. S. Oliver of the Utah

Apex mine in Bingham is in the city today on a brief business trip. David Evans has returned from a trip to southern California and on the way back stopped off at the Indian Queen and Ibex mines. At the former, he states, work is progressing very satis-factorily. At the latter the work of patenting the 40 claims in possession of the commany has been completed, the the company has been completed; the new holst has been installed and every-thing is in readiness for a very vigorous campaign of development.

# GAMBLE OFFERS COMPROMISE.

An unexpected turn of affairs in the suit for divorce of Gustave A. Gamble against Mary E. Gamble, his wife, occurred this afternoon when the case was taken from the docket of Judge Charles W. Morse in the Third district court and transferred to Judge G. G. Armstrong for action. It is understood that a compromise will is understood that a compromise will be effected in the action and that the offer comes from the plaintiff. The action was brought several weeks ago by Mr. Gamble, sensational allegations appearing in the complaint. A cross-complaint interposed by Mrs. Gamble complaint interposed by Mrs. Gamble alleged questionable conduct on the part of her husband, patients being named in complaint in usayory phrasing. Both Mr. and Mrs. Gamble are practising osteopahs.

# NEW DEPARTURE

For First Time in Its History Federation Opens Its Doors To the Public.

WILL NOT BE CLOSED AGAIN.

Moyer Presents Annual Report-A Very Significant Reference to Denver Convention.

Denver, July 14.-For the first time in the history of the organization the convention of the Western Federation of Miners was thrown open to the entire public today and all sessions until final adjournment will also be public.

Last year organized labor and press representatives were admitted but not the general public.

Aside from this, the morning session was devoted to the adoption of the report of the committee on credentials and the reading of the minutes of the meetings of the executive board since the last convention.

## MOYER'S REPORT.

Presiden Moyer made his annual report and address at the afternoon session.

President Moyer in his report refers to dissensions in the ranks of organization and expresses the hope that the defeated minority may bow to the will of the majority in all matters for the common weal

of the majority in all matters for the common weal.

Eight strikes were held during the year just closed, according to the report, the miners gaining better conditions in several instances. The strike in the Masaba range in Minnesota, which was called July 30, 1907, and which resulted in complete defeat for the miners and the virtual destruction of every local union in the state, is characterized as an unwise and premature affair, that was doomed to failure almost as soon as commenced. The sending of United States troops by President Roosevelt into the Goldfield district during the strike last fall is condemned in strong language.

INDUSTRIAL WORKERS.

## INDUSTRIAL WORKERS.

Special attention is paid to the trouble that has arisen between the federation and the Industrial Workers of the World. President Moyer says that it is his belief that industrial unionism is by no means popular and is not wanted by the working class of the United States. United States. Credit is given in the report for the educational work in which the federation has been engaged and the good results achieved.

The death of John H. Murphy, counsel for the federation for a number of years, is regretfully mentioned, and a tribute paid to his memory. The trial of Steve Adams is spoken of and the hope expressed for his speedy acquittal.

POLITICAL SITUATION.

POLITICAL SITUATION.

In concluding the report President Moyer uses this significant language in referring to the political situation:

"There has just adjourned in this city a national convention of one of the old political parties. Before the committees of this convention there appeared labor's representatives praying that there might the inserted in the Democratic platform an anti-injunction plank. Their prayer, as I am informed, was granted, and it is now for the voters of the United States to decide whether or not this party should be placed in power. Far be it from me to say anything or do anything that might interfere with labor's efforts, organized or unorganized, to temporarily better its con-

ganized, to temporarily better its con-dition, but have we any assurance or reason to expect an interpretation of these laws favorable to labor, if they

be enacted?
"Mr. Mitchell is quoted as being par-ticularly gratified at having included in this plank the right of the workers to organize. When we remember that 'ederal judges by their interpretation of the laws have vested supreme powof the laws have vested supreme pow-er in the executive of a state, and that no court may inquire into his acts, and when as Mr. Mitchell says, the supreme court of the land has so construed the laws as to make it a crime for labor to organize, what have we to hope for by placing further laws on the statutes?"

