A MODEL CITY.

NEW YORK City is distinguished among the metropolitan communities of the earth for being honeycombed with fraud, dishonesty and corruption; if it has a successful rival, the name of i has not yet been reduced to record. Mayor Hewitt has been and is doing as much as any man can against great odds to clear the Augean stable, but the task is super-Herculean, and, as things go at present, he will find at the end of his twojyears' torm that he has only scotched the snake, not killed it. The disease is too deeply seated and well entrenched to be dislodged in a short time, or a long one either; one nest is no sooner broken up than another is found, with traces of plenty more around in the immediate visinity that cannot be reached because the task in hand is as much as can get proper attention. Take for instance the boodle trials which have been under way for nearly a year, and may now be considered as fairly start-

for, Corporal Hollister, and Butcher O'Lannigan to ruminate on. The Chicago Tribune has at last seen the error of its ways, and it has come out boldly for right and fair play. The Edmunds-Tucker bill has proved a real blessing for Utah, inasmuch as it has completely demonstrated the hollowness and hypocrisy of the political cadgers and religious vagrants that infest the Territory.