# WHITE KNOB MEETING

The adjourned meeting of shareholders of the White Knob Copper
company was held in Portland, Me.,
last Friday at which the retiring board
of directors was re-elected, with one
exception, where it was necessary to
fill a vacancy. Minority interests
claim that it has been difficult to obtain information relative to the company's affairs.

# **ISTOCKS SHOWING** MORE STRENGTH

Opening Advances Were Very General While the Demand Was Quite Active.

PRESSURE ON ROCK ISLAND

Bonds Were Irregular-Close Was Strong and Active, Prices Continuing to Harden.

New York, July 14.-Opening advances

in prices of stocks today were general and the demand was quite active. adian Pacific rose 1¼, American Loco motive 1 and Northern Pacific, Nation al Lead and Sloss-Sheffield Steel %.
Prices were not appreciably altered from the opening figures until the sell-ing of Rock Island exerted an unfavor-

able effect and the whole list sagged. The general market did not recede much below yesterday's closing. below yesterday's closing.

When pressure on Rock Island preferred relaxed prices rallied. National Lead was prominent with a gain of 1%. St. Louis & San Francisco first preferred rose 1 and Southern Pacinc preferred 2. Kansas City Southern preferred sold at a decline of 3%. Bonds were irregular.

Only trivial fluctuations were recorded during the midday hour and business was almost stagnant. American Smelter Securities preferred advanced 11%.

Smetter Securities preferred advances 114.

While a firm tone permeated the market the advances registered were scored on limited transactions outside of Southern Pacific, which was in good demand and hardened i.

The market closed strong and active. Atchison rose briskly 134. after having lagged behind its neighbors. Prices contined to harden and Union Pacific. Northern Pacific and American Smelting made gains of 1 to 135 and Southern Pacific 135.

# WOOL.

ST. LOUIS.

St. Louis, July 14.—Wool, steady, Territory and western meddium, 14@19; fine medium, 10@15; fine, 9@12. BOSTON.

Boston, July 14.—The local wool mar-ket is one of special interest with an active demand for quarter and half-blood fleeces and staple clips in territory wool, especially Oregon. Clothing wool, how-ever, has not improved. Prices remain firm and the advance is well maintain-ed.

d. Oregon eastern No. 1 staple is selling it from 18 to 19. Foreign wools are active.

# PRODUCE.

CHICAGO.

CHICAGO.

Chicago, July 14.—There was a large volume of trading in wheat here today and the market was inclined to be bearish due to the fact that foreign markets failed to follow the advance here yesterday and to cooler weather in the northwest. There was some profit-taking market he demand was much less urgent than during the preceding session. September opened 18 49 48 39 16 lower at 914 to 914 and advanced to 92. But it subsquently sold off to 914 3914.

Trading in corn was only moderately active and the market was easy, realizing sales based on good weather for the crop together with lower cables were the bearish influences. September opened 14 49 25 lower at 74 to 742 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined to 744 374 and sold at 74%, but declined in he northwest chief influence. September opened 14 49 16 lower at 814 to 44% and sold at 814 to 914 to 91

# PERSONALS.

Bishop George Romney has returned a pleasant vacation trip to Ha-

S. J. Waddy, commercial agent of the Erie at Brooklyn, New York, is among the railroad visitors today.

S. E. Stohr, general freight agent of the "St. Joe," was in the city for a short visit yesterday afternoon. He hurried around town to shake with the local railroaders and then continued on his western trip.

Harry Cushing, traveling passenger agent of the Rio Grande is back from Denver where he went with Salt Dake travelers and delegates who attended the Democratic convention. Mr. Cushing says Utah made herself heard, seen and feit throughout the big meeting.
